Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Stupid speed

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Too slow

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I only support reducing speed outside 500m from outside the schools entrance. Children are less aware about road safety and there is alot of children. Commuting to and from on roads that may need to taken at speeds of 30kms will cause a traffic build up. More cyclist will be using the road but there will be people taking chances on bikes and cars trying to beat the next whoever because it's taking them so long to get to wherever.

Q7. Pātai tuarua (Question 2) He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map	Strongly Disagree
Q8. He aha ai?Why? Again traffic build up around the CBD	
Q9. Pātai tuatoru (Question 3) He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map	Neutral (no opinion)
Q10. He aha ai?Why? not answered	
Q11. Lowering speed limits will help reduce the number of speed-related crashes	Disagree
Q12. Lowering speed limits will reduce traffic noise	Strongly Disagree
Q13. Lowering speed limits will help reduce traffic pollution	Disagree
Q14. Lowering speed limits will encourage more walking and cycling for transport	Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It makes sense to reduce the speed out the front of schools for a period before school say 7.30 - 9.30am and 2.30 - 4pm. In Australia this system works well and then returns to 50 outside of these hours

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

It might make it safer

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I agree with the school zones but it is going to increase congestion dramatically on the roads where you can go 50 which for us is our only route to town, this is going to increase our travelling time a lot. I think drivers are going to be more stressed and more aggressive overall

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

It will be a shame if you do not listen to the overwhelming public sentiment against this plan. I have not spoken to one person who thinks this is a good idea. It is a shame that council are trying to make Rotorua such an unlivable city. I also know that it is unlikely that council will listen to the people, it is more likely that it will be like most other submissions based reviews of plans where is it just done to tick a box.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's not targeting the problem, which is lack of driver education in this country. People road rage at 50km/hr now. What do you think it will be like at 30! Road to zero is an unobtainable goal and everyone know it.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Better driver education through the licensing process and teaching people how to drive to the conditions would be far better money spent than reducing everyone to a snails pace.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

no I do not put the funding to use somewhere else, it's going to cost alot of money to change signs around also, no it it is not going to change people's attitude around driving definitely not.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

To drop the speed limits where congestion is already here withheld current speed limits are not working what makes you that dropping speed limits is going to,also pollution rate will rise as people have to sit longer in traffic,peoples state of minds will become more frustrated and angry at the fact that they have to drive slower to try and make it somewhere faster.

Strongly Disagree

Q8. He aha ai?Why?

Absolutely load of croc. The whole city will just become gridlocked. Another thing to further discourage people from visiting the CBD

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

People driving on rural roads are usually locals who are well aware of the dangers and for the most part drive to the conditions. There will always be a risk, doesn't you should have everyone potting along on a "Sunday drive" for the once you might meet an animal etc on the road.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed is not the problem. Cars are supposed to be safer, so the same speed limits should be safer. Driver education is a big part of what is needed.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Avoiding having an accident is much safer than just a slower one. Listen to Greg Murphy!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Āe | Yes

Q2. **He aha ai? Why?**

I have cycled since the age of 12 to commute to school, work etc. I am now 70 and regularly used my e-bike to commute to work Owata to Scion and to town Owata to library. There are some cycle ways but not everywhere and I feel cars go too fast for my safety. I also walk a lot and fear for children on the footpaths, crossing streets and biking.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

not answered

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Agree

Q8. **He aha ai?Why?**

Crossing the streets where there are so few pedestrian crossing is a dangerous operation ESPECIALLY at the intersection of Tutanekai and Hinemoa St (the old city focus). Humps in the road to slow traffic down are confusing for people and drivers. The drivers are not required to stop of pedestrians but often do, confusing.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Agree

Q10. **He aha ai?Why?**

Because these road are used by life-stylers, cyclist and have other uses; more so than the main highways.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Agree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Neutral (no opinion)

Q15. **Lowering speed limits will improve health and wellbeing of the community** Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. **He aha ai?Why?**

Because it makes walking and cycling safer.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If we want to tackle climate change anything that does not put people cycling or walking promotes, in an indirect way to climate change.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The proposal is ridiculous. The condition of roads and lack of roundabouts/traffic lights at busy intersections are the issues that need resolving. Pouring money in to changing road signs and then policing the new limits could be well spent in other areas.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

No, because I'm confident that Rotorua Lakes Council will proceed with their draft plan regardless of public feedback they pretend to be interested in. Disappointing and unhelpful as expected from RLC.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Although speed is a factor in injuries incurred in accidents, the accidents wouldn't occur if drivers were taught how to drive correctly. Lowering speed limits is the ambulance at the bottom of the cliff.....learning HOW to drive PROPERLY, is the only way to minimise accidents. If that means teaching it at school, (with all the other parental duties), then so be it! (A monkey would pass the driving test in NZ!!!!)

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>Poor driving skills and Idiots cause accidents</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q10. He aha ai?Why?</p> <p>Once again.....TEACH PEOPLE TO DRIVE PROPERLY!!!</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Strongly Disagree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Neutral (no opinion)</p>
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	<p>Strongly Disagree</p>
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	<p>Strongly Disagree</p>
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	<p>Strongly Disagree</p>
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	<p>Strongly Disagree</p>
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	<p>Kao - No</p>
<p>Q18. He aha ai?Why?</p> <p>not answered</p>	
<p>Q19. He aha ai?Why?</p> <p>not answered</p>	

Q20. He aha ai?Why?

Speed alone doesn't kill or cause greater potential injuries..... skill is whT matters.... AS WITH ANY TASK.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Driving a vehicle is being in control of a deadly weapon.... put that on your adverts!!! (That was the first thing I was told when I took my first lesson)

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

It's about driving to the conditions. If you can't do that you shouldn't be driving. I don't believe treating the whole CBD like a road works area is helpful.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

don't travel enough of these roads to form an opinion

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Kids are slightly unpredictable, The adults who are picking them up are also very erratic

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

To have a functioning CBD, need to have things that bring people into the CBD and places where people can spend money, cafes, shops, etc

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Would like to see the accident data, to support these changes

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Some people believe driving is their rite, to change the road toll rate, attitudes need to change, to its a privilege to drive. Respecting others. Has a cost versus benefit been created? Additional cost for transportation etc, be good to see this supporting documents

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because slowing down around School's has been proven effective around the world. But a blanket reduction in speed limits does nothing but Cause further congestion

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it seems grossly unnecessary, better efforts would be better spent training drivers how to operate their vehicles safer. Or be spent repairing the roads properly so we dont get pot holes every time it rains

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The roads are safe for use at 100kph, driver training is the issue

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

No, as lowering speed limits is just a band-aid fix for a much bigger problem. It is heavily influenced by a she'll be right attitude towards driver training and road infrastructure management

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

I use a vehicle every day as a part of my job lowering speed limits won't change that fact. You need to do a deeper dive into the why accidents are happening. I'd propose harsher penalties on those using mobile phones while driving as distracted drivers are the most dangerous statistically,

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Its not the speed thats causing injuries its the fact that people are stupid these days. Vehicle technology is making cars safer. It peoples faults thay they are stupid.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again its the fact that people are stupid. More control is needed for people that have driver licenses that dont know how to drive

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it is ridiculous ,fix the roads properly and educate people.on how ,acually drive and the rules that are in the road code

