

Draft Speed
Management Plan
Submissions Catalogue
-
Vol 1

Catalogue summary

1634 submissions were received online via the Lets talk | Kōrero mai platform. The following graphs are a breakdown of how many people supported and did not support each question.

The rest of this catalogue is made up of the raw submissions from each submitter.

Q1: Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?

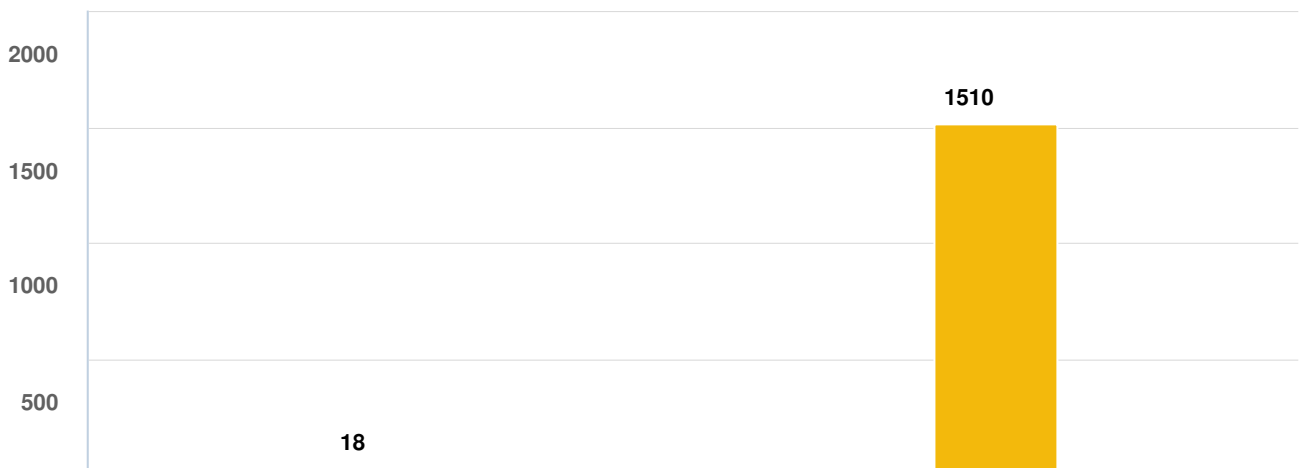

Question options

Yes No

*Optional question (1628 response(s), 5 skipped)
Question type: Checkbox Question*

Q2: Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa). Excluding existing 50km/h on urban connectors?

Question options

Yes No

*Optional question (1528 response(s), 105 skipped)
Question type: Checkbox Question*

Q3: If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Question options

- Yes
- No

Optional question (1501 response(s), 132 skipped)
Question type: Checkbox Question

Q4: How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD

Question options

- Strongly Agree
- Agree
- Neutral (No opinion)
- Disagree
- Strongly Disagree

Optional question (1628 response(s), 5 skipped)
Question type: Radio Button Question

Q5: How much do you agree or disagree with the following? An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.

Question options

- Strongly Agree
- Agree
- Neutral (no opinion)
- Disagree
- Strongly Disagree

Optional question (1625 response(s), 8 skipped)
Question type: Radio Button Question

Q6 Lowering speed limits will help reduce the number of speed-related crashes

Question options

- Strongly Agree
- Agree
- Neutral (no opinion)
- Disagree
- Strongly Disagree

Optional question (1629 response(s), 4 skipped)
Question type: Radio Button Question

Q7 Lowering speed limits will reduce traffic noise

Question options

- Strongly Agree
- Agree
- Neutral (no opinion)
- Disagree
- Strongly Disagree

Optional question (1627 response(s), 6 skipped)
Question type: Radio Button Question

Q8 Lowering speed limits will help reduce traffic pollution

Question options

- Strongly Agree
- Agree
- Neutral (no opinion)
- Disagree
- Strongly Disagree

Optional question (1624 response(s), 9 skipped)
Question type: Radio Button Question

Q9 Lowering speed limits will encourage more walking and cycling for transport

Question options

- Strongly Agree
- Agree
- Neutral (no opinion)
- Disagree
- Strongly Disagree

Optional question (1629 response(s), 4 skipped)
Question type: Radio Button Question

Q10 Lowering speed limits will improve health and wellbeing of the community

Question options

Strongly Agree Agree Neutral (no opinion) Disagree Strongly Disagree

Optional question (1627 response(s), 6 skipped)
Question type: Radio Button Question

Q11 Lowering speed limits will improve liveability in the city by making it safer

Question options

● Strongly Agree ● Agree ● Neutral (no opinion) ● Disagree ● Strongly Disagree

Optional question (1629 response(s), 4 skipped)
Question type: Radio Button Question

Q12 | Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits?

Question options

- Āe | Yes
- Neutral (no opinion)
- Kao - No

Optional question (1622 response(s), 11 skipped)

Question type: Radio Button Question

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Āe | Yes

Q2. **He aha ai? Why?**

Kids and fast cars dont mix. The speed limit should be in place at certain hours only. The 30km speed limit needs to continue on malfroy through to the 2 intersections for john paul college. The kids from jpc have no safe way of crossing malfroy road, i have already witnessed a child getting knocked by a car. The 30km should include this area. If you go to malfroy where jpc kids come out, the choas is self explanatory

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

not answered

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p> <p>Many cars have to reverse out of parkings which are narrow and you cant see oncoming cars. Pedestrians cross at unusual places. Creates a slower pace</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p> <p>There are definitely areas that can use with a reduce speed limit but this shouldnt be generalised</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Agree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Strongly Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Agree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Āe Yes
<p>Q18. He aha ai?Why?</p> <p>I believe the schools kids should be protected when commuity to and from school and sports. The city needs to ensure kids safety at all times as these are times when parents arent around and kids are the most vulnerable to accidents which could have determental effects on their future.</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

All schools should have crossings outside of them. Safety road programmes should be roled out at schools and practises with kids

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

doing 30km in all CBD and surroundign school streets in overkill. Based on <https://www.transport.govt.nz/statistics-and-insights/safety-annual-statistics/sheet/pedestrians> in 2021 in whole bay of plenty was 2 deaths and 22 overnight hospitalisations.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Q8. **He aha ai?Why?**

overkill. You will hamstring the city and kill businesses in the CBD.

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. **He aha ai?Why?**

Speeds have already been reduced several times already. Leave them as they are.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

The only thing I support is putting in speed limits with 500m of a school entrance. All other changes are overkill and unwarranted.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

no

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Traffic pollution - The movement to e-vehicles will do more than any speed reduction will It should be on this proposal to justify how decreasing the productivity of the society by increasing the time taken on any journey is worth the trade off for safety? Surely there are other mechanisms, such as widening footpaths, more shared cycleways etc where the downside will NOT be in the millions of dollars, maybe tens of millions or more when summed across the population for a year.

Strongly Disagree

Q8. He aha ai?Why?

30kph is too slow.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Too slow. Cars are safer than ever before and we went to 100kpm many decades ago. Reducing the speeds is a giant step backwards. It is better to make the roads safer. This will just reduce productivity, make driving more dangerous and increase frustration.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think it is a giant step backwards

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This survey does not give some opportunity to leave comments so some questions are not appropriate. Of course lowering the speed limit will result in less "speed related" crashes, but overall I believe that it will result in more crashes from people taking more risks to pass slow drivers. It will also lead to and encourage more people to ignore the laws, a major problem with NZ society now.

Should be pathway crossing where school bus are dropping children Pathway for boys heigh school, with all those children crossing on pukuatua. Pathway in front of the I centre, i don't even understand why there is none with all those buses stopping there and people crossing to the Morisson's centre. Pathways on Fenton street with EH people crossing to go to Count down... This is going together with speed limit. Safety of our pedestrians first.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing the speed here punishes good drivers. It doesn't make the road safer.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Punishing good drivers. 50km per hour in towns has been the speed for ever in towns and cities across the world. The solution is educating drivers, not punishing those who know what they're doing.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Agree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Rural roads are often windy. Reducing the speed in some of these areas is logical. Most people do, however, reduce their speed to match the safety of the area. Bad drivers will be bad drivers regardless of the rules.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

many cars do not travel comfortably at 30km per hour, more accidents will be caused by the slow speed including road rage incidents increasing. Extending the 30kmh around schools and even in the centre of the CBD is important, but not most urban/rural streets. What effect will 30km have on road works, will the speed drop even futher?

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD Click Here to enlarge map	Agree
Q8. He aha ai?Why?	
Not all streets in CBD, but for the very central streets where there is increased foot traffic and people pulling in and out of carparks, yes 30km will be safer.	
Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways. Click Here to enlarge map	Disagree
Q10. He aha ai?Why?	
Many of these roads have already had a decrease in speed limits and they are fine as they are, there needs to be adequate limits to allow for passing of tractors and rural vehicles. Most rural drivers are respectful of buses and pedestrians and are aware of moving stock.	
Q11. Lowering speed limits will help reduce the number of speed-related crashes	Disagree
Q12. Lowering speed limits will reduce traffic noise	Disagree
Q13. Lowering speed limits will help reduce traffic pollution	Disagree
Q14. Lowering speed limits will encourage more walking and cycling for transport	Strongly Disagree
Q15. Lowering speed limits will improve health and wellbeing of the community	Disagree
Q16. Lowering speed limits will improve liveability in the city by making it safer	Neutral (no opinion)
Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?	Kao - No
Q18. He aha ai?Why?	
not answered	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reductions to 30km for 500m or so around schools is perfect. 30km in central CBD is great and will improve safety. In many other areas it will cause more frustration, road rage and essentially lead to more accidents and people speeding.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Setting speed limits at 30kmph is going to increase road rage, more accidents will be caused as people will become impatient and try passing others vehicles travelling at the speed limits. I agree with safer speed limits around schools and the CBD but not in other areas of Rotorua. People often do not adhere to the 30km road works limit so how is this going to make it a better community.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Are you going to look at reducing road work speed limits as a result of the above. If our weather patterns continues to be adverse as it currently no one will want to walk or bike in wind, rain for most of the year. I wouldn't let me child walk or ride in this weather.

Strongly Disagree

Q8. He aha ai?Why?

This makes sense in school zones. In all other areas, drivers who break the speed limit at 50km/h will continue to speed if the limit is reduced. All this is going to do is make Rotorua a less attractive place to visit, live and work, increase road-rage, and make dangerous driving more likely as speeding drivers overtake drivers who are following the limit.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This makes sense in school zones. In all other areas, drivers who break the speed limit at 50km/h will continue to speed if the limit is reduced. All this is going to do is make Rotorua a less attractive place to visit, live and work, increase road-rage, and make dangerous driving more likely as speeding drivers overtake those who are following the limits. Furthermore, I do not agree that reducing the speed limit will improve the environment, as speed bumps (which would be required to enforce the limit) are shown to lead to increased pollution. Some countries are removing speedbumps to make journeys in cars cleaner.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The council's reputation for doing the right thing for the citizen's of Rotorua is already shot, implementing this plan will cause this to deteriorate further, regardless of the actual cost of implementing the plan. Focus on real issues impacting our town.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

This speed limit will be more of a hazard than at 50kmph

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

People can drive safely at 100km per hour. If you feel unsafe you then drive to the conditions. Dropping the speed limit isnt going to help the roads around here

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because they aint going to change anything . People live and work a great distance from each other for them to walk or bike to work is unrealistic . Changing the speeds will cause more congestion and stress on people using the roads this doesnt help the enviroment or mental health

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Instead of looking for a quick fix start updating some of the roads. Use a contractor that can get it done in a better time frame and budget

If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It's important to keep a low speed near schools so I agree with 30km outside of and very close to a school. However if you reduced speed in all other urban streets to 30km you will cause more harm. Just make better signage for all schools and near schools

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Waka Kotahi's road to zero campaign is idealistic, totally impractical and bound to fail. Penalizing the law-abiding citizens while failing to catch and punish the tiny % who will infringe no matter what the speed limit is lazy and will lose the support of the law-abiding citizens as well. A net negative outcome is the only possible result.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why? same answer as above</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q10. He aha ai?Why? A lazy non-solution - penalizing of the law-abiding citizens and letting the rue offenders get off lightly. This will lose the support of the majority. We see traffic police sitting in ridiculous speed zone settings already, with lights flashing merely to try and get the masses to meet the speed limit (Hamurana 60kph is one such example)</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Strongly Disagree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Strongly Disagree</p>

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I agree that speed around schools is important. But 30kph on dual carriage roads, or residential roads with minimal traffic seems unreasonable. I don't believe those changes save lives. Where are the statistics on number of deaths or injuries on those roads. And how many of those relate to people well above the limit or drunk/high/avoiding police/boy racer. None of which will be stopped through a lower limit. How would the drop in limit from 50 to 30 on those roads have lowered the effect of the accidents? The drop from 50kph to 30kph for those streets seems unreasonable, with little benefit. I actually think this will make it even less safe as people drive erratically to not have to drive at that speed, or ride right up the backside of someone doing that limit as is the current situation on longmile near the forest. But that is anecdotal. In addition, the amount of time wasted for people travelling in and around our city is just crazy. If you add up the amount of extra time spent by individuals the cost to our city in productivity is huge. Finally, the justifications I have seen do not take into account modern technology coming in cars. Particularly in emergency braking and object detection. These alone should justify the difference between 30 and 50Kph.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map** Strongly Disagree

Q8. **He aha ai?Why?**

50kph is a reasonable speed. I'm not convinced there is evidence to say a drop from 50 to 30 will reduce the number of accidents, or reduce the severity of them. Especially given the advances in car technology and the move to have more cyclists in cycle lanes and off roads.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Neutral (no opinion)

Q10. **He aha ai?Why?**

not answered

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai? Why?

not answered

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

Because I am unconvinced of the justification. Because I don't believe that people cycling is the answer, and if you listen to your community you will hear that people don't want to do that. And because it makes travelling in and around the city even slower.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

To slow the speed limit will not be adhered to and people will be subject to fines they are unable to pay. Also there are varying traffic conditions where lower speed limits will cause frustration

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because the road code covers driving to the conditions

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not necessary It will cost millions in sign changes and loss of productivity to all of the mobile service providers meaning more cost to the consumer. The only one that would benefit financially would be the government in fine income but then the tax payer will have to pay to keep the people we are in jail for not paying their fines.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It just adds to people getting annoyed and people avoiding those areas.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There is nothing wrong with the current speed limits and it will cost money to change this.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Waste of tax payer's money. It will just deter people from going into town on top of all the other deterrents.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I think this is very much a survey with biased questions and very misleading. I also don't think it will make any difference other than ticking the "consultation box".

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Safety

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Agree

Q8. He aha ai?Why?

Safety, unpredictable drivers

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

A lot of speeding in rural areas

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. He aha ai?Why?

As above

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

No

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because the traffic in town is slow enough as it is, with all of the ridiculous red crossings and bike lanes, to be able to drive to the speed limit helps to relieve the congestion in certain areas. Yes, some areas could have a permanent 30km/h restriction but not all CBD streets

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

Because the speed limited outside rural school zones seems to be suitable for the area, for example: state high way schools do not have open gate access for tamariki to exit the grounds. I think leave it the same or change it, depending on what the community wants.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because our city is in dire need for more access to its CBD. Lowering speed limits is one more negative that Rotorua has to contend with, on top of the parking meter system, the horrible layout, the empty shops. If we make it a nuisance to be able to whip in and out to shops then you will be repelling a lot of what's left of Rotorua CBD shoppers. There is little reason left to visit our city centre, slow speed limits I believe, would add to that. Another reason to drive to tauranga and hamilton to shop.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Just dissapointed in the way the Rotorua council has been heading the past few years. This is another shortfall, pushed by local government needing to spend money on things not improving the outcomes of our local community.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

This is more reasonable to change the speed directly to those schools rather than the rest of the street

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I avoid coming into the cbd as it is this would make it less desirable and I don't understand how this would make the cbd more vibrant

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Why are you proposing 30km/ph for city kids and it's acceptable 60-80 for risk kids?

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Highly doubt that lowering the speed limit will decrease the use of cars we will in a fast paced society and need to be able to keep up

Āe | Yes

Q6. **Why?**

Schools are usually only busy early mornings and 3pm ish in the afternoons, students & parents maybe need more education on keeping children safe

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

Most smaller streets in Rotorua cbd are already narrow and slow moving, main arterials like Fenton street and Amohau streets need to stay at 50km to keep traffic moving, it's around education not lowering speed limits

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

Improve the roads, and driver education,

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because the roads need to be improved and drivers need better education, both current drivers and new drivers, that's the way we reduce speed related crashes

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Better traffic policing is needed in and around the city, as speeders will still speed no matter what the speed limit is, increase the consequences for speeding and police it better

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Reducing speed limits to the extent of the proposal will only increase frustration on the road and lead to more road rage incidents, in turn cause drivers to make rash and irrational decision, potentially increasing the death toll. Furthermore lower speed limits will not improve the liveability of the city as a lack of quality shops, services and entertainment facilities provide little incentive to spend much time in the CBD. Given that the living population in the CBD is so small and most people need to drive to access the CBD, surely slower speed limits will discourage them from driving into town because of the slower journey time

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te Āe | Yes

whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Q2. He aha ai?Why?

I support a range of the reasons that are explained in the plan. As a cyclist and walker I'd like increased safety and a better share of the street space. BY slowing speeds will allow me to better integrate in the street space with cars rather than being marginalised by our differing speeds. I don't expect this on the larger roads but it is simple to avoid these an stick to quiet streets.

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana not answered

koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Q4. He aha ai?Why?

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te not answered

kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Q6. Why?

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

This just seems sensible. As much from a safety perspective but mainly to allow traffic to keep flowing smoothly

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Agree

Q10. **He aha ai?Why?**

A range of the roads are only suitable for 80km/h

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise**

Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Agree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. **He aha ai?Why?**

Just makes sense if we want liveable communities/suburbs, kids walking/cycling and more people seeing active transport as a realistic and safe option

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I urge our Councillors to show some strong leadership and make inter generational decisions that support wider outcomes. For too long we have made decisions that support car/traffic movements. This needs to change.

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Kids are unpredictable and do not have the same road sense as adults, it makes sense to lower the limit around an area that normally would have a lot of children.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

reducing the limit around the CBD would do nothing but cause frustration and delays. I don't see it as having an impact on the safety at all.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

These rural areas do not need to have the speeds reduced. People generally drive to the conditions and contour of the road. If the roads were fixed to an acceptable standard then there would be little issues

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is going to cause more accidents as people will be frustrated and try to overtake in unsafe conditions, it will cause more speeding tickets which a lot of people can not afford and end up clogging up the system. Not everyone is able to bike to school/work. Those of us with long commutes/living rurally will be unfairly impacted in not only time but mentally and emotionally with the extra stress on already stretched time schedules.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fix the damn roads! if we had safe road surfaces without the constant potholes and uneven surfaces it would eliminate those factors from crashes not to mention the added wear and tear on vehicles.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Children are unpredictable and if the 30KM was enforced there would be less likelihood of a death (injuries would be less severe)

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

because I do not recall any deaths of a person within the CBD with the current 50Km limit - I would like to know how often a death has occurred within the CBD (I.E excluding Amohau, Fenton, Ranolf and Arawa Steets which are all the perimeter roads)

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

The transport industry is already face with delays and reducing the speed limits will result in either another truck on the roads to complete the delivery or the extension of the working day of the truck driver. Better education and having to reset driving tests every 10 years will be a better idea. you wont stop the law breakers by reducing speed limits

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I dont believe it will result in a better community, more traffic will be on the road due to taking longer to arrive at their destination (can't take children on bikes or do your shopping)

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't think that the simple answer to reducing injuries/death is to reduce speeds, people regularly speeding or under the influence will not obey the rules anyway and it appears that once again the law-abiding citizens are being punished for the actions of a few.

Q20. He aha ai?Why?

They are slow in excess. I have young children and these limits would make me feel more nervous about letting them walk as traffic will become less predictable. They will rely on traffic moving at 30km, and it won't.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please dont, this is ridiculous. Having safe crossings is a better idea.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

this wont change anything you are trying to prove. there are alot of self employed people in town and rural who travel to clients places. we are busy enough without this sort of "idiot thinking" slowing us down and costing the tax payer more money that thay havent got. the cost of this would be way more expensive than fixing some of our roads which is the real danger to motorists pedestrians and cyclist.i just cant believe that you would even concider this backward approach to fixing an issue thats not there. concerntrate on catching the people speeding around town in cars and wheelstanding on motorbikes everywhere, this would be much better and way less expensive and disruptive for everyone living and visiting our town.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

people living in rural areas need to go to town now and again. it takes long enough now without this sort of heavey handed tactic to try and reach an impossible goal of zero road deaths. our rural towns do not have a problem with the speed limits in our villages now so why fix something that is not broken. as for the open speed limits 100km is appropriate. our cars are built for it and more. once again you are trying to mask the problem of the state of our roads by trying to slow everyone down. if it takes 1/2 an hour to go to town now to go get groceries. the journey one way will be 1/4 hour longer which on a return trip is 1/2 an hour so people that cant take there entire family to town will have to pay a babysitter longer if you have the money to do so and also missing out on family time. once again this is a poorley thought out idea from a government that dose not listen to the people who elected them

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

in the end this will not do what you what it is designed for. the cost of changing the limits is to high. you will end up with more police chasing traffic offenders rathe than stopping real crime and the poor working person that has to get to places will be taxed more with tickets.people wont be able to pay for these tickets and will tie up our court rooms and jails. this most ridicules idea will make living in and around rotorua harder than it already is and people will move away

Āe | Yes

Q6. **Why?**

It is not going to stop those that are already doing unsafe speeds, they don't care about a ticket or fine. It will penalize those of us that are already driving to the conditions, most urban roads your only doing 35-40kms an hour anyway. If you lower the limit it will just end up being a cash grab.

Āe | Yes

Q6. **Why?**

Traffic hold ups will occur and motorists will get impatient.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Ridiculous

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

No problems at present

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed limit changes don't fix anything. We may get more bikers riding stolen cycles with Hoodies and no helmets . The boy racers will ignore speed limits

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's woke stupidity, dreamed up by some bureaucrat with nothing better to do. Take for example the question about the suggested slower speed would reduce traffic pollution. If you reduce the speed limit by 40%, from 50km down to 30km, then the time taken for a trip increases by 40% which means the vehicle engine is emitting pollution for 40% longer. How is that a good thing?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It's a shame that our Council is having to waste its time and my rates (which are already excessive) on this sort of nonsense.

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

These are generally low speed areas already due to cars parking, pedestrian crossings, roundabouts etc. The roads are fairly wide and allows other vehicles to maneuver easily at the current speed.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

A lot of these roads will always have a risk associated with them for accidents and most of the time it is a handful of drivers doing stupid stuff (not always speed associated) and that would still happen even if the speeds were lowered. It is about driver training needed not persecuting all drivers.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Changing speed limits everywhere will not fix the bad driving habits that frustrate many people. Drivers are already driving 80 to 90 km on a State Highway which then in turn holds up queues of traffic which are then down to 60 km at the end of very long lines. This also happens in urban areas when one person decides to travel at 40km in a 50km area and holds traffic up so what will happen if it is reduced to 30km!!!! People are speeding due to frustration on the roads, being held up by bad, inconsiderate drivers, and our roads are in such bad shape from potholes, to countless roadworks, to the perception of narrowing of roads by introducing fences in the middle of the road (which leads to more holdups, and nowhere to go if there is an accident).

