LAKES A ZONE – LESS SENSITIVE MANAGEMENT AREA

Checklist of all District Plan Land Use Activity Rules Applicable To The Lakes A Zone - Less Sensitive Area

This checklist brings together all of the District Plan rules applicable to land use activities within the Lakes A zone - Less Sensitive Management Area. It’s aim is to provide a comprehensive list of the rules in a useful format to assist both those proposing projects involving land use activities and Council staff assessing applications for projects. Working through the checklist will identify:

- rules relevant to a particular project & those that are not applicable,
- the level of information required to be provided in a Project Information Memorandum (PIM) application to ascertain compliance with rules or otherwise
- whether a land use consent is required. If so, the type of consent required.

In addition to the District Plan rules there are also regional council plans & rules that may apply to your proposal.

The Planning Services team has a Duty Planner service available free of charge to help identify which parts of the District Plan apply to your proposal. For projects within the Lakes A Zone we strongly recommended that you or your consultant make use of this service by making an appointment with the Duty Planner as early as possible during the design of your proposal. Please phone (07) 348 4199 for an appointment. Email enquiries can be sent to planenquiry@rdc.govt.nz.

It is hoped that by identifying relevant rules prior to designing site works and buildings the need for a land use consent may be avoided altogether. Alternatively, if compliance can not be achieved or it is proposed to undertake activities outside of the permitted rules this can be identified early on in the planning process. The type of land use consent required can be ascertained allowing any applicable assessment criteria to be identified, considered at the time of design and addressed in any land use application.

This checklist is not intended to be a substitute for reading the Lakes A part of the District Plan. Please consult Part Twenty of the District Plan for the complete text. Copies of the District Plan are available at the Planning Services Counter, the Rotorua Public Library, or on the Council’s website www.rdc.govt.nz under Our Services/ District Plan / Policy / District Plan.
HOW TO USE THIS CHECKLIST:
This checklist can be used EITHER by filling out a hard copy of it or alternatively filling it out electronically.

Copies are available from the Planning Services Office and can be posted to you. Please phone (07) 348 4199 to arrange this. An electronic version is available from the Rotorua District Council’s website www.rdc.govt.nz or can be emailed to you if you contact the Planning Services Dept by phoning (07) 348 4199 or by emailing planenquiry@rdc.govt.nz.

The electronic version has field codes through it where comment is required. To turn the field codes on press Alt F9. Press F11 to reach each field code within the checklist.

PLEASE NOTE:
1. All words within the rules shown in italic are defined in the Definitions section of the Lakes A part of the District Plan (Part Twenty). Those most likely to be related to your project are attached as the last pages to this form. Please consult the definitions as you come across words in italic within the checklist.

2. Numbering of the rules within this checklist are the same as that within the full text.

3. Please note that in most cases the land between the private property boundary & the existing road seal is likely to be within the zoned Sensitive Rural Management Area NOT within the Less Sensitive Management Area. Please confirm by checking the Planning Maps. For any work in this area such as improvement to existing access way or new works the Sensitive Rural rules need to be used. This checklist only contains the rules applicable to land zoned Less Sensitive.
## ACTIVITIES RULES

### 2.0 Indigenous Vegetation Disturbance

#### B2.1.1 Indigenous Vegetation Disturbance complying with any of the following conditions:

1. It is disturbance of indigenous vegetation where:
   a. it is an indigenous vegetation unit that is less than 250m² in area; or
   b. it is an understorey of indigenous species within an established plantation forest; or
   c. it is natural regeneration of indigenous vegetation that has established on forest road margins and skid sites within an exotic plantation forest since it was planted, and the disturbance is incidental to the management of the plantation forest; or
   d. it is an understorey of indigenous vegetation species beneath a closed canopy of naturally established or wilding exotic tree species (refer Diagram below)

| Rule | Permitted Activity Rules | Activities requiring Land use consent | Indicate whether the proposed work:

### B2.2 Controlled Activities

There are no Controlled Activities.

### B2.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.

### B2.4 Discretionary Activities

#### B2.4.1 Any Indigenous Vegetation Disturbance that does not comply with the conditions for Permitted Activities.

There are no Non-Complying Activities.
(a cover of *indigenous vegetation* beneath a scattered cover of exotic tree species is not included – refer to Diagram below);

or

e. it is an area of indigenous tree species planted and managed as a *plantation* forest or for other commercial purposes; or

f. it is indigenous plantings established for landscaping or amenity purposes; or

g. it is rushes in pasture; or

h. it is bracken fern (*Pteridium esculentum*) or hard fern (*Paesia scaberula*); or

i. it is *indigenous vegetation* that is less than 2 metres in height that has regenerated naturally following repeated clearance for farming purposes and the clearance is to maintain an existing farming operation, but does not include areas of treefern-dominant *indigenous vegetation*;

   provided that the *disturbance* is located outside a *riparian area*; and is not on a *slope* that exceeds 25°; or

2. It is *disturbance* of naturally regenerating *indigenous vegetation* within 2 metres of a maintained fence; or

3. It is *disturbance* of *indigenous vegetation* within 5 metres of a *habitable building*; or

4. It is trimming of *indigenous vegetation* where the vegetation does or will within two years do any of the following:

   a) interfere with the operation of existing electricity and telecommunication lines that are *Permitted Activities* under Rules A37.1.1, A37.1.2, B37.1.1 and B37.1.2 or interfere with the safe operation of an existing underground gas pipeline; or

   b) be within 5 metres vertical height from a carriageway or the shoulder of a public road, *private road*, *private way* or an *on-site manoeuvring area* (i.e. overhanging branches); or
c) be within 3.5 metres vertical height above or one (1) metre below the services corridor of a public road (Refer Diagram below); or

**Note:**
1. ‘A’ – Existing sealed carriageway width, or where the road is to be widened, in accordance with Rule 33.1.1.
2. All vertical measurements are to be taken from the centreline of the carriageway formation (i.e.: 3.5m and 5.0m), and apply equally to each side of the road.
3. All measurements are in metres.

5. It is *disturbance of indigenous vegetation* that does or will within two years obstruct a view from a viewpoint;

But not where:
6. It is *disturbance of indigenous vegetation* associated with a geothermal feature; or
7. It is *disturbance of indigenous vegetation* within a RAP or a PNA; or
8. It is *disturbance* of a rare or threatened indigenous plant species or vegetation type; or
9. It is *disturbance* of planted or naturally established indigenous vegetation that is protected as a condition of a resource consent.

### 3.0 Exotic Vegetation Disturbance in Riparian Area

**B3.1.1** Exotic Vegetation Disturbance in a riparian area complying with any of the following conditions:
1. The vegetation within a minimum distance of 10 metres from a waterbody or geothermal feature is replaced with a permanent cover of indigenous vegetation (by natural regeneration or planting) and where the balance of the riparian area which has been disturbed is replanted with either exotic or indigenous tree or shrub species; or

### B3.2 Controlled Activities
There are no Controlled Activities.

### B3.3 Restricted Discretionary Activities
There are no Restricted Discretionary Activities.
2. The vegetation does or will within two years obstruct the view obtained from a viewpoint; or
3. The vegetation will adversely affect the ecological integrity or viability, or species diversity of any area of indigenous vegetation; or
4. It is trimming of the exotic vegetation where the vegetation does or will within two years do any of the following:
   a) interfere with the operation of existing electricity and telecommunications lines that are Permitted Activities under Rules A37.1.1, A37.1.2, B37.1.1 and B37.1.2 or interfere with the safe operation of an existing underground gas pipeline; or
   b) be within 5 metres vertical height from a carriageway or the shoulder of a public road, private road, private way or an on-site manoeuvring area (i.e. overhanging branches); or
   c) be within 3.5 metres vertical height above or one (1) metre below the services corridor of a public road (Refer Diagram below).

**Note:**
1. ‘A’ – Existing sealed carriageway width, or where the road is to be widened, in accordance with Rule 33.1.1.
2. All vertical measurements are to be taken from the centreline of the carriageway formation (i.e.: 3.5m and 5.0m), and apply equally to each side of the road.
3. All measurements are in metres

**B3.4 Discretionary Activities**
B3.4.1 Any Exotic Vegetation Disturbance in riparian areas that does not comply with the conditions for Permitted Activities.