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The problem is the road condition and a good percentage of people on it that they have no idea on how to drive i have no idea on how they got there licenses as they dont adhear to the rules and regulations that the government has decided that you NEED to know to get your licenses

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Makes sense especially before school and after school with the heavy volum of traffic and children about

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Too slow, causes people to be impatient and take risks

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Not necessary, responsible drivers drive to road conditions, irresponsible drivers will still drive well over the proposed drop in limits. Rural roads in tight conditions can be travelled at 100km

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise not answered

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport not answered

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Will only cause impatient drivers, more risks etc. lower speed yes at school zones and maybe only the streets like Hinemoa/Tutanekai as that street is already a disaster waiting to happen with the silly set up There

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't change it but I think we know you will as council never listens to residents

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Having a 30km/h speed limit in the CBD might discourage me from driving there for fear that if I break the proposed speed limit then I could lose my licence (via demerit points) and lose my job (as I rely on a vehicle for work). This will likely cause more harm to peoples mental wellbeing, anger, road rage and traffic congestion.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

I believe that lowering the speed limits further might force drivers to slow down quicker than usual.

Q11. Lowering speed limits will help reduce the Neutral (no opinion)
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Neutral (no opinion)
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I feel that the proposed speed limits has become more of a political issue than it should be. I think the current government has not address the real issue around safer roads which driver training and building safer and newer roads.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. Why?

1.Reducing the speed limited will not stop speeding drivers as they will continue to break the law as they do now. 2.Emergency services will also need to follow these speed limits in most situations, which will impact on the time getting to patients, and if I was having a heart attack, my chances of survival would be reduced if speed limits are implemented. 3. The council facebook page states school aged children are at higher risk of being hit by a vehicle and you road safety surveys show one of the main reasons families drive is because they don't feel safe letting children walk or bike? I am a parent of three children aged 8 to 16, and the main reason is safety, but not with speeding cars, its the public they will come into contact with they are increasingly violent and unpredictable, as well as dogs roaming which makes it unsafe. 4. The main school aged children who travel on the roads without parents are intermediate and high school children. these schools are predominantly situated on main SH roads in Rotorua which speed limits are not affected. In general primary aged children are dropped off and collected by parents/caregivers or attend OSCAR programmes and are not using the roads by foot. 5. Children are only on the road within specific times, so why reduce the speed limit all the time 6. Although no death is ever ok, even with all the measures in place, there will always be events that happen and I am unsure that the number of urban deaths in Rotorua over the past 10 years, justifies a drastic change in the speed 7. The cost to taxpayers to change speed limits verse alternative methods does not seem to be of value, those who speed will continue to and will continue to put others at risk regardless, it seems better to look at each particular event that has caused a death or serious injury and understand how it occurred and promote awareness in the public

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD[Click Here to enlarge map](#)

Agree

Q8. He aha ai?Why?

I have no issue with the CBD having reduced speeds, to be honest most people reduce there speed there anyway as they are trying to find a park and there is likely to be higher volumes of people concentrated in these areas.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.[Click Here to enlarge map](#)

Neutral (no opinion)

Q10. He aha ai?Why?

Can the council provide any context as to why these particular roads need to be changed?

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai? Why?

not answered

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

Reducing speed in urban areas will not stop speeding drivers who are already breaking the law, they will continue to do so. There needs to be tougher penalties for those who break the law instead and to tools to deter people from speeding. Lowering speed will not lower noise, and if noise is an issue the promotion of electric cars will no doubt reduce noise over time. Lowering speed will not improve the health and well being of the public as the risks will still remain regardless of speed.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

The council has not reached at very well to advise its whole community on these changes. Those who do not have access to internet and social media and have not been told by another person, are not even aware of these proposed changes. Unfortunately I feel that the decision has already been made for the public of Rotorua and I expect this is just a way to make us feel like we had a say. If you look at the social media posts, it is obviously overwhelmingly unsupported by the community. so I hope that council really take on all this feedback before making a decision.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Decrease in productivity, horrendous cost of changing speed limits, more traffic congestion and people who exceed the speed limit now will still speed.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

There appears to be no statistics provided to show that any of the 'speed related deaths' occurred with speed being the ONLY factor and at a speed of between 30-50kms and therefore I don't believe that this proposal will reduce deaths to zero. A focus on speeding drivers (over 50kms), drug and alcohol testing and erratic driving would likely have more of an impact.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Nothing wrong with the 50k limit currently

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

Current limit is fine as it is

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Ok as it is

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

No

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Kids are unpredictable and we need to protect them so if reducing the speed around schools helps with this, then that is a good thing.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I think 50km is fine around the CBD. Most people do less than that anyway but don't have to put the speed down to less than that for all the CBD.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

They are rural roads so leave the speeds as they are. We will be crawling around everywhere if you have your way!!!

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Stop dictating everything!!! We are adults and can make decisions of safe speeds by ourselves. Start looking at the state of the roads that actually cause a lot of crashes due to having to swerve to miss pot holes, road surfaces wearing away etc. Maintain our roads & highways and we won't have as many crashes!

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is a waste of time and money. Put more police on the roads to stop the bad driving. Make driving tests more involved.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Drivers actions/Drugs and driving. ANd bad driving in general is causing all of this. Change the way people are taught. Make getting you licence harder and make full licences compulsory after 1 year of having a restricted.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We will turn law abiding citizens into criminals, most kids don't walk to school, it will stop city growth, travel time will increase dramatically, productivity will decrease in the city, we will become a nanny state and laughing stock of the country. The whole city should be 50km per hour.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because those who choose the road speeds probably are old can't drive and drive small cars. 80km hour in some places are realistic. But 60km is a joke.

Q11. Lowering speed limits will help reduce the Neutral (no opinion)
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

Q14. Lowering speed limits will encourage more Disagree

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because lowering the limits will not encourage more people to bike or walk. Life is busy. Those that want to bike and walk are already doing it. Of course reduced speed means less accidents so does staying at home or wrapping your self in bubble wrap.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Realistic speed limits, safer roads, teaching people to drive properly and not making the 99% of people who drive safely be inconvenienced and delayed due to the 1% of muppets who are still going to cause accidents no matter the speed. I really hope you are joking about 70% of the city being 30km. You will ruin the city.

If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

We are apart of a rural community on a road where we have pulled people out of a car flipped upside down. There is no signage. No reflectors on our rural road. I'm not concerned for the small streets where traffic prevents most people from speeding. I am however concerned about the lack of reflectors on the side of roads that are in the most remote parts of our district. The furthest from getting emergency services and the concern is lowering the speed limits when it's not going to stop those that speed anyway... It's not right. Look after the rural communities we pay the same rates as everyone else yet we are the ones that get the least support and services. Priorities need to change.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Schools are fine , every where else is just a idea,

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Reduced speed limits cost more time for company's etc there costing more money etc

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Again reduced speeds more time on road, stupid idea focus on training people how to drive etc rather than slowing is all down to a crawl

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it's rubbish hoping people will walk in a already dangerous city full of homeless people and gangs is a joke , leave the limits alone fix the roads , teach people how to drive

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Want a safe city , sort the homeless people out sort the gangs out ,

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te Āe | Yes

whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? [Click Here to enlarge map](#)

Q2. **He aha ai? Why?**

It would be safer and would encourage more foot traffic. In a town so focused on tourism, it would also encourage tourists (and others) to wander through town shopping and seeing the sights, without worrying about being struck by traffic while attempting to cross roads.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana not answered

koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? [Click Here to enlarge map](#)

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te not answered

kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

Same as the last answer- it's safer all around and encourages foot traffic and tourism.