Āe | Yes

Q2. **He aha ai?Why?**

Especially around schools or shopping areas, maybe 40km may be more ideal

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

At present the configuration of walking and roading is very confusing and I have seen what appears to be Tourists just walking on the roads thinking they are pedestrian. A low 30k would be safer for pedestrians who have never or seldom visit Rotorua

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

Depends on what is accident rate on those districts, but in certain sections of roading there appears to be problems with accidents in the same place. Many Rural people are probably more relaxed and not so cautious, and I have seen that within own family

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Agree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. He aha ai?Why?

Haven't had a good look to tell you the truth but if it is reduction for safety all for that. I think that your organisation would know what is best in certain areas

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Just to put lower speed limits in accident prone areas is key, it makes sense and it hopefully will save lives

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It should be 30km/hr within a greater distance from schools between the hours of 8am to 9.30am and 2.30pm and 4.30pm (this is to better safeguard children walking and biking to school). At all other times within 500m from a school it should be 30km/hr. For rural schools to allow drivers to reduce speed more effectively the distance from the school should be extended to at least 750m. The distance of the 30km/hr zone should include not just the main entrance but other entrances to the school frequently used by students.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you want people to walk and bike you need to maintain walkways and cycleways as well as ensure cycleways are very wide to allow bikes and walkers to easily pass each other. Think carefully when putting in cycleways especially if they are just on one side of the road, how do people cross the road to get onto them, have you inadvertently left no room for people who choose to bike on the road, have you now forced people to bike on a non cycleway footpath e.g., no space at bottom of McKenzie Road. Are cars able to park in the cycleway? How do cyclists get across problem areas e.g., entrance to the petrol station on Te Ngae just before before Vaughans Road exit. Talk to people who commute. Think about how for example a child in Owhata could easily and safely get to Boys High School or JPC. Make pedestrian crossing just that- not courtesy crossings, the latter are hard for children to use. On a positive the pedestrian crossing on Tarawera Road opposite the Long Mile entrance is excellent.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe | Yes**
whakaheke pae tere ki te 30 kiromita i te haora ki
ngā rori ahakoa tāone, taiwhenua rānei, me ngā
huarahi whakahonohono pērā i ngā rori a
Sunset, Malfroy, Tarawera me Fenton?Do you
support reducing the speed to 30km/h for all
local streets (urban and rural) including urban
connectors such as Sunset Road, Malfroy Road,
Tarawera Road and Fenton Street?Click Here to
enlarge map

Q2. **He aha ai?Why?**

With up to 40, 000 new homes to built around Rotorua in the near future and no new roading infrastructure plan to hand traffic will slow to a crawl any way so 30km seems adequate fo the future .

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana **not answered**
koe i te whakaheke pae tere ki te 30 kiromita i te
haora ki ngā rori o ngā hāpori taiwhenua pērā i a
Mamaku me ko Reporoa, hāunga ia ko te 50
kiromita i te haora ki ngā huarahi
whakahonohonoDo you support reducing the
speed to 30km/h for all local streets including
local streets in rural hubs (Mamaku,
Reporoa), excluding existing 50km/h on urban
connectors?Click Here to enlarge map

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te **not answered**
kore koe e whakaae, e tautoko ana koe i te
whakaheke pae tere ki te 30 kiromita i te haora,
rima rau mita te tawhiti i waho tonu o ngā wāhi
urunga o ngā kura katoa tāone mai, taiwhenua
mai.If not, do you support reducing the speed
limit to 30km/h for only 500m from outside the
front entrance of all urban and rural schools?

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō **Strongly Agree**
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?Having a 30km/h speed limit in
the CBDClick Here to enlarge map

Q8. He aha ai?Why?

We have no arterial routes the future roading infrastructure seems adequate for 30km.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Agree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Āe | Yes

Q18. He aha ai?Why?

No arterial roads.

Q19. He aha ai?Why?

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Hibitual speeders don't read signs.. Signs do not work as it is.. Lowering the limit with signs alone will be a waste of time

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing speed around schools is a sensible safety measure. Reducing to 30kph on other roads can lead to frustration and irritation.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50 kph is slow enough. If drivers are driving to conditions they will often travel at less.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

80 kph is sufficient speed on a winding, rural road.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

See other comments . There are parts I support and parts I don't

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Better driver education, safer roads (i.e. no potholes) and policing help make driving safer. Drivers should drive to the conditions - both traffic, sight-lines and weather.

Disagree

Q8. He aha ai?Why?

We have plenty of places to cross roads and our cbd isn't busy. The roundabouts, shared cbd area already slow traffic down.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Road conditions and pot holes are a bigger problem. Reducing speed limits is only going to increase travel times and emissions and cause more congestion

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because schools are where a large volume of children are released at certain times and are often mixed with cars and buses trying to pull in and out and go around. I think that decreasing everywhere will just cause speeding issues because you will not get buy in from communities to support this. We already have plenty of encouragement and plenty of walkers, bikers and public transport users and minimal accidents in the suburbs its unnecessary change that will just cause frustrations and create more issues.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

If you want a more vibrant and liveable inner city then sort the parking issues out, notice how vibrant and liveable the malls are, why, free parking and more parking available. Listen to why your shop owners are leaving inner city its not speed thats the issue. Homeless, lack of pleasing stores and parking are the issues.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Disagree

Q10. **He aha ai?Why?**

Again feel this is an unnecessary change there is not enough supporting reasons for this change. Focus on the maintenance and upkeep of the roads. Waka Kotahi focus on the cars. I do not feel you have a relevant or feasible enough cause for this change

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it wont reduce crashes, people already speed and create crashes this problem will only increase. It wont reduce noise or air pollution it will prolong both the pollutions taking those who do obey the rule longer to go past. It wont get any more people out walking and cycling any more than what there is already and it wont help the health and wellbeing as it will affect many mentally with this change.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I feel like this will just put more pressure on our already stretched police force and distract them from where they need and the community needs them to be focussed on, actual crime. Just the other day a friend had someone try and enter her car at night while stopping at lights her saving grace was she had locked the doors, police will be too busy pulling people up from speeding than trying to get those people off our streets. I think this plan will just increase mental stress and is a change that is not going to be actually beneficial. If you want more vibrancy and liveable city, fix the roads we already pay good money for in our rates and regos, get the homeless situation under control, leave the police available to actually reduce our crime rate and sort inner city parking so shops want to be there and shoppers have a reason to visit.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Will course more road rage and it will take longer to get places. And cost of living is making us work more as it is so we already have less time to do things

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

There is nothing wrong with 100 as it is there is other changes like fixing the roads instead.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

No because the speeds have nothing to do with y things are going wrong look at how you are fixing the roads instead of half ass fixes where only latest 3 days

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The extent of the limitations is far too vast. The disruption and reduction in productivity far outweighs the potential reduction in the road toll.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I support reduction in the central shopping and restaurant areas, but again the area in the map is way more extensive than this

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

I agree with reduction around schools but not for all rural roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reduction around schools should be reduced around schools. Leave everything else alone. 30 l'm is stupid. Normal people will suffer. The rest of the stupid people will go over the limits and never pay and fines. Those people don't care. I sit with my mum in Robertson street and a 4 cars go past at 80 kn/hour often. More bumps are needed around town. This will slow people down and hurt the cars as well. Revenue generation is the only benefit and it NOT going to benefit the locals

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p>	
<p>Because we have lived confidently with this speed limit responsibly. It's the idiots hooning around at 100. Speed bumps in problem areas</p>	
<p>Q9. <p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

Because I suffered through it in Auckland and it's a joke

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More action is needed to stop the speedy people travelling at high unsafe speeds. They are the ones causing accidents not the people travelling at 50 km. Start with Robertson street more bumps needed.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. Why?

There are many forms of transport. But the majority of NZ and Rotorua use cars to get around. This is for a number of reasons including convenience (not everyone works 9-5 or locally) needs that aren't supported by other transport options (e.g. freight, tight timelines for dropping kids at sports etc), or don't live near other transport options that work for them. Plus some just choose not to use public or active transport (walking, cycling, skating, scootering etc) for any number of reasons including weather, personal preference etc. Reducing speeds to 30kph on most of the Rotorua road network for little gain makes no sense. And will only seek to agitate most road users with more congestion and slower transit times. Which will also affect public transport. The slowing down of traffic outside of schools makes sense. As it is targeted at an area of high risk (children can often make impulsive decisions like running across the road without checking both ways) multiple converging transport types (private vehicle's, active transport, and public/school bus transport), and congested space (both physical space and time). None of the non-targeted harm reduction measures will pass any realistic cost benefit analysis, as the costs of increasing transit times/lost productivity, increased emissions (from more congestion due to less free flowing traffic/network capacity per hour), increased local and regional freight costs (due to slower transit reducing efficiency and raising costs), and reducing use of public transport (due to increased inefficiency) far outweigh the benefits of the slight reduced risk of injury and small amount of transport substitution to active transport that may occur from widespread reduction of speed limits to 30kph.

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map Neutral (No opinion)

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

Some of these roads although not safe for all drivers to drive at the existing speed limits in all conditions, are safe enough for most drivers to drive at the existing limits in good conditions. The speed limit is the limit, not the minimum speed. If some drivers feel safer driving a little slower than the limit due to experience, confidence or conditions. Then this should be allowed without impinging on the freedom to drive faster where people feel comfortable and the road has been found safe to be at that speed limit for the past many years. After all cars have gotten safer over the years so the impact of getting it wrong (while still horrible when it does go wrong) is much lessened.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport	Disagree
Q15. Lowering speed limits will improve health and wellbeing of the community	Strongly Disagree
Q16. Lowering speed limits will improve liveability in the city by making it safer	Agree
Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits?	Kao - No
Q18. He aha ai? Why?	not answered
Q19. He aha ai? Why?	not answered
Q20. He aha ai? Why?	For reasons outlined in previous questions. And the fact that reducing speed limits rarely reduces the speed of those most likely to breach the limits (they're already breaking them and aren't magically going to stop speeding due to lower limits).

Āe | Yes

Q6. **Why?**

Reducing speed limits in the immediate vicinity of schools would be ideal. But it is not ok to impose this as a blanket rule for all streets across the city. Yes we should all be road safety focused but the burden for that should be only the responsibility of drivers. Parents and schools need to teach road safety too. The network of footpaths, crossings and roads need to be improved with increased visibility of approaching a school and high foot traffic area.especially at peak school times

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p>	
<p>Make the CBD more attractive for foottraffic</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p>	
<p>Need some safety measures for children who use rural schools but again this should be implemented within 500m of the schools and not blanket reduction across all rural roads. Once again Waka kotahi needs to improve footpaths and walkways for children who use rural schools and separate them from the roads and cars</p>

<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reducing the speed limits will not make the city a safer, less noisy place. Slowing down cars will lead to more congestion, driver frustration, more pollution as cars will take longer for their journeys. It will make the area a less desirable place to live.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More education on road safety is needed for children. Parents have a responsibility to teach their kids about being a responsible road user too. More visible signage approaching schools is needed. With electronic signs that flash in the mornings and afternoons, as schools start and finish.

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

Area considered CBD is far too large and the times for these reduced speeds is not stated in the proposal. Would it be all of the time or at peak times only?

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Speed reductions should not be dictated across the board but should be on a needs basis. Which ones need reducing and why?

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Do not agree with the blanket approach across the board. No times for reductions are included. Surely around schools would only be during school times.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Need to focus on those breaking the laws currently and not those who are actually law abiding.

Strongly Disagree

Q8. He aha ai?Why?

I think this is ridiculous, you will just cause more accidents as people will be getting annoyed ect ect I think even if you some how manage to reduce the speed you'll have even more hate and also no one will listen and compliant.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

I think the speed limit atm for these places are fine. You're just gonna confuse people more and as I said before have more accidents. Imagine if you already drive over an hour to work already and then have it almost take double the time. Put your guys selfs in other people shoes.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As I stated previously this will cause more road rage. This will cause more accidents as people will get angry and make silly moves. This will not make people walk more ect ect as you will find a lot of people have to travel to work as or travel around for work. I have to drive from Rerewhakaaitu to Te Puke for work 1hr 20mins. I've been doing this for 3 years and I have never seen an accident or serious accident. Imagine now you it will take you probably 1hr 40mins or more to get to work cause if this silly speed thing. I know 100% of my family and friends do not support this.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Outside the school is a very good idea as that is where a large quantity of children will be walking. In other areas the reduction is just a step too far slowing down productivity and people trying to do their jobs. Focus on better paths walkways and crossings as well as barriers for paths on busy roads.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. **He aha ai?Why?**

People need to do their jobs and this will slow everything down.

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. **He aha ai?Why?**

People need to drive better and to the speed limits not decrease for all of the "good drivers"

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Neutral (no opinion)

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

Because it will frustrate everyone and cost alot of money better spent elsewhere

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Struggled with this one as I live near a school & the worst driving I see is from the parents themselves including parking on yellow lines because they won't walk an extra 10-20 metres. It's frustrating as hell, so I think you need to look wider than a 30km speed limit. That's not the issue....

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>Why????</p>	
<p>Q9. <p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	<p>Strongly Disagree</p>
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	<p>Kao - No</p>
<p>Q18. He aha ai?Why?</p> <p>not answered</p>	
<p>Q19. He aha ai?Why?</p> <p>not answered</p>	

Q20. He aha ai?Why?

Because there is not a need for it , people who speed don't not speed because of a limit change . There are some long stretches of road in the proposal and I think it will increase driver frustration and lead to more accidents

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Why are we doing this? When is stop the spend coming? Waka kotahi is already doing the schools , leave the rest alone

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Current speed limit is doing great. We must focus on drivers not respecting the speed limit, specially those in motorbikes speeding away whenever they want.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The speed limit is doing fine already

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The current speed limit is doing fine. Focus on the limit violators instead. Implement a harder penalty

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

The police only enforce the speed limit law when they want to know it will make it more dangerous because the people who wish to evade will have a lower threshold as well as drawing down emergency responders expect more people to die as fire engines only allowed to go 25km/hr above speed limit ambulance the same so a response time to the suburbs will be slower probably end up being passed by everyone else

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Most of these roads have bad design flaws that cause accidents and near misses most people aren't going to slow down without active traffic measures known as head on the person going faster mostly does the surviving so the people doing the slower speed still going to be victims

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering speed limits is only causing frustration on the roads and new zealand drivers are some of the worst drivers in the world ove driven in America 11 lanes 1 way snd countries were a goat track close to what nz roads are getting to with the size of potholes are getting to slower speeds don't improve bad drivers

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I'm an emergency responce driver fire engines and ambulances I see the damage that is done and how maintenance has dropped in the past 5 years improving surfaces site lines and roadside maintence in think about what you plant on roadsides islands corners egresses and how it's going to effect movements would save a lot of carnage

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing all traffic to 30km will impact deliveries and travel times for everyone. This will result in goods costing more as transport will become less efficient. Emissions will increase as vehicles will be running for longer.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I manage a local courier company that services the Rotorua CBD. Slower speeds will impact on our ability to deliver for our community and local businesses. The result will be increase costs which will be passed onto the consumer with higher prices.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō **whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Agree

Q10. He aha ai?Why?

100 KM an hour out side of a school is dangerous. My local rural school is Kaharoa is already 60km per hour

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Put this effort and money towards SAFER (security) communities not speed limits. And better roading. And health. And education. Not lowering speed limits

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Āe | Yes

Q2. **He aha ai?Why?**

30km/h is only on front of schools on the connectors, makes absolute sense. I fully support 30km/h in residential zones.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

It will make the inner city more walkable. People need to spend time in there to enjoy the offers from cafes and shops, which will be good for business in the long run as well.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Agree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

The current speed limit on rural roads is not safe. The roads are narrow and windy, and 80km/h (or 60km/h in dangerous spots) is more appropriate on them.

Q11. Lowering speed limits will help reduce the Strongly Agree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Agree

Q13. Lowering speed limits will help reduce traffic Agree
pollution

Q14. Lowering speed limits will encourage more Strongly Agree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Agree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Agree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Āe | Yes
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

I think in this time of climate change we need to work very hard on providing safe transport alternatives like walking, cycling etc. Reducing the speed limit will make these activities safer and more competitive time wise with motor transport.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

We need a better cycling network. Stop doing these silly conversions of pedestrian walkways to cycle ways, no cyclist wants to stop every 100m to go down a curb, cross a street, then go up another curb. We need continuous networks through quiet roads, and safe crossing points where no alternatives exist on dangerous roads.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

There are plenty of safe crossing points. Emergency vehicles have to then go slower through town which means responding to emergencies takes longer - time can be critical and fire trucks and ambulances are limited in how much over the speed limit they can go

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Rural roads are less busy and don't need to have slower speed limits. Again emergency vehicles will be delayed getting to rural areas if speed limits decrease due to only being able to go 30km over speed limits

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think the speed limits proposed are to slow and in areas that have already had speed reductions previously. Lowering the speed limit will makes it slower for emergency vehicles to respond for example a cardiac arrest and the extra time taken to get to the scene may mean the person will die

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? [Click Here to enlarge map](#)

Āe | Yes

Q2. **He aha ai? Why?**

I think parts of the street should be reduced to 30km/h, but not the whole stretch of road because they are very busy roads and are main roads and therefore if the speed was reduced to 30, it would take a long time to travel anywhere. I think the main speed limits on these roads should be 50km/h, and some sections such as the lower part of Tarawera Road near the Redwoods centre being 30km/h (i.e. in parts where there are lots of pedestrians).

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? [Click Here to enlarge map](#)

not answered

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Agree

Q8. **He aha ai?Why?**

Reducing the speed in the city centre to 30km/h would help create it to be safer for pedestrians and would make the city more lively and pedestrian friendly. At the moment, the speed limit is 50 which means that it can be hard for people to cross the road since cars are going fast. Reducing the speed limit would also make the city much quieter which would create a better atmosphere in the city so more people would walk around to get to their destination rather than drive.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Agree

Q10. **He aha ai?Why?**

Reducing speed limits on these roads will help cyclists who cycle on these roads feel safer. Currently there aren't any bike lanes on these roads, so I believe reducing speed limits will help cyclists feel more comfortable biking on these roads. Reducing speed limits will also reduce road noise which will help people that live in those areas to be less affected by the noise and will also mean they are more likely to walk down the road rather than drive.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. He aha ai?Why?

Reducing speed limits in the city and around it has heaps of positive benefits for community wellbeing so I am in strong support of reducing these speed limits. Will promote better wellbeing through reduced noise and also because it will help increase the amount of people that bike or walk for commuting rather than taking the car.

Strongly Disagree

Q8. He aha ai?Why?

30kph is slower than I travel on a bicycle, and causing cars to slow down means they spend more time in the cbd with less gaps between them making it less walkable.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lower speed limits mean higher pollution as many vehicles won't allow you to use their highest gear ratio below 60/70kph, also slower driving increases the time required for a warm up cycle and the length of time an engine is running also adds to pollution, fuel consumption and engine wear.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If these proposed changes are made, I will ignore them and continue to drive at a reasonable safe speed, both in my car and on my bicycle.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's been drafted by someone who has an agenda and thought hmmm let's put a band-aid over the real problems. under age driving, drug and alcohol and illegal vehicles also the raising cost to keep a vehicle on the road has allowed for many vehicles to be on the road illegally

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

change lives not speed limits and those don't save lives cause how many times have you heard of an accident and they have lived to say "oh lucky it was a 30km area or I would of been dead"? NONE that's who cause regardless of the speed limit if someone wants to go fast they are going too.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50km/h is slow enough. Reducing the speed limit is not going to make the Rotorua CBD more vibrant, reducing crime and the undesirables that treat the CBD with disrespect will make a difference.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

not answered

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limits will just frustrate drivers. I live in a culdesac that the proposal covers and I don't understand how lowering the limit on this street will make any difference.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Setting a slower speed limit will not change anything. You still have drivers who have no idea on how to actually drive, however changing the speed limit in front of schools could help a tiny bit, especially with cars around children, but parents should be teaching their children how to be safe around roads. Others should not be penalised for bad parents who don't teach their kids anything or bad drivers who should not be on the roads. But changing the speed limit else where is going to cause more frustration within the community, I'm already annoyed at certain speed limit changes and you can tell others are also. For instance the speed restriction on Te ngae that drops to 50km/h, this is ridiculous. I know it's for the St John's team. But when you drop your speed other motorist stay so far up behind you it's like your now towing. Changing speed limits does not effect the outcome of an area, you will always have those idiots who will speed and hurts them selves or others.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

Why!!! No one does 30 even when it's road works, people get frustrated 30 is far too slow. 50 is fine. I've never had an issue with the speed limit at 50, you can slow if need be then speed up again no issues. Please leave it how it is. It just doesn't make sense to change it. You can't change stupid and you'll always have speeders.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

Once again why,?? It won't be safe, as I said you'll always have speeders and those who don't know how to drive ruin it for the rest of us. Stop slowing down areas, speeds are fine. You can't take the stupid out of people. Like why do you want to frustrate so many people by making us even slower. More road rage will come up.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Changing speed limits does not make a healthy and safe city. Our city is not safe!! Being a white female I would never ride my bike or even walk into the city, it'll get stolen and I'd be jumped. Sort the stupid crimers out I you want a safer city. Other people also need to use their cars for work related stuff or going to work, I work outside of Rotorua

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Change speed limits don't change anything, your just putting a spanner in the works. You'll frustrate more people who are already on the verge of frustration or anger, by restricted them. Going slow does not change things. You can't take the stupid out of people, most drivers in nz do not know how to drive. They have no experience. Parents need to also teach their kids about road safety. Why must everyone else suffer for someone's bad parenting as they don't know how to keep their kids safe around cars and roads. Also this won't help with a healthier city, I would never ever ever ride or walk into work or the city. This city is not safe for that. You'll get gang members, homeless or just delinquents attacking randoms for their stuff and that'll either end in death or hospital. For instance my husband and I walked out of hells pizza one night and some guy tried to jump us. You councillors need to think. Changing the speed won't change anything but create more issues. Maybe speed limits around schools yeah ok change those but else where leave it alone.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because no one will adhere to it. People will use non-30km/h streets more to avoid. People who don't adhere will dangerously overtake people adhering to the speed limit. I don't believe drop the speed limit will make people safer

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

I don't think people drive particularly fast in CBD anyway as it is so built-up

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Because the people who are driving badly or speeding aren't going to take any notice of the speed limit drop

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? not answered

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Lower speed limits won't make people happier or be off the road more. They'll be on the road for longer and they'll be angry while driving. I'm now filling in this survey. I understand that dropping the speed limit makes people safer generally. My concern is it will make things worse for the people who choose not to adhere, start overtaking slower vehicles and cause more harm.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you want to encourage less car usage develop safer cycleways and better public transport. Reducing the speed limit on all roads will just lead to more frustration for those who don't stick to the current limits and then they will take stupid risks. Enforcement on the current speed limits would be a better place to start.

Āe | Yes

Q6. **Why?**

Whilst I accept the evidence on 30kmh limits is strong when considering pedestrian fatalities, the issue is driver distraction and abilities. My worry is that drivers will spend more time watching their speedometers or looking for camera vans than they will be watching the road.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Neutral (No opinion)

Āe | Yes

Q6. **Why?**

30km blanket reduced speed is totally unnecessary and will absolutely impact every persons everyday life whether they cycle, bus, walk or drive, will affect peoples livelihoods eg taxi drivers, etc I would like to see the stats on speed related crashes (specific to our district) including damage caused- material damage, injury and level of seriousness or death. Target the issues that contribute to such incidents especially if they are avoidable -may relate to road conditions, layout, surface, visibility- vegetation (blind spots) etc repeat incidences in a certain area. Better education where needed, schools ,young drivers - be considerate careful drivers, tougher penalties for irresponsible drivers. There will always be some idiots that will cause avoidable accidents regardless of the speed limit. Once again the majority sensible people pay for the minority that make up most of these statistics. Totally against this .