**B3.5 Non-Complying Activities**
There are no Non-Complying Activities.
### Permitted Activities

4.1 Exotic Tree Establishment complying with the following *condition*:

1. The vegetation does or will not when mature obstruct the view obtained from a viewpoint.

4.1.2 Notwithstanding any other rule, the removal of *pest plants* as specified in the Regional Pest Plant Management Strategy.

### Controlled Activities

4.2.1 Forest Harvesting on any *site* which is accessed from Spencer Road or Millar Road.

Council shall reserve its control and may impose *conditions* on the following matters:

* The timing of transport of *exotic vegetation* off-site.
* Dust prevention or mitigation measures.

In addition to the above, Council may impose a bond to ensure satisfaction of *conditions* of consent and a charge to cover monitoring costs.

4.2.2 Forest harvesting in the covenanted areas at Lake Tikitapu and Lake Rotokakahi as shown on DPS 54801.

Council shall reserve its control and may impose *conditions* on the following matters:

* The staging, the time of day, season and weather *conditions* when the harvesting can take place.
* Measures to address nuisance *effects* such as noise.
* The management of the transport of harvested logs to reduce adverse *effects* on the community and roading safety.
* The replanting of areas of harvested forest in species and patterns that maintain the landscape values of the area and that are capable of being selectively managed.

* Dust prevention of mitigation measures.

In setting conditions on any consent, Council will consider any agreement or covenant that exists between the Crown and the Licensee that meets the objectives of this plan. In particular, Council will consider using the covenants that exist between the Crown and the Licensee dated 30 April 1990 as a basis for conditions on a consent. Because the nature of the activity, Council will consider giving a long term consent with a review clause.

In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.

4.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.

4.4 Discretionary Activities

4.4.1 Any Exotic Tree Establishment that does not comply with the conditions for Permitted Activities.
### 5.0 Earthworks

**Note:** *Land disturbance activities are also controlled by provisions in regional plans.*

#### 5.1 Permitted Activities

| Rule D5.1.1 |  
| --- | --- |
| *Earthworks complying with the following conditions:* |  
| 1. The *earthworks* are outside a *riparian area*; and |  
| 2. The *earthworks* do not disturb any recorded heritage feature including *historic places*, archaeological sites and *waahi tapu*; and |  
| 3. The *earthworks* are on *slopes* that do not exceed 25°; and |  
| 4. The fill is *cleanfill* and has a vertical dimension that does not exceed 450mm; and |  
| 5. The excavation has a vertical dimension that does not exceed 2500mm (2.5 metres); and |  
| 6. The *earthworks* do not exceed 500 m³; and |  
| 7. The *earthworks* are outside an *ephemeral watercourse*; and |  
| 8. The *earthworks* are, or each planned separate stage of earthwork is, completed within 3 months. |  

**D5.1.2** Notwithstanding **Rule D5.1.1** the *earthworks* are for farm or forestry tracks or for forestry skid sites complying with the following conditions:

| Rule D5.1.2 |  
| --- | --- |
| 1. The *earthworks* are outside a *riparian area*; and |  
| 2. The fill is *cleanfill*; and |  
| 3. The *earthworks* do not disturb any recorded heritage feature including *historic places*, archaeological sites and *waahi tapu*; and |  
| 4. The *earthworks* are outside an *ephemeral watercourse*; and |  
| 5. The *earthworks* are, or each planned separate stage of earthwork is, completed within 3 months. |  

**D5.1.3** Temporary stockpiling of re-useable earth or rock material complying with the following conditions:

| Rule D5.1.3 |  
| --- | --- |
| 1. It is outside a *riparian area*, *ephemeral watercourse*, or the 2% AEP lake flood level; and |  
| 2. It is inert; and |  
| 3. It is entirely removed within 6 months; and |  

---

#### 4.5 Discretionary Activities

There are no *Non-Complying Activities.*

#### D5.2 Controlled Activities

There are no *Controlled Activities.*

#### D5.3 Restricted Discretionary Activities

| Rule D5.3.1 |  
| --- | --- |
| *Earthworks* which comply with the following standards: |  
| 1. The *earthworks* are outside a *riparian area*; and |  
| 2. The *earthworks* do not disturb any recorded heritage feature including *historic places*, archaeological sites and *waahi tapu*; and |  
| 3. a) The *earthworks* are on *slopes* that exceed 25° but do not exceed 35°; or |  
| b) The fill is *cleanfill* and has a vertical dimension that exceeds 450mm; or |  
| c) The excavation has a vertical dimension that exceeds 2.5 metres. |  

4. Council shall restrict its discretion and may impose *conditions* in respect of the following matters:

* Geotechnical design.
* *Land* stability management.
* Stormwater and sediment management.
* The method and timing of the *earthworks* operations.
4. It does not disturb any recorded heritage feature including historic places, archaeological sites and waahi tapu.

* Any effect on an historic place, archaeological site, or waahi tapu both recorded and unrecorded.
* The location on-site, the extent, staging, time of day, season and weather conditions under which earthworks can be undertaken.
* The location and size of building platforms.
* Measures to avoid, remedy or mitigate effects on any view obtained from a lake, viewpoint, public reserve or public road.

In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.

D5.3.2 Earthworks in ephemeral watercourses.

Council shall restrict its discretion and may impose conditions in respect of the following matter:

1. Measures to avoid sedimentation from ephemeral watercourses.

D5.4 Discretionary Activities

D5.4.1 Earthworks that do not comply with the conditions for Permitted Activities or are not Restricted Discretionary Activities.
### 6.0 Building Platforms

#### 6.1 Permitted Activities

A6.1.1 *Building Platforms* complying with the following *conditions*:

1. They are outside a *riparian area*; and
2. They are outside an *ephemeral watercourse* or the 2% *AEP lake* flood level; and
3. They are at least 1 metre above the *groundwater table*; and
4. They are able to accommodate any on-site effluent treatment system; and
5. They can be accessed by a vehicular access that can be formed within the *Permitted Activity conditions for earthworks and indigenous vegetation disturbance*; and
6. They are not on *land* with *slopes* that exceed 24°; and
7. They are not located within a 25 metre *buffer* of any scenic *road* boundary; and
8. They are not located within a 10 metre *buffer* of a *site* boundary; and
9. They are located clear of any areas of instability or known natural or artificial hazard.

---

#### D5.5 Non-Complying Activities

There are no *Non-Complying Activities*.

---

#### A6.2 Controlled Activities

There are no *Controlled Activities*.

---

#### A6.3 Restricted Discretionary Activities

There are no *Restricted Discretionary Activities*.

---

#### A6.4 Discretionary Activities

A6.4.1 Any *Building Platforms* that do not comply with the *conditions* for *Permitted Activities*.

---

#### A6.5 Non-Complying Activities

There are no *Non-Complying Activities*.

</table>
### A8.4 Discretionary Activities

There are no Discretionary Activities.

### A8.5 Non-Complying Activities

There are no Non-Complying Activities.

### 9.0 Structures and fences for deer and goat farming

#### 9.1 Permitted Activities

**B9.1.1** Single masts and/or towers for telecommunication and meteorological purposes complying with the following conditions:

1. They have a height that does not exceed 13 metres above ground level; and
2. They have a total diameter or cross sectional dimension that does not exceed 450mm; and
3. Any attached antenna or rod that:
   a) Has a diameter that does not exceed 75mm; and
   b) Does not exceed a height of 6 metres above the apex of the single mast or tower.

**B9.1.2** *Structures* other than those specified in **B9.1.1** complying with the following condition:

1. A maximum height that does not exceed 7.5 metres above ground level.

**B9.1.3** *Structures* that are temporary and are located on a site or road for a period that does not exceed 1 month in any calendar year or for the time the structure is required to complete the construction of a building.

#### B9.2 Controlled Activities

There are no Controlled Activities.

#### B9.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.

#### B9.4 Discretionary Activities

**B9.4.1** Any structures that do not comply with the conditions for Permitted Activities.

#### B9.5 Non-Complying Activities

There are no Non-Complying Permitted Activities.

#### C9.1.1 Deer Farming where fences comply with the following conditions:

1. Minimum fence height above ground; and
2. 2 metres.
3. Line wires:
   13 – All line wires fastened to inside of posts with the exception of angle posts.
4. Wire spacings:
   Minimum of 8 wires up to 1.2 metres high, maximum of 150mm apart.