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Agree

Q10. **He aha ai?Why?**

This is safer than the current situation. The roads are too windy for 100 kph speed limits realistically.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Agree

Q12. **Lowering speed limits will reduce traffic noise**

Strongly Agree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Agree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Agree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Strongly Agree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Agree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Āe | Yes

Q18. **He aha ai?Why?**

It will make it safer and encourage tourism.

Q19. **He aha ai?Why?**

not answered

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Why punish the good drivers for bad drivers behavior. They will still drive like dicks and we will have to leave 30mins earlier just to get anywhere. This is ridiculous.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Drive to the conditions, as it's always been. This will slow down commuting, make holidays awful, increase road rage and will not stop idiot drivers only punish the good drivers.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's fine as it is, as before this will only serve to punish those who drive properly anyway. People who speed don't care and will continue to speed, it will cause congestion, road rage, mess with schedules, people would have to reduce hours at work just to get to lids in time. 30km an hour is ridiculous.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I hope the council does not allow this to go through, the people can protest..... but will our council listen???

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lazy policy making that is not realistic. Trying to achieve a goal whilst saying it is for other reasons, people aren't stupid.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Stop adding speed bumps everywhere. One 10m before the start and end of schools only.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

It should be about driving to the conditions given. Sometimes it is more appropriate to go slower than 30km, and other times it is completely ok to drive at 50km in the CBD. Put speed cameras in to catch the idiots going over 50km. Those speeders will break the law no matter whether it is 30 or 50km. Trust on the majority of responsible drivers to drive to conditions.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Many rural roads are narrower, and many also have more housing than previously.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai? Why?

Reasons already explained. Reducing speed limits leads to frustration among drivers, eg Te Ngae road going from 70km to 50km. People make poor decisions when frustrated and annoyed. Put speed cameras up agsin and catch the culprits rather than treating all drivers as irresponsible. I cannot see that people will move to biking or walking because of reduced speed limits. Not realistic for families with children going to/from school , work and after school commitments.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. Why?

I support the reduction of speed outside schools, for the obvious reason, being the safety of all scholars children. I do not however, support the proposed change to 30km/p for all connecting streets in the urban areas, excluding main trunks such as Malfory, Sunset, Clayton etc as they remain at 50km/p for example. The reason being 30km is very slow to spend day in and day out travelling. Driver frustration will increase, the reduction increases travelling time and heightened risk for emergencies. Take volunteer fire fighters, for example, they have only minutes to get the fire appliance onto the road. A speed reduction equals a lengthened time for responding to emergencies, thus putting lives at greater risk. Learner drivers become less confident behind the wheel especially when exposed to 100km open roads, this will lead to an increase in accidents on the roads. There will be an increase in cost to drovers for car maintenance, in the form of brakes due to having to keep the car travelling slower. As often observed, drivers fail daily to maintain the 50km set for Te Ngae Rd and Tarawera Rd (exasperating speed reduction that one!). If 30km becomes the normal, it won't be received well by the public and will cause an increase in work demand for our already stretched law enforcement sector. I can also see a move such as this causing the council to fall out of favour with the Rotorua community, causing more disconnect and less trust that we as rate payers will be listened to by those we voted in. What is needed in place is: - better driver education through a more robust licencing system. One more like what the UK has implemented. Better driver education = better driver.

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map Agree

Q8. He aha ai?Why?

If a 30km/p limit is imposed in the CBD only, I think it would form a safer place for the public to be. But only in the CBD, not the surrounding streets such as Victoira St for example.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

I feel for the residents who have to travel these roads daily. Its frustrating enough travelling 80km along Tarawera Rd out to the lakes, let alone having to adjust your life style to accommodate for the increase in time.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community	Disagree
Q16. Lowering speed limits will improve liveability in the city by making it safer	Neutral (no opinion)

Q2. He aha ai?Why?

not answered

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. He aha ai?Why?

not answered

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. Why?

not answered

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We have no major accidents in the past. So why you need to change?? It's safe enough

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Leave as is. There is nothing wrong. Just listen to people who live around there

Q11. Lowering speed limits will help reduce the number of speed-related crashes Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Just stupid idea. Make people more stressful. Inflation is hard enough. Do not put us anymore stress

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Need to change whole council members. Seems to have no brain

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Roads are for cars. 40km would be acceptable

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

100km is too fast for most rural roads to drive safely. Also farm vehicles, animals etc can suddenly be just around a corner.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

30km is too slow. Roads are for cars. It won't stop people who choose to drive carelessly or who speed - they will still do it. Just like all the other people that break the law.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Schools are fine having thr speed reduced but definitely not urban streets, that will be a step backwards, it's better education to the young hoons & unlicensed drivers & the too old you shouldn't be driving, the majority of us are law abiding and can stick the 50km, will be the worst thing ever, I'll riding my bike at the same speed as a car or is that your intention, get people to stop using their cars

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>If you are meaning streets between Fenton & Ranolf 30km could possibly work by looking at that map which I saw before I had to start again looked like the c d was further out so not I do t agree</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p>	
<p>Leave it as it is, has been the worse thing they have done moving the speed limit from 100 to 80, keep it as it is, it's bad enough those slow drivers who don't stick the speed limit are making it worse so they are going to be even slower</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Strongly Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Neutral (no opinion)
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Neutral (no opinion)
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Neutral (no opinion)
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Strongly Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Strongly Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

Leave as it is, more education on driving would be better & unlicensed drivers

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

Don't have a survey & it says to view something & then you can't carry on with the survey, is that your intention so people get pissed off & don't complete survey & then you change all the speed limits & use the excuse we only had a small number do the survey, thank you

Q22. Tō Ingoa Name

Christine Aratema

Q23. Tō Īmēra Email Address

Q24. Tō Wāea Contact Number

Q25. Tuakiri Gender

Q26. I pēhea koe i rongo ai i tēnei kaupapa? How did you find out about this project?

Social Media

Q27. Tō Kāwai Ethnicity

Q28. Iwi

Q29. Affiliation

Q30. Kei tēnei takiwā koe e noho ana? Do you live in the district?

Āe | Yes

Q31. Kei tēhea wāhi o te takiwā nei koe e noho ana? Where in the district do you live?

Q32. Mehemea nō waho kē koe o te takiwā nei if you are not from this district, do you...

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Around schools where there is traffic and children crossing 30km speed limit is great. On other streets it's not necessary

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Make fixing the roads so 100 is a safe speed. Slowing traffic is a backwards step.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

not answered

Q20. He aha ai?Why?