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD Click Here to enlarge map	Disagree
Q8. He aha ai?Why?	Possibly only in a City centre around the shopping area where there may be heavier foot traffic, Rotorua city is hardly a bustling city it's pretty quiet most of the time. so NO
Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways. Click Here to enlarge map	Neutral (no opinion)
Q10. He aha ai?Why?	some areas maybe others no depends where they are
Q11. Lowering speed limits will help reduce the number of speed-related crashes	Disagree
Q12. Lowering speed limits will reduce traffic noise	Disagree
Q13. Lowering speed limits will help reduce traffic pollution	Neutral (no opinion)
Q14. Lowering speed limits will encourage more walking and cycling for transport	Disagree
Q15. Lowering speed limits will improve health and wellbeing of the community	Disagree
Q16. Lowering speed limits will improve liveability in the city by making it safer	Disagree
Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?	Kao - No
Q18. He aha ai?Why?	not answered
Q19. He aha ai?Why?	not answered

Q20. He aha ai?Why?

Because it's too general and different areas will have different factors that all need to be taken into consideration whether it will benefit or not

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Needs a lot more fact finding specific to each area to determine if any such change is worth the cost to implement and what in reality are the likely benefits. You cannot force such a change on people's lives

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it's ridiculous. Bicycles travel faster than that. Speed isn't the main issue and the problematic drivers wouldn't respect that speed limit anyway.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

The current speeds are fine and no one would follow the reduced limits anyway. Research shows that crashes, injuries and fatalities actually increase when the limits are set too far below the engineered road speed. The only changes should be to make speeds more consistent.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Need to reduce speed outside schools but not all streets.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

If more was done to rid the inner city of beggars and the low life we would have a more vibrant inner city centre. There is no incentive to walk around Rotorua city centre when you are constantly asked for money, sworn at and abused.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limits is not the problem, it's the angry impatient drivers.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Rotorua has the most impatient angry drivers I have ever seen.

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Slower speed limits directly outside of schools makes sense because there are large amounts of people who are constantly crossing the road and parking their vehicles at the same time.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Agree

Q8. He aha ai?Why?

A lower speed limit could reduce the number of incidents where pedestrians could be hurt and vehicles could be damaged in the CBD.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I'd rather the speed limit kept the same rather than the speed limit being reduced to 30km/hr for nearly all of the residential streets and roads. I think the proposed reduced speed limit area surrounding schools could be smaller in size to streets on the same block or two blocks as the school itself. For example, reducing the speed limit to the streets located close to my home, Wingrove Road and Coulter Road, would be pointless because there are barely any pedestrians walking along those streets for speed to be a concern. There could be speed reductions for Brent Road, Porikapa Road, Reeve Road, and Wharenui Road which are located in close proximity to Lakes High School, Owhata Primary School and Mokoia Intermediate School. But reducing the speed limit to streets beyond those particular locations is not necessary. Also will there be enough police officers and speed cameras to monitor and penalise drivers who break the speed limit? There's not enough police officers doing their other things in our suburbs.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Setting a 30k speed limit on every urban street is an over reach, excessive and would be an expensive exercise that is hard to implement and enforce. Are you going to put a 30 sign on every small street entrance? Or a camera or police car down a quiet urban cul de sac? People will still drive 50 down their own street after a lengthy and costly project to change speed limits. Fully in support of a safer reduced speed around schools, CBD and other high risk areas.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

Safer for pedestrians.

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. **He aha ai?Why?**

not answered

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Agree

Q12. **Lowering speed limits will reduce traffic noise**

Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Agree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Enforcement has a more meaningful impact than blanket reductions of the speed limit everywhere.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The main issue with the CBD is crime and vagrants not the speed limit.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

The quality of roads is now the major issue rather than speed limits and, again, enforcement of the current limits is more important.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is a poorly thought out plan that focus on blanket reductions of the speed limit rather than enforcement of current limits and road upgrades.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

As New Zealand urban speed limit is already far below most countries reducing it further is not the correct solution all it will do if cause more frustration for motorists, which in turn reduce concentration on the current task of driving increasing risk. Creating suitable infrastructure for shared use would be far more productive use of capital and improve road safety for all users. As children are generally less spatially aware than adults reducing speed limits around areas with a predicted consternation of such individuals is sensible and in short enough stints that people's concentration cannot waver.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p> <p>As it will do little to address risk and could potentially increase the risk level as motorists will be frustrated and more likely to be distracted by phones, radios etc</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p> <p>Fix the roads don't lower the speed most countries top speed is 120km/h, the variation in speed would add hrs to transport by truck increasing cost during a time when no one can afford to eat!</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Neutral (no opinion)
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Strongly Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Strongly Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Strongly Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Strongly Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p> <p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As it is the wrong approach and will increase the carbon foot print (longer journeys means more carbon, most of a cars energy is used to over come friction fuel use at higher speeds is more efficient, city driving vs open road (this changes at around 230km/h were wind resistant increase friction coefficient) while this will reduce speed related accidents it will also increase fatigue, distraction and road rage incident. Will also have impact on costing of most goods as transportation cost will go up, more time and fuel means higher cost.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fix the infrastructure, it won't be alright New Zealand has a road infrastructure far behind many third world countries

This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

This was tried through napier taupo. No one follows the limits, and for those of us in speed restricted cars it is extremely stressful. It would be ok if each part of the road was risk assessed for safety, not just blanketed applied.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The city isn't set up to walk and bike, were not a well laid out european city..lowering speed limits won't fix that. Cycling to work in this country is a privileged person's ideal, and not in alignment with the cost of living crisis.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I think 30km outside is reasonable during school hours when parents and kids are in the area. I do not support this outside those times, including whenschools are shut for holidays. Why would those limits be in place when there's no traffic? You are diluting the importance of the limit

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Children are highly distracted when going to and from school and require additional safety measures. We have alot of crosswalks in Rotorua which are all that is required.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The map shows far too many roads with reduced speed. Production is a problem for our city and nz, this will only increase the problem.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Same as last answer, as a city and country we need to be more efficient not less

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As stated, the people who speed and drive recklessly will continue. Thos that always drive carefully will continue but will be frustrated so will avoid the CBD which is the opposite to what you should be doing right now!

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Please install more speed cameras with a lower tolerance (5km over the limit) around the cbd and problem neighborhoods

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

As someone who works within Road Policing. I think lowering speed limits will have a negative impact on the attitudes towards road safety. More effort on education and listening to the communities concerns in regards to road safety should be a priority. Someone did 120km/h down Devon Street yesterday (50km/h zone). Regardless of speed limit changes, they were speeding. Attitudes need changing, not speed limits.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Are we supposed to disregard "Drive to the conditions", and lower speed limits to replace good judgment and education? Lowering speed limits in rural areas is known to increase frustration and increase risk taking leading to dangerous driving.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because lowering speed limits won't lower speeds. It will just mean we have more speeders. Leading to resentment.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This proposal puts pressure on an already busy police force in this district. It's easy to sign a document to say yes to this proposal. It's a very different think to enforce

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I feel 50, km./h is already a good speed in areas around town. Maybe reduce to 40 km/h but not 30. Also 40 km/h for around all schools and playground areas between 8.00am and sunset.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

It's not the people driving at 100 causing the accidents it is the drivers speeding and not driving to the conditions

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Feel speed limits that are there now are sufficient other than school areas during hours children are going and going home from school. 8.00am to 4.00pm

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

would like to see no u turns at all lights. Especially by pak n save

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

people tend to be crossing everywhere, cars are usually slower in the cbd while searching for parking spots, reducing to 30 would be an overall safer option in the cbd compared to 50km/h.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

I agree with 80 for roads that are windy, narrow and hard to anticipate the next 1km stretch of road. 80 would also be a safer option when driving at night especially near touristy towns where people aren't familiar with the roads.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. He aha ai?Why?

seems like an overall safer road environment.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

with changing speeds, it's important to keep the speeds consistent. 1km 80 followed by 1km 100 followed by another 1km at 80 with speed cameras is great for generating speeding tickets but if the drivers are confused those speeds limit changes are pointless.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed limits are currently not being enforced so most people speed. E.g. the change to 50km/h on Te Ngae Road needs to be enforced, the speed limit of 30 km/h needs to be enforced. No point lowering speeds if people ignore them. The current new developments in the district also need to be taken into account. E.g. new subdivisions in Owhata are substantially going to increase traffic flow. Have these changes been taken into account of where that traffic will travel?

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

I support a move away from a car-centric society however lowering the speed limit will not entice people to use other forms of transport - the other forms need to be made more attractive. e.g. Cycleways need to be kept clear of debris and cars will encourage more cyclists (this is a major issue along the Morey Street cycle lane), public transport needs to be more convenient (and cheaper) than driving.

Strongly Disagree

Q8. **He aha ai?Why?**

Because there is no evidence to prove that a 30km speed limit within the CBD will make it safer for road users - enforce the current speed limits and red light violators

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map**

Strongly Disagree

Q10. **He aha ai?Why?**

There is no requirement on a safety front to believe a blanket reducing of the speed limits will assist - roads need to be maintained correctly and allowed to flow - if there is a specific area that isn't currently safe to travel at the current posted speed limit then it needs to be reduced until such time that the road / environs are brought up to an acceptable standard.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

Having been involved in law enforcement for the past 37+ years it has come apparent to me that the public's attitude towards road safety has bearing than the "silver" bullet suggestion of simply reducing speed limits through out the city. You only have to look at the impact that the McDonalds advertising campaign "Make it Click" had on the wearing of seat belts across the country. Likewise the general publics attitude towards Drink Driving has changed marketable. Driver fatigue being the cause of an accident can be increased if they are traveling at a snails pace because a driver will believe they have time to close their eyes. An example of safe speed would be the new motorways where 110 kmph is "Safe" as a result of road design. It beggars belief that Fenton Street is currently 50 kmph where as some sections of Old Taupo Road are 60 kmph and now they propose that Fenton Street be reduced to 30kmph. Attitude, road design, and the public not standing for dangerous driving will make the roads safer - simply a blanket reducing of the speed limits will in no way stop people on off road motorcycles riding on the roads without helmets - they and may others break the laws now - how could anyone think that reducing the speed limit will change their attitude and behavior. It will only punish the law abiding people. Re Children around schools - when parents decide that their kids can walk or bike to school and there isn't the cluster of SUV's with busy parents encroaching their child to shoot across the road - because they couldn't get a car park on the school side, then possibly roads around schools will be safer.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Whaka Kotare have failed the public of NZ with their poor management / maintenance of NZ Roads, the NZ Police have under delivered in road safety and enforcement and now their quick fix is to ruin traffic flow by the introduction of lower speed limits on roads that are safe for the general public who do abide by the rules, those that don't get away scott free. Please Wake up to reality

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The application of the 30kmh limit outside of the 500m in front of schools would be impossible to enforce and is therefore pointless.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

Most people drive to the conditions, that is if its wet and busy they slow down. That is sufficient along with the 50kmh limit. Also very difficult to enforce.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Cars are capable of much higher speeds, safely. And are getting better. Leave the speed limits as they are.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is pointlessly restrictive.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The issues with speed are mostly caused bu people who ignore the current limits - lowering the limit will not affect their behavior at all.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because its a stupid policy. In the last 6 years government/councils have done nothing to promote efficiency and/or helping people get around town faster. Instead we get this woke policy just because some other equally woke group overseas says its a good idea. Come on council wake up!! As traffic volumes around Rotorua grow you guys should be looking at ways to keep the traffic moving quickly not slowing it down. Seems like another government organisation totally out of touch with reality.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p> <p>Its not needed. Having a vibrant and safe CBD has nothing to do with speed limits.</p>	
<p>Q9. Strongly Disagree

Q8. He aha ai?Why?

This will cause too much congestion. Police will have too many call outs for incidents of road rage and accidents as a result of impulsive drivers who are simply trying to get from A to B.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Why does this need to change? These are rural roads and there is nothing there!!!! I travel Dansey road every day and can tell you for a fact that there is no way that needs to be changed from 100km/h. Even in winter when that road is icy, people automatically reduce their speeds accordingly to the conditions as they should. Equally I can tell you there is 1 resident in particular who will travel Dansey road every day at peak hour times between 70 and 80 km/h, every single car coming down the hill that morning will over take this vehicle without fail. Not only that, they will try and overtake wherever possible! To reduce speed on rural roads you would ensure the accident toll and potentially the death toll would rise.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think that this proposal has not been thought about at all. I see no evidence to support such a proposal as being beneficial to drivers or to the community, or to the central business district. If anything, raising the parking fees to such astronomical highs has forced people out of town anyway because they cannot afford to park there. There is nothing broken with the current speed limits, why change them.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

There a certainly more important matters council could use their time discussing and use our rates for than worrying about the speed limits. I am a rural resident in Mamaku. Half of anything council does, does not benefit our community in any way yet you happily hike and take our rates. Leave well enough alone.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

This area is too large. Roads in the very inner city could be reduced to 30km. But this map shows a large area that would be effected.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

You'll have cyclists been given speeding tickets and also the flow of traffic with be impeded. You'll have young people in their cars reeving engines and we do want to get thru the traffic lights in a flow of traffic not dribs and drabs. Lowering the speed limit in built up areas is not going to reduce speed limit that much. How about more presence of police would make a difference and people need to drive to conditions and not duck in and out of traffic to get there faster. Better to be a bit slower and get there in one piece than not get there at all. People need to indicate and be courteous and enjoy the country we live in. Have a good day.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p>	
<p>Because your always looking for parks and people need to be courteous and let people out of parks so that you can get into the park. Also watch for people crossing as not everyone walks fast enough especially when crossing on lights. be patient and plan your trips around busy traffic areas.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Agree
<p>Q10. He aha ai?Why?</p>	
<p>Because if there are a few shops or schools around speed needs to be slower so you can get a park safely and also get back onto the road safely.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Neutral (no opinion)
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Agree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	not answered
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Neutral (no opinion)
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Neutral (no opinion)
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

30km is too low but reducing speed around schools and in central Rotorua and suburb shopping areas is a good idea but have it one or the other. We've got enough signs now with out more reducing speed and increasing it all the time that could cause more distraction and then more accidents. It's bad enough driving on highways and they have 100km then down to 60km and then up to 80km and then you get road works where you have 30km then 100km then 50km overlaped by a 50km. This is where alot of problems come from.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Get these road construction companies to sort out their signage. Have A GOOD DAY.

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I think that 30km/hr is too slow for any road unless it is around a school where children are likely to be crossing roads. It is extremely difficult to drive at only 30km/hr if the road is clear. How about putting more money into the public transport system to encourage less cars, make them more frequent/lower cost/cover more areas.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

there is no need to go faster in the CBD, it should be a place where people feel safe to cross roads

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. **He aha ai?Why?**

I think 100km is too fast on any rural road, our rural roads are not safe to drive at this speed

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q8. He aha ai?Why?

Vehicles not travelling at their most efficient speed are less fuel efficient, emitting excessive greenhouse gases, and spending more time on our roads attempting to reach their destination. This in turn will harm the environment unnecessarily. If you really want to improve Rotorua, make it a one-way system at the current speed limits. This will improve traffic flow, enabling vehicles to reach their destination faster and more efficiently which will reduce greenhouse emissions, and make it safer for pedestrians as the traffic will only be flowing in one direction. Provide free and consistently reliable bus transportation around Rotorua. This will encourage people to make use of the service which will reduce traffic on our roads. Here's another radical idea: FIX THE ROADS.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

To protect possible accidents with children, even that there is not much in the news that we have a significant problem here. But to reduce the speed everywhere else to near walking pace it just ridiculous. A bit of responsibility to take care of where you walk should be promoted.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>Just too slow to get anywhere. 40km would be just acceptable.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p>	
<p>80km would be the speed most acceptable in most of these roads. Going up Dansey Rd at 60km/h is just so pointless and a waste of time.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Neutral (no opinion)

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't fall for the ridiculous notion of zero Road toll with the ever increasing amount of people living here. This is pie in the sky and common sense has to prevail. Especially for rural people, there is no alternative bus service, so slowing everyone down to snail pace will just create more aggressive or frustrated drivers.

-

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I would agree to 30km/hr in the very central CBD, 50km/hr in suburban areas and a consistent 60km/hr down Te Ngae Rd where there are no houses all the way through to the lights on Fenton, then drop down to 30km/hr (central CBD) and back up to 60km/hr after crossing Ranolf St.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I find the speed limit changes on SH31 within the short area from Tarawera Rd to the CBD a bit ridiculous. Where it used to be 70km/hr all the way through, I think it should just be 60 km/hr all the way through. Just be consistent.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The status of the State Highway speed limits are not clear and are not marked on the plan. There are ways to make these roads efficient and safe at the same time. Better by-pass or corridor arrangements should be made for those vehicles transiting THROUGH Rotorua. The plan only seems to consider Rotorua as a township.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Infrastructure that separates people and cars would be better than lowering all limits. What about a cycle way that is separated from traffic that connects communities? Rotorua has State Highway transit to consider. Perhaps a better bypass situation and then lower the speed on local roads would be better.

Āe | Yes

Q6. **Why?**

Why would you consider dropping the speeds. It's the potholes that are the issue! Fix the roads!

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Why not!

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Why not!

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's dumb!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Show us the stats regarding speed vs potholes. Then I might take this seriously.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Don't believe a blanket reduction of the speed limit across the city will alleviate the problem, only irritate drivers. A reduction around schools makes sense but I would encourage to take that further by specifying it be done during drop off and pick up times Monday to Friday only

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>Will only frustrate drivers. If it was restricted to a defined area like Tutanekai Street and those feeding off it in say a 2km direction then I would support it</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Disagree</p>
<p>Q10. He aha ai?Why?</p> <p>Again believe this will only irritate and frustrate drivers</p>

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The current speed limits work well. There will be times of the day or night when going up to the current speed limit is safe and at other times one has to go a lot slower anyway. The majority of drivers should be able to use their judgement. I don't think any actual facts have been given to show the necessity for a change and nor could we afford all the new and extra signage needed considering the Rotorua Lakes Council is already deeply in debt.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

The rural roads in the area vary from straight sealed roads to windy unsealed ones. Once again most drivers should be able to use their judgement and adjust their speed accordingly. Not everything needs to be micromanaged.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

One moment it's being touted as being for safety, the next moment it's supposedly to encourage us to exercise more. This is ideologically driven, not driven by safety. The chances are it will just increase frustration and increase costs and potentially cause havoc. Modern vehicles are not designed to be driven at such low speeds all the time.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The Rotorua Lakes Council is already deeply in debt, we do not need unnecessary expenditure and if the last few years have taught me anything, it is that when a government talks about measures to keep us "safe" what they really mean is that they want to implement greater control over our everyday lives. This needs to stop and our council and others need to grow a backbone and refuse to be backed into actions that are going to put them even further into debt.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Having experienced reduced speed limits in other cities, they reduce the natural flow of traffic. Create stress and anxiety on the driver to stick to such a slow speed if not warranted. While I support alternative methods of transport. Walking, biking is not always a practical solution. Also under the official information act it was discovered for Wellington CBD that the benefit calculation was grossly incorrect and did negatively affect businesses.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I trialled driving down Western Road at 30 km/hr. The road is built and designed for 70km/ hr. I couldn't keep the vehicle to run smoothly in a manual 2nd gear! School Road 30km/hr fine - but other streets using a 1 km radius is too simplistic and not well thought out. I do not support this.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Kids are unpredictable and schools usually have large numbers of them at certain times of the day. This limit should only apply during the times children are arriving at or leaving from school.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

People should be able to judge for themselves. However, the small central, bricked area where both foot and vehicle traffic share the 'road' really needs signs to remind EVERYONE that pedestrians have right of way and the speed needs to be brought RIGHT DOWN - 5km/hr. Its a wonder no one has been bowled over here yet.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

People should be able to jidge for themselves.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The road speed is not causing excess death and chaos.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

There are far more important matters that need dealing with. Road is NOT one of them.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

When it's busy the speed naturally reduces. Speed time and money where it's needed

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Show me the data where these roads are unsafe as they are

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Show the data and research that show a change will make a difference, show the data of all the speed related accidents

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Leave as is.... but increase the speed on TeNgae road between Sala and Tarawera roads

Submitter Hamish

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The proposed area is vast and largely without foot traffic. a smaller area focused around the shopping area (eat st to mid-fenton st?) would be agreeable though

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

The roads are safe at the current speeds. People drive to their ability anyway. Perhaps try not letting the roads rut out and get covered in potholes?

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Too vast areas, too dramatic reductions. Rotorua is a long area. Commuting time would be massively affected causing more pollution etc than currently. Smaller more focused areas would be ok

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because of the global push for the creation of 15 minute cities, which I believe these proposed changes have more to do with.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

I only use rural roads very occasionally. Opinions of those who use them regularly would be more important

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Previous questions did not have any supporting evidence which would persuade me to vote 'yes'.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

As I have said the push to have people walking and biking in my opinion has more to do with the creation of 15 minute cities

Q18. He aha ai?Why?

Safety, less crashes, more pleasant environment, less pollution

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Large Trucks should not be driving down streets such as springfield road. They cause houses to shake like it's an earthquake. Trucks should have designated roads they can drive on. The lowered speed limit should include the whole of Springfield road due lots of cyclists, children walking and cycling up this road

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Your map is too wide. It should be city centre only, not urban residential

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Will cause more traffic congestion. Therefore drivers will not keep to it and then increased risk of accidents due to frustration

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I believe that traffic will be more congested, people will be more impatient and take more risks- we see it now , I with all the road works. As the population grows, so will the congestion. Have you ever tried to get out of a side road during sat morning netball with backed up traffic down malfroy road? No one will be able to move anywhere and the gridlock will be for longer! What about peak traffic times, where we already see aor congestion down fairy springs and te ngae roads for example? Why not reduce the speed limit outside school down to 40kmph during school start and end hours- maybe using electronic signage? I believe gridlocking the city to 30km is ridiculous. I saw your stats regarding injuries. Were those all related to speed? Or were there other reasons eg running red light, drink driving, inattention/distraction, failing to give way, stop at stop signs?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It sounds like it is a done deal but you are just ticking boxes to say that you have consulted with the community. My money is on that there will be a roll out of new speed signs shortly, despite what the public want!!!!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Decreased speed for everyone does not make any difference to the idiots or drug effected drivers that will ignore any rules or common sense and still drive irresponsibly

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Same as the answer above and people need to take self responsibility, learn how to use common sense if you are a pedestrian amongst cars. Otherwise just go back to horses and carts, that would be more interesting than seeing cars hardly moving

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Same as my previous comments, the whole idea is ridiculous

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

You can't legislate against morons who don't follow any rules and drive dangerously, whatever the speed

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

I agree as long as the restriction only applies to the inner CBD, ie Tutanekai/Eruera/Hinemoa/Pukuatua/Arawa. Many other cities now have similar limits. In my observation most traffic travels close to this speed now.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q10. He aha ai?Why?

I do not feel able to offer an opinion on this.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Neutral (no opinion)

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

I suggest that intersection accidents are the result of inattention and impatience, and deliberate running of late orange or red lights, irrespective of speed.. Asking if reducing speed will reduce speed-related accidents is disingenuous. Noisy vehicles and excessive speed would be better dealt with by improved policing.