### In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.
Minimum of 5 wires above 1.2 metres high, maximum of 250mm apart.

4. Height above ground to first wire:
   No greater than 75mm.

5. Batten and stay wire spacings.  
   * Netting:
     Maximum 300mm up to 1.2 metres high. Above 1.2 metres maximum 800mm.  
     No hinge joint netting with stay wire spacings greater than 200mm to be used  
     for up to 1.2 metres in fence height.  
   * Battens:
     Maximum 600mm apart (fallow);
     Maximum 800mm apart (other deer species).

6. Wire gauge:
   2.5mm galvanised high tensile or wire equal to or of greater tensile strength.

7. Post spacings:
   Maximum 5 metres.

8. Post sizes:
   No greater than 75mm
   * Rounds – minimum 100mm small end diameter;
   * Half rounds – 175mm minimum face width;
   * Quarter rounds – 100mm smallest face width; or
   * Minimum post length of 2.7 metres.

9. Strainer Posts:
   * Rounds – minimum 175mm small end diameter; or
   * Minimum post length of 3.0 metres.

10. Strainer Distances:
    Maximum of 400 metres.

11. Stays:
    Minimum of 120mm small end diameter and minimum length of 2.7 metres. Tie
    backs and internal angle stays are acceptable.

12. Footings:
    Footings for strainer and gate posts shall be hardfill or concrete.

---

C9.4 Discretionary Activities

There are no Discretionary Activities.

C9.5 Non-Complying Activities

C9.5.1 Deer or goat fences that do not comply with the conditions for Permitted Activities.
13. Top-Up Fences:
   Base fence must be in a sound condition, contain a minimum of 8 line wires up to 1.2 metres with maximum wire spacings no greater than that listed in number 3 above.

14. Gates:
   * Timber – minimum height of 1.9 metres. Rails minimum 100mm x 25mm. Three uprights (one centred) and two diagonal stays on each side of gate. Minimum of M10 bolts to be used. Rail spacings to 0.2 metres high maximum 100mm apart. Above 1.2 maximum 150mm apart.
   * Steel – minimum height over frame of 1.9 metres, minimum wall thickness of 3mm. Internal diameter 25mm. Gate covered with chain link of maximum aperture of 75mm and minimum wire gauge of 3.15mm. Mesh should be laced with minimum 2mm gauged wire. Hardfill under all external gates.

15. Gate Hinges:
   Hinges and gudgeons to be a minimum of 20mm diameter. One hinge reversed or otherwise constructed to prevent the gate from being lifted off.

16. Gate Locks:
   Must comprise a sturdy chain and padlock.

17. Hanging Gates:
   Hung gates must butt against the full inside surface of the latching post and open inwards.

18. Flood Gates:
   That do not allow animals to pass through.

19. Culverts:
   That do not allow animals to pass through.

20. Staples:
   * Post – minimum of 50mm in length and minimum gauge of 4.0mm.
   * Batten:
     Softwood – minimum of 30mm in length and minimum gauge of 3.15mm.
     Hardwood – minimum of 27mm x 2.8mm.
   * Steel fasteners for concrete posts can be used.
21. **N**etting:
   No hinge joint netting with spacings greater than 200mm. Stay wire spacings shall be used below 1.2 metres in *height above ground level*.

22. **L**oading and **H**andling Facilities:
   Loading and handling facilities to be located within the perimeter fence.

---

**C9.1.2 Goat Farming** where fences comply with the following *conditions*:

1. Bulldozed line or benching or best practice as defined in the Goat Farm Code of Practice 2001.
2. 9 wires (kept tight at all times):
   * Minimum high tensile 2.5mm diameter galvanised steel.
   * Bottom wire should be placed 80mm above *ground level* and, above that, wires placed at the following internals – 100, 100, 100, 110, 120, 135, 150 and 165mm. The top wire should be approximately 50mm below the top of the post.
3. No internal stays.
4. Post to be at the following spacings:
   * less than 30° ground *slope* – 5 metre.
   * 30° to less than 45° - 4 metre.
   * 45° or more – 3 metre.
5. Battens to be at 1 metre intervals.
6. Flood gates that do not allow animals to pass through.
7. Culverts that do not allow animals to pass through.
### 10.0 Lake Structures

#### 10.1 Permitted Activities

1. Existing public *boat launching ramps* and adjacent associated jetties as identified on the Planning Maps and the maintenance or replacement of these boat ramps and jetties.
2. Buoys, poles, lights, beacons, and safety booms, for navigation, safety or regulatory purposes.

#### 10.2 Controlled Activities

There are no Controlled Activities.

#### 10.3 Restricted Discretionary Activities

10.3.1 *Private lake structures* where no access is available to a site from a *road*, *private road* or *private way*, or jetty on adjoining *land* in the same ownership.

Council shall limit its discretion and may impose conditions in respect of the matters contained in RD10.1 and RD10.2.

#### 10.4 Discretionary Activities

10.4.1 New *Public Lake Structures* where the width does not exceed 4.2 metres, the length does not exceed 20 metres and the area does not exceed 50m².

#### 10.5 Non-Complying Activities

10.5.1 New *Private Lake Structures* which are not Restricted Discretionary Activities.

10.5.2 New *Public Lake Structures* which are not Permitted or Discretionary Activities.

13.4.3 Excavation, construction or any other work including the use of heavy machinery immediately adjacent to or on a site or item listed in Appendix A that is part of Rule 1.1 of the Lakes A Zone (the full text version) (including within the dripline of any tree listed in this Appendix), a recorded archaeological site, or a maori Reserve identified on the Planning Maps.

Where there is doubt about the exact location and extent of the archaeological site, Council shall consider the site as officially recorded to be within a radius of 100 metres.

13.4.4 Trimming, pollarding or surgically treating a tree identified in Appendix A that is part of Rule 1.1 of the Lakes A Zone (the full text version).

14.0 Signs

14.1 Permitted Activities

14.1.1 Signs complying with the following conditions:

1. They have a maximum area not exceeding 0.5m² per site; and
2. The maximum area may be utilised by more than one sign; and
3. No signs shall be erected except as it relates to the site on which it is situated; and

14.2 Controlled Activities

There are no Controlled Activities.

14.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.
4. They do not obscure a driver’s vision or cause confusion or distraction that would compromise the safe movement of traffic on a public road; and
5. They are not illuminated, flashing, animated or made of reflectorised materials.

### 14.1.2 Temporary signs complying with the following conditions:

1. They are not displayed for more than 6 weeks; and
2. They have a maximum area not exceeding 3m².

### 14.4 Discretionary Activities

14.4.1 Any signs that do not comply with the conditions for Permitted Activities.

### 14.5 Non-Complying Activities

There are no Non-Complying Activities.

### 15.0 Outdoor Storage

#### 15.1 Permitted Activities

C15.1.1 Outdoor storage complying with the following conditions:

1. Its total volume at any one time does not exceed 100m³ unless the material(s) are required for an on-site development or land management work; and
2. It cannot be seen from a lake, viewpoint or public reserve provided that, when the outdoor storage is part of an activity on a public reserve and can be seen on the same reserve, this condition shall not apply; and
3. It does not generate any objectionable odour at any site boundary; and
4. The area on which it is stored is outside an ephemeral watercourse, riparian area, or the 2% AEP lake or river flood level; and
5. It is inert.

#### 15.2 Controlled Activities

There are no Controlled Activities.

#### 15.3 Limited Discretionary Activities

C15.3.1 Outdoor Storage that exceeds 100m³ but does not exceed 200m³ and where the material is not required for an on-site development or land management work.

Council shall restrict its discretion and may impose conditions in respect of the following matters:

- Whether it generates any objectionable odour at any site boundary; and
- Whether it can be seen from any abutting sites; and
- Whether it can be seen from a lake, viewpoint, a public reserve or a public road; and
- Whether the area on which it is stored is located within an ephemeral watercourse or the 2% AEP lake flood level.