Rural roads should be maintained to a higher standard. Dropping the speed limit because of poorly managed road maintenance is embarrassing and not a solution

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Need to keep pedestrians safe. Should help make it safer to drive through the area especially at school start and finish times

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

30kmh would create a bottleneck on through roads and increase road rage. Most drivers already slow down and drive to conditions in the CBD. Let us practise our driver judgement instead of dumbing down and mandating for the lowest common denominator

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Most roads are 100kmh suitable. Most drivers slow down and drive to the conditions already. Mandating a slower speed will add to road rage. Allow drivers to use their judgement instead of treating them as unthinking idiots

Q11. Lowering speed limits will help reduce the Agree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree

change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Slowing speed whilst still expecting people to live a fast paced life will increase frustration which could morph into road rage. Requiring slower speeds will not stop drivers who want to go fast from going fast. Look at the 50kmh area on Te Ngae Rd. Most motorists including trucks go 60kmh or faster. Enforcing the new speeds will increase workload for Police who are already overworked

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Absolutely reduce the speed limit outside schools, but changing most of the towns speed limits to 30km/h is ridiculous. It would encourage more speeding and dangerous driving as drivers will be frustrated at how slow traffic would be moving.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because 30km/h is ridiculous!

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

I think an 80km/h speed limit is good for rural roads. I think you'll find if the limit is reduced to 60 people will continue to go 80 or more, and will encourage dangerous driving due to frustration around the slow speeds.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The drivers that make it dangerous are going to continue driving dangerously no matter what the speed limit. People don't walk or bike because they don't feel safe with all the homeless and violent/aggressive people in Rotorua.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

You are not doing this in the interest of the people.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Scrap the proposal completely and start again from scratch. Take the time to listen to the people, and then look at each Road individually. You are proposing to reduce the speeds of many rural roads that don't need reducing at all, and at the same time you are not looking at reducing roads like Hamurana Road, along the lake front, that obviously needs reducing.

Strongly Disagree

Q10. He aha ai?Why?

I believe the statement made at the top of this page about current speed limits being regarded as unsafe are misleading

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I believe it would be a far better use of resources as well as much more likely to have a greater affect on public safety to maintain roads and infrastructure to a higher standard than the current situation instead of lowering speed limits

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It will help reduce an accident happening during school pick up and drop off.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Some of the streets are quite busy and narrow so this would be a help on those streets but definitely not for all streets.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

It takes long enough to get places and if your charged out at \$130 per hour or going to a breakdown or someone is dieing, every minute counts. If the road is unsafe, make it safer.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Āe | Yes

Q6. **Why?**

Its a life saving idea.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It will keep people away from cbd

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There is nothing dangerous on those roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limit will lead to more traffic congestions and more pollution on the roads. The more time vehicles stays on the roads makes it more volumnable them for accidents.

nei?How much do you agree or disagree with
the following?Having a 30km/h speed limit in
the CBDClick Here to enlarge map

Q8. He aha ai?Why?

Changing from car centric to people centric will enliven the place - that has been seen around the world.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Agree

Q10. He aha ai?Why?

Less carbon emissions and safer

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Agree

Q12. Lowering speed limits will reduce traffic noise Strongly Agree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Agree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Āe | Yes

Q18. He aha ai?Why?

For all of the reasons previously mentioned.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

people are already bad at using intersections and lights etc, imagine how much more congested traffic will be when the speed limit is reduced

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

rural road speed limits mostly get ignored anyway, so why spend money to change the limit on the signs etc for it to be ignored

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Agree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

the crashes that govt attributes to speed, are not really correct, the people that go 80km on open roads etc cause people behind to get frustrated and make stupid decisions, while speed undoubtedly plays a factor, the money would be better spent on more driver training, and most likely on the older generation as 90% of all people i have ever passed doing 80km in a 100km area have all looked over 60 age wise

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Kids make impulse decisions. Needs to be slower around schools. But not around the whole city!

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

People will get too frustrated. The area you have chosen is too large of an area.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There will always be bad drivers. The road toll will never be zero. We need better driving education not mum or dad teaching their kid how to drive

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Strongly Disagree

Q8. He aha ai?Why?

You say you're wanting to achieve "vibrant and liveable inner city that will create a safer and more attractive space". The speed limit isn't the issue here. We have people begging for money everywhere around town, kids too bored and nothing to strive for so have turned to crime, we have to pay for parking in town and had alot of parks taken away due to cycleways. All of these things are doing opposite of what you're trying to achieve however you're focused on something that isn't the problem. If you did do a survey on why noone wants to go to town, I would put money on the fact that speed has nothing to do with it

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

What are you wanting to achieve? Why is the current speed unsafe for the rural community? I know alot of people out in the country and haven't had speed related crashes or had any issues with speed This does seem like a situation of townies just want to control and change rural living, but why?

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It doesn't achieve the goal they're saying they're wanting to achieve. Traffic noise will still happen and if people aren't going fast, they can still be noisy. Safety is an issue but you'll find that it's people not following the road rules, not know how to merge, people who aren't comfortable driving open road however have no other mode of transport or be able to afford to live closer in town. I would be interested to know exactly what else was behind these speed related accidents they're talking about especially in town and small rural communities. Was speed the issue or just a factor? To be fair, the 'speed related accidents' I know of, have actually been due to lack of knowledge of road rules/their vehicle, distractions, dodging potholes and/or their ability to drive safely. Speed limits all round the country have been lowered over the years and we're still having crashes....how about first providing more information on road rules, when to pull over due to holding up traffic (eg camper vans or unconfident drivers going 40km under the speed limit and have multiple cars behind them) and providing safer roads to drive on (potholes have been a huge problem as people are swerving to miss them)

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please think about the picture as a whole, not just as a way to get more money out of people. I can imagine with these knew and unreasonable speed limits, there'll be more police or speed cameras around for all the revenue. Can you actually just think about the town and how to improve it, bring more people into town rather than just more money in your pockets from those who are already here, TRYING to still love this town

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I think it's sensible to have slower speed limits by schools as there is an imminent risk with many young children. 30kmh speed limits everywhere else is a joke

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I think reducing the speed to such a low speed there will be more inclination to speed and do silly and risky manoevers

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Alot of the roads you can safely do 100kmh, people slow down where necessary. You lower the speed limit and people will be more inclined to do silly and risky maneuvers. Most accidents happen with people speeding, DUI or not paying attention, lowering the speed limit will not change this

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's ridiculous, lowering the speed by a minimum of 20kmh is not going to solve the problems. Actually having accountability if people do something wrong would be the answer. Lowering the speed limits will not help.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Because you are not just including the CBD. You have also included, koutu, fairy springs, Utuhina and Glenholme which should not be included as the CBD

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because you are including all roads not specific roads that are potentially a problem

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because this is a blanket approach to the whole city. I don't believe that this will decrease speed related accidents, rather frustrate drivers

Maybe put more money and effort into tackling the safety issues in the CBD where people cannot feel safe or walk the streets without being affected by antisocial behaviour and delinquents asking for money... instead of causing disruption by making us travel at snails pace to get anywhere. Where are councils priorities? Is this why you are driving struggling workers out of the city by increasing parking prices just so you can put together proposals like this? It's a joke.