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

We have been inflicted with speed bumps in Edmond Rd, presumably to control a few nuisance vehicles: a handful of un-helmeted youths on motorbikes. Surely they could have been apprehended without irritating the majority of law-abiding motorists.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Āe | Yes

Q4. **He aha ai?Why?**

People won't cut through the suburbs but stay on main roads. There won't be as much road noise. Reduce the power of the car so people feel safer to ride bikes and be on the pavements.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

To make being in town more pleasant, create a street life with pedestrians. Reducing the speed will make driving into town less convenient and slower to get around. This may make walking/biking seem less of a drag. In the future there will not be as much personal car use so we should start to support alternative ways of getting around town.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

It would depend on the road. If there is a school close by the speed should be lower to make it convenient for children to walk/bike and be dropped off close to school

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Agree

Q12. Lowering speed limits will reduce traffic noise Strongly Agree

Q13. Lowering speed limits will help reduce traffic pollution Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Agree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Āe | Yes

Q18. He aha ai?Why?

To make the roads a nicer place for other uses of the road way. Presently, roads are mostly for the car, any other user as to take up as little space as possible. With the rough chip on our roads, cars are very noisy, if you are on the footpath of a main road it is not a very relaxing way to commute. On the east side there are not many parallel roads to the main road so all commuting has to be via the main drag.

Q19. He aha ai?Why?

not answered

Q20. He aha ai? Why?

not answered

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

Good luck! I drive a car, ride a motorbike and commute every day on a pushbike. I will happily be inconvenienced when I drive by slower speeds. I think most people do not have to drive to local destinations but could easily walk, bike or take public transport, we have got used to driving over the years as it is convenient and cheap, now we have to get un-used to it again. Slowing down car traffic in the suburbs will begin leveling the playing field.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It's pointless, it will simply cause more traffic congestion, and frustration leading to road rage and either careless or dangerous driving and speeding. The people who constantly disobey the current speed limits will still continue to do so and those who cause accidents will increase either because of driving too fast or too slow.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

It's pointless, it will simply cause more traffic congestion, and frustration leading to road rage and either careless or dangerous driving and speeding. The people who constantly disobey the current speed limits will still continue to do so and those who cause accidents will increase either because of driving too fast or too slow.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it seems like a short sighted knee-jerk reaction. Better driver education, safer roads, more passing lanes, renewing driver licence tests every 10years are a couple of suggestions off the top of my head that would better serve.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I believe that frustration whilst driving is often due to roadworks. This specifically relates to how long the construction takes and how often no visible progress is made for days or weeks on end. It is especially frustrating when required to slow down and there is no work being done or the signs serve no real purpose and only disrupt the flow of traffic.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I can accept outside schools but reducing overall speed limits will greatly add to already increasing congestion.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Speed already self regulates itself in town. The police are already preoccupied with far more life treating crime than people going 15km over a carport speed limit

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

We've had these speed limits in place for decades. Cars haven't regressed in capability so why are re reducing limits? Perhaps the real issue is the poor state of our roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is clearly in line with an addenda to try to reduce wear and tear on roads to reduce expenditure and push ev range (as they run more efficiently at lower speeds). The reason why people don't commute on bikes is because they cycle paths are disjoint and for lack of a better term 'suck'

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I'm in support of building better infrastructure however we currently have congestion problems and choke points (see te ngae rd and the round about before ngongotaha) that cause significant road noise, driver frustration and pollution. Adding lower speed limits will bring traffic to a stand still only worsening this (not to mention restricting emergency services access). If we want a true commuting city, we need far more than to piss people off enough to get out of cars. We need real infrastructure around bike parking (I've spoken to the council about this in the past) and a fully thought out bike plan with separate bicycle highways that allow people to ride from all suburbs in towards town.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Too many steps have been taken to stifle transport. Public transportation is not free...why not? If it saves so much on infrastructure and minimises pollution the benefit/s are the payment. Recently I have experienced the traffic system including public transportation in Thailand. Minimal traffic controls but the system relies on common sense to a large degree. The speed limit well....step onto the road in the traffic and you will die. By the way I didn't see pot holes. You can not regulate the stupidity out of people who will flaunt the common decency. Boy racers will continue to exist , passing inappropriately, parking to create bottle necks etc. How to control every conceivable act that may or may not cause harm. Perhaps the controls cause harm (have you noticed that vehicles can minimise the effects of a speed bump by driving with one wheel in the gutter where the speed bump is not). This problem is easily fixed by continuing the speed bump in the gutter...or is that going to cause another problem? Think carefully on these changes as the affects to changes to cure perceptions of problems will I repeat will cause consequences that are not do easily anticipated. It used to be safe to ride a bike on the edge of the road. Now its scary going through speed bumps as cars move over to the gutter.

Āe | Yes

Q6. **Why?**

Keep children safe around schools which are busy at drop off and pick up times. Other roads leave as they are. No reasonable need to reduce speeds on all roads both rural and urban.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

CBD already dying with parking charges increasing, businesses will struggle. Doubt the vision of a vibrant inner city will come to fruition.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again reduce speeds around schools then leave well alone.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Cost involved for a start. Who funds all this?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Yes. Have any of you attempted to drive at the new proposed speed limits? I would be interested to see some statistics of numbers of car accidents, people killed or injured by vehicles. Driver education will be massive. Who will police this? I don't think the Rotorua population is going to be driving at 30 kph. There's already people tailgating when I'm at speed limit. How is this going to be enforced?

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Speed limits should be set within certain times ie an hr before and after kids arrive to and leave school. 30k down roads such as Vaughan Rd is nonsense. I would guess the average speed driving through cbd is 40, slower if it is busy.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

It really depends on the state of the roads.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I believe you have the wrong focus. Safety issues are due to those breaking the current rules now. Reducing the speed limit will just make it more frustrating for law abiding citizens. Continue the work on cycle ways and enforce current laws.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again the wrong focus. People need to drive to conditions. The use of speed recommendation signs for corners etc are valuable. Police current rules and dangerous driving such as overtaking in front of blind corners. I see so many dangerous driving maneuvers that could get worse as these bad drivers get more impatient with slower speed limits. ie I think the current changes could make roads more dangerous. A bigger issue is the condition of the roads. I have destroyed 3 wheels and 1 tyre in the last 18months due to pot holes. I now look for pot holes and less at other drivers or what's on the side of the road, coming out of driveways etc. I can be less observant as totally focusing on pot holes. This is much more of a safety issue. Focus on the important things.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think you have the wrong focus and I don't think the logic has been fully thought through. eg the idea that speed limits will make a significant difference to people walking or cycling I think is non-sense. More and safer cycleways would make a much bigger difference. Other factors influence whether people take cars or cycle/walk. I am really disappointed at the apparent lack of thought by the council on this. I have cycled all my life and slower traffic will not make me feel safer. It could be more dangerous with people less focused and risk of more phone use etc.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

As indicated I have cycled to work consistently for 35 years, I cycle to shops and rarely use a car during the working week. I have been hit by a car a couple of times, taken to hospital and experienced the issues a cyclist faces more than most people. I am disappointed with the focus and logic of the council approach. I see so many bad driving issues that a speed limit change won't improve, and in fact could make worse. For example, how will it address the idiots racing around the streets on motorcross bikes, or txtng, or drink driving. I almost got hit recently in the CBD by a driver who didnt manage to get around the corner on his side of the road, and he would have been doing less than 30km/hr (I suspect DIC or drugs??). Focus on the problems, not the 99% of safe law abiding drivers.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

We have a high density of intersections, where pedestrians (including cyclists) and cars cross each other's paths. With the visual obstructions, such as large artwork, shrubs and trees, and seasonal gardens, the town layout is very, very distracting visually. It is difficult to maintain focus on multiple carriageways, as well as predict the intentions of cyclists, and pedestrians who may or may not give way to a vehicle. Even when the vehicle has the right of way. It's safer to drive slower, to build a buffer in case a stop is necessary. Particularly where pedestrians are likely to be intoxicated.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

My perception is that a high percentage of people causing or dying in crashes are either driving at excessive speeds, overtaking incorrectly, are distracted on a phone, or not stopping at stop signs. Reducing speeds will not tackle any of the issues above.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limit will not tackle the issue of drivers, choosing to drive at excessive speeds. The overall goal, for a 0% road toll is not realistic. The cost to implement new road speeds will be excessive, and disruptive to the city overall. The policy is not realistically enforceable. Police are already stretched thin, across the country.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Realistically the entire policy does not make sense, including the legislative decision of Parliament. Schools are often congested with traffic, when children arrive and leave for school. The ability to drive 50 kmph is already reduced, with the natural chaos of cars, and children everywhere. Government policy wasn't needed, to lower limits as far as my experiences have been. Without police staff available to enforce traffic speeds across the entire city, the policy will not be a success. The Te Ngae Road 30kmph zone currently demonstrates this. Hardly anybody adheres to the 30 km limit. On 20th July 2023, when two traffic police were physically present, people were still not slowing down. The traffic police had their lights going, and were signalling to drivers to slow down, otherwise they would have brought Te Ngae Road to a standstill, ticketing everyone. If anything, a difficult policy to police is reducing police effectiveness. Perhaps introducing the lowered speed policy in stages, would eventually build an acceptance towards lowered speed limits in town. It will simply take time, and generational change. When comparing the speed limits of 50-60km, to smoking for example. Everybody smoked in the 60s, and 70s. In time, the realisation that smoking was harmful came to fruition. Perhaps lowering the speed limit will be the same, given time.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing the speed limit in these areas doesn't make sense. how many crashes occur due to speed in these areas? reducing the speed will only make drivers get more frustrated, causing more issues than if it were to remain at 50kph. I can get behind reducing speed near schools.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>I believe 50kph is a already fine. To the best of my knowledge, I'm not aware of any incidents happening in these areas due to speed. there are sufficient give way signs, intersections and round-abouts.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p>	
<p>There are no issues with the current speed limits, the issues come from people exceeding the speed limit. changing the legal limit from 100kph to 60kph will not stop the people speeding down country roads at 110kph. If there is an issue, reducing the legal speed limit is not the way to solve it</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Neutral (no opinion)
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Strongly Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

I don't believe the issue is the legal speed limit. its reckless drivers and people exceeding the speed limits. lowering the speed limit will only cause more frustration and those reckless drivers will become more reckless.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

There is an issue on the roads, can't argue that. But the legal speed limits are fine, its reckless driving and people exceeding those limits that are the issue. I believe lowering the speed limit will actually cause more issues.

Strongly Disagree

Q8. He aha ai?Why?

If someone can not drive and pay attention to their surroundings then there is something wrong with the way we are training our drivers, not with our speed limits. sure some of the really busy shopping streets such as Pukuatua and Eruera can drop but at the end of the day it really comes down to the judgment of the driver as to what a safe speed to drive at is and if they aren't getting good enough training changing the speed limit isn't going to do anything except make people angry.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again this comes down to driver training. when I was learning to drive there was absolutely no training available except for my parents to teach me to drive on the open road and lots of people don't have that and so people just don't know how to safely drive on the open road. if there was more training available these roads would not be an issue

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Āe | Yes

Q6. **Why?**

in support for schools area changes as schools grounds are often used out of school times by children reducing speed in all other areas will not only create more frustration on the road but will cause more people to act irrationally reducing these areas will not have people slow down,, more effort into pothole repair would be effective

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree

<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

i do not support this draft, it has not been well thought out, this will cause more traffic on primary roads, as the 30km/h restriction would not allow people to take alternative routes, on average there would be about 40% more time spent in a vehicle or other means, in this age most people dont have time to spare as it is, it will also increase fuel consumption on majority of motor vehicles increasing the amount of emissions. this would further increase stress on the general public, even more so during peak times however i do support the change around schools

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

if you are wanting to improve road safety, maintain the roads to a safe standard (this applies to Waka Kotahi aswell)

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Āe | Yes

Q2. He aha ai?Why?

The 50 km/h speed limit means that most drivers are driving at 60 km/h as the enforcement is lax. Reducing the speed at 30 km/h means that driving will be less dangerous for all road users, cyclists, and pedestrians. As the speed advantage is reduced it will incite drivers to switch to cycling. If the speed limit is decreased it will need to be seriously enforced.

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q6. Why?

not answered

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Agree

Q8. **He aha ai?Why?**

I usually drive at 30 km/h in the CBD I find that going to 50 km/h is dangerous due to the numerous pedestrian crossing. Rotorua drivers feel entitled to have priority in all parts of town, including the CBD and even the city focus. Drivers rarely give way to pedestrians. This is the only way to provide more weight to the pedestrian having priority at crossings.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Agree

Q10. **He aha ai?Why?**

most road are dangerous at 100 km/h. When you drive at lower speed following drivers are tailgating. reducing the speed at 80 will be safer for everyone. Stop the dictatorship of the big cars.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. **He aha ai?Why?**

Less speed less harm. traffic more fluid. Less dangerous for cyclists. less fatalities.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More cycle paths is the only real way to increase cycling in Rotorua. Look at Paris: in 2000's dominated by car traffic and pollution. After 10 years of increasing alternative transport infrastructure, reducing car parking and car space the city is now very bike friendly. Rotorua has a lot of advantages (flat, small) but a weak cycling community due to the carbrain culture dominance.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because it seems irrelevant to reduce speeds in areas UNLESS there is sufficient evidence for each street indicating that there is above average crash/hit and run statistics.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Agree

Q8. He aha ai?Why?

With people parking and pedestrians walking it's a struggle to do 50 anyhow so we probably already do 30 in this area currently.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it's not needed! Realistically, how much foot traffic is there in town, or around schools? And 300-500m is ridiculous! In the rural areas, that's the ENTIRE VILLAGE reduced to 30kph, 24/7,, for a handful of kids who DON'T walk to or from school, for no more than 30mins of possible actual foot traffic per week day. The same applies to Rotorua town: a permanent full-time reduction of speed limits for two 15-20 minute periods of foot traffic per day. And as a stepping-stone to imposing the Oxford Prison Plan onto us, I most certainly object to these ridiculous proposals!

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

Lowering the speed limit is NOT NEEDED. 80kph is frustratingly slow as it is, reducing it to 60kph is just f*cking stupid! I emphatically reject your efforts to impose the Oxford Prison Plan (15minute cities) on us!

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Neutral (no opinion)

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

For the reasons previously given. It is blatantly obvious that this is not about "safety" but about taking away people's ability to travel and move - a fundamental human right - and imposing upon us the Oxford Prison Plan/15 minute cities and doing so by degrees. Your version of "safety" is clearly subjective, as is "speed related crashes". A "crash" can happen at any speed - how low are you planning to go? 1kph???

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I enthusiastically reject your attempts to impose upon us 15 minute cities, and I object to your attempts to do it by subversion!

the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

I disagree with the blanket assertion that 'There are no local rural roads in the Rotorua District where a speed limit of 100km/h is considered to be the safe and appropriate speed limit'. There will always be risks associated with driving on rural roads we don't need local government to baby sit us in the name of safety. If you fixed the shocking state of the roads you would make them safer than you would if you dropped the speed limit.

Āe | Yes

Q6. **Why?**

The decrease in speed increases frustration amongst drivers in general areas, 50 km/h is an adequate speed and does not need to be decreased in local streets. While I do not support a decrease in speed along local streets in general I would support the decision to decrease exclusively around school areas. I only support this in these areas due to the increase in children in the area. Outside of the school regions the areas suggested do not have a high density of commuters other than by car, therefore the decrease in speed is incredibly unnecessary

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD Click Here to enlarge map	Strongly Disagree
Q8. He aha ai?Why? While the housing density might be high in these areas the amount of people walking/occupying the area is not high. Would not decrease risks	
Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways. Click Here to enlarge map	Strongly Disagree
Q10. He aha ai?Why? Increases driver frustration, creates more unsafe driving decisions such as passing and following distance	
Q11. Lowering speed limits will help reduce the number of speed-related crashes	Disagree
Q12. Lowering speed limits will reduce traffic noise	Disagree
Q13. Lowering speed limits will help reduce traffic pollution	Strongly Disagree

Q18. He aha ai?Why? not answered	
Q19. He aha ai?Why? not answered	

Q20. He aha ai?Why?

A decrease in speed will not increase the likelihood of people commuting via walking, biking or public transport. The percentage of people who use alternate methods of commuting will not increase based of a decrease in speed

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The money time and energy surrounding this could be much better spent on more important and realistic goals/targets. Such as better public transport within Rotorua. This is a ridiculous suggestion which will only increase the communities frustration towards the local council and their decision making

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe | Yes**
whakaheke pae tere ki te 30 kiromita i te haora ki
ngā rori ahakoa tāone, taiwhenua rānei, me ngā
huarahi whakahonohono pērā i ngā rori a
Sunset, Malfroy, Tarawera me Fenton?Do you
support reducing the speed to 30km/h for all
local streets (urban and rural) including urban
connectors such as Sunset Road, Malfroy Road,
Tarawera Road and Fenton Street?Click Here to
enlarge map

Q2. **He aha ai?Why?**

Schools get so congested when parents are dropping off and picking up their children. There are so many vehicles in the area of schools, it is extremely unsafe driving above 30km when there are children walking around and crossing the road. A lot of schools don't have official zebra crossings at all entrances and children dart across the road thinking cars will be driving slow. Some streets around schools are also very narrow requiring lower speeds around children.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana **not answered**
koe i te whakaheke pae tere ki te 30 kiromita i te
haora ki ngā rori o ngā hapori taiwhenua pērā i a
Mamaku me ko Reporoa, hāunga ia ko te 50
kiromita i te haora ki ngā huarahi
whakahonohonoDo you support reducing the
speed to 30km/h for all local streets including
local streets in rural hubs (Mamaku,
Reporoa), excluding existing 50km/h on urban
connectors?Click Here to enlarge map

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te **not answered**
kore koe e whakaae, e tautoko ana koe i te
whakaheke pae tere ki te 30 kiromita i te haora,
rima rau mita te tawhiti i waho tonu o ngā wāhi
urunga o ngā kura katoa tāone mai, taiwhenua
mai.If not, do you support reducing the speed
limit to 30km/h for only 500m from outside the
front entrance of all urban and rural schools?

Q6. **Why?**

not answered

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p>	
<p>50km is much too fast in the CBD and there is no need for it. 30km will help with traffic and make it safer for pedestrians.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Neutral (no opinion)
<p>Q10. He aha ai?Why?</p>	
<p>Other than wandering animals and hidden driveways I am unsure of the need for lower speeds</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Agree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Neutral (no opinion)
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Agree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Strongly Agree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Agree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Āe Yes
<p>Q18. He aha ai?Why?</p>	
<p>I think road safety, especially for children should be a priority when in my opinion it wont impact anyone's travel time.</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Unnecessary. Will only serve to frustrate and anger motorists.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

This is nothing more than another waste of financial resources printing new signs and enforcing such lunacy. How about some common sense people, the speed limits have been this way for yrs with no problems. Most do not drive beyond the current speed limit on rural roads. We live rurally, we know.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is crazy on steroids. This is about agenda 2030, and the push to get folks away from driving and vehicle ownership. It will do nothing more than frustrate people, and tie up precious financial resourcing that could be better spent elsewhere!! Common people, have some common sense!!

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because young children and young people arent always so careful when crossing streets also young children are super quick can appear from nowhere and often have no developed thinking when it comes to road safety

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I cant see how reducing the speed limit is going to make the CDB anymore attractive to shop in. having decent footpaths, more free parking or metres that worked properly might be a start

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

If roads are in a good state of repair and people drive to the conditions that would make a difference

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

People will only walk or ride a bike if it suits them to do so. Some do this for pleasure which is great but there are times when using a car etc is the best option. People need to learn to respect each other on the road drive to the conditions and every so often brus up on their driving skills

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I agree to reduce speeds around schools as a safety precaution but for all the other roads without schools I don't agree as it is far too slow & unnecessary. As not all of us drive dangerously, and 50 in areas of no schools is slow enough as is.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Unnecessary. 50 is slow enough.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

A mix is dangerous. Use only one speed, going up in down in speeds could cause unnecessary accidents.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Only if it is for around schools. Any other roads it's not needed.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It's not necessarily speeds that are dangerous it's the manner of driving & it doesn't matter what you make the speed there will always be drivers they drive stupidly, risking lives.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Pedestrians and people seeking car parks

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because it's unrealistic. People won't do 80km on rural roads. They will become impatient and end up causing accidents rather than lower speed preventing accidents.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because its unrealistic.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Rotorua Lakes Council please use more innovative thought to solving this problem. Soon there will be so little noise because of electric vehicles, then what are you gonna do?

If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

We are rural in Rerewhakaaitu. The speed within 100mtr of our School is already 50kph. Asking for trucks like loggers/stock trucks/chip liners to reduce speed to 30kph from 300mtrs out would be great. But as a worker in town this 30kph almost all over town is ridiculous. Allowing some major roads to remain at 50kph and others at 30kph is just foolhardy. It will kill many businesses. Also if/when this govt is changed the new one will repeal the act. Why not put more into the Education of road safety to all under 18yrs. The other adults should know better.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is about getting people out of their cars using false climate change as the reason. Mental health will decline rapidly. What the hell has happened to our country?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It's all about control and govt over reach who are puppets to global unelected groups like UN, WEF, WHO. They've already stated we will own nothing and be happy. Unlike them who will own everything, eat healthy food and fly around the planet in their gas guzzling jets while us plebs walk and bike everywhere in our 15 min cities and eat bugs. Come on council - you are either stupid or being very well paid off.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I fully support lowering of speed limits around school entrances. They need to be posted though to allow motorists fair warning of reduction.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

I agree with lowering of speed limit within the bounds of Ranolf St, Whakue St, Hinemaru St and Amohau St. Central city streets only. And down around the Museum and Sulphur Point area. These places have large volumes of pedestrians and vehicles driving into and out of parking.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō **whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Agree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is to far reaching and seems very impractical. Making for impatient drivers. Streets that are no where near schools being reduced to 30km? Madness. The entirety of Mountain Rd for example. Safety is not just the responsibility of people who drive motor vehicles. Education of people who walk or ride is sorely needed. I have seen too many people who do not pay attention or just walk out without looking. Especially people who walk along while glued to their phones.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I don't believe that lowering the speed limit is the answer to reducing accidents. Better driver education, better roads would be a better start.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again lowering the speed limit isn't the answer education and roads need to be addressed

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Children can be impulsive and run on to road with our thinking

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

This would make an obvious reason to slow down. When there is no obvious reason motorists will drive fast anyway and this would defeat the purpose of limiting the speed.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

from my experience in the CBD the drivers dont speed past 50kms, they speed more on the out skirts

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

A rural road with a speed of 80kms is sensible and safe as many are windy and have limited spaces to overtake, especially around our lakes

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Strongly Agree

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I only support to restricted areas, but all areas being patrolled more. In Rotorua these areas being Old Taupo road which is like a highway and trucks speed more than anyone else. I am aware of this as I live off this main road and can feel truck travelling more than 50 kms.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Could more speed cameras be reinstated? Who would be monitoring a lower speed limit when this is not currently being monitored anyway??

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will add no tangible benefits to the city and will more likely create more accidents because people will be more likely to speed and take unsafe risks due to being held up in slow moving traffic better road maintenance will be a better use of the money that would be spent on this, speed cameras placed at regular intervals would be more likely to slow drivers

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Road maintenance and the dirtbike riders should be a priority lower speed limits will only inconvenience law abiding drivers I would not vote for a council that would implement this nonsense , promote the insane idea that there are more than 2 genders or believe that race should be considered in roading matters

Q22. Tō IngoaName Joseph Hewlett

Strongly Disagree

Q8. He aha ai?Why?