C15.3.1 In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.
### 16.0 Helicopter Landing Areas

<table>
<thead>
<tr>
<th>16.1 Permitted Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>C16.1.1 <em>Helicopter Landing Areas</em> are not <em>Permitted Activities.</em></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>16.2 Controlled Activities</th>

</thead>
<tbody>
<tr>
<td>There are no <em>Controlled Activities.</em></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>16.3 Restricted Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>C16.3.1 <em>Helicopter Landing Areas</em> to facilitate existing farming and conservation management activities where no access is available to a <em>site from a road, private road or private way.</em></td>
</tr>
</tbody>
</table>

    Council shall restrict its discretion and may impose *conditions* in respect of the following matters:

    * The standards of *Appendix H* that is part of *Rule 1.1* of the Lakes A Zone (the full text version).
    * Frequency of use.
    * Specifying flight paths to maintain natural character including ambient noise levels of tranquil areas.
    * The location and placement, *height* and reflectivity values of any *building* or structure that is included within the definition of a *Helicopter Landing Area.*

### C15.4 Discretionary Activities

| C15.4.1 *Outdoor Storage* where materials are to be used *off-site*, or processed or manufactured *on-site* for sale or use *off-site.* |
| C15.4.2 Any *Outdoor Storage* that is not a *Restricted Discretionary Activity.* |

### C15.5 Non-Complying Activities

| C15.4.1 There are no *Non-Complying Activities.* |
In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.

C16.4 Discretionary Activities

C16.4.1 Helicopter Landing Areas subject to the standards of Appendix H that is part of Rule 1.1 of the Lakes A Zone (the full text version) and Helicopter Landing Areas that are not Restricted Discretionary Activities.

C16.5 Non-Complying Activities

There are no Non-Complying Activities.
### BUILDING DESIGN RULES

#### 17.0 Site Coverage of Buildings

<table>
<thead>
<tr>
<th>17.1 Permitted Activities</th>
<th>D17.2 Controlled Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>D17.1.1 Site coverage not exceeding 2500 m² or 1% whichever is the lesser.</td>
<td>There are no Controlled Activities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>D17.3 Restricted Discretionary Activities</th>

</tbody>
</table>

<table>
<thead>
<tr>
<th>B19.5 Non-Complying Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are no Non-Complying Activities.</td>
</tr>
</tbody>
</table>

#### 22.0 Viewpoints

<table>
<thead>
<tr>
<th>22.1 Permitted Activities</th>
<th>B22.2 Controlled Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>B22.1.1 Except for Marae buildings, any building that cannot be seen from a viewpoint.</td>
<td>There are no Controlled Activities.</td>
</tr>
</tbody>
</table>
Note: The extent of the landforms which can be seen from each viewpoint is shown in the document titled ‘Lakes A Zone – View Shaft Assessment, Rotorua District Council (March 1999)’. Reference to this document included as Appendix 15.0 of Volume 2 to the Lakes A Zone should be made to assist in the determination of whether a building is likely to be able to be seen from each viewpoint.

<table>
<thead>
<tr>
<th>24.0 Floor Levels</th>
<th>24.1 Permitted Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>A24.1.1 Any habitable building where the floor level is at least 1.5 metres above the groundwater table.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>B22.3 Restricted Discretionary Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are no Restricted Discretionary Activities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>B22.4 Discretionary Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>B22.4.1 Any building that does not comply with the conditions for Permitted Activities</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>B22.5 Non-Complying Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are no Non-Complying Activities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>24.0 Floor Levels</th>
<th>A24.2 Controlled Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>A24.2.1 Any habitable building where the floor level is at least 1.5 metres above the groundwater table.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>A24.3 Limited Discretionary Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>A24.3.1 Any building that does not comply with the conditions for Permitted Activities.</td>
</tr>
</tbody>
</table>

Council shall restrict its discretion and may impose conditions in respect of the following matters:

* Whether the proposal does not comply with more than one building design rule and the cumulative effect of the non-compliance.
* Where an alternative design of location on-site is able to address any adverse effects.
* Specifying minimum floor levels.

In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a change to cover monitoring costs.

<table>
<thead>
<tr>
<th>A24.4 Discretionary Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>There are no Discretionary Activities.</td>
</tr>
</tbody>
</table>
### 25.0 Buffers

**25.1 Permitted Activities**

B25.1.1 Any building not located within 10 metres of a site boundary.

**B25.2 Controlled Activities**

There are no Controlled Activities.

**B25.3 Restricted Discretionary Activities**

There are no Restricted Discretionary Activities.

**B25.4 Discretionary Activities**

B25.4.1 Any building that does not comply with the conditions for Permitted Activities.

**B25.5 Non-Complying Activities**

There are no Non-Complying Activities.

### 26.0 Electromagnetic Radiation

**26.1 Permitted Activities**

26.1.1 Any activity producing radio frequency energy shall meet the recommended non-occupational limits set out in the New Zealand Standard NZS 2772.1 (1999) – Maximum Exposure Levels – 3kHz to 300 GHz at any point where any member of the public may be exposed to the source of such energy.

**26.2 Controlled Activities**

There are no Controlled Activities.

**26.3 Restricted Discretionary Activities**

There are no Restricted Discretionary Activities.

**26.4 Discretionary Activities**

There are no Discretionary Activities.

**26.5 Non-Complying Activities**

26.5.1 Any activity that does not comply with the conditions for Permitted Activities.

### 27.0 Spill Light or Stray Light Emissions

**27.1 Permitted Activities**

B27.1.1 Any activity that results in spill light or stray light emissions complying with the following condition:

**B27.2 Controlled Activities**

There are no Controlled Activities.
1. Any direct artificial illumination shall not exceed twenty (20) lux when measured at the nearest boundary of any site.

   Illuminance levels shall be measured vertically and horizontally in accordance with professional illumination engineering practice.

B27.1.2 Any activity that results in glare complying with the following condition:
1. Lighting shall be aimed no higher than 30° below the horizontal and shall be aimed, hooded or screened, to minimise glare.

<table>
<thead>
<tr>
<th>28.0 Noise</th>
<th>28.1 Permitted Activities</th>

</tr>
<tr>
<td>1. The provisions of Appendix 5 of Volume 2 of the Lakes A Zone.</td>
<td></td>
</tr>
</tbody>
</table>

B27.3 Restricted Discretionary Activities
There are no Restricted Discretionary Activities.

B27.4 Discretionary Activities
There are no Discretionary Activities.

B27.5 Non-Complying Activities
27.5.1 Any activity that does not comply with the conditions for Permitted Activities.

<table>
<thead>
<tr>
<th>28.2 Controlled Activities</th>
</tr>
</thead>
</table>
| 28.2.1 The noise generated at the time of the forest harvesting that exceeds the levels specified in Appendix 5 of Volume 2, of the Lakes A Zone, provided that the machinery used has mufflers and silencers installed and is operated in accordance with the manufacturers’ specifications.

Council shall reserve its control and may impose conditions on the following matters:

* Staging, the time of day, season and weather conditions when specified aspects of harvesting can take place.

* Specifying the on-site location and design of log handling and static noise areas in relation to site boundaries.

In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.
### 28.3 Restricted Discretionary Activities
There are no Restricted Discretionary Activities.

### 28.4 Discretionary Activities
28.4.1 Any Activity that does not comply with the conditions for Permitted Activities or is not a Controlled Activity.

### 28.5 Non-Complying Activities
There are no Non-Complying Activities.

### 29.0 Traffic Generation

#### 29.1 Permitted Activities

B29.1.1 *Traffic Generation* complying with any of the following conditions:

1. It is generated from up to two *houses* per *site*; or
2. It is generated from *commercial vehicle movement* associated with conservation, agriculture and forestry; or
3. It is generated from a *Marae*; or
4. It is generated from *public reserves*; or
5. The number of *vehicle movements* does not exceed 12 *vehicle movements* per day from any *site*, averaged over a *week*, provided that, for the purpose of assessing compliance with this condition, when an activity occurs on a *site* on which *house(s)* are also located, each *house* shall be deemed to generate 6 *light vehicle movements* per day.

#### 29.2 Controlled Activities
There are no Controlled Activities.

#### 29.3 Restricted Discretionary Activities
There are no Restricted Discretionary Activities.

#### 29.4 Discretionary Activities

B29.4.1 *Traffic Generation* that does not comply with the conditions for a Permitted Activity.

For the purpose of assessing compliance with this Rule, when an activity occurs on a *site* on which *house(s)* are also located each *house* shall be deemed to generate 6 *light vehicle movements* per day.