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reduced speeds in close proximity to schools at certain times of the day make sense as children are in process of arriving and leaving school in large numbers. This can be done with electronic speed signs. The rest of the time this is unnecessary especially during weekends and after school hours (3.30 onwards) so you are just going to frustrate people, cause traffic congestion. Part of the road safety should also be focused on children using the crossings as a large number jay walk in unsafe areas. Also increased provision of crossings in some areas where there are few if any for children to use for safe road crossing e.g. outside RGHS and around RBHS as well as others.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree
<p>Q8. He aha ai?Why?</p>	
<p>In some areas cars are unable to travel at 50 anyway, such as the inner streets. however along Fenton St. I don't think this is necessary nor other streets that surround the CBD and lead to other parts of the city.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p>	
<p>80km is fine for most of the rural roads, apart from some corners which have reduced speed suggestions already. If roads were maintained better a lot of the issues would be avoided. A number of the issues we have are more due to driver error, alcohol, drugs, excess speed (over 100km). Reducing speed isn't going to resolve all of these problems as some people are over confident in their driving abilities and ignore speed restrictions, staying in there lanes (even when driving slowly), distance between cars etc.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Strongly Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Strongly Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Strongly Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Strongly Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I don't think it is realistic. If your aim is to get people out of cars good luck as that isn't going to work. As a parent the reason being is that both parents work and drop children off on way to work, and if you get called to collect due to injury or sickness you need a car, also if you are picking them up for medical appointments etc. you need a car. This is the same re people biking and or walking, for many the distances are too great or not workable with lives outside school, work, activities. Basically as a working parent you are constantly running kids around to do everything in the time you have available to you.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is a policy that will just cause frustration and isn't what we want. Central government need to be realist that the zero idea is a dead duck as that will never happen no matter what they do. Instead they need to design roads better and invest in appropriate infrastructure rather than trying to dictate to us to the extent they have been over the last few years.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The town is already crowded enough. You end up going down to 20-30kms anyway but on the roads that arnt busy no point in going down to 30kms permanently

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

It's silly to go from 80kms then 100kms petrol is expensive enough as is and using more is just silly

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

In front of schools yes slower limits but all other streets will just make genral drive worse traffic then it already is as its bad enough with all the speed humps and the manholes that sit lower then the tarseal as makes it a harsh bump

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Will Make it more congested

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Cause it wont stop people as just make it worse for people traveling as generally theres already people travel slower that hold up traffic

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Doesn't seem necessary to be 30kph, confusion with constantly changing speed limits

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

As a daily rural road user dropping the speed limit on safe quiet rural roads isn't practical and drivers should be trusted to drive to the condition/road type.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

To much confusion for drivers with constantly changing speedlimit.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50km is a happy medium between fast (70km) and slow (30km) -a slower speed limit in town will create more frustration on drivers not to mention more emissions as driving at 30km is not environmentally friendly

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

On roads that aren't SHways 80km is going to cripple freight, lose productivity and generally make people impatient. On a windy, blind corner filled road, would be great however filling potholes and improving road quality would go a lot further than reducing speed limits

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Great way to slow down a community that needs to rely on productivity. A better way to improve safety and liveability would be to improve the roads themselves.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it is stupid. The whole scheme seems to be an exercise that has been carried out by someone who either has an agenda, or has nothing better to do. Although the former are my opinion and are irrelevant. But objectively speaking, the layout of the CBD streets means that speed will be naturally regulated due to the time of day, how busy the CBD is, and the amount of vehicles on the road. If there is a high volume of traffic on the roads, the police currently have the power under the Land Transport Act 1988 to fine people for careless/dangerous driving, even if they are under the speed limit. There is no requirement for the Council to be imposing rules, which mean that someone who is travelling down an empty road (i.e. Arawa Street) at night time, or at early morning, when there is no traffic on the road, has to travel 30km/h. I would pose three questions for anyone who is reading these submissions to consider 1. Has there been an assessment on the economic impact of the changes on the local economy - I would submit that the changes would be detrimental. 2. Are the changes actually required - if so, why has no evidence been produced for the public to interrogate as part of the information package we are submitting on? 3. Has an actual traffic engineer produced a report which states that these changes are required - or is this just someone within Council who would prefer the changes are made? 4. Would the process in which the changes have been determined to be required, stand up to the scrutiny of the ombudsman/a judicial review? 5. Why is further information not available to the public - when it is likely the outcome of these submissions will be summarised and provided to Councillors to allow an 'informed decision' based on consultation.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Just leave the roads alone. What is the purpose of changing them? Are lots of people speeding? Are lots of people dying? I would posit that this is not the case. The economic impacts associated with speed limit changes are likely to outweigh any minor benefit to safety that is gained from the reduction of the speed limits in the proposed places. In the case that this submission is dismissed as uninformed and unsupported, I would put forward that Council's evidence and the proposals made are lacking in evidence, not thought through, and are unsupported by the public. Please ensure you see through the vocal minority who supports these changes, and assess the actual impacts on the lives of people who live in these areas. Some of these changes Council is proposing to make, could add 15-20 mins of journey time (each direction) to rural peoples lives, leading to a net loss of 40 mins per day, 280 mins a week, 1,123 mins a month, or 60,093 mins a year (1051 hours). This is just plain irresponsible on the part of Council, especially in the midst of a cost of living crisis. Find something else to focus on that saves your constituents money.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai? Why?

not answered

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

For the reasons I have mentioned earlier in this submission, I strongly disagree with any changes, either urban or rural, to the speed limits in Rotorua. I do however, agree with the mandated changes within 300m of schools, as this makes sense. Children do not have developed frontal lobes or the ability to assess hazards or risk in the way adults are capable of.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

Jesus, talk about give an inch take a mile - the national mandate proposes a 300m buffer in terms of schools which is sensible. Not some gridlock of the urban and rural environment of the city. Whichever Council officer engaged the most conservative traffic engineer in the country to prepare the report which has informed this consultative process, should probably be let go. Was the data peer reviewed? Where is the data that has informed this process? Because god damn, if you thought you would sneak this under the radar, you are going to have a public that is pissed off. Good luck with your re-election.

Āe | Yes

Q6. **Why?**

Terrible idea. Reducing the speed everywhere is going to cause worse road safety with more people on the road for longer periods of time. Road rage with the frustration people will feel with how long it takes to get anywhere. Increase in pollution with the roads being used for longer. And you can't keep the roads in good condition now, what makes you think you will be able to maintain the upkeep with the roads being used for longer periods. Not to mention the congestion issues you will create.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map Neutral (No opinion)

Q8. **He aha ai?Why?**

No need to decrease speed in an area that doesn't currently have a problem

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

Because none of the reasons you have outlined are a good reason to make the proposed changes. Reducing speed limits is not going to stop bad drivers from continuing to drive badly.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Reducing speed limit is not going to achieve what you hope. Bad drivers are not going to be better drivers because of lower limits, and good drivers are going to become frustrated and make bad decisions which will cause more problems. Reducing the limit is not going to reduce the road toll, it's not going to help lower pollution levels or congestion, it's not going to make the roads safer.