Slowing down does not make it safer or efficient its just annoying to the point where no one will follow these outrageous changes from a council that obviously has no clue on ways to create safer driving without touching the speed limit.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

A speed limit drop to 80 from 100 is ridiculous if you really want it lowered keep it and 100 and simply put a sign up with school zone and times of when a certain speed limit say 60-70 and between 7am-10am then its back to 100 until 2:30pm to 4pm and back to 100 for the rest of the day simple also my last paragraph still applies to this one too.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Re read first paragraph I'll put it here to sink in too. If a license wasn't so easy to get we would have safer roads if there was more learning about vehicle safety not just in high-school but intermediate and the end years of primary school we would have safer roads if after a certain age you were required to re test your driving skills roads would be safer we live in a time where speed should be increased not in towns obviously but to try slow a whole city down to 30 is the most ridiculous move by a council ever its not going to be safer as people will not follow when there gonna be late or they need to get to an emergency etc. 50 has been the standard for a long time now to try put a snails pace speed in play just wont work for the most obvious reason that a whole council can to comprehend.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Obviously i don't stand for your ridiculous changes but for certain times around school only. Let me make this very clear CERTAIN TIMES OF THE DAY for example of a reasonable thinking person. Ok in towns first early mornings 50 normal speed limit until say 7:30 am these are just estimates of time where speed would drop to 20 until 9:30-10am where it would go to 50 until schools out say 2:30pm drop to 20 again till about 4pm back to 50 for the remainder of time till 7:30 the next morning. For rural same thing 100 or 80 wherever drops to 50-60 in allocated time and back up after 10am then schools out down to 50-60 till 4pm back to 100-80 its a simple thing that many just naturally do so take into consideration the fact your making it slower not because you have hard evidence this will do anything but because you think it will make it safer with people who cant drive and will get even more impatient and just speed and the original speed i see it more as lets lower the speed because our roads are appalling and there not safe or should i say not a wof worthy road.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Most schools are blocked any way with cars collecting children and others can easily reduce speed for them.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

pedestrians are safer in the central business streets with lower speed limit. However the CBD already has a lowered speed with the brick roads there

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Rural areas have children so high speeds are dangerous for them

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Agree

Q15. Lowering speed limits will improve health and wellbeing of the community

Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Neutral (no opinion)

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not really convinced that lowering speed will achieve what is hoped as there is always the nut driver who will ignore speed limits.

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Perhaps you should use more speed cameras and improve the city revenue. Speed bumps have helped with the reduction of speed and noise level but more areas need them .

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Many negatives. Few if any real positives.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fixing the potholes and getting people off their phones would have FAR BIGGER benefits. Also addressing unwarranted unregistered junk cars, fat tyre Harleys and dirt bikes that all drive recklessly through our city now without a care. Why should everyone try to crawl around at 30 kms when the idiots will continue to kill and injure others. Our council has lost its way. The nationally mandated 30 km limits for schools and inner cbd make sense. The rest is just sheer stupidity. The council is wasting our money on hairbrain schemes. Id rather the money was deducted from my rates.

Āe | Yes

Q6. **Why?**

To keep the children safe during school and particularly after school.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Most the time while driving in the CBD people aren't driving 50km anyway. Most traffic goes at a crawl pace looking for parking anyway.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

If you drop the speed limit down to 80km then some will drive at 60km like what happens now in the 100km areas cars travel 80. These people cause more accidents due to frustration

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it's just ridiculous and will cause more frustration and impatient driving. Families have busy lifestyles dropping the speed limit will make people having to leave earlier and for us whi have 4 children with different appointments etc we don't have time to drive granny pace to each appointment.

WHAT A JOKE ALL OF THE ISSUES MENTIONED ARE JUST SOME BURACAT TRYING TO JUSTIFY THIER JOB THESE P[ROPOSED LIMITS ARE RIDICULUIOS AND WILL CAUSE MORE HARDSHIP AND AGRIVATION rather reduce the road toll .So in some instances some one on a pushbike will exceed the speed limit will they be breaking the law . This a ridicules badly thought out proposal and should be scrapped

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

People don't drive fast in those areas now. Stop being a nanny state.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

These roads have been fine for decades and cars are safer than ever. Nobody will take any notice of them anyway.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

They are ridiculous. Idiots who speed aren't governed by any speed limits.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Leave the rural communities alone, it takes them a long time to get to town now.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

We don't want be walking pace in a car.. we need to be familiar with outside schools busses and pedestrians..but not 30 km in city limits. Even 40km would be far more realistic. Please consider that speed for your new propositions...

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

Consider 40 km .that would be far more realistic..

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

Because whatever speed there will always be accidents from.people who still don't observe rules..

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Cos whatever rules are in place there will still be accidents. Outside schools and 300metres it is common sense to go 30 km or even 20km . But not when school is In or school holidays..People need to observe the ruled..

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te Āe | Yes

whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Q2. **He aha ai? Why?**

Reducing the speed of cars will have a huge benefit to the entire community. First off, it will vastly reduce the number of accidents and near misses on our roads...many people only consider the number of fatalities, but for every fatality there are dozens of "minor" accidents and near misses, and there will be far fewer of these if the speed limit is reduced. It will also vastly increase the number of people willing to use alternative forms of transport such as eBikes and bicycles on our roads. Even pedestrians and those living beside busy roads will benefit, as slower traffic is much less noisy and threatening to those walking or living beside a road. There are also benefits for drivers. Driving at lower speeds is less stressful, takes less petrol, and reduces the wear and tear on cars (and on roads). Finally, while it will take some adjustment (eg, allowing a few extra minutes to get into town), a huge benefit would be to get people to let go of the "I'm a racing car driver" mentality where they want to get to where they're going as fast as possible. Rotorua's a small town, and there's really no need to rush everywhere. What's not to like?

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana not answered

koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hāpori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te not answered

kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Q6. Why?

not answered

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map** Strongly Agree

Q8. He aha ai?Why?

See my previous answer -- reduced number of accidents and near misses, reduced traffic noise, encouraging mode shift, etc.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Agree

Q10. He aha ai?Why?

As well as reducing the number of crashes, it would make rural roads much safer and more enticing for cyclists. I have personal experience of the huge difference an 80 km/hr speed limit has for cyclists on busy rural roads -- I cycled the Napier-Taupo highway once when it had a 100 km/hr limit, and again when the limit was reduced to 80 km/hr. The first time it felt outright dangerous, while the second time was much much nicer, even though there was still a lot of traffic on the road.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. He aha ai?Why?

Reducing speeds improves safety for all road users, and improves the quality of life for everyone in the community -- as well as having positive benefits in the fight against climate change.

Strongly Disagree

Q8. He aha ai?Why?

Speed is not the issue. You can have a 10kg speed limit. But there are those who ignore the law. Driver education is better than wasting ratepayers money on something that's unworkable and unenforceable. Who is going to police it.. our police staff are under the hammer without expecting them to do your dirty work. Can you provide me with the statistics that support this move. I.e. how many accidents, injury and non injury, have there been in the school zones. At present the speed limit around schools when they are in session is 20kph. So you're going to increase it by 10kph, defies logic. Speed is not the issue it's what the driver choses to do. Every day I see drivers run red lights, fail to give way, pass on double yellow lines. Your policy is stuffed. Yet again those who drive by the road code are being penalised. A classic example is those two people killed in Hamilton recently, driving at over twice the posted speed limit. Get your heads out of the sand and recognise where the problem lies. It's not with 99% of those of us who abide by the road rules. Get real, the road to zero is a fallacy, it will only happen if drivers abide by the road rules. And why do we have to drive by schools at 30 mph at 2100hrs. There's no one there. Stop loading us ratepayers with unnecessary costs. With inflation, interest rates and everything else you should be looking at ways to ease your burden on your ratepayers. And there's a damn lot of you got in there on being fiscally responsible. We're not seeing it.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Speed is not the issue. You could have a 10kph, but there are heaps out there who will ignore it. Driver education is way more im

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's flawed. What are the statistics behind this policy. Provide me with these so it's visible for us all to see that there is some science behind this proposal. At the moment there's none. How many injury and non injury accidents have there been around schools and the CBD attributable to speed. You must have it to have come up with this dumb policy.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I think it will confuse too many people to have different speeds for urban connectors and side streets. The difference between 30km/h and 50km/h is too big however, people will be frustrated slowing so much so either they won't do it or will only slow to around 40km/h. If you set the overall limit to 40km/h, the slow to 30 around schools won't feel so extreme so more people will do it, and it won't cause so much frustration as going 30 all the time but will still be safer than 50km/h.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Agree</p>
<p>Q8. He aha ai?Why?</p> <p>It will encourage people to walk, makes things safer for those wanting to cross the road outside of the crossings and most travel this fast when searching for a park anyways</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Neutral (no opinion)</p>
<p>Q10. He aha ai?Why?</p> <p>While this would help safety on these roads, it wouldn't make nearly as much of a difference as the inner city changes. These would also be very hard to police. Better to leave the limit than to drop it and have people get used to driving 20km/h above.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Strongly Agree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Strongly Agree</p>
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	<p>Agree</p>
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	<p>Agree</p>
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	<p>Agree</p>
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	<p>Agree</p>
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	<p>Neutral (no opinion)</p>
<p>Q18. He aha ai?Why?</p> <p>not answered</p>	

Q19. He aha ai?Why?

I think some of the proposed changes are a good idea, but will be hard to implement and others will only confuse people. If all streets are kept at the same speed, it will really help to avoid confusion, and having that speed be 40km/h will improve safety without causing too much frustration.

Strongly Disagree

Q8. He aha ai?Why?

30ks is too slow, 45 would be sensible. 50ks out at Te Ngae is ridiculous, 60ks is better.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Agree

Q10. He aha ai?Why?

As long as the proposed speed limits are in sensible areas and drivers are not expected to go from 80ks then to 60ks, it need to go from 80ks, 70ks then to 60ks

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Going to 30ks is too slow, if it had sensible suggested speed limits my option would be different. An example is the 50ks at Te ngae this is a dumb decision.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fix the roads this is far more important, have sensible speed limits, change te ngae 50ks to 60ks. Parking meters are rubbish I can't use basic eftpos card.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

What is the percentage of accidents that have occurred in the cbd? The streets are narrow enough as it is, it is hard to exceed over 45 kms without seeing people crossing the street or cars in the road

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

You are not taking into consideration the lack of patience people have. We live in a generation of faster and more efficiency, slowing down forcefully is not the answer, people are being passed on a daily basis down vaughans road where they get up to speeds of 90km/h

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Neutral (no opinion)
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering speed limits in certain areas more than everywhere makes more sense, out the east side lower porikapa, morey, wharenuui, reeves, brent and te ngae from the old gilmours to the caltex. And leave vaughans road as it is. Most people are driving responsibly down and around poets corner, ngapuna and owhata road

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Your communities would be more receptive to this if you did stopped the continual rates increase. Just because we are going though inflation, does not mean that your percentage increase should match it. Your ratepayers wages and salaries are not increasing with inflation.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because schools are busy places with a lot of tamariki coming and going

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I can see benefit in reducing speed limits around some central city streets such as lake-front, Pukuatua St and the City Square thing with the paved road because pedestrian concentration is higher in these areas. I see no purpose and no benefit in reducing the speed limit in any other central city roads.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe | Yes**
whakaheke pae tere ki te 30 kiromita i te haora ki
ngā rori ahakoa tāone, taiwhenua rānei, me ngā
huarahi whakahonohono pērā i ngā rori a
Sunset, Malfroy, Tarawera me Fenton?Do you
support reducing the speed to 30km/h for all
local streets (urban and rural) including urban
connectors such as Sunset Road, Malfroy Road,
Tarawera Road and Fenton Street?Click Here to
enlarge map

Q2. **He aha ai?Why?**

Because our vulnerable road users are not safe at the current speed of 50km. People are dying and we have a culture that values cars, speed and self over the safety of others. We need to change.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana **not answered**
koe i te whakaheke pae tere ki te 30 kiromita i te
haora ki ngā rori o ngā hāpori taiwhenua pērā i a

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te **not answered**
kore koe e whakaae, e tautoko ana koe i te
whakaheke pae tere ki te 30 kiromita i te haora,
rima rau mita te tawhiti i waho tonu o ngā wāhi
urunga o ngā kura katoa tāone mai, taiwhenua
mai.If not, do you support reducing the speed
limit to 30km/h for only 500m from outside the
front entrance of all urban and rural schools?

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō **Strongly Agree**
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?Having a 30km/h speed limit in
the CBDClick Here to enlarge map

Q8. He aha ai?Why?

Because this a place where many many people with different abilities and resources need safe access to amenities. Even the people who drive cars to the CBD need safety when crossing roads on foot. No one wants to run over a child, we will all be old and slow and unable to walk all the way to the pedestrian crossing one day.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Agree

Q10. He aha ai?Why?

Every single piece of evidence demonstrates that slower speeds mean less accidents and deaths. Either people are more important or getting somewhere fast is more important. He aha te mea nui o te ao? He tangata he tangata he tangata.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. He aha ai?Why?

There is no doubt that our culture has an unhealthy attachment to our cars, and our being able to drive them fast to where we want to go without considering any other factors. Most people who are against this simply do not want to slow down. That is the main argument against this, over and over again. "The city will be at a standstill" "it will take me twice as long to get anywhere". These statements are unproven, as trials of these speeds elsewhere have demonstrated no major increases to travel times. It is an entitled, and selfish view, in my opinion, to be against this because you do not want to slow down. I drive a car every day, and I am 100% happy to drive 30kmph to create a more inclusive and safer environment for others. If we slow down, we will save lives. I cannot see how anyone, presented with all the facts, can possibly support staying with the status quo.

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

not answered

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

Please please please stand up for our most vulnerable citizens as you consider this. Our children and our dependent older people often don't have the ability to make submissions to you. They cannot tell you how hard it is to cross a road, or how scared they are to walk somewhere. They are counting on the council to remember them when they don't have a voice.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Most cars are already fluctuating between 30 & 50km as needed , driving to the conditions.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

Already appropriate speed limits in place.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

We already have more than appropriate limits in place.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

not answered

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it not going to achieve any reducing speed limits only going to cause more road rage and cost businesses millions in more traffic congestion so the costs will skyrocket even further for lost time the is insane, it will only put costs up 150 percent to those that can not afford it

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because the state highways and rural roads have been designed for a safe speed of 100km per hour for 50 years And have no foot traffic

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it is only going to cause accidents because of road rage

Q10. He aha ai?Why?

Not convinced speed reduction on rural roads is necessary

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Don't believe it is appropriate

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Roads are for vehicles. If we want to reduce deaths and injuries of pedestrians and cyclists we should provide safe alternatives not slow traffic down and create congestion.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

They have installed speed humps on my road to apparently help with speed And all it has done is make it worse. Watching the emergency services trying to get to an emergency is very frustrating so I can't see how lowing the speed is going to make any difference.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Fix the roads correctly. Everytimecit rains the sane potholes get worse.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Some of the streets are narrow and people don't drive at a safe speed to see pedestrians walking out between cars and cars backing out. People don't pay attention in a small areas because they're too busy looking for a park or place they need to be. Not 30km but 40km.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

I don't drive rural roads often and am a cautious driver when I do.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think if we gradually lower them people will be more receptive but making such drastic changes will only put people's backs up. What we need is more drivers training and education. There are some crap drivers on the roads. Most road accidents are caused by lack of concentration not by speed limits.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

In reference to reducing speed limits outside of schools in Rotorua to 30km. If that's the case, then Malfroy Road will essentially be 30km, because you have Westbrook School, Malfroy School and Rotorua Intermediate all spaced out along that road. And JPC also comes off Malfroy. A chunk of Sunset Road as well, as there is Sunset Primary, The young parents school and a Kindy. Those roads are already congested during school drop offs and pick ups. I'm all for electronic reduce speed signs during those peak times but to reduce it all the time. ♀ And then look at where Rotorua Boys is situated. It stretches on 3 roads, 2 of them main roads. You'll have some frustrated drivers which could cause more accidents. We already have idiots driving on the roads. We don't need to elicit more. Also, improve pedestrian crossings with solar electronic flashing lights, like they have at traffic lights. It would make them more visible.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

looking after our children does not mean we have to reduce speed/flow all over town!

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

looks like the map actually showed 30k for more than the cbd, actually often don't travel at 50 in the cbd anyway. I agree for a tight cbd speed limit of 30k.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

60 only for rural shop areas, 30 for rural schools (not on highway) 80 or 100 for all other rural roads

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because this seems to be a blanket offering to cover the whole town in 30km, certain areas I agree with but generally no. The amount of bad publicity RLC has for the short piece of Te Ngae rd changing to 50 should be a sign. Speeders will still speed in fact this will get worse as drivers following behind others at 30 will get annoyed angry etc and then pull out and gun it! happens now so that will just get worse. Our cars are better, safer etc just fix the roads instead of this.....here we are in a economic crisis and RLC-GOVT are wasting money on surveys that won't make a difference but at least there was consultation...right? then change signage all over town and the police the new speeds, how about fix what actually is broken focus on the must do's until our economy improves, nothing extra or nice to have!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please concentrate on maintenance of the city's infrastructure look after what we have and don't spend on un-necessary projects.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe** | Yes
whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?[Click Here to enlarge map](#)

Q2. **He aha ai?Why?**

Roads and safe speed limits were developed in a world that is gone. Cars are generally bigger and more powerful than they were when the 50km speed limit was adopted. The greater energy these cars now carry, and the reduced visibility in vehicles like utes (due to their height and long bonnets), mean we must adapt safety regulations to suite the new realities. On a personnel note this change would make me happier to ride my bike within Rotorua. Currently I do not feel safe riding on any road in Rotorua due to the fact that if I am involved in a crash it doesn't matter who is at fault, the energy carried by the car means I am likely either seriously inured or dead. In addition, a reduction in speed limit will reduce carbon emissions from cars in Rotorua, as well as reducing noise pollution. The reduction in speed limit seems a very small price to pay for these benefits. Especially since the speed limit reduction will at most add minutes to travel times within Rotorua since the distances are quite small, its barely an inconvenience.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

I would go further and make the whole CBD a mixed car pedestrian zone similar to the cross roads near Starbucks. These areas have been shown overseas to reduce car speeds and collisions due to the fact that both pedestrians and cars are more vigilant for the other. It would also make the CBD more appealing and people focused. Rotorua is built for the car currently, but this makes its pretty uninviting for people.

Āe | Yes

Q6. **Why?**

There are already speed calming measures in roads such as Clayton Road including a raised pedestrian crossing outside the school - Note in my area that 30km is recommended for Blomfield St- to my knowledge there are no schools or ECRs in this street and there are already speed humps. My opinion is that the people who need to slow down WON'T

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because for a city to function well, cars and trucks and people need to be able to move about efficiently. When traffic doesn't flow smoothly (such as in the week before Christmas in Rotorua) masses of people avoid shopping in Rotorua and go elsewhere such as Taupo,, Tirau and Tauranga. So a loss in vibrancy and people shopping in the CBD will be the UNEXPECTED consequence of this move.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

Because rural areas need to be efficient for cars and trucks and delivery vehicles to move about. It is difficult enough being a primary producer these days, let alone without making the cost of rural businesses even greater by increasing travel times and transport costs for goods.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Neutral (no opinion)

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because with the increased cost of living, extending the time when you are in a vehicle and the time it takes to get anywhere and transport goods and get to and from work, just makes life harder for those who are already struggling.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please increase the speed limit on Tarawera Road from 50 to 60km/h. Trying to go that slowly on that rural feeder road is ridiculous. It should never have been put down to 50. There is not even a footpath or ANY pedestrians that use the side of the road so your justification for dropping it because of some houses being built in the Redwoods Subdivision was entirely unjustified. Thanks for increasing my travel time and and cost of wear and tear to my vehicle for no good reason.

Āe | Yes

Q6. **Why?**

Possible think about adding more separated cycle ways or safe crossings around these areas

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

The increased foot traffic in the area would make it safer for pedestrians

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Having a mix of 2 speed limits is simpler than having 3

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Safer crossings around the proposed Fenton, Sunset and Te Ngae roads need to be implemented for safer crossing of pedestrians before speeds are reduced. Also more segregated cycle paths need to be added to these roads to make the cycling alternative viable for people considering switching from car to bike. Having said that, the reduced speed limits will only increase driver frustration and increase risk taking from motorists, unless the new speeds are enforced.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Rotorua has the benefit of having generally wider roads which could be used in adding separated cycle ways. This may encourage more people to bike/walk to work if they feel safer cycling on Rotorua roads. The current state of commuting via cycling in Rotorua is poor, with little or no barrier protection from motorists, also having to enter the stream of traffic when passing parked cars is risky. Reducing speed limits will make people consider biking but they may choose against it due to the danger.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It makes sense to slow down around schools for the risk to child safety around schools. Reducing speed limits to 30km/h in every street except urban connectors makes no sense, it will take nearly twice as long to get anywhere if the speed limit is reduced from 50km/h. People are still going to speed especially if the speed limit is 30km/h for the main reason that it is far to slow.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>drivers already go slow through the CBD when it is busy. makes no sense forcing drivers to go slow when the CBD is quiet for example at night</p>	
<p>Q9. Q8. He aha ai?Why?

The map of the cdb covers too big of an area. If it was just the actual cbd from lake front to aprox park n save and government gardens to m10 and then just to 40km/h. This may be better. Or just design roads in this area that are kinda self limiting.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

While encouraging people to walk and cycle more and protecting people is an admirable goal, I cannot see the proposed plan making a significant difference, while also causing a significant disruption. Better road design creating sections that are self speed limiting where required may be better. Is there an example of the proposed plan working anywhere in the world that is not cycling friendly(nz is still far from cycling friendly)? Also the stats regarding number of serious injuries/deaths over 10years do not seem to reflect this as being a major concern anyway. Of course I don't want anyone hurt. Maybe policing the existing rules with modern technology such as used for speed cameras and toll roads could be explored for use outside schools. Even electronic speed signs would be an option.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There are very minimal accidents in the cbd, and reducing the speed is sure way of cause more traffic, wasting people's time and causing frustration.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

because 100kmh is a fine speed for quiet roads and anything open. Also, vehicles are designed to be run at higher speeds and 80kmh is going to cause a lot of stress on engines. potential breakdown crashes etc. as well as wasting everyone's time.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Since the reduction of speed from 70 to 50 on Te Ngae road I have had more near misses and seen them because it has only caused more impatient drivers taken risks. Why does the council and Government not listen

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

As per.my previous comment. The reduction from 100 to 80 from past the airport to Okere falls has made that road a lot riskier to drive on now

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Neutral (no opinion)
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As per previous comments. There are so many drivers who don't follow the rules and make our roads riskier to drive on. I have reported this behavior on numerous occasions and nothing happens. How is lowering the speed limits going to change this behavior. You are punishing drivers that obey the rules by a narrow minded view of government and local government.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I have seen government, local government, police and the likes not obey current reduced speed limits. What do you think will change.

Strongly Disagree

Q8. He aha ai?Why?