#### 29.5 Non-Complying Activities
There are no Non-Complying Activities.
### INFRASTRUCTURE AND UTILITY RULES

#### 30.0 On-Site Carparking and Turning

**30.1 Permitted Activities**

30.1.1 Any activity complying with the following condition:

1. The on-site carparking and manoeuvring provisions of Appendix F that is part of Rule 1.1 of the Lakes A Zone (the full text version).

#### 30.2 Controlled Activities

There are no Controlled Activities.

#### 30.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.

#### 30.4 Discretionary Activities

30.4.1 Any activity that does not comply with the conditions for Permitted Activities.

#### 30.5 Non-Complying Activities

There are no Non-Complying Activities.

---

#### 31.0 Vehicle Crossings

**31.1 Permitted Activities**

31.1.1 **Vehicle Crossings – Light Vehicles**

Any activity involving light vehicle movements to or from any road complying with the following condition unless Rules 31.1.4 or 31.1.5 apply:

1. There shall be a vehicle crossing provided to each site that is formed, drained, constructed and sealed in accordance with Plan No. RD22 (Refer Appendix 3.0 of Volume 2 of the Lakes A Zone).

31.1.2 **Vehicle Crossings – Commercial Vehicles**

Any activity involving commercial vehicle movements to or from a low volume or low speed sealed road complying with the following condition:

1. There shall be a vehicle crossing provided to each site that is formed, drained, constructed and sealed in accordance with Plan No. RD23. (Refer Appendix 3.0 of Volume 2 of the Lakes A Zone).

#### 31.2 Controlled Activities

There are no Controlled Activities.

#### 31.3 Limited Discretionary Activities

31.3.1 Except for vehicle crossings on State Highways, any activity that does not comply with the vehicle crossing conditions for Permitted Activities Council shall restrict its discretion and may impose conditions in respect of the following matters:

- The width and shape of accessways and the adjoining road.
- Sight distances in either direction.
- The nature and characteristics of traffic generated and the timing of traffic flows.
<table>

</table>
| 33.3.1 | Construction of new *road* formations or realignment of existing *road* formations.
| 33.3.2 | Council shall restrict its discretion and may impose *conditions* in respect of the following matters:
| 33.3.2.1 | * Whether the *hard surface coverage* on public *roads*, excluding intersections, exceeds 350mm per metre width of *road*; and
| 33.3.2.2 | * Whether they are designed and constructed with a design life of a minimum of 25 years, except for *vehicle* paving surfaces which may be designed for resurface treatment in 12 year stages; and
| 33.3.2.3 | * Whether they are designed and constructed in accordance with *Appendix 2.0* Criteria and Standards for Public Roads (Refer *Volume 2* of the Lakes A Zone); and
| 33.3.2.4 | * Whether stormwater can be managed without increasing flows into a *lake*.

In addition to the above, Council may impose a bond to ensure satisfaction of *conditions* of consent and a charge to cover monitoring costs.
**33.4 Discretionary Activities**

33.4.1 Maintenance of existing road formations or the construction of new road formations that does not comply with the conditions for Permitted Activities or the standards for Restricted Discretionary Activities.

33.4.2 Buildings and structures on roads.

**33.5 Non-Complying Activities**

There are no Non-Complying Activities.

---

### 34.0 Potable Water Supply

#### 34.1 Permitted Activities

**34.1.1 Water supply systems complying with the following conditions:**

1. Every *habitable building* shall be provided with a potable water supply system and either:
   
   a) At the time of applying for a Building Consent, evidence shall be supplied that the on-site potable water supply complies with section 14(3)(a) and (b) of the RMA; or
   
   b) There shall be a connection to an operational private or public *community water supply* system that meets the conditions for a Permitted Activity.

2. The system is designed and constructed for a functional life of a minimum of 50 years; and

**34.1.2 Operational private or public community water supply systems complying with the following conditions:**

1. The *water supply system* has capacity for fire protection purposes in accordance with the Fire Service Code of Practice within any Gazetted Fire District; and

#### Note:

If it is intended to transfer a *private road* to a Road Controlling Authority, the system must comply with the *conditions* of Asset Transfer of the Road Controlling Authority concerned.

#### 34.2 Controlled Activities

There are no Controlled Activities.

#### 34.3 Restricted Discretionary Activities

There are no Restricted Discretionary Activities.

#### 34.4 Discretionary Activities

34.4.1 Any Activity that does not comply with the conditions for Permitted Activities.

#### 34.5 Non-Complying Activities

There are no Non-Complying Activities.
### 35.0 Collection and Disposal of Stormwater

#### 35.1 Permitted Activities

35.1.1 All buildings and all hard surfaces (including all driveways), shall be provided with a stormwater collection and disposal system within the site complying with the following conditions:

1. It is designed to accommodate at least a 10% AEP storm event by:
   a) Soakage;  
   b) Vegetated swales;  
   c) Ponding;  
   d) Wetlands; and

2. Surface water does not enter habitable buildings from a 2% AEP storm event; and

3. Where the system uses pipes that:
   a) accessible inspection chambers are provided at all changes of grade and direction; and  
   b) self cleansing velocities are maintained; and  
   c) the system has a functional design life of 50 year.

**Note:** If it is intended to transfer a private stormwater collection and disposal system to a Utility Operator, the system must comply with the conditions of Asset Transfer of the Utility Operator concerned.

#### 35.2 Controlled Activities

There are no Controlled Activities.

#### 35.3 Restricted Discretionary Activities

35.3.1 Any system intended for the collection and disposal of stormwater from buildings and hard surfaces not within the site.

Council shall restrict its discretion and may impose conditions in respect of the following matters:

* Whether the system is designed to accommodate at least a 10% AEP storm event by:
  a) Soakage;  
  b) Vegetated swales;  
  c) Ponding;  
  d) Wetlands; and

* Whether surface water from a 2% AEP storm event will enter any habitable buildings; and
  a) Accessible inspection chambers are provided at all changes of grade and direction; and  
  b) Self cleansing velocities are maintained; and

**Note:** An applicant is advised that non-compliance with regional rules or where a water permit has not been obtained for a private or public community water supply system, will need to be addressed with Environment BOP.
(c) The system has a functional design life of 50 years.

* Any effect on land stability or from stormwater flows on neighbouring properties.

In addition to the above, Council may impose a bond to ensure satisfaction of conditions of consent and a charge to cover monitoring costs.

**Note:** An applicant is advised that non-compliance with regional rules or where a permit has not been obtained for a stormwater discharge will need to be addressed with Environment Bay of Plenty.

<table>

### 36.0 Sewage Collection and Disposal

#### 36.1 Permitted Activities

1. Every *habitable building* shall be provided with a sewage collection and disposal system and either:
   a) There shall be an *on-site* sewage collection and disposal system (that may include a separate *grey water* disposal system) that complies with the regional rules or a regional consent is held; or
   b) There shall be a connection to an operational community sewage collection and disposal system that meets the *conditions for a Permitted Activity*.

2. Operational private or public community sewage disposal systems designed to cater for minimum flows of 220 litres per head per day and a peak factor of four complying with the following *conditions*:
   a) Each *site* has practicable access to enable connection to the system; and
   b) The system is designed and constructed to eliminate the ingress of stormwater and ground *water* and also avoids the occurrence of system surcharging or overflows; and
   c) The reticulation system is designed so that each *site* is provided with a minimum 100mm diameter connection to a minimum of 500mm inside the *site* boundary and at a depth capable of servicing all *habitable buildings* on the *site*; and
   d) Accessible inspection chambers are provided at all changes of grade, direction and pipe size; and
   e) That self-cleansing velocities are maintained within reticulation systems; and
   f) The reticulation and pumping system be designed and constructed to allow the passing of 75mm solids; and
   g) The reticulation and disposal system is designed and constructed for a minimum functional life of 50 years, except for electrical and mechanical equipment which may be designed and constructed for a functional life of 15 years.

#### 36.2 Controlled Activities

There are no *Controlled Activities*.

#### 36.3 Restricted Discretionary Activities

36.3.1 Private sewage pumping stations.

Council shall restrict its discretion and may impose *conditions* in respect of the following matters:

* Whether private sewage reticulation systems are not able to *discharge* via gravity.
* Whether ownership and responsibility of the private sewage pumping station relating to the design, maintenance and operational procedures is to be registered on the *land* title.

In addition to the above, Council may impose a bond to ensure satisfaction of *conditions* of consent and a charge to cover monitoring costs.