These proposed changes are ridiculous. The only place i would change the speed limit from 70 to 50 is coming into ngongotaha from hamurana, from waititi road instead of the railway tracks, only because school kids use it and there isnt anywhere safe to cross coming from that way to the school unless you want them to double back and go all the way into the village, which no child will do.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

For the safety of children. Ideally 30km at start and finish times. Stop making taxi payers pay for unnecessary things like speed limits and signs.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Nothing wrong with speed limit now.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Speed limits are safe the way they are.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not at all. The speeds are safe as they are. Looks like just another way to make more money from the taxi payers (speeding tickets) The cost already in the "plan" I can imagine has been thousands not to mention the cost of changing signs and advertising speed changes will be a waste of money. Next thing you will be putting in speed cameras \$\$\$

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I fully support reduced speed around schools to mitigate risk. Schools are busy congested places with a lot of traffic at peak times.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I don't think further reducing the speed is necessary. Traffic can be slowed down with speed bumps, road design like around city focus. 50 km is fine.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

80 kmh is fast enough for rural roads, as NZ roads are not that great, with pot holes etc. I find 100 kmh too fast for many rural roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Agree

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

50 km is fine for most areas. Happy with reduced speed of 30 km around schools. Even some of the current urban/ rural limits like tarawera road toward the lakes are ridiculously slow and unnecessary.

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not necessary.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

30kph speed will create more tailgating than at present which, at 50kph (in a 50kph area) I find so many drivers harassing me to 'speed up'. Also road rage will be more frequent as 30kph is so slow and many drivers will loose their temper if following a car doing 30kph on a quiet stretch of road.

Strongly Disagree

Q8. He aha ai?Why?

Speed limits are not the issue it is driver behaviour The drivers end to be targeted not the speed limit

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

All this will do is frustrate members of the public who will still speed. It will be seen as Revenue gathering by the Police. Again we need to target driver Behavior and hold bad driving to account.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

This will significantly increase congestion and thus emissions from traffic. There is little to no evidence internationally that such speed limits remove it even reduce fatalities, which great evidence that they increase driver frustration which is a major cause of road rage and other serious problems, which do increase accidents. This is not at all a week thought out process and the outcomes are unlikely to be as claimed

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

There is no science behind the claims of 'considered safe', that is why the word considered is being strategically used. Accidents do and will happen regardless of speed. Most such accidents will be caused by inattention, or otherwise illegal driving which happens regardless of posted speed.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Referring to the last page of 'questions' this is obviously a political move with little actual rational basis. Lower speeds are likely to increase pollution through congestion. There is no evidence that accident rates would decrease, and compliance will certainly decrease. What is certain is that people's ability to freely travel will be impacted. Practicality, Weather and personal health are the major limitations to for and cycle travel, and that will not change.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

So trying to force political agendas on the general public using misdirection, misinformation, and half truths. Such actions have been tried overseas with little to no positive impacts, and significant negative impacts. I suggest you look at the Swedish vision zero policy, which has been an abject failure.

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The issue is people are currently regularly speeding 70+kms in 50km residential areas and NOTHING is done about it. Why are you not focusing on policing the current speed limits and penalising dangerous driver properly because currently nothing is done about it. This proposal is laughable and has made the community lose faith in this council. Police. The current speed limits, fix our dismal roads.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Disagree

Q10. He aha ai?Why?

Police the current speed limits and fix the dangerous state of the actual road.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There may be some areas where it is necessary for safety reasons, but to make a carte blanche ruling would be foolish as it would jam up the whole CBD

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

I might ask why you would want to slow down traffic in these areas. Safety is not an issue unless travellers exceed the current speed limits to extremes. Don't fix what isn't broke.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it will be clogging up the streets, creating frustration and impatience with drivers. You will just create more people breaking the law because of unnecessary rules.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's ridiculous.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Keeping children safe when arriving and leaving school is understandable as sometimes they don't think and run out and cars need to be able to stop quick smart, especially since there is normally cars and buses parked on the side of the road.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

In the very centre of town and on streets where cars are parked most people go slower anyway, watching for cars backing out etc.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

People that live out there know the roads and drive accordingly

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

Āe | Yes

Q6. **Why?**

Outside school can totally understand and agree. But all the other ares no way. Totally unnecessary and just a revenue gathering thing. It will take us so long to get anywhere and just cause frustration and road rage. I come home every lunch time for my animals I won't be able to do that so what the will happen to my animals???? I hope you pay attention and listen to what the public who voted you in are saying????

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There is too much chopping and changing between limits. We need to adopt a urban limit and a rural limit and leave it at that. There is to much concern on what the limit is and it takes away from your concentration to drive safely

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

It should just be 80

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As before

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The change of limits will not change the driving culture, which is what needs to change

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Yes I do but making it a variable speed zone, school children are only outside (or should be) during the period 8-9:30am and 2:30-3:30pm) other than that there is no requirement. Between 5pm and 6am it should go back to 50km/h as there is no risk of injury.

- Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree
-
- Q8. **He aha ai?Why?**
- This would make me not want to come to the inner city, as the traffic will not clear at 30km/h and it will create more congestion. 30km/m the car will be barely moving, this will create more noise and pollution for the inner city.
-
- Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree
-
- Q10. **He aha ai?Why?**
- Cars are designed with the focus on safety, reducing the speed limit will only create frustration and lead to more accidents
-
- Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree
-
- Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree
-
- Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree
-
- Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree
-
- Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree
-
- Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree
-
- Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No
-
- Q18. **He aha ai?Why?**
- not answered
-
- Q19. **He aha ai?Why?**
- not answered

Q20. He aha ai?Why?

Our city is not Wellington and Auckland. We don't have narrow streets that are lined with cars that have no parking spaces, where it makes it dangerous. Forcing people to drive 30km/h isn't going to make people go out and about and spend money at cafes and shops, it's going to frustrate people and they are more inclined to stay home.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Maybe if more money was spent on providing alternative routes (rather than Te Ngae and Ngongotaha roads) and more passing lanes for people who want to travel well below the speed limit (trailers and trucks etc) the roads would be safer

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limits will not change the road toll or the safety of areas as often those who are creating issues are already not following the road rules. This will just punish people who do drive correctly and safely

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There is absolutely no need. As usual the government/council trying to fix something that is not broken instead of facing the issues that actually matter.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Make these surveys more publicly advertised. I'd anything a decision like this should be put to a vote for locals for each suburb/area before any decision is made.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Parents need to slow down especially.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Most drivers will drive slow around town. There is only a small amount of idiots that drive silly

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Try reducing to 90km & 70km instead.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Reducing speed to 30km is outrageous. 50km is quite safe enough for the city. There aren't too many accidents due to speed around town if any at all most weeks.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't reduce the speed limits to 30km

Āe | Yes

Q6. **Why?**

Totally understandable put front of schools, especially in peaks times with many kids around. But to drop the speed limits to 75 percent of the rotorua area is absolutely unacceptable. This won't stop the boy racers, the gangs, the motorbikes and any other law breakers, it'll only cause more frustration for those kinds of people and ultimately create more unsafe reading situations with the local streets.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Agree

Strongly Disagree

Q8. He aha ai?Why?

It will add to congestion and driver frustration

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

The roads are safe enough for people to do 100 if they are comfortable with that

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It isn't going to encourage people to walk, all it will do is add to everyone's frustration. Walking isn't practical for a lot of people, taking kids to different schools in the morning isn't going to be helped by walking. Whānau will have to get up earlier to compensate for having to spend longer in traffic - which is turn is just going to stress everyone out. People will have to leave mahi earlier so they can be at the school on time to pick up their children. Public transportation isn't an option either, it takes too long to travel so the same problems will still be happening. We don't have enough viable transport alternatives for this to be successful, until we do this is never going to work.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I don't think whoever thought of this considered the impacts on our Rotorua whānau.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

If the council want more people to walk and cycle then tackle the people who intimidate, abuse adults and children who already do these things. Changing speed limits will just create more targets for people who display unsociable behavior. This is a ridiculous idea and the rdc need to listen to the people for a change.