I understand the intent of road to zero, but there needs to be some statistical evidence that the current speed limits cause death or injury. Simple blanket speed reductions like these proposed appear to be a solution looking for a problem. There is a pragmatic issue too, namely functionality and livability of a city. Slowing traffic as proposed will make it increasingly difficult to get anywhere in the city. As for the CBD I doubt many cars are doing more than 30km when they drive through the CBD partly due to its poor traffic design.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because law abiding responsible people drive to the speed limit or to the conditions. People who speed and break the law will always break the law & speed no matter what the rules are. So it won't change anything.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

As I said in the last question. It's not just speed that causes the problems. It's people that don't respect the rules, can't drive, don't drive to conditions. Those people will still crash.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it'll cause more traffic jams, stress and frustration. Teach people to use and respect the roads and traffic safely.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Lowering speed limits is not the answer. Education and catching the criminals is the answer. Do not lower speed limits. Why is Maori always the 1st language? Everyone speaks English, why is it the 2nd language now? English should be 1st, followed by Maori, that only 8% of NZs speak fluently.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Making Rotorua 30km will cause more stress on the roads. People will have to leave home earlier to get to work and get home later. The emergency services will take longer to get to the people who need the. The people who speed and drive dangerously will still do the same. And they will be even more agitated by slower vehicles in front of them. How will this be policed. We do not have enough police on the roads as it is. And we do not have enough police to be dealing with people driving over 30km when they have all the other issues they deal with. It is putting extra pressure on all resources. I really do not think it has been thought out very well at all. Plus the fact that this consultation is costing SO much money and the council and government is just do this anyway, no matter what the general public think and say!

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Neutral (No opinion)
<p>Q8. He aha ai?Why?</p>	
<p>If it is just kept to the INNER CBD then yes, I agree.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p>	
<p>These speeds are ridiculous. People who speed will just keep on speeding. 80 on some of the more populated roads maybe. but 60 NO WAY!</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree

<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai? Why?

Its far too slow. The very inner city yes. Outside schools Yes.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

I think this is a money making scheme. It is not thinking about the people and how much longer it keeps them away from their homes and families. It will put more stress on already struggling businesses. Costs will also go up as produce will take longer to get to the shops and consumers.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There is no need, 50km is slow enough to be travelling in a vehicle, pedestrians have a level of responsibility to keep themselves and their children safe and it's working so far so why fix something that isn't broken. It's not the speed limits causing any accidents that do happen, it's the driver being distracted, having a medical event or being under the influence. Lowering speed limits will not change this

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Why change it? Again accidents are caused mostly by negligence not speed. Those who are negligent will still not follow the speed limit and some even become worse as being stuck in traffic is frustrating

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The speed isn't the issue. The bad state of the roads and the actions of those who drive irresponsibly will remain and those two factors in my opinion cause more crashes than the speed itself.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Removing the ability for people to beg on the side of the roads and forcibly wash your car windows at the lights would be good

Q10. He aha ai?Why?

There is nothing wrong with the speeds now ... pour money into drug and alcohol education. More police. Fix the roads. Place warning signs at well known crash sites indication to take more care. Get a bit tougher on unregistered and unwarranted cars. More'Speed Kills'signs. More driver education ads on tv and social media. Spend more money on mental health ... a lot of drivers are on the road already pent up with anxiety and depression. More Stay Focussed Signs.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Neutral (no opinion)

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

30km speed limit in other areas besides immediate school areas is far too slow . Do not appreciate the need to make traffic in school areas much safer being used to slow traffic to the 30km in other areas. The z council is over reaching

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

We have bicycles ... we tend to not use them and walk to most areas as provision for locking up bikes safely are not provided and when they are they are not thief proof

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

You want to take us back tyo the middle ages! Travel times will increase exponentially and you will grind the day to day life to a halt. Rather concentrate on BUILDING safer roads with better traffic FLOW.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Traffic planning, design and build in NZ in general stinks. Hemo road roundabout is a classic example of how a road is designed and built totally unsafe with incorrect banking.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Generally it is not possible to travel much faster than this through the CBD anyway, but if it's late at night and there is no one around, you should be able to travel at 50. While I think it might be ok for SOME streets to be set as 30km/k, the map does not define the limits of the CBD and a blanket approach across all streets is not needed.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Many of these roads are in better condition than some of the state highways, they are straight roads with good visibility and don't need to be reduced. Accidents happen when people speed, not when people obey the existing speed limits. So the existing limits are generally not the problem

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I DO support variable limits around schools during school hours, but NOT for a 1km radius around all schools at ALL times of the day or night. I previously answered a survey about whether I feel letting my kids walk/ride to school. I said no, but it was NEVER about the speeds on residential streets. It was ALWAYS about the busyness of the "urban connectors", people speeding on these roads, and the lack of safe places to cross. Safety on these urban connectors is likely to WORSEN under the proposed plan - people will avoid residential streets as they are too slow, making the urban connectors even busier, and I hear NOTHING about putting in place safe crossing options for children. Furthermore, I feel frustrated that my answers to a previous survey are now being used in a way that I do NOT support to justify changing the speed limits on residential roads. I also find the way data/statistics are presented in the consultation document as misleading. If the facts truly support this change, then show the facts/data in their RAW form, not spin-doctored so that they support this change. Where is the evidence of how many DSI occurred on residential streets? Were there any confounding factors? Furhter, if the facts truly support this campaign, then why does council need to resort to using emotionally charged imagery throughout the consultation document? Where are the images of the tired and frustrated drivers just trying to make it home at the end of the day, or the couriers trying to make a living, alongside all the cherubic children?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I hope the council takes on board the pushback from the community on this, and is transparent with sharing the outcomes of submissions. I have not yet encountered a single person who agrees with this policy, so I will be asking questions if this is pushed through and claimed to be supported by the majority.

Q8. He aha ai?Why?

Insane people are making decisions working for Waka Kotahi.. stupid thinking slower speeds to zero accidents.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again, stupid insane thinking and idea of Waka Kotahi current management. During school opening and closing times for 20 to 30 mins having flashing lights reducing speed to 50km (school can control the lights switches according to needs) and rest of the time should be normal current speeds.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Again, said many times - none of it makes sense already Waka Kotahi has made senseless decisions on Speed on Te Ngae road, Tarawera Road. Fenton street past Te Puhia etc etc. Making this town to walking speed infact there are more crashes with lower speed as people get frustrated. Despite majority of people opposing Te Nage speed reductions still they implemented lower speeds. Whole speed Mangement and Zero campaign needs to be scrapped and some intelligent people needs to be employed with better class thinking to make roads better . Perhaps focus should be to improve conditions of road better no potholes. EVEN at 5km an hour speed poor road will cause road accident for school kids, is there any survey or question on that.....to make school roads safer !!!!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Already said enough

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It only needs 100 metres each way from centre of schools . Warning poles with a \$500 fine if exceeded between these Zones

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Only in town as cars reversing out of Parks and People crossing Roads

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

100 klms is fine , 80 closer to city, More policing as if it's 100 people go 110

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Due to fact people will break the law and speed creating more danger

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More police Patrols , keep speed limits at current speed , what you was trialing now was done in the 1970s and it failed back then

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will make driving in the city a joke. Except for a massive increase in speeding infringements there is no positive benefit.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I'd like to know who the clown is that suggested more young children will walk to school with lower road speed limits. Is it because they will be able to walk faster than a car can travel? Would love to meet the 5-10 year old child who says "gosh mum, with the new speed plan, I feel much safer and would prefer to walk today".

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There's no point slowing everyone down. People are going to keep going 50km/60km whatever the speed limit may be. You don't find people flooring it at 80km around the cbd in the middle of the day so there's no reason to completely slow everyone down

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We don't need to slow traffic down any further in CBD . We don't need too discourage people from the CBD .

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

We don't need a lowered speed limit its ridiculous to slow traffic down . Accidents are because people are impatient and pass dangerously slowing traffic further is only going to make that worst .

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's ridiculous and won't change anything that's recommended

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The solution is too fix straiten and widen roads with better passing lanes not drop speed limits or narrow roads with unnecessary and dangerous barriers .

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Managing the speed limit around areas like schools can reduce fatalities or debilitating injuries; however, it is nonsensical for the entire city. If you're trying to reduce vehicle traffic, provide more suitable alternatives for safer transport, i.e., more frequent buses with better connections, more and wider cycle lanes, better conditioned roads/paths for electric scooters, etc. The speed limits are going to frustrate people who rely on their cars as a primary mode of transportation.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

I think the current speed limits are fine. If the plan is to reduce the speed limits, it could be done in the dense business area by the lake, around the mall, restaurants, hotels. This makes sense where there is a lot of pedestrian traffic; however, in the suburbs where I live, I don't think it is necessary. This would make my commute to work longer and more frustrating. It won't stop the people doing donuts or racing on my street, it'll just frustrate the law abiding citizens who rely on their car as a primary mode of transportation.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

I think the current speed limits are suitable. Drivers need to adjust to the conditions of the road and the conditions of the road need to be maintained. We can't penalise the responsible road users. Reducing the speed limits will not stop people speeding, racing, etc. Only visible policing is going to stop that.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Agree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Neutral (no opinion)

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Āe | Yes

Q6. **Why?**

Kids need extra protection and can dash out unexpectedly.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

You will cause so much road rage, it is bad enough now,, If you want to have a vibrant and liveable area in town, there are other ways, like blocking off roads so people can walk about without any vehicles, but have the other roads left functional at 50km. have you tried travelling at 30km it is almost going backwards.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

these are well out of town and have far less traffic.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It may help with safety but none of your other points raised.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If drivers have to constantly change their speed it will cause confusion adding to safety being compromised. I don't mind lowering speed limit but is imperative to be consistent, as will cause lack of concentration figuring which is correct speed limit which will cause chaos and frustration.

Click Here to enlarge map

Āe | Yes

Q2. **He aha ai? Why?**

Because they are feeder roads into the central city and to outer suburbs

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

not answered

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

How many children and other pedestrians have been killed or injured in the last 10 years on inner city roads What are the injury statistics that require the implementation of such a reduced speed limit

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

It makes no sense to have the same speed limit on rural roads as on main highway roads. The speed limit should reflect the engineering design of the road and not just a blanket limit because the road is rural.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because a blanket approach does not necessarily relate to the engineered specification of the roads

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Where are the statistics that prove that speed limits reduce accident rates? Most accidents are caused by carelessness, lack of attention, poor driving habits and poor decisions by drivers. Speed will not prevent those accidents from happening.

Āe | Yes

Q6. **Why?**

It's absolutely ridiculous to limit speed so widespread, this is not going to make any difference to student safety. Reduce speed in immediate school zones - fine. Otherwise you are just going to create traffic problems and anger general drivers for no reason as this is not going to make a lick of difference to safety. Idiotic proposal.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>Try making the CBD more safe from violence and crime. There is no safety issue from road speed currently!!</p>

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Āe | Yes

Q4. **He aha ai? Why?**

Speeds on local streets where there are children do not need to be 50kmh. Urban connector streets do need to remain 50kmh zones as they have less foot traffic and many footpaths have already been made into cycleways.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

The city streets are narrow and well connected. There is no reason for anyone to speed up from 30kmh to 50kmh on any city street as they will be either at a roundabout or another intersection in seconds meaning they have to slow down and speed up again. 30kmh roads will make life much nicer for pedestrians getting around the city.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Agree

Q10. He aha ai?Why?

Reducing the speed limit to 80kmh or 60kmh makes very little difference to travel time but it does make a significant difference for driver and pedestrian safety.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Neutral (no opinion)

Q12. **Lowering speed limits will reduce traffic noise** Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Waka Kotahi invariably have 30kph speed limits through work sites across the country. Having driven through many of these on numerous occasions, it is considered to be quite inappropriate, i.e. unnecessarily slow. From personal experience, very few motorists slow to that speed through these sites with the predominant speed being 40-50kph which in most cases seems adequately safe. In recent years, RLC has implemented 40kph speed limits in the vicinity of schools which has been supported. I would be comfortable to support 40kph strictly within the CBD, but no change from existing 50kph through most suburbs and outer communities.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō **whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Agree

Q10. He aha ai?Why?

It is accepted that most of our rural roads are relatively narrow and contain more curves than SHs. The state of these roads has deteriorated over recent years and there is little evidence that this situation will improve. Therefore, 100kph is generally considered to be excessive for these roads.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer Neutral (no opinion)

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Show me the incident and accident data to support this. All this would do is frustrate drivers and prompt no compliance anyway. Show me the data.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Show me the data to support this. All it will do is increase travel time and severely increase fatigue and frustration/road rage.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is a feeble attempt to combat a situation that there is no data to support instead of fixing the roads themselves.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is a very deliberate control exercise with the negative outcomes outweigh any positives which I cannot see at all.

Strongly Disagree

Q8. He aha ai?Why?

Drivers ought to drive to the conditions. Low speeds of 20 or 30k makes pedestrians complacent and careless. Also drivers would get frustrated and wondering pedestrians would exacerbate this and increase risk

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

These are likely to be sealed roads 2 lane roads. If verges are properly trimmed and roading surfaces is maintained then speed decreases should not be needed.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. **He aha ai?Why?**

Reducing the speed limit isn't going to achieve a more vibrant ,safe space in the cbd. It's only going to make the community more impatient and take longer to get to your destination, it also means longer wait times and as it is I lose around five years of my life travelling in a car which has already been made worse thanks to the road works that has existed since I moved out to Holdens Bay causing a huge increase in petrol use....no way will this make Rotorua a better place....your taking away all the things that made this place great....smelly lakes we can't swim in...bulldozing parks.....homeless are still homeless... how many empty shops are there now??? Your not attacking the problem at all.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. **He aha ai?Why?**

The longer people are kept driving I'm their cars the more pollution, the higher chance of an accident ..no one wants to spend more time on the road ...come up with a better system on picking up the kids . Make it compulsory that if they live within a certain distance they must walk or bike..

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I think 30km is too low and unfortunately will only create more negativity as people will disobey this limit, people will avoid town like in Tauranga and police will get more work with all the tickets and be taken away from areas where they are really needed eg responding to crime, violence. The current setup of town works well and people are generally very safe. The use of roundabouts works as natural speed stops. The use of more pedestrian crossings (lighted ones possibly) in the centre of town could further increase safety and lower speeds of drivers without the use of dropping the speed limits and would actually give people safe places to cross.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

All we would achieve with a growing population by dropping speeds would be increasing congestion. People are already frustrated with the amount of hold ups such as roadworks and it makes road rage an emerging problem. Cars are safer and only getting more safe, once roadworks are complete there's no reason with the use of good crossing areas to limit speeds. The issue isn't the safe drivers whom follow the limits, it's the gang members/ motor bikers without helmets/ people that continually speed/ road ragers that cause the harm. Like the police chase that crashed on reeve road the other week, they jumped the speed bump and were going incredible speeds before losing control.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Stop messing with speed limits and fix the roads instead, then less swerving and less ppl losing control on massive pot holes

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

All these speed limit reductions are ridiculous, you're going to ENCOURAGE speeding

Q22. Tō IngoaName H

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. **He aha ai?Why?**

People are all ready doing those speed limits which causes massive congestions and traffic jams. It also increases chances of accidents as traffic bunches up.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. **He aha ai?Why?**

Slower speeds causes congestion.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. **He aha ai?Why?**

Slower speeds causes congestion, vehicles travelling at slower speeds will emit more emissions and people will become more aggravated waiting in traffic cues making people more aggressive.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I don't believe a blanket speed reduction will have much impact. I already see drivers not adhering to 50k limits in so many places

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

The city centre is already a non driver friendly zone. The city focus area is a joke

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The state of some of these rural roads is not safe for 100 k

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As before drivers have trouble sticking to 50k why should 30k be any different

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Unless public transport is greatly improved I cannot see the average resident not driving

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing the speed limit everywhere around the city will increase congestion and driver frustration. No one will stick to these limits anyway. Reducing directly outside of school during pickup and drop off times only is a great idea to increase student safety.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p>	
<p>Reducing speed limit in CBD will further increase congestion and frustrations</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It does not need to be further than 500m. The low speed limit only needs to cover the drop-off/pick-up zone around schools..

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Disagree

Q8. He aha ai?Why?

Unnecessary- people drive according to traffic at the present time. Stop treating us like embiciles!

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

I don't know the roads well enough.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Overkill - majority of people drive safely - no matter the speed limit there will always be a segment of society who abuse the law.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The majority of people are careful drivers - stop punishing law abiding drivers because of the few minority. Police our roads more!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Blanket speed reductions down to 30 are plain stupid and will be largely ignored, as are the pointless speed reduction on Te Ngae road. PC madness. It will be men with red flags in front of vehicles next. However, a speed limit of 30km within 100m of schools would be useful provided it only applies when kids are coming and going. A 500m radius will be crazy and pretty well blanket the entire city.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. **He aha ai?Why?**

We need more pedestrian streets not ridiculously low speed limits. It would be far better to focus on making all of Tutanekai Street pedestrians only and get rid of cars at the City Focus. Who ever thought that a vehicle pedestrian mix with no pedestrian priority was a good idea?

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. **He aha ai?Why?**

It would be far better to have limited speed only in known dangerous sections of road

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reducing speed limits will make the city less livable it will be a frustrating nightmare. With most drivers ignoring the speed limit. Slower speeds do not reduce pollution -this is a physical impossibility, - pedestrian only streets, cycles and Electric vehicles do. Change to EV buses at once and have EV only zones. Bad road design, especially dangerous, frustrating junctions such as the Koutu Rd Lake Road junction cause accidents and frustration. We need a review of dangerous roads and junctions with more central barriers, roundabouts to slow traffic, rumble strips etc to improve safety not ridiculous blankets low speed limits.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I find it hard to believe that so much silly wooly headed thinking has created this proposal. The bad drivers, drink drivers, drug drivers and boy racers on our roads will still find way to have accidents and hurt/kill themselves and others. This focus on blanket lowering of speed limits is totally the wrong approach to road safety.

Click Here to enlarge map

Āe | Yes

Q4. **He aha ai? Why?**

Safety. We live on Ranolf St between Glenholme primary and St Mary's, with two young kids. I have asked more than once why this is not 30 km/hr, and why there are not more pedestrian crossings. This is great to see that at least there will be blanket speed reductions. I'd suggest more of Malfroy Rd should also be 30 km/hr - between Old Taupo and the intermediate school for example.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. **He aha ai?Why?**

For all the reasons why I selected "strongly agree" in the previous questions

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More pedestrian crossings - inner city, Ranolf, Malfroy, Fenton etc. What happened to the plan to make Amohau St more pedestrian friendly? Easier movement between the mall and the CBD should help bring a bit more foot traffic to the CBD

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

If the speed limit was zero no one would be killed but then no one would go anywhere and nothing would be sold/bought. Roads would be safer if the current speed limits were actually enforced, i.e. more speed camera vans and higher fines. When was the last time someone in cbd was killed by someone driving st 50kmh? Never. Surely its the policing of the current limits which is deficient. I suspect thst if a person hs been killed on the road in the cbd the driver would have been speeding and or driving carelessly.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Police the current speed limits to catch errant drivers. Dont punish everyone for the behaviour of a few!

Āe | Yes

Q6. **Why?**

30km in cbd and on normal streets would prevent traffic from moving especially at peak hours. Also would be silly to drive that slow at late night hours. School zone speed would have to be in place for school pick up and drop off times. Instead focus on people who walk out into traffic without looking for cars coming

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>

<p>Q18. He aha ai?Why?</p> <p>not answered</p>	
<p>Q19. He aha ai?Why?</p> <p>not answered</p>	

Q20. He aha ai?Why?

For noise focus on cars with modified engines that have a loud revving when driving at low speed

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Low speeds in town will encourage people to walk into traffic without looking

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Safer for children

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

No one really speeds in town

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Why slow it down? There's no need to or real reason for it other than annoying people and you'll stick more speed cameras to get more cash

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There's zero need

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

You're just trying to make a way to get more money. You'll drop the speed limit and I bet there'll be more speed camera's about. Plus if you change it to 30ks everyone will be stuck in second gear causing engines to rev higher making more pollution. Plus you tac on an extra 10+ minutes to every journey now. Just focus on making the roads in general not maybe

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Why so slow? The speed bumps effectively reduce traffic to 30 km/hr so why reduce any further by speed restricted signs.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

We don't need slower roads. Congestion is already a issue on the road to Ngongotaha. Its not the speed limit affecting traffic its the infrastructure. The round a bout does not work.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because its not the solution. Better roading Te Ngae rd is being constrained by more and more traffic lights. Traffic is a constant stop go . There is no flow to traffic. Alternative routes for urban traffic and transit traffic? Vaughans rd as a main raid? Parawai rd Ngongotaha to Rotorua. We need traffic flow no impeded traffic flow. Speed restrictions how will this reduce pollution???? Not logical or vehicle noise some of the motorbikes and cars make more noise, and for a longer period traveling slow.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Do not reduce the traffic speed to remedy a roading problem. Better spend is to look at the roadway system.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Constant speed limit changes are confusing. Te Ngae Road is 50kph as you leave the CBD. It changes to 70kph at the Sudima Hotel. Drops to 50kph again just before Sala Street. It then changes to 60kph after the Tarawera lights. Stupid. Why not make it all 60kph

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It is unnecessary. 30kmh is a snail's pace. It will be very irritating driving at a snail's pace. I don't believe this will make the city feel more liveable. I am not aware of many accidents occurring in the city and do not believe that this change will make things "safer". The accidents I am aware of are due to crime or due to older people not looking when crossing the road. I do not think speed limits will make the city more attractive: keeping up the gardens and the street plantings are things that make the city attractive, not how fast cars drive.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

This is an unnecessary change and there is no identified reason for it. Will be very irritating and pointless for people.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The outcomes sought bear little relation to the proposed changes. The negative effects have not been considered: road rage, increased time to get places which has an effect on people's ability to work including mothers dropping off and picking up children, negative economic impacts of employee's spending more time on the road, stress of people getting fines, reduced leisure time due to slow driving, irritation with pointless Council money-making exercise.

Āe | Yes

Q6. **Why?**

For the safety of children in the school zone. We also need to do something with the school buses like in the USA where they are all painted bright yellow and have the passing speed limit painted in large letters on the back of the bus. Furthermore you must stop for a school bus that is stopped with its red lights flashing whether it is on your side of the road, the opposite side of the road, or at an intersection you are approaching. You are not required to stop if the bus is traveling towards you and a median or other physical barrier separates the roadway.

<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai?Why?

I don't believe speed is this main factor making our roads unsafe. Our roads are the main factor. I believe the main factor is there are too many trucks on the roads, not enough dual lane roads an extreme lack of passing lanes (leading to driver frustration). Furthermore I think due to NZ's mountainess terrain and inclement weather we need all drivers to do an advanced 'defensive driving' course.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think the changes are too far reaching. Lowering speed limits in suburbia would seemingly mean the slowest suburb speed limits in the country. 30 is a drastic reduction (40 %). I understand lower and variable speed limits around schools for safety but places like streets off Clayton, Sunset etc it seems unnecessary especially when you have put in jarring judder bars already on key arterials

Āe | Yes

Q6. **Why?**

As long as the speed limit is not for all the school holidays especially the 6-8 weeks over the summer when there is more traffic out and around.. I do not see the need for all schools, except when school term is operating.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

If only for the Central CBD which is what I do anyway. But not for outlying streets Devon Western Heights. I believe these decrease in speed limits are generally for the the very minimal people that speed everywhere. That's why there are so many speedbumps in Western Heights and Malfroy Rd and Sunset Road. Young boys ignoring any speed limit signs, schools, pedestrians, animals , older people on walkers,mums with prams etc and young children walking in weekends etc.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Disagree

Q10. He aha ai?Why?