#### 36.4 Discretionary Activities

36.4.1 Activities that do not comply with the *conditions* for *Permitted Activities* or the standards for *Restricted Discretionary Activities*.

**Note:** An applicant is advised that non-compliance with regional rules or where a permit has not been obtained for a *discharge* from a private or public community sewage disposal system, will need to be addressed with Environment Bay of Plenty.

#### 36.5 Non-Complying Activities

There are no *Non-Complying Activities*. 
### 37.0 Electricity and Telecommunication Lines

#### 37.1 Permitted Activities

**B37.1.1 Above ground utilities complying with the following condition:**

1. Existing electric lines, including support *structures* for these lines, and lines defined by Section 2(1) and (1A) of the Telecommunications Act 1987, where the lines are above ground and the activity involves the operation, maintenance, replacement, upgrading (including increases in voltage and/or capacity), resiting or repositioning of *existing above ground services* (including their foundations), within a three dimensional corridor over the entire length of a line existing as at the time this Plan was Publicly Notified (13 May 2000) consisting of the following dimensions:

   a) **Corridor height**: the greater of either 20 metres above *ground level* or the *height* of the existing support *structures* including conductors; and
   
   b) **Corridor width**: the corridor width shall be a distance of 20 metres in any direction from the existing support *structures* including conductors.

   The *height* in (a) above may be exceeded by up to 4 metres for earth wires, earth peaks and lightning rods.

**B37.1.2 Below ground electricity and telecommunication lines complying with the *conditions* for Permitted Activities in Rules 2.0, 3.0 and 5.0.**

#### 37.2 Controlled Activities

There are no *Controlled Activities*.

#### 37.3 Restricted Discretionary Activities

**B37.3.1** Existing above ground electric lines, including support *structures*, and existing above ground lines defined by Section 2(1) and (1A) of the Telecommunications Act 1987 that do not meet the corridor dimensions for Permitted Activities.

Council shall limit its discretion and may impose *conditions* in respect of the following matters:

- Whether the visual *effects* on a viewpoint can be avoided, remedied or mitigated.

In addition to the above, Council may impose a bond to ensure satisfaction of *conditions* of consent and a charge to cover monitoring costs.

#### 37.4 Discretionary Activities

**B37.4.1** Activities that do not comply with the *conditions* for Permitted Activities or is not a Restricted Discretionary Activity.

**B37.4.2** Activities that do not comply with the *conditions* for Permitted Activities in Rules 2.0, 3.0 and 5.0

#### 37.5 Non-Complying Activities

There are no *Non-Complying Activities*. 
### 38.0 Introduction To Subdivision

#### Subdivision Rules For The Management Areas

#### 38.1 Permitted Activities

- **38.1.1** Subdivision is not a *Permitted Activity.*

#### 38.2 Controlled Activities

There are no *Controlled Activities.*

#### 38.3 Restricted Discretionary Activities

- **E38.3.1** Subdivision complying with the following standards:
  1. Each *site* shall have a minimum area of at least 40 ha; and
  2. Each *site* shall contain a *building platform* that:
     - (a) Complies with the *conditions* for *building platforms* as a *Permitted Activity* (Refer **Rule 6.0**); and
     - (b) Can be located so that *buildings* cannot be *seen* from a *viewpoint*; and
     - (c) Would not necessitate the *disturbance* of *indigenous vegetation* or that a *land use consent* required for any *disturbance* of *indigenous vegetation* shall have been obtained; and
  3. Each *site* shall at the time of subdivision comply with the *conditions* for *hard surface coverage* as a *Permitted Activity.* (Refer **Rule 11.0**); and
  4. The Standards of **Rule 40.3.**
**Council shall restrict its discretion and may impose conditions in respect of the following matters:**

- The location of building platforms away from viewpoints;
- Controlling the disturbance of indigenous vegetation.

**E38.4 Discretionary Activities**

**E38.4.1** Subdivision that does not comply with the standards for Restricted Discretionary Activities.

**E38.5 Non-Complying Activities**

There are no Non-Complying Activities.

### 39.0 Subdivision Rules

#### 39.1 Permitted Activities

39.1.1 Subdivision is not a Permitted Activity.

#### 39.2 Controlled Activities

There are no Controlled Activities.

#### 39.3 Restricted Discretionary Activities

Notwithstanding any other subdivision rule:

**39.3.1 Subdivision for Roads**

Subdivision to create sites for roads complying with the following standards:

1. The hard surface coverage shall comply with the Permitted Activity conditions for roads; and
2. The matters specified in Appendix 2.0 of Volume 2 of the Lakes A Zone.
Council shall restrict its discretion and may impose conditions in respect of the following matters:

- Vesting of the land in the appropriate Roading Authority.
- The standard of formation in relation to the function of the road and traffic characteristics in accordance with the standards specified in Appendix 2.0 of Volume 2 of the Lakes A Zone.

### 39.3.2 Subdivision for Private Roads and Private Ways

Subdivision to create sites for private roads and private ways complying with the following standards:

1. The matters specified in Appendix 10.0 of Volume 2 of the Lakes A Zone.

Council shall restrict its discretion and may impose conditions in respect of the following matters:

- The standard of formation in relation to the function of the private road and private ways in accordance with the standard specified in Appendix 10.0 of Volume 2 of the Lakes A Zone.

### 39.3.3 Subdivision for Reserves

Subdivision to create sites for reserves complying with the following standard:

1. No buildings shall be erected.
Council shall restrict its discretion and may impose *conditions* in respect of the following matters:

- Nominating the purpose of the reserve.
- Vesting of the reserve in the appropriate management authority.

### 39.3.4 Subdivision for Boundary Adjustments

Boundary Adjustments between existing *sites* complying with the following standards:

1. The *sites* shall be abutting; and
2. There shall be no additional Certificates of Title created before and after the subdivision; and
3. Any *site* created shall comply with the standards for the relevant Management Area or the degree of non-compliance with those standards shall not be increased before and after the subdivision; and
4. Each *site* created after the boundary adjustment shall be able to meet the *conditions* for *building platforms* as *Permitted Activities* (refer Rule 6.0); and
5. Each *site* created after the boundary adjustment shall be able to meet the *site coverage* requirements for the relevant management area (refer Rule 17.0) of the degree of non-compliance with those rules shall not be increased; and
6. The Standards of Rule 40.3.
   (a) The stopping or closing of a road; and
   (b) The creation of a separate certificate of title under the Public Works Act 1981, or under the Local government Act 1974, or by way of survey office plan, or under any previous enactment for land severance purposes and where such sites have an area of less than 5 hectares are not being used for a public work or network utility; and
   (c) Where there is no building platform that could comply with the conditions for building platforms as a Permitted Activity (Refer Rule 6.0).

Council shall restrict its discretion and may impose conditions in respect of the following matters:
* Limits on the area of land involved in the boundary adjustment to ensure:
  - Boundaries are in practical locations.
  - Site coverage requirements can be met.
  - The degree of non-compliance is not increased.
* Complying building platforms ensured and where necessary nominated. Area of land involved in the boundary adjustment to ensure:

39.3.5 **Subdivision for Network Utilities**

Subdivision to create sites for network utilities complying with the following standards:

1. Each site shall contain a building platform that:
   (a) Complies with the conditions for building platforms as a Permitted Activity (refer Rule 6.0); and
   (b) Can be located so that buildings cannot be seen from a viewpoint; and
   (c) Would not necessitate the disturbance of indigenous vegetation or that a land use consent required for any disturbance of indigenous vegetation shall have been obtained.

2. The General Subdivision Standards in Rule 40.3.1(1-6).

Council shall restrict its discretion and may impose conditions in respect of the following matters:

* The size and shape of the site.
* The location of building platforms away from skylines, ridgelines and viewpoints.

40.0 General Subdivision Standards

40.3 General Standards for Subdivision as a Restricted Discretionary or Discretionary Activity

40.3.1 In addition to all preceding subdivision rules the following standards and terms shall apply to all subdivisions in all Management Areas in the Lakes A Zone.

Standards applicable to all subdivision:

1. On-Site Access
   It shall be demonstrated that access can be provided to land within any nominated building platform clear of:
   (a) Any riparian area.
   (b) Any ephemeral watercourse.
   (c) Any land within the 2% AEP Lake Flood Level.
   (d) Any land with slopes exceeding 24°.