Āe | Yes

Q6. **Why?**

Parking and pick up times for children crossing the road as many parents wait in their car, I pick up my grandkids and it should be a rule to have parents wait at the gate for the kids NOT wait in parked vehicles. Its not the speed limit its the parents etc. picking up kids. It should be a rule to wait at the gate and escort them across the road. A safe 30 kph during drop off and pick up times would be sufficient!

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

Its a common sense approach to not speed around the inner city and often you are driving slowly. Its only a minority who speed and have no regard for anything or anybody! Its wrong to penalise common sense and good driving habits. There is a definite minority who dont obey the most common sense driving skills. DONT PENALISE the mass to compensate for the BAD DRIVING SKILLS of the MINORITY!

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Disagree

Q10. **He aha ai?Why?**

ITS COMMONSENSE TO DRIVE TO THE CONDITIONS!!! ITS RIDICULOUS TO REDUCE SPEED LIMITS FOR THE MINORITY OF DRIVERS WHO SPEED!!!

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

ITS MORE POLICING WE NEED BECAUSE PUNISHING THE GOOD DRIVING SKILLS OF THE MAJORITY AND NOT THE IDIOTS WHO SPEED!!! We live on a rural road and make many 111 calls due to a small majority of farm workers with souped up cars doing burnouts and speeding!! It's a Minority of people who are the issue not the speed limits!!!!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Slower speeds on the same road as schools make sense as children are getting out of cars and crossing the road to get to school. The rest of it is a waste of time and money. Changing 90% of Rotorua to 30kph will cause frustration and people will speed more, costing those who cant afford it even more money

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Neutral (No opinion)
<p>Q8. He aha ai?Why?</p>	
<p>The CBD is set up with many pedestrian crossings and other safe ways to cross the road safely. Save the money on signs and road painting and maybe fix the potholes</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Disagree
<p>Q10. He aha ai?Why?</p>	
<p>Rural roads are lower populated and foot traffic is minimal. I dont see the benefit to lowering speed limits</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Neutral (no opinion)
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Strongly Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Strongly Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Strongly Disagree

<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

Of all the things to spend money on in an economic time such as we are in, it's pretty ridiculous. if the aim is to cause frustration and have even less people visit the CBD then you've hit the nail on the head.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I wouldn't walk/bike to the cbd because I fear for my safety. If my children and I visited the central mall as an example, I would worry our bikes would be stolen and we would have to walk home. There are much bigger issues that need sorting out

hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I have seen no consultation - the limits in certain areas seem to have no practical use

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Council appear to be working on this as opposed to things that would be of genuine benefit to our town . Who will be monitoring new speed zones and who is footing the significant cost of signage changes that would be required. I can't see that the unrealistic speed limits will cause anything other than frustration for drivers resulting in more accidents not less

Disagree

Q8. He aha ai?Why?

It makes no sense to slow it down anymore than it is

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

These are usually driven by people who live here and know their roads well. There's no reason to drop the speed

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Why do you need to cause more traffic we're it is not necessary. 50 km should be a low enough speed limit obviously. If you think that speed is to fast maybe you should give up your license

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

If you can't even drive 100kms on a rural road you can't drive!!! Give up your license, you are the hazard!! What a joke time is money and you want the long trips to take longer?? The roads should be fixed better and the speed limit should increase

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Why change something that isn't broken? Such a stupid idea. How about you make it harder to get a license. I'm gonna keep speeding if the speed limits go up because Just like on te ngae where it's 50kms lol everyone speeds past that it's so dumb. Wasting money every chance you get

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

How about you try fixing the roads before you reduce the speed limits. Pretty sure nobody can use common sense anymore. Slow drivers are the real danger

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

More appropriate to reduce speeds near schools, especial during the hours the schools are in use.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The existing limits are sufficient. There are pedestrian crossing at appropriate junctions. There is no evidence presented to indicate injuries caused by the current speed limits and how the changed limits will improve safety. More policing is a better option, maybe consider jaywalking enforcement.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

Agree a reduction around schools during hours of opening. However, it is more about driver education to vary their own speed and policing. The proposals sound too much like a nanny state.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I do not feel the speed limits will have much effect, apart from increased frustration. There is no evidence to indicate any improvement - justify improvements in liveability! Look towards driver education, better policing, road design to calm traffic flow, consider jaywalking restrictions, improved pedestrian crossing.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The existing speed restriction already set a sedate pace. I doubt there will be an increased use of bikes and walking. The survey does not ask how we would change our habits. I live rural there is no bus option for me. Mums/dads will continue to do the school runs. As a parent I would not encourage my child to bike to school, I do not think there are facilities for bike store in town or at schools. Who is going to leave their thousand dollar bike parked up in town to go shopping or to work? This strikes too much as being a move to the nanny state. If the speeds go much lower and if by chance there is a mass take up of riding bikes, the bikes will be over taking car speeding, then who will enforce this?

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Children highly likely

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Rotorua CBD is not very big and is mostly driven slower abywsy

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

As someone living out of town this is a terrible idea. Making a blanket rule that does not take into account the road and the number of crashes or fatalities on that road. Working at the hospital this would seriously impact me as It would take more time for me to reach the hospital when on call

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q8. He aha ai?Why?

30km is to slow for majority of CBD streets

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

60km is to slow for rural roads. It would be better if the rural roads were widened and had a shoulder put on them

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think the speed limits proposed are to slow. Multiple roads in the past 5 years have already had drastic speed cuts. Decreasing speed limits will slow response times of emergency services (due to regulations on speeds they can go when under lights). This means house fires will cause more damage, ambulances will be late to save lives.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Lowering speed limits is putting a plaster on road safety. Instead significant improvements to roads - widening, barriers, cycle paths is a better solution

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

To keep children safe coming and leaving school

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

So it's safe to cross the roads and keep menacing drivers out

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

To stop accidents hopefully

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not everyone is going to stick to the limits because they certainly don't now

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fixing the roads would be a better idea

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

I don't believe the outer streets (Fenton, amohau) should be 30km. I think it makes no difference changing the CBD streets to 30km, people already don't know how to drive and just stop in the streets

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There are lots of roads where 100km is safe and it doesn't need to be dropped

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Don't believe it will make any difference to road accident rates. Need to target the unsafe drivers.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It is more logical to have them outside the schools where kids leave school entrances, get picked up or start their walk home. It's much more efficient to give people the option of taking the reduced speed road or the detour at the normal 50kmh a couple streets away. This speed reduction would make majority of peoples commutes a hassle and cause traffic jams and would only increase speed tickets for police than reduce harm.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

50kmh is a decent speed considering majority of these areas have walk/pathways for bikes and pedestrians, where unless reckless driving is the cause there wont be much deadly harm on their end, just common sense to stay on the path, and you can't prevent reckless driving without curing stupid. Also crash statistics from NZ road safety (itf) in 2000-2019 show rural roads have the most fatalities, yet motorways have the lowest death toll..both have high speed limits. Even though I agree speed is a high factor in crashes, I do not believe a 30kmh speed limit for urban areas is going solve the issue of deaths on the road, if anything, just better driving lessons for people and stricter policing on driving offences such as speeding. Even going as far as making Defensive driving COMPULSARY for everyone from school age would be more beneficial in the long run.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Neutral (no opinion)