If the speed limit was reduced to 80km, but surely not 60kmph!!! Depending what rural roads you are talking about, Kaharoa, Reporoa, etc. I have seen signs at certain places around Rotorua which has 100k but absolutely not safe for 100, and i generally only do 60 or 70 safely. All signs in narrow windy places need to be addressed in certain windy and narrow roads, I feel. Concentrate on that part first, There are people still speeding with plenty of existing speed limit signs, so will not reduce their speeding for people constantly wanting to go faster than the signs. Majority of people obey those existing signs. Again rules changing for the minority!!! Young males generally.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Neutral (no opinion)

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Neutral (no opinion)

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

No I do not agree with the Speed Management Plan. Firstly take a good look at all the existing signs and maybe consider reducing where there are the most accidents. It is 90% driver error.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More Transport Department officers need to be in place in areas of concern, Like going through STOP signs which I see a LOT!! here in Rotorua.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

To prioritise children's safety.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It will slow traffic down unnecessarily increase impatience in drivers.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There's no logical reason for reducing the current speed limit.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

30km/h is far too slow, people will get frustrated, traffic will become even more congested, and people will take risks that they would not take at 50km/h due to frustration. I believe 50km/h is already a very safe speed, stopping distances are short, situational awareness is good, and traffic flows fairly well. People who are willing to speed, will still speed, regardless of the speed limit. I suggest both the council and NZTA consult with psychologists to understand better the way that people behave when they are put in frustrating situations in traffic, the effects of anger on rational thinking, and the other unintended psychological effects that driving too slow will be likely to have on people. I also believe there will be additional risks, such as increased distraction and mobile phone use while driving caused by either going very slow, or the additional traffic congestion that these speed limit changes will be likely to have.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

I live in a rural area which would be affected by these speed limit changes, and the roads I travel on a daily basis are very safe to drive at 100km/h on, except for when conditions (e.g ice), require common sense speed reduction. If this proposal goes ahead, the travel time for myself, and many others who also live rurally, will be significantly increased, further limiting already tight time schedules, time spent with our kids etc. This is completely unnecessary, and unfair on all those affected, for something which I believe will have no, or very little impact on the safety of road users. These areas are generally not patrolled by police either, making these proposed speed limit changes impossible to effectively enforce, unless already stretched, and crucial police resources are pulled from other areas where they are much more needed. I believe that money would be much more wisely spent on re assessing how road repairs and maintenance are carried out, by whom, and what accountability is held by the contractors doing the work. As a builder, I know that every critical stage of a construction project has a strict inspection process which must be adhered to, I cannot understand why this process does not also apply to roading work, which is increasingly sub-standard. The cost of hiring and training a few staff to carry out such inspections, and implementing a more robust accountability structure within these projects, would be an investment in our future which would pay dividends, and decrease ongoing maintenance and repair costs. For example, one section of road which I drive on every day, has been poorly repaired over 20 times in the last 2 years. I know through my job that roading work, traffic management costs etc come at a high cost. I hate to think how much money this one section of road alone has cost in this time, and it is still not up to standard. The current system is clearly, critically flawed, and in need of complete rethinking and restructuring, from the ground up.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai? Why?

not answered

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

I do not believe it is necessary, warranted, or fair on all those who it affects. I do not believe, even if it is implemented, that people will abide by it, OR that police have the time and resources available to effectively enforce it. I do not believe that speed limits are even close to being the most significant factor in road safety. I would prefer to see the money spend on addressing the physical state of our roads, and the processes behind the maintenance and repair process.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

Please carefully read and consider my (and all other) opinions on this issue, and consult with psychologists on the real world effects of such a change like this, rather than focusing on what you would like to see as the outcome. To often in government are decisions rushed, based on incorrect assumptions, not properly consulted, and everyday peoples opinions ignored. Please do not ignore us this time. I predict an influx of negative views on this proposal as every single person I have talked to about it is completely opposed to the idea, and it will affect everyone. Please act in accordance with feedback.

Q20. He aha ai?Why?

Speed is not the only contributing factor to accidents

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

As crime scene investigators are not allowed to state speed as the singular cause of accidents I think it's ridiculous to lower them everywhere. Resources would be better spent on driver education, getting drunk and drug drivers off the road, better roads that don't fall apart each time it rains, more traffic cops on the road etc..

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

having blanket speed of 30 will reduce average speed BUT not reduce it to LIMIT, enforcing thought that it not a LIMIT just a sugesstion. Having smaller zones on time monitoring flashing lights between 8-9 and 3-4 school term and ENFORCING it will increase compliance and ability to enforce making it LIMIT not sugesstion to ignore majority of time as reason for being not there ie kids going to back from school

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

People present durring all hours so speed limited all hours and cars moving parking etc

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. **He aha ai?Why?**

not answered

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Agree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

Unless it is going to be strictly enforced will greatly increase people tolerance acceptance as it a sugesstion not a LIMIT

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Speeds designed to be LIMIT not suggestion, and purpose to be enforced not designed to lower average speed by assuming people will break law any way. so make enforceable by doing when reason and enforcable eg during set times

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

I agree with the proposal, however strongly disagree if the proposal includes Fenton St or Amahou Streets. The Council has chocked the movement of East West Traffic in Rotorua by vetoing multiple Transit NZ proposals over many years including Malfroy Rd, Victoria Street extension, Eastern Arterial Route to name a few. (Shame on the Councilors engineers and planners for preventing Rotorua having a modern efficient State Highway network.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Agree

Q10. He aha ai?Why?

It would be a great leap backwards, modern vehicles are designed with safety features that were not available when the speeds were set and are much safer at the current speeds. To take the Waka Kotahi road to zero policy to logical nonsense level suggests the speed limit on all roads in NZ should be reduced to 6km an hour as that was the natural limit before 1840 (no horses or wheels)

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The Council staff who prepared the policy should be embarrassed to put forward such nonsense which is so out of line with the wishes of the Community, The elected Councilors should have vetoed the plan before it saw the light of day. Whaka Kotahi is a laughing stock, even the Government has ruled out changes to the limits on the State highway network as the proposals were so unpopular. For Whaka Kotahi to then try and impose its vision a local level just nonsense

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Veto the whole one size fits all plan and start again finding local solutions for local problems

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There are many ways to address safety issues and speed may not be the best. Slower speeds can encourage pedestrians to assume safety and take more risks. Driver education and best practice driving training. Proper signage - for example the RLC has introduced fake pedestrian crossings that have no legal status - they are not pedestrian crossings because they are not painted white lines but pedestrians assume they are safe to cross and that they have right of way when they don't. Stop confusing the public by sending mixed messages. Stop installing roundabouts that cause congestion and create frustration which is a recognised aggravating factor regarding road safety. Slower speed limits add to the frustration when businesspeople and road users want to get somewhere and not be held up by jaywalkers, cyclists and dreamers. Install correct signage (eg at Lake Tarawera Spencer Road intersection) saying "signal your intentions" - Same at roundabouts. On scenic routes put up signage stating "Drive. Don't Dream". enforce the "do not use mobile phones while driving" rule . As happens in the Otago area (I have a photo) place signs encouraging camper-vans and those with boat trailers to pull over and let faster traffic pass safely. The rules you are proposing are suggested because existing rules are not enforced properly. The above are far more important than stopping a society from operating effectively and efficiently by bringing the city to an almost complete standstill.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

This panders to people who cannot drive safely at 100kph. It causes frustration to safe and experienced drivers who actually have something to achieve positive. We are not all out on a Sunday drive. We have things to do. Reinstate the 100kph limits on all rural roads.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will not achieve the things you state. It will cause frustration and anxiety in drivers and may increase accidents and reduce regional productivity. You should be looking at ways of safely increasing mobility, efficiency and productivity by raising the speeds on roads that pose little or no danger

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

These proposals are recommended by a committee who engage in groupthink. It is impractical and ridiculous. The current government may have started this process but they are unlikely to be here shortly and other parties have suggested safely reinstating higher speed limits in areas where it is safe to do so. I suggest RLC take a revised approach and examine how we can safely speed the city up while maintaining safety, using technology, education and proper signage, in one language only for clarity

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Makes sense for school opening and closing pickups when large amount of kids present

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

Its congested anyway, make crossing street safer

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

Fix roads and teach people to drive instead

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Too many roads affected for no real reason

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Have a rethink please- schools for the drop off roads, cbd ok slower as congested anyway

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The existing 50km/hr speed limit is safe. 30km/hr is impractically slow.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

If reasonably applied, then narrow winding roads will be safer.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

30km/hr speed limit will reduce productivity for all of us and the idiots that cause speed related incidents will continue to do the same anyway.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The CBD speed is self regulating with congestion. Outside the Gardens , Lakefront, Tarewa Rd Amohau St area other schools is there a problem we are trying to fix? Is there a crash record on these streets that is attributed to speed? There are some drivers who will never obey the speed limit so changing the speed limit will not change the result of any crash these drivers may be involved in.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

In general I agree. However Broadlands Rd has adequate vertical and horizontal alignments and sight distance requirements. This should remain at 100kph

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Making most of the urban area 30kph will not change anything apart from the severity of a crash. Firstly Council should identify the problem it is trying to fix. A 5 or 10 year crash analysis of every street must be undertaken to see where, when and what types of crashes are happening. The causes should then be identified. EG Between 7 & 8.30 on winter mornings on Sunset Rd has a record of sun strike crashes. Will lowering the speed limit reduce the crash rate? Moving the sun will! Deal to the problem. Many urban streets have never had a crash, have good footpaths and off road cycle lanes. Lowering the speed limit will not reduce a non existent crash rate. Leave them at 50kph.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please use a soundly based method for for determining speed limits. The Australian limits round schools at designated times works very well. Consider something similar and fit it into the Governments regulations, Central Government continually forces Local Councils to hand over control of various functions. Work out how to make the speed limit rule work for Rotorua. Don't just accept a central ideology decree!

Strongly Disagree

Q8. He aha ai?Why?

Quite simply, it is not the speed limits or the roads that determine road safety, it is the drivers. A competent driver drives to the conditions - not necessarily the speed limit. On any given road, on any given day, more successful journeys are completed than unsuccessful. And on some of those successful journeys, it is possible the speed limit it exceeded. This is unassailable proof that it is not speed limits that are the problem. It also proves that the current approach to the "Road to Zero" is destined to fail. Instead of following the stupidity of central government Rotorua Lakes Council should leave speed limits as they are and concentrate on improving driver skill and courtesy. RLC should become the first district in New Zealand to address the issue of road safety at the root cause of the problem.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

The erratic changes in speed limit are simply a revenue trap for central government. By altering the speed limits as they do, it simply catches drivers out as they sometimes forget to adjust their speed. It has been since the introduction of an 80km/hr speed limit through Waio tapu that a triple fatal accident has occurred - although the lower speed limit was not the cause - but the "safety measures" recently added contributed to the accident.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As stated above, the problem is not speed limits. The problem is with drivers.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It is quite evident that the measures taken by Waka Kotahi have not reduced the incidence or severity of accidents. RLC should buck the trend. Maintain the current speed limits so that we can maintain productivity of the economy.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

School children need protection, rural hubs like reporoa and mamaku don't need 30kms speed limits. There are not often people walking along the pavements or road sides. Unnecessary to reduce to 30kms in rural hubs. I doubt this reduction will make more children or people bike.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree

<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

The speed bumps that people have cross at 20kms every 100 metres cause more traffic noise and tail gating which is more dangerous.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

No statistics that really prove reduction of speed limits in rural hubs or other roads.

Strongly Disagree

Q8. He aha ai?Why?

Speeding cars don't seem to be a safety issue from what I see on a day to day. I feel unsafe with the types of people hanging around and acting in a threatening mannerism. And getting the dirt bike riders off the street will increase safety and vibrant ness in this town. Start with this before punishing law abiding citizen's.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will slow traffic and increase congestion. Driver education is needed. Get the illegal cars and bikes off the streets this will increase safety for all road users. Rotorua is not safe enough to have more people and Children walking to work and school. We need to focus on cleaning up the streets not wasting money on this rubbish. Get the priorities straight.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't do it it's not very high up the priority list. Bigger issues in Rotorua.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

What are the stats for people being seriously hurt or killed in accidents in the CBD, say over the last 10 yrs? We are told speed reduction will make us safer but there is no evidence of the actual harm that is occurring in order to warrant such reductins. What is being proposed is overkill which will simply cause massive frustration We may as well go back to horse and carts.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

I have driven in areas in south west Auckland which have been reduced to 80. Long straight roads and you have to ask why? These roads are not dangerous? It is ridiculous. Then, just as you have slow drivers in a 100 km zone, the same occurs int the 80 km zone.... people driving at 60-70... on long straight safe roads. Totally insane. What should be targeted aggressively is driver training .

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is a govt department that is heavy handedly implementing in ideology which cannot and will not be achieved. No one is telling the facts around the number of serious and fatal accidents that occur thus demonstrating why we must travel at snails pace. Experts in the field tell the govt the plans are flawed. No one is targeting implementing strict driver training and testing to improve driver skill and awareness. No one is going to wall to work coz the speed limits are reduced. No one is going to get out of their cars and walk everywhere to improve their fitness... Just look at the waste of money cycle way... never used!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Waka Kotahi are living on another planet. They need to get back in the real world. Dropping speed limits to snails pace every on the off chance that an accident happens the outcomes will be better, is not a safety strategy., it is govt overreach focussing on the wrong things. Enforce robust driver training, make it part of the school curriculum if necessary, come down hard on cell phone users. Don't create utter frustration. Waka Kotahi need to get out of their Waka, get on to dry land, open their eyes and start maintaining our roads and make them safe. Stop the half baked patch up jobs and do the job properly. At the moment, Waka Kotahi are not fit for purpose

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

30 is a joke for most situations however around schools I agree extra care should be taken

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I think only for the super confined streets 30 is acceptable because you can only usually do 30 anyway but where you can do 50 keep it 50

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

joke 100 is acceptable it takes long enough to get around as it is reducing to 80 is only going to piss people off and incline them to speed, instead of reducing the speed people need to learn to drive to the conditions and their ability

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed limits are not the answer to the problems

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Before changing speed limits how about fix the rural roads and make them safer and as for town and the CBD a lower speed limit is not going to make the place more attractive to people get rid of all the homeless mess in the streets, we own a shop in the CBD and it is a joke

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Most people already travel at a safe speed within the CBD so changing the speed limit is a waste of time, money and resources that would be better spent dealing with more important issues or creating a better area to love or visit

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

This will add more cost to already high consumer goods and will only cause more crime as police will be pulling over a lot more people as most will not obey an 80km/h limit

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is a waste of money, the speed related crashes and injuries are mostly caused by people going well over the 100km/h limit anyway so that won't stop a thing. It will cost businesses more as time wasted traveling will increase and thus prices will rise on record high prices

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please leave the limits alone, spend the money on more important things. The last lot of speed limit changes are still annoying to deal with and even police don't obey them (yes I've seen multiple police cars just driving the old speed limits through the new zones).

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is going to frustrate more people than it will please. It's realistic lyrics not going to save anyone in the city. And speed related crashes are mostly caused by people speeding excessively so altering speed limits won't change anything there just make what those individuals are doing more illegal

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Take a good hard look at this proposal and be realistic. How many fatal accidents have been caused in 50km an hour zones and how many of these were human errors. You will never mitigate human error. Ever

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Totally unnecessary, nothing will be gained by such changes

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The proposal to reduce speed limits will have little or no effect on accidents or the road toll. Those that speed now are not going to reduce their speed just because a sign tells them to. If there was more enforcement of the current limits any expected improvement to the current statistics could be achieved without the proposed stupid knee jerk reaction.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There is no evidence presented that confirms, among other things, that the existing speed limit makes the inner city less vibrant and less liveable, or that it is less safe and attractive, than it would be with a lesser speed limit. The proposal is simply aspirational nonsense which arise from equally aspirational nonsense (with respect to Road to Zero) being promoted by NZTA.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

The question asked does not make sense. The existing limits, when appropriately applied, are more than sufficient to deal with controlling vehicular speed.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai? Why?

Because it is all aspirational nonsense.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

There is no evidence produced about the aspirational nonsense referred to in each of the questions raised above. Further, it is an attempt at social engineering and for Council to gain control of the otherwise responsible actions of the citizens of Rotorua. Given that here are no statistics against which to measure the success or otherwise of the planned changes, no KPIs can be established to determine the success or otherwise of the proposal if implemented. Such significant proposals should be put to the people of Rotorua in the form of a referendum, rather than in a submission process, given that the latter will do little about having the proposals changed, or better still, thrown out. Further again, it is simply anti-motorists in the hope that we might all take to walking and riding bikes.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

ITS not going to improve the road safety, its teaching people safe driving. Most accidents are cause by phones or not attention to where they are driving. Also people that are S going slow on the road they should be pull by police as they cause people to get very impatient. They should be teaching people in Campervans and towing horse floats that they should pull over and let people pass so they don't cause congestion.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

NZTA Should be fixing up pot holes more as this can cause accidents and very expensive to drivers.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

30km/h is reasonable outside schools however a 30km/h on all urban streets is simply ridiculous and likely unenforceable. Similar to the stretch of Te Ngae road after the Sala St lights that is now 50km/h rather than 70km/h. Anyone that follows the new limits will be on the receiving end of road rage and abuse and everyone else will speed through the area anyway. I would suggest proper road maintenance rather than speed limit reductions, if our roads were maintained properly to a good standard they wouldn't need as much annual maintenance and resurfacing plus they would be safer.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>Throughout the CBD I can see the sense of trialing a 30km/h speed limit, but the fact is not many people travel through the CBD since parking is absurdly expensive,</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p>	
<p>Again I simply can't see the limit being properly enforced. It will simply be ignored. Changing all the signs would be an unnecessary expense</p>

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

i think if reducing the speed for part of a road, should reduce it for the whole of the road, as otherwise it will be confusing and not fuel efficient to speed up/slow down/speed up.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Is is the immediate school area that larger numbers of kids are together in mass. If children are not confident walking home crossing roads on their own, where they may not have other children to assist them, then they shouldn't be walking home unaccompanied by adults.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>alot of the areas indicated does not have high pedestrian flow</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Disagree</p>
<p>Q10. He aha ai?Why?</p> <p>Again, very little pedestrian flow in these areas, and if children are not confident walking in these areas, they should be accompanied by an adult. School bus routes should be dropping children off in safe zones for children to wait for an adult if they are not at a level of walking themselves</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Disagree</p>

<p>Q18. He aha ai?Why?</p> <p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it will not make any difference to the inconsiderate/dangerous drivers, if anything this will only make them worse. I can see increased traffic congestion and frustration because its going to take longer to get from A to B

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Implement speed humps in Mamaku which residents have been requesting for, for a long time. Police can't manage current speed levels, reducing is not going to deter drivers from speeding.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

You don't fix something that isn't broken and our speed in these areas is not a huge problem. People use common sense, when the traffic is very busy, the speeds naturally reduce. 30kms is far to slow and unnecessary. Trust your people. License carrying citizens know how to operate a vehicle. The ones that hoon around will continue to do so regardless of the speed limit. We already have to put up with the million speed bumps in the suburbs don't reduce the speeds aswell. It's utter madness

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Because once again, where is the major problem? Please show us evidence based facts on how these speeds cause such an issue that the speed limits need to be decreased. This feels like a knee jerk reaction. If there are problems on particular roads, fix them but don't put a blanket speed on roads that don't require a speed adjustment

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The issues raised on the page before will not be fixed by reducing the speed limit. Out of the speed related crashes, how many of those people were driving above the posted speed limit anyway? So what difference does lowering the speed make? Nothing other than stressed out and irritated motorists who are annoyed they are being punished for nothing

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Nothing wrong with current limits. It will frustrate drivers

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Speeds limits are fine

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing all local streets to 30km/h will only result in frustrated drivers, longer commutes and more road rage/anti social driving. I do not believe it will reduce deaths or injuries and the road to zero agenda is just unrealistic. Making sure our roads aren't damaged and that new drivers are properly educated would be a better initiative. Rotorua is already awful and unsafe to live in, please don't make it worst.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p>	
<p>It is usually necessary to to slower than 50 anyway due to people not using pedestrian crossings.</p>	
<p>Q9. Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

As I have to travel around town for jobs for work, reducing the speed limits would cause me and many other tradies to take longer to get to jobs and potentially have to charge a higher travel fee. Also, there is minimal risks or accidents because of the current speed limits. The money would be better spent elsewhere to improve roading

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Agree</p>
<p>Q8. He aha ai?Why?</p>	
<p>As this is a high traffic/pedestrian area, a lower speed limit would make sense, as it does around schools</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Disagree</p>
<p>Q10. He aha ai?Why?</p>	
<p>Educating people on how to drive and having a stricter licensing regime, along with better roading would be a better use of this money</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Disagree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Agree</p>
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	<p>Strongly Disagree</p>

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It is unnecessary. There are plenty of places people can safely cross the roads in CBD. The design of the intersection around Tutanekei and Hinemoa Streets already means vehicles have to slow down in that area. Further restrictions are not required.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

I do not agree that these roads cannot be driven at 100km. There may be some parts where you need to drive slower, in which case you do. Does not mean all the road needs to be lowered. I can support lower speeds around schools.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

This map is unclear of what is considered CBD. The reality is that on many of the roads in the centre of town, it is not possible to achieve 50km/hr due to lights and intersections, but on some it is. Drivers just drive to the conditions.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

Unnecessary. Just drive to the conditions.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Unnecessary. Will not achieve goals.

Āe | Yes

Q6. **Why?**

It is sensible to have a 30km limit close to schools. Elsewhere, 30km per hr is too slow and is unenforcable.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Where is the evidence to support the premise that deaths are occurring in the CBD through drivers travelling at the current speed limit?

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Other than close to schools, there is no need to reduce rural speed limits. Where is the evidence to support these changes?

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is a ridiculous proposal being foisted upon us by the Labour Government's road to zero initiative. If the Government really wants to reduce the road toll they should fix the roads properly.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

The Government has not provided any credible evidence that the current speed limits, when adhered to, are causing deaths on Rotorua. There aren't enough resources to Police the current speed limits so lowering the limits will have no effect whatsoever.

the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Road conditions need to improve and People need to improve their driving skill set instead of everyone around them lowering road speed. People going to fast or not driving to conditions will not listen or obey any signs now. Lowering speed is not going to make any difference to them. It will only cause more frustration within drivers.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed is not the problem with our roads.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Train people to fix our roads properly the first time. Allow budgets to fix the roads to a high standard. Our roads seem to be built on bare minimum budget. Teach people to drive instead of bad drivers teaching more bad drivers.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Slowing around schools makes sense, everywhere no, accidents/death on urban roads dont justify reduction

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Reducing speed limit is not going to make cbd more vibrant, who is being hurt or killed on our streets to justify the change???

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because where is the evidence of risk? Statistics? Revenue gathering will be only benefit, crazy waste of time

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Stupid plan like bike lane in cbd. Wheres our safe cycle lanes and buses for rural? Give us safe options, not dumb blanket approaches

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

The CBD is more about people and reducing the speeds limits for encourage more people to enjoy the spaces

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Agree

Q10. He aha ai?Why?

Most rural roads are neither designed for or suitable for higher speeds

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport Agree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Āe | Yes

Q18. He aha ai?Why?

Speed generally increases the level of injury, and by reducing it in areas where people, especially children, congregate will make those areas more attractive to people. Reducing speeds on rural roads will reduce dangerous driving.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

There should be consideration given to closing or narrowing roads within the CBD to improve pedestrian safety.