2. Site Boundaries
   The boundaries of any site shall follow landform features to enable practical land management.

3. Management Area Boundaries
   The boundary of any site forming the boundary between a Settlement Management Area and any Sensitive Rural Management Area shall be placed so as to allow reasonable vehicular access along the base or top of any hill face steeper than 15° in the non-settlement area, unless the hill face is, or is to be, a reserve.

4. Earthworks
   Any land use consent required for any earthworks to be carried out as part of the subdivision shall have been obtained.
   In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matters:
   * Location and size of building platforms.
   * Location of site boundaries.
   * The location on-site, the extent, staging, time of day, season and weather conditions under which earthworks can be undertaken.

5. Bond
   A bond may be imposed to ensure satisfaction of any condition(s) of consent.

6. Monitoring
   Conditions may be imposed to:
   (a) Monitor the performance of any condition of consent; or
   (b) To impose a specific charge to cover monitoring costs.

7. Sewage Disposal
   For each site containing a building platform; either:
(a) It shall be demonstrated that each site is capable of supporting an on-site effluent disposal system that meets the sewage disposal permitted activity conditions for such systems; or

(b) Each site shall be provided with a connection to an operational private or public community sewage disposal system that meets the sewage disposal permitted activity conditions for such systems; and

In the case of restricted discretion activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

- The Matters set out in Rule 36.1.1.2.

8. **Water Supply**

For each site containing a building platform; either

(a) It shall be demonstrated that each site has available a potable water supply from a nominated source; and

(b) Where the nominated supply is an operational private or public community water supply system, and that system complies with the conditions for a permitted activity, there shall be a connection to the system provided at the boundary of each site.

In the case of restricted discretion activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

- The Matters set out in Rule 34.1.1. and 34.1.2.

9. **Stormwater**

The design of the subdivision shall make provision for the anticipated requirements for the collection and disposal of stormwater for each site, and access to it, to accommodate any building or hard surface that would be permitted.

In the case of restricted discretionary activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

- The Matters set out in Rule 35.1.1.

10. **Access and Vehicle Crossings**

Each site shall be provided with access to a road or private road or private way.

Where the location of an access is either confined by site boundaries or limited for traffic safety reasons, a vehicle crossing shall be provided in accordance with the permitted activity rules for vehicle crossings.

In the case of restricted discretionary activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

- The Matters set out in Rule 31.1.

11. **Private Roads and Private Ways**

Any road shall be provided in accordance with the relevant rules for roads and shall be provided with a street naming sign.
In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

* The Matters set out in Appendix 10.0 of Volume 2 of the Lakes A Zone.

12. **Roads**

Any road shall be provided in accordance with the relevant rules for roads and shall be provided with a street naming sign.

In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matter.

* The Matters set out in Rule 33.1.1 and Appendix 2.0 of Volume 2 of the Lakes A Zone.

13. **Esplanade Reserves**

(a) Where an esplanade reserve or strip is to be taken adjacent to a lake with a controlled level, the esplanade instrument shall be measured from the edge of the water when the lake is at its maximum permitted operating level. It shall not be assumed that lakes are level (flat), and the actual edge of the water when the lake is at its maximum operating level shall be determined by survey.

**Note:** The maximum operating level (Moturiki Datum) of Lake Okareka at its outlet (set in the year 2000) is 353.90 metres.

(b) On the creation of sites under 4 ha adjoining:

* Lakes over 8 ha; or
* Rivers over 3 metres within or adjacent to the Tarawera and Okareka Settlement or bush Settlement Areas; or
* The Wairoa River where it is over 3 metres wide:

20 metre esplanade reserves shall be required on all margins. Any esplanade strip already present may be converted to an esplanade reserve in conformity with this rule.

In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matter:

* Where an esplanade reserve is required that exceeds 20 metres, regard shall be had to Policy P15.2 and matters relating to compensation.

(c) On the creation of sites under 4 ha rivers over 3 metres wide, except as identified in Rule 40.3.1.13(b), esplanade strips not less than 5 metres wide shall be created on both sites. Where an esplanade reserve strip exceeds 5 metres, the widths shall be determined by:

* Natural Processes
* Existing indigenous vegetation
* Topography
* Buffering function
* Practicality
* Access requirements
* Indigenous fauna present

In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matter:
* Where an esplanade reserve is required that exceeds 20 metres, regard shall be had to Policy P15.2 and matters relating to compensation.

(d) On the creation of sites under 4 ha adjoining permanently flowing rivers less than 3 metres wide within the Tarawera and Okareka Settlement and Bush Settlement Areas, reserves of not less than 5 metres wide shall be created on both sides. Where a reserve exceeds 5 metres, the width shall be determined by:
* Natural Processes
* Existing indigenous vegetation
* Topography
* Buffering function
* Practicality
* Access requirements
* Indigenous fauna present

In the case of Restricted Discretionary Activities, Council shall restrict its discretion and impose conditions in respect of the following matter:
* Where an esplanade reserve is required that exceeds 20 metres, regard shall be had to Policy P15.2 and matters relating to compensation.

14. Land Improvement Agreements
(e) Where a LIA (Land Improvement Agreement) already exists in situations identified in Rule 40.3.1.13(b), esplanade reserves will be required in accordance with that rule; and
* Where the area retired under the LIA (Land Improvement Agreement) is less than 20 metres wide the esplanade reserve required will be 20 metres;
* Where the area retired is more than 20 metres wide the esplanade reserve will:
  - Have a similar width unless there are exceptional circumstances, but may exclude areas identified within the LIA (Land Improvement Agreement) as being available for productive uses; or
  - Be 20 metres wide with the balance protected by an alternative protective instrument.
In the case of *Restricted Discretionary Activities*, Council shall restrict its discretion and impose *conditions* in respect of the following matter:

* Where an *esplanade reserve* is required that exceeds 20 metres, regard shall be had to Policy *P15.2* and matters relating to compensation.

|---------------------------------|-------------------------------------------------------------------------------------------------|
| 41.3.1 In addition to all preceding rules, the following standards and terms shall apply to all Resource Consent applications, and applies in All Management Areas within the Lakes A Zone. |
| Standards applicable to all Discretionary and Non-Complying Activities. |
| 1. Prior to the lodgement of any application for Resource Consent, consultation shall be required with nominated Tangata Whenua representatives of the hapu holding Mana Whenua status for the site that is the subject of the application. |

| 43.0 Tangata Whenua Structure Plans | 43.1 No Sites for Tangata Whenua Structure Plans have been identified within these Management Areas. |
I……………………… ……….. (Applicant or Agent for Applicant) have completed the above checklist. To the best of my knowledge have answered correctly and provided the information required with my application for a Project Information Memorandum or with my land use consent application.

SIGNED: _______________________________  DATE: _______________________________
**LAKES A ZONE - LESS SENSITIVE MANAGEMENT AREA - CUSTOMER COPY**

All words shown in *italics* within the Lakes A part of the District Plan and the attached checklist are defined within the District Plan. Those definitions most likely to need consulting while completing the attached checklist are reproduced below to assist with use of this checklist. Please consult the full text within the District Plan for definitions not listed.

