7<sup>th</sup> November 2023

To the Acting Chief Executive Councillor:

Gina Rangi,

On behalf of Rotorua residents; I Teresa Brown present to you and the Rotorua Lakes Council a petition gathered of 220 signatures regarding our concern of the Director General of Health's proposal to fluoridate Rotorua waters on 24th April 2024.

I hereby, present this petition with the understanding that this is the necessary requirement for you as acting Chief Executive Councilor to give permission to a Rotorua resident to speak on the Council board meeting on the 22<sup>nd</sup> of November.

With respect and humility, I am asking that the subject matter of Fluoridation be included on the Agenda of the Rotorua Lakes Council next Board meeting on the 22<sup>nd</sup> November and with your authority to be given that I may speak at this Board meeting.

As a long standing resident of Rotorua and representative of the signed petition, regarding the question of Fluoridation in our waters I shall be grateful for an opportunity to present to the Lakes Board the growing awareness and Evidence based Science regarding the implications of Fluoridation in the Municipal water supply.

I shall look forward to your reply and permission to speak at the Lakes Rotorua Board meeting on the 22<sup>nd</sup> November.

With your permission and approval that I be given a time of commencement and length of time to speak as soon as possible.

Your public servant;

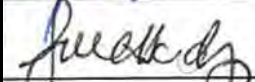

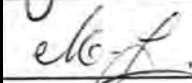

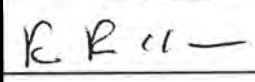

Teresa Brown

Yours sincerely  
Teresa Brown

## Petition To: *The Rotorua Lakes Council*

**Petition Request:** That the *Rotorua Lakes Council* act to protect its community members who oppose and refuse to be forced to consume or be supplied *Fluoridated municipal water supply* against their authority, against their health and well being protected by the International Covenants. WE the under signed are protected under the International covenants oppose the Director General Health's direction to fluoridate Rotorua's water supplies.