Āe | Yes

Q6. **Why?**

Congested walkways and distracted students require greater care

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Congested foot paths, CBD should be pedestrian focused whilst allowing easy access for mobility impaired. Cars should be slower in congested foot traffic

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Drivers can forget there are people and children in rural areas too, slower speed gives more reaction time

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

In suburban areas most people drive with care regardless of the speed limit. Imposing such a low speed will not increase safety, but will increase intolerance. It may have the opposite of the desired effect. 40k is better if there must be change. But what is the change based on? Is there an overwhelming number of accidents in suburbia? Do they ask happen at 50km or are they faster? If faster then those drivers will ignore 30k limits even more than 50k limits

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you impose 30k suburban limits, all cycle ways need to be large enough and well lit to cope with walking and cyclist traffic. Currently there is no well lit cycle way out east side and yet there are a lot of cyclists. Please finish a cycle and foot path the full length of Vaughans road and put some lights up, it's a hazard otherwise, even with bike lights.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe | Yes**
whakaheke pae tere ki te 30 kiromita i te haora ki
ngā rori ahakoa tāone, taiwhenua rānei, me ngā
huarahi whakahonohono pērā i ngā rori a
Sunset, Malfroy, Tarawera me Fenton?Do you
support reducing the speed to 30km/h for all
local streets (urban and rural) including urban
connectors such as Sunset Road, Malfroy Road,
Tarawera Road and Fenton Street?Click Here to
enlarge map

Q2. **He aha ai?Why?**

Increase in people, increase in cars on the road results in busier environments. My parents live in Devon Street West and the cars speed between the Roundabout and the Stadium all the time, we are surprised nobody has been killed before now. I don't know that reducing the speed limit will work however, because people turn a blind eye to the law anyway and speed limits as those rules don't apply to them apparently, but speed humps or permanent speed cameras would be a good start. They use that piece of roadway as a race track.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana **not answered**
koe i te whakaheke pae tere ki te 30 kiromita i te

This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

Ok, make the speed limit when you enter Hamurana from Fryer Road 60km, keep it that way all the way to the end of Hamurana Road. Don't have it as 60km, then 80km, then 60km, that is crazy, not that people stick to 60km anyway so not sure how you are going to Police that. As far as Sharp Road is concerned which is where I live, off of Central Road. Why on earth is this listed as 80km! Who came up with that. Has anyone actually been out and tried to drive 80km down that "short piece" of road. By the time you got up there to 80km you would nearly be at the end and have to slow down otherwise you would end up in the farmers paddock because this is a short dead end road. With the stock movements we have, it is a dirt road anyway so that creates dust, and basically a one laned road as trying to fit 2 cars at once down that road can be a task, along with potholes galore, 80km is actually ridiculous. 50km, yes, 80km absolutely NOT. The locals in the road generally travel at around 40km anyway, but those who don't live in this very short road, do speed down here as if they are on their way to a fire. While you are out here, I suggest putting a mirror at the bend coming up Central Road just before the intersection of Sharp and Jackson Roads. Cars FLY up that road and one day, there is going to be a fatality. There is a STOP sign at the end of Sharp Road and Jackson Road. By the time you stop, make sure it is clear and then proceed out onto Central Road, I have seen many a time, cars come flying round that bend and nearly collect the vehicle exiting Sharp Road. You want to make roads safer, then I think a little more homework needs to be done.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

I am not convinced.

Q20. **He aha ai?Why?**

not answered

Q21. **He kōrero anō wāu?Is there anything further you would like to comment on?**

Why have the Council or Bus Companies not put on busses that travel around the Lake every day to transport people from Hamurana to and from town to work. Why? If they can do it in Rarotonga, why can't we do it here. If you want to reduce traffic on the roads, accidents and so on, this is a no brainer. I know a lot of people who would use it. Hop on and hop off. The amount of vehicles that travel out this side of town has increased 10 fold in recent times. We matter too, it is not all about Eastside. If you need to get to the Airport, they could catch that bus, drop them there, then anyone else can carry on to town. Have one going one way, and one going the other throughout the day, especially morning and evening. A lot of places in NZ do not have a transport system that is sufficient to cater for the public and they don't in smaller Cities such as Rotorua. If the Schools can do it, why is that not extended further to the general public, especially out Hamurana way. The Public bus stops at Ngongotaha. Why? We don't live in the jungle.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I think the proposal as it stands is too complex and will be difficult to implement. For example, Malfroy Rd is 50 - 30 - 50 - 30 - 50 - 30 - 50! Should be 30 and be done with it. However - I do think it should be timebound - ie. only for one hour around school start and end times. I do agree with lowering the speed in the CBD to 30.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Agree

Q8. **He aha ai?Why?**

Will make it easier to get around for pedestrians and for reversing out of car parks - especially in tight spots like Hinemoa St. Will make it easier for reversing out of parks on Fenton too. It would also make it possible to remove the traffic lights on Fenton/Hinemoa. These traffic lights make no sense. If people don't want to make a right hand turn out of Hinemoa onto Fenton, they can turn left, and then do a u-turn at the roundabout at cnr of Arawa and Fenton.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Agree

Q10. **He aha ai?Why?**

Agree that 100km is too fast for rural roads.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Agree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Neutral (no opinion)

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Neutral (no opinion)

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

I agree about lowering the speed in the CBD and around schools, but the proposed area around schools is very wide, unless the school is on a main road like Malfroy. Isles Rd doesn't make any sense either. If the purpose is about safety for children, wouldn't all of Isles be 30? I think reduced speeds around schools should be timebound at drop-off and pick-up times like they do for Pyes Pā School in Tauranga.

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I do agree about reducing the speed in the CBD. At the same time as this is implemented, please consider removing the traffic lights on the corner of Hinemoa Street and Fenton Street. The new speed of 50km/h on Te Ngae Rd doesn't make any sense. All of Te Ngae Rd should be 60km/h, rather than the current mix of 50, 60 and 70. Should definitely remove the 70km/h area. People do not know how to merge, and there are so many near misses when people turn right onto Te Ngae Rd.

Disagree

Q8. He aha ai?Why?

These plans are the craziest thing I've seen proposed by the council, and that is saying something. These plans will achieve nothing apart from more revenue for NZ police in terms of fines. To make roads safer, far more could be achieved by building a proper cycle network, grade separated and made from asphalt not concrete. Not just put in random sections of cycleway where it is cheap and easy, that don't link up and end with dangerous sections where cyclists are forced on to the road. For the CBD it would be a better idea make more streets pedestrian only like eat street.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

There is no need. There is benefit in widening the roads and creating more room for cyclists as well as cars. Tarawera Road that gets a lot of cycle traffic should be widened to allow for cars to pass cyclists safely. Especially since mountain bike tourism brings a lot of money to the town.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The goals are good but the method proposed with not achieve anything. Investing in cycling and pedestrian infrastructure will make more people walk and cycle places. And as a result reduce traffic accidents. Focus on increasing housing density not urban spall. All lowering speed will do is create more unnecessary traffic problems. Having major road without many ways to get across them is a major barrier to walking and cycling. A pedestrian/cycle overpass of Tarawera Rd would make it easy for east side residents to get to the forest. An overpass by the mall would mean people could get across the main through road of Rotorua with out having to stop traffic.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

These plans are a joke. The council claiming they want to encourage cycling when the first thing they did after getting elected was remove cycle lanes shows how hypocritical and incompetent the council is. And that was after promising to '#stop the spend'. The first thing they did was waste money. Don't inconvenience 50000 people because the council won't spend any money on useful projects. Proper cycle ways are incredibly cheap compared to investing in more lanes for cars and has much lower maintenance costs. If the council is short of money, have the mayor and councilors take pay cuts. Investigate the corruption involved with the CEO appointing 6 of his friends to deputy CEOs. This is a cost other councils don't have.

Agree

Q8. He aha ai?Why?

The streets are subject to high pedestrian activity at most times. the previous suggestions propose 30km/hr all the time whereas most drivers adjust their speed to appropriate levels. However poor levels of decent pedestrian crossing points such as on Fenton Street from Sala Street towards the SBD and Kotu Road would improve safety without the public protests this consultation is sure to initiate,

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

There is a danger people will think it is safe at the posted speed limit, regardless of the weather conditions. It should be possible to prosecute drivers for speeding, even if their speed is below the posted speed limit when conditions warrant it. Rather like the Limited Speed Zone situation NZ used to use.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed is only one aspect of road safety. Rotorua's footpaths are a disgrace. Council's infrastructure asset management should regularly review the required level of performance as things change, Not just keep maintain them to the initial condition. NZTA Pedestrian Planning and Design Guide has a minimum of 1.5m width which would allow better separation of pedestrians from traffic. A full review of appropriate footpaths and crossing points, especially for vulnerable pedestrians who use mobility should be undertaken. Where there is an obvious need for footpaths both sides of urban road, such as all roads designated above "Access" in the Waka Kotahi One Network Road Classification, the asset management system should have a designation that requires them to be constructed. Why did Council wait so long to consider development contributions, which could have been used for this over the last decade or so, leaving an 8 figure sum which could have contributed to this?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Look well beyond just speed limits. Stop relying on subsidies that skew the priorities for bringing pedestrian and cycling up to a decent standard. Employ some expert consultants in roading such as WSP or MR Cagney's

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There is nothing wrong with the speed limit now

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

60 is way to low and you can't wrap everyone in cotton wool.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There is no need to change a the speed limit, it won't make much difference and will cost money that Rotorua does Not have we have huge debt and you are putting our rates up as well.

Āe | Yes

Q6. **Why?**

Totally unnecessary to slow traffic down. For example, Tarawera Rd is wide enough and visibility for drivers is no issue. On Te Ngae Rd why have a 50k/m section in the middle of a 60k/m road. Makes no sense at all. Sunset Rd you will get people who get frustrated by someone doing 30k/ms and make silly passing manoeuvres. How many people have died on the roads doing 50k/ms - very few. Those that cause issues are speeding drivers and making bad decisions. Better education and policing are a better solution. Slowing drivers down will cause more issues with congestion and increase time spent on the road travelling through the region/city.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It should not need explaining- 30km is crawling speed. The increase you have applied to the value of human life has place way to much focus on safety and not enough on productivity (the value of time).

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Agree to 30km in city center but you city limit is to large

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

No familiar with those roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Agree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Neutral (no opinion)

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

A select few need changing but not this blanket approach.

Q20. He aha ai?Why?

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

How many incidents have occurred due to a speed limit being 50km (no other factors) & how will lowering to 30km change this? I strongly appose due to Emergency Services being restricted to 30km - specifically in my rural community where as a first responder volunteer fire fighter I travel from home to the station at legal speed limit. How does extremely careful travel at 50kms vs 30kms impact response times & patient outcomes?

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

I strongly appose due to Emergency responders being restricted to legal speed limits - specifically in my rural community where as a first responder volunteer fire fighter I travel from home to the station at legal speed limit. Some brigade members respond from 50km or 100km limit addresses & would not be able to meet required response times at reduced speeds (potentially reducing the available crew for our community)

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Current speed limits & poor driver behaviour is not enforced well. blanket reduction of speed limits will only make drivers indifferent. Spend our money on proper maintenance of roads, improving known dangerous roads, driver education & enforcing existing laws

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

What an idiot idea, how much did this survey cost rate payers. There is going to be more assaults from road rage incidents and Police will be ticketing people that can afford it, then will be put through the court systems as a criminal for having a fines warrant and not paying there fines.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Absolute stupid idea, slowing people down trying to get somewhere won't help someone that can't drive.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Road rage incidents will increase and people will have more fines against there driving records. Look at Te Ngae rd, there aren't too many children that walk along the road, people still travel at 70km across this road regardless of the 50km limit.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is a stupid and frustrating idea but the council will not listen to the people that pay their wages and do it anyway. More money wasted on this stupid endeavour as opposed to making the roads safer.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

reducing speed levels will not minimise all the factors involved in accidents. Not will it stop those who already speed.
Fruitless response to a changing population and times

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

People already travel slower in the city to look for parks. As much if the city has pedestrians the more frequented streets should be more pedestrian friendly

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Same answer to earlier. This is a generic response to a multi-factorial issue. Will also cause increased issues of people speeding in frustration and drivers not being able to drive proficiently at higher speeds. Most likely outcome is an initial reduction in accidents but then as those speed become the norm the number will return

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Upgrading and properly fixing roads over reducing speed limits, the proposal is completely unrealistic.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

As the tread of my comments, as a truck driver, the roading is the biggest issue when it comes to maintenance for a vehicle owner which it's personal or business. Having half-assed repairs and pothole loose cold mix create harsh roading and larger issues.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I support 30km to keep school children safe during school hours, but only directly outside of the school

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

This will just make drivers frustrated & there is no need to change it to such a rediculously slow speed. Most people slow down where and when necessary anyway

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Again, this is going to frustate people and will add alot of time onto trips. I drive my children 30 minutes to school every day which os already 2 hours out of my day going there and back twice a day. It will mean having to leave earlier & having to get kids out of bed earlier. Why fix what isnt broken?

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Again, it is going to make people frustrated, it will also allow more people to think its ok to use their phones or play with their stereos. It will make travel times alot longer creating more congestion, people will have to leave earlier for work & the buses will take even longer to get where they need to go. Walking and cycling are not safe like they were prior to the 80's anyway as there are far more cars on the road due to the population.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This zero road toll stuff is just completely unrealistic and these silly policies and speed changes are ludicrous. I dont see why the whole of NZ should have to suffer the consequences of a few that speed and spoil it for the rest. Why fix what aint broke.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

People do 30km in town sometimes ahead as they're looking for parks

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

You've already lowered the speed limit of most of these roads. The accidents that are happening are not just speed related.
Other substances are involved

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reducing the speed around schools and the 1km vicinity won't help. People can only go past schools at drip off and pick up currently at lower than 30km because there are too many hazards around. Reducing it all the time, when children are in school or at home after school is just going to slow down everyone else. Trades will take longer to get to jobs costing the customer more. Petrol is already too expensive. It wont incentivise people to walk or bike as it rains too much and people don't often live within 1km of the school they attend. Children who attend after school activities require their parent to pick them up and take them too the activity along with gear they need

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

You mentioned that it will cost 6m to implement variable speed changes. How much is it costing to implement new road signs outside all the schools. We went to Tauranga and they currently have two variable speed changes as you go down pyes pa onto Cameron road, this is a much more logical idea

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe | Yes**
whakaheke pae tere ki te 30 kiromita i te haora ki
ngā rori ahakoa tāone, taiwhenua rānei, me ngā
huarahi whakahonohono pērā i ngā rori a
Sunset, Malfroy, Tarawera me Fenton?Do you
support reducing the speed to 30km/h for all
local streets (urban and rural) including urban
connectors such as Sunset Road, Malfroy Road,
Tarawera Road and Fenton Street?Click Here to
enlarge map

Q2. **He aha ai?Why?**

I live in Hillcrest and people are driving too fast and it is unsafe for my kids. I don't think that a simple speed limit will do
though. There will have to be speed bumps as well.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana **not answered**
koe i te whakaheke pae tere ki te 30 kiromita i te
haora ki ngā rori o ngā hāpori taiwhenua pērā i a
Mamaku me ko Reporoa, hāunga ia ko te 50
kiromita i te haora ki ngā huarahi
whakahonohonoDo you support reducing the
speed to 30km/h for all local streets including
local streets in rural hubs (Mamaku,
Reporoa), excluding existing 50km/h on urban
connectors?Click Here to enlarge map

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te **not answered**
kore koe e whakaae, e tautoko ana koe i te
whakaheke pae tere ki te 30 kiromita i te haora,
rima rau mita te tawhiti i waho tonu o ngā wāhi
urunga o ngā kura katoa tāone mai, taiwhenua
mai.If not, do you support reducing the speed
limit to 30km/h for only 500m from outside the
front entrance of all urban and rural schools?

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō **Agree**
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?Having a 30km/h speed limit in
the CBDClick Here to enlarge map

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

I think these roads can stay at a speed of about 80–100. They don't seem to be unsafe and makes shipping goods in these areas quicker.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50 kilometres is plenty slow

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Rural roads have far less problems than other roads - focus on fixing pot holes

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's a temporary fix to try and solve the problems with the roaring network. Fix the roads before slowing them down try and avoid doing the work

Respondent No: 470

Āe | Yes

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

What is the point? The CBD needs to ensure the traffic has a constant flow. Reducing the limit is going to create congestion and more road rage than there is now.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

This is only going to increase road rage and backed up traffic. There are always people who drive 20 kms below the speed limit creating problems. Reducing the limit further will increase other road safety problems - like overtaking and inappropriate times.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reducing the speed limit will have the opposite affect of what you are trying to achieve.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Make the road itself safer. Fix potholes. Reduce road work time frames.... etc

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

"Save the planet" then make everyone ride their brakes and wasting gas all day long. Driver fatigue. Loss of concentration. Money extortion from the police. Vehicles are not designed to go 30kph, so extra heat and wear and tear and fuel losses. If school safety is apparently no.1 priority, how about teaching pedestrian safety in schools like back in the day and speed cameras around schools with warning signs that they're there as a deterrent from speeding past schools, after that if people still get hurt or killed on the roads, I'd just write it off as an act of God.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

Just because you can't drive the current limits and feel the need to over reach your power and change the limits to suit your driving abilities, does not give you the right to control every body's speed threatened by extortion for their ability to drive faster than you.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

Abuse of power, fix the roads, not rewrite rules to suit bad conditions and poor workmanship. Let's waste tax money on crap quality bitumen that lasts 2 weeks so our mates all get a hand in the pocket, then once the roads are bad enough we will look good and slow everyone down by wasting more tax money and force people out of their cars!

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Strongly Disagree

Q8. He aha ai?Why?

30km is far too slow for the CBD.It won't stop the people you are targeting. Most drivers know how to drive. Reinforce 50km with cameras or whatever but leave at 50km. We already slow down when we need to. Reserve 30kn for absolute areas needing it like roadworks etc or it'll become just another number.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

I dont live out there I don't know what's needed....common sense

Q11. Lowering speed limits will help reduce the number of speed-related crashes

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

30 kph is absolutely ridiculous

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

There is nothing wrong with 100 kph speed I have never had an accident doing that speed. Listen to Greg Murphy drivers need more training and harsher penalties for driving while using cell phones etc

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is total rubbish should have used the money wasted on this to fix the potholes and broken roads

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te Āe | Yes

whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Q2. He aha ai?Why?

My kids are school age. One of them isnin his first year at RBHS and it is so dangerous crossing that double lane road especially with the bend to amohau st and cars coming in and out of tarewa rd. I have seen 4 near misses so far. The speed is far too high and there is no pedestrian crossing for them. They have to walk all the way to the old Taupo rd lights if they want to cross pedestrian but no teenage boy is going to opt for an extra 15 mins walk over crossing a dangerous thats takes 1 minute. Safety over efficiency does not compute in the adolescent brain.

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana not answered

koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The roads flow calculation is not designed for 30kmh, this will cause an increased congestion. What would be worth including in this survey is how many deaths are currently caused by 50kmh collisions in this zone with modern vehicle technology. Investment into higher fatality road and intersections would be more effective to achieve the road to zero

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

I agree with speed reduction around school and high risk zones. As someone who leant to drive on gravel and country roads, they are safer than they have ever been. As we have seen in other regions such as horowhenua the speed reduction to 80kmh on rural roads has resulted in new signs... With the majority of people still traveling at 100kmh as they always have on their local roads. It seems to be a bureaucratic fix, not a practical one.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I believe it will have a null effect of road safety. If anything increase conjection and road rage

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

We already have an large amount of speed bumps in Rotorua. Although in passenger vehicles they are not an issue. In heavy vehicles and trucks they can prove very uncomfortable and problematic for cargo even at low speeds. I would encourage smooth ramp designs or wide axle drive overs similar to the designs on Clayton road. We already have to avoid the use of Kawaha point road now because of the new speed bumps.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I support 30km/hr around high pedestrian activity areas. Most residential streets are not high activity pedestrian areas. As I live on an urban connector at a high crash risk section (we've been here less than a year and we've seen 2 crashes, including having my car written off by being crashed into by someone speeding in excess of the speed limit), I am concerned that the widespread reduction of speed limits around rotorua will increase traffic, and potentially speed, on my street and make it less safe for my family to cross the street to reach the shared bike/footpath. The other piece of information missing is pedestrian crash rates in rotorua and where they happen. This seems like important information to include in the consultation but it is not there. Where do crashes happen? I'd love to have some speed bumps down our street as I feel this would be more effective than speed limits for some areas, particularly where current speed limits are often ignored

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p> <p>Agree for this in the very central area but this map seems to include a wider area than what I would consider CBD. I would agree with a 30km/hr speed limit for about 1/3 of the area proposed on the cbd map</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Neutral (no opinion)
<p>Q10. He aha ai?Why?</p> <p>I don't drive on these roads so it seems unfair for me to comment</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Neutral (no opinion)
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p> <p>not answered</p>	
<p>Q19. He aha ai?Why?</p> <p>not answered</p>	

Q20. He aha ai?Why?

I am concerned about unintended effects. For my family, I'm concerned it will make my area less safe as it will encourage more traffic on our road where the current speed limits are regularly ignored now. I also would like to see the Rotorua statistics about number of pedestrian crashes and the high risk areas that these occur. I support targeting these areas with reduced speed limits. Most of the traffic noise outside our house occurs with people speeding above the limit. This plan will not reduce this and may make it worse if more people seek out commuter roads instead of residential streets. Can we please have a speed bump down springfield road instead?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If this does go ahead, please consider how people can cross the urban connector roads safely in more places as traffic may inadvertently increase in these areas

change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It won't help make the roads safer, it just creates frustration and impatient drivers take bigger risks to pass and overtake.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I was born in this town, don't fix what isn't broken. Most speed related accidents are drunken muppets, meth heads, or out of control youths that will still break the law and travel above the speed limit anyway.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I do not support reducing the main road to Mamaku to 80 km/h as that is the main road in if people want a safer option they should go they other way around

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Will cause traffic jams and congestion on roads

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I see no reason to change the speed limits

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Speed doesn't kill stupid drivers do. Reduce outside school is a good idea but not for the rest of area

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Cause traffic build up

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Speed isn't the problem fix the damaged roads and teach people to drive

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Leave as is and reduce speed around schools to 30km

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Just focusing on speed alone is very closed minded. Focus on distracted/drunk drivers or people that don't know how to drive

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There is no reason to do that. The number of injuries car vs pedestrian does not justify such a change. Fenton Street within the CBD is a double carriage way and a connecting road.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

I regularly drive on Broadlands road to Taupo. The quality of the road is the same as SH5

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Agree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There is nothing to justify this change. Your calculation of travel time is misleading. This plan will significantly increase travel time.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I work in the hospital. I do not see a significant amount of injuries from inside city crashes. Most injuries are from State Highways. Not necessarily only due to speed.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because generally 50 is fine, if something is happening ie a car reversing out of a park or something logic means you slow down. The traffic isn't the reason the CBD isn't vibrant, safe, and attractive. I'm sure you're aware of the homeless problem in the CBD!

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Because 100 is a pretty reasonable speed. It's usually lack of concentration or driving outside of your ability that is the issue.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because I believe the speed limit should stay 100. It is a safe speed as long as drivers aren't distracted and driving to conditions.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

During school hours is a way to reduce the possibility of harm to the children crossing the road, getting in and out of cars and allows for some tolerance of those drivers that are challenged with the fact there are actually other people sharing the roads with them

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. **He aha ai?Why?**

It will not stop those that flaunt the laws only make it more dangerous for those that are keeping to the regulations as they will now be going significantly slower than the idiots that have no regard for others let alone laws that are supposedly put there to make it safer for others

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. **He aha ai?Why?**

Its not going to stop those that speed on country roads slow down. Once again making it more dangerous for those sticking to the limits set for them by bureaucrats thinking they know what is best for the people.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

They are totally absurd and will only create more accidents and harm to those abiding by the ridiculous restrictions

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?