| **AEP** | Means Annual Exceedence Probability. A 2% AEP identifies a 2% (1 in 50) chance of there being an event (e.g. a flood) of this size or larger in any given year. Also known as a 50 year return period event. With regard to river AEP flood levels, the levels include margins to cover design assumptions, estimate imprecision, and artificial interferences with flow paths. With regard to lake levels, the levels include margins to cover estimate imprecision, waves and local wind set-up, seiche, and the length of time lake levels can remain high. The 2% AEP lake flood levels are: Okareka – 355.20 metres RL Moturiki datum Tarawera – 299.40 metres RL Moturiki datum Okataina – 314.90 metres RL Moturiki datum Rotokakahi – 395.90 metres RL Moturiki datum Tikitapu – 419.50 metres RL Moturiki datum |
| **Building** | Means any thing constructed, whether temporary or permanent, moveable or immovable, including but not limited to:  
- Additions to buildings;  
- Tanks, containers, reservoirs or swimming pools exceeding 25,000 litres capacity;  
- Cable cars, cable ways and similar devices; and  
- Anything that is a structural part of, or structurally attached to, a building including equipment, devices, tanks, masts, aerials, poles and satellite dishes;  
But excludes  
- The interior of any building;  
- Scaffolding erected temporarily while in the course of construction or maintenance purposes;  
- Structures and Lakes Structures;  
- Connections between structures and buildings by way of cables, wires, ropes and the like;  
- Hard surfaces;  
- Platforms, bridges, deckings and the like where they are less than 1 metre from the ground;  
- Outdoor storage;  
- Septic tanks and infrastructure or utility services placed below ground level; and  
- Signs. |
| **Building Platform** | Means the area of land on which a building is built or is to be built and includes any on-site effluent disposal system (e.g. a septic tank and its disposal field). The platform does not have to be shaped but can follow the natural lie of the land. |
| **Buffer** | Means a separation distance or an area used to mitigate or avoid adverse effects that arise from one place being experienced in another. Special management may be required within the buffer, such as planting or exclusion of buildings. |
| **Disturbance** | Means the removal, clearance, destruction, cutting, crushing, desiccation or burning of exotic or indigenous vegetation; except:  
- For normal domestic-scale trimming and maintenance; and  
- The day to day maintenance of walking tracks; and  
- The collection of plant material for scientific purposes, and  
- The collection of plant material by the Tangata Whenua for maintaining traditional practices of rongoa (medicinal purposes), raranga (weaving) and mahi whakairo (carving). |
| **Earthworks** | Means the disturbance of land surfaces by excavation or filling, but excludes normal domestic and reserve gardening activities, normal turf and pasture maintenance and renovation practices, and the maintenance of walking tracks, farm and forestry tracks, driveways and roads. |
| **Ground Level** | Means the natural level of ground before any earthworks have taken place. It also means the level of the ground after any authorised earthworks have been carried out before any subdivision is completed pursuant to section 224(c) of the RMA. |
| **Groundwater table** | : Means the surface of the watertable. For the purposes of subdivision and development:  
1. Where the groundwater is influenced by a river or stream, either an identified winter groundwater level is used, or the groundwater table is established with reference to the water level in the river or stream; or  
2. Where the groundwater is influenced by a lake, the groundwater table is established with reference to the maximum control level for a controlled lake, or the 2% AEP flood level for an uncontrolled lake. |
| **Hard Surface** | : Means an area of land that is paved with an all weather impermeable surface, such as concrete, asphalt or cobblestones, or covered with a decking or platform, but excluding:  
- Paved strips less than 1 metre in width;  
- Driveways less than 3.5 metres in width (for the purpose of Rule 11.0 but not for Rule 35.0);  
- Farm tracks less than 3.5 metres in width;  
- Decking or platforms less than 10 m² in area;  
- Timber decking that has gaps between the boards, where the rainwater falls through the gaps to the ground;  
- Buildings;  
- Structures;  
- Lake Structures |
| **Hard Surface Coverage** | : Means the portion of a site that may be paved or covered with hard surfaces. Any area provided for the purposes of access and including but not limited to roads, Maori roadways, rights-of-way, access lots, and access legs, shall be excluded from the calculation of hard surface coverage for any site. |
| **Indigenous vegetation** | : Means any plant community containing indigenous species (which may include a canopy, subcanopy, understory and ground cover as structural elements). It includes vegetation that has regenerated naturally or vegetation established with human assistance following disturbance or as mitigation for another activity. (Refer also to Indigenous Plant Species, Vegetation Unit and Vegetation Type.) |
| **Lake Structures** | : Means any thing constructed, whether temporary or permanent, moveable or immovable, where any part intrudes into, or is placed over, the waters of a lake, or is on land that would be covered by water when the lake is at its 2% AEP flood level; and including:  
- Buildings  
- Structures  
- Walls and retaining walls built of any material including rock riprap or spawls  
But excluding  
- Boats, motor craft and vessels. |
| **Site** | : Means:  
a) An area of land which is the smaller land area of either:  
i) Land comprised in a single allotment held in one certificate of title; or  
ii) Land comprised in a single allotment or the balance area on an approved subdivision scheme plan for which a separate certificate of title can be issued without further Council involvement.  
b) An area of land comprising two or more adjoining allotments held in one certificate of title that cannot be treated separately without the Council granting its consent.  
c) An area of land comprising two or more adjoining allotments held in two or more certificates of title where the titles are:  
i) Subject to Section 37 of the Building Act 1991: “Construction of building on 2 or more allotments”; or  
ii) Held together in such a manner that they cannot be assessed individually without the consent of the Council.  
d) An area of Maori freehold land that either:  
i) Is land created by way of partition under Sections 297 and 301 of Te Ture Whenua Maori Act 1993 (The Maori Land Act 1993) and held in one Maori Land Court Title, or  
ii) Is land defined by survey and created by way of partition into one parcel to be held by an owner who is a member of the same hapu, or owners who are members of the same hapu, or  
iii) Is land defined by survey and held in a Maori Land Court Title and for which ownership can be determined, or  
iv) Is land defined by survey and created by way of partition for a site for a dwelling under Section 296 of Te Ture Whenua Maori Act 1993 (The Maori Land Act 1993). |
e) An area of Maori Customary Land.

Not withstanding paragraphs a-f above, where land has been subdivided under the cross lease or company lease systems (other than unit titles), a site means an area of land containing:

i) Buildings(s) for residential, commercial and industrial activities with any accessory building(s) and land exclusively set aside for the occupants/users of the building(s); or

ii) Any share in the fee simple which creates a vacant part of the whole for future cross lease or company lease purposes; and

Not withstanding paragraphs a-f above, any land subdivided under the Unit Titles Act 1972 (other than unit titles) a site shall mean either:

i) The area of land containing the principal unit (or proposed unit) on the unit plan, and any identified accessories to that principal unit, or in addition to the above, the following shall apply:

ii) The underlying certificate of title of the land containing the unit titles, immediately prior to subdivision.

In addition to the above, the following shall apply:

i) Where a site is crossed by a Zone boundary, the site is deemed to be divided into two or more sites by the Zone boundary; and

ii) Where a site is divided by the District boundary, the area of the site remaining within the District shall be considered the site.

**Site Coverage**

: Means that portion of the site over which buildings may be constructed.

Any area provided for the purposes of access and including but not limited to roads, Maori roadways, rights-of-way, access lots, and access legs, and any eaves of a building that do not exceed 0.6m in width shall be excluded from the calculation of site coverage.

**Structures**

: Means any thing constructed, whether temporary or permanent, moveable or immovable, that is not a building and that is above ground level, including but not limited to:

- Tanks, swimming pools or containers that exceed 5000 litres capacity; and
- Walls or retaining walls that exceed 0.5 metres above ground level in height;
- Fences with panels, or with boards, pickets or rails that are closer together than their widths;
- Utility services;
- Towers, pylons, poles or aerials;
- Antennas, satellite dishes, rods;
- Caravans, tents, or other structures intended to be habitable;
- Constructions designed for children to play on;

but excluding

- Hard surfaces;
- Lake structures;
- Outdoor storage;
- Road formations and access formations;
- Scaffolding or falsework erected temporarily while used in the course of construction or maintenance purposes.

**Sunlight Control Plane**

: Means a surface through which no part of a building may protrude. It is defined by:

- Drawing sunlight control lines commencing at a height of 2.5 metres above and along the affected site boundaries; and
- Pointing the sunlight control lines into the site at a 28° angle above the horizontal at right angles along the affected site boundaries.

The site boundaries affected by the sunlight control plane are those that are touched by the shaded portion of the Sunlight Control Plane Circle (i.e. between 135° and 225° from true north).

Boundaries affected by the Sunlight Control Plane (refer to illustration examples below):

1. Identify true north on the site plan and orientate the Sunlight Control Plane Circle to the true north point.
2. Place the outside of the Sunlight Control Plane Circle to the inside of the site boundary. Move the sunlight control plane circle around the entire length of the site boundaries. The sunlight control plane shall apply only to the boundaries where the shaded area of the circle touches the site boundary.
Viewpoint: Means a viewpoint identified in the Viewpoint Map and the schedule of viewpoints attached thereto. Check with Planning Services Dept or Volume II full text Lakes A. The assessment of any effect on a view shall be confined to those effects within any pair of viewshaft bearings as identified in the Viewpoint Map and schedule, when seen from the viewpoint that forms the origin of that pair of viewshaft bearings.