Q10. **He aha ai?Why?**

I think 80kmh is alright but I know it depends on the state of the roads/what the roads are made of to how fast/slow cars and trucks are able to go

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

My overall opinion is this will not only bring traffic jams (Because you cant stop the 8am or 3-5pm rush) but also cause anger in the drivers who are at rolling speed through 75% of Rotorua region. And still wont tackle the overall death toll issue which is on rural roads. Education and road maintenance should be top priority than reducing speed, that will only decrease the pot hole damage to a vehicle where as education and road maintenance is more long term and easier to control, you cant force everyone to go 30kmh, only inforce it. Where as you can get everyone from day 1 of getting their learners or entering the country with an Overseas licence to take a Defensive driving course and maintain the roads to be up to standard.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please bring compulsory defensive driving learning to schools and over seas drivers. And make the foot paths up to standard e.g not half cracked and damaged

Strongly Disagree

Q8. He aha ai?Why?

50kph is slow enough. All this will do is increase journey times and it's the workers who will suffer. Vehicles will be running for longer. 30kph during school start and finish times fair enough but not the whole time. Ridiculous notion to make it 30kph the whole time.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Same as above. During school start and finish sure. We need much better driver training in the first instance.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Āe | Yes

Q4. **He aha ai?Why?**

There's no reason in bringing Rotorua to a snail's pace, increasing traffic, causing headaches and frustrations, hundreds of hours of wasted time driving. A case can be made for the more narrow local streets but making Fenton, Sunset, Devon and Tarawera road/street a 30 zone would just make people break the law more than they already do.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

<p>Q18. He aha ai?Why?</p> <p>not answered</p>	
<p>Q19. He aha ai?Why?</p> <p>not answered</p>	

Q20. He aha ai?Why?

Bringing Rotorua to a halt isn't the answer. The speed limit needs to be more contextual to the road instead of wide sweeping restrictions for the entire city. Some roads need their speed limits reduced, especially rural roads. Bringing the main urban roads like Fenton and Devon to 30 is ridiculous.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The issue is not the speed, it's the quality of the drivers in the region. Also will make SH and main rds more congested to avoid slow areas, congestion then has drivers rushing through slow areas. Police have enough to do than informed these changes

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

30 maybe for cbd areas but residential areas no. Not at all. 50 is enough. Barely any pedestrians in the residential areas and they have mostly new and improved footpaths and crossing areas.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Moore foot traffic and people crossing the road

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Many commute. With the road works trips are already taking much longer. We built roads to enable us to get from place to place. Improved vehicles to be safer now we are going backwards

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Agree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because the changes made already have not reduced accidents or made it safer. Just caused frustration from locals who use the roads daily

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Speed may certainly effect the outcome of the accident. The accident is caused by driver error. Many due to been on their phone. And where speed is a factor it's well over the limit anyway

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Speed isn't the main issue it is incompetent drivers and people driving under the influence. Slowing everyone down will make people overtake in these areas when it is not safe to do so.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Thats just silly. Some of those roads are dead straight for kilometers. People already pass in dangerous places this will make it worse. Spend more money catching drivers under the influence.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will increase traffic volume, make people more frustrated getting to and from work, increase congestion.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Need to make people more aware of the proposed changes, I only heard about it from word of mouth. and the only advertising i could find after that was on facebook. There are a lot of people living here that do not have facebook or any social media, so more bases need to be covered before making a decision without everyone having their say. Thats just unfair.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Too slow

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Too slow

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering speeds will not cause less crashes

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

not answered

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I understand it should be outside schools, but the whole city will congest traffic and impact peoples ability to get to work, appointments, etc

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

These roads do not have the same number of users or risks of pedestrians or hazards

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

not answered

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This will affect: - travel times, traffic, decrease time to spend with family - use more fuel which is already high for people to afford - there is already adequate crossings and new ones proposed - regardless of speed limits you can't control pedestrians decision making

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

I support around schools, not rural or roads around the city

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reduced speed is only good out side of any school. You do this in town and other streets will be a lot more road rage and it's just plain ridiculous

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Ridiculous

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

It's not as busy

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it's just plain stupid.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Spend money on better things like improving Rotorua roads as they are so crap.

Strongly Disagree

Q8. He aha ai?Why?

Your definition of the CBD is grossly exaggerated. I would support 30km/h in the true CBD between Ranolf street to Hinemaru street and Amohau back towards lake road/ Whakaue street

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Keep your Nanny state policies. We the public don't want them. Also just another excuse for revenue collection.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's ridiculous. Nanny state, revenue collection, over the top.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I'm sure you will act in your own interests like every "publicly elected" governing body in this country but I implore you to listen to the people you serve. You are public servants democratically elected, do what the people want.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Speed limit reductions on SH33 over the last few years continuously cause driver frustration and erratic driving behaviour, especially in the 60 km/h areas on the open highway. As long as this behaviour is not monitored and enforced more by police the current state is more dangerous as it was before. The same will apply to the new proposed speed restrictions in the Rotorua district.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

To reduce potential issues at school road crossings.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Why not police the recidivist speeding offenders instead???? This proposal will not stop them.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

As per my earlier statement. This will not stop the people you are trying to stop.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As per my earlier statements. you won't stop the people who want to speed and you will increase congestion, driver frustration, pollution through vehicles being operated for longer. Stop making rulings that only affect those that abide by the conditions. you will not stop the ones you are targeting.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The people that cause the accidents and traffic noise are the people tjat go 100kms in a 50km zone and that's never going to change. There are idiots on the road that are always going to speed and cause the crashes, putting the speed limit down is just going to piss everyone else off

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Wanting people to bike or walk more... is that a joke? Speed limits are not going to make people do that and what people are walking and biking for large distances. In summer there are so many people that walk and bike in my area and the people that don't never will they just don't want to. In winter it's cold ylu can't be walking or biking to work that's insane.

Disagree

Q8. He aha ai?Why?

50km is a guide and I have found that you usually travel at less than that due to the flow of traffic and the awareness of pedestrians during peak times. Road users have shown that they are able to use common sense here.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Pyes Pa (Tauranga) school are a good example of how the speed limit is reduced permanently around their school. An additional speed reduction is used during drop off and pick up times. This is displayed by using a flashing posted signage. Great common sense approach.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lacks a common sense approach. Would encourage frustration and road rage. Inhibits our ability to move freely in our own community. Would not encourage me to bike or cycle to work. More safety education in our schools.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Keep our kids safe by targeting concentrated speed zones next to our schools, like Pyes Pa School has. Set up safety barriers next to our schools. Set up safety barriers next to crossings. The hedging on the corner of Ranolf and Amohau at the skate park is another good example of how to keep our kids safe using barriers. It stopped our kids from running across the road. Reducing speed to 30km for 93% of our city will not keep us moving

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The speed shouldn't be decreased, it's not going to help speeding or anything I think going 40km/h in a school area is good speed but done side roads from main roads should not be decreased from 50km/h

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Country roads should be 100km/h if your driving though the country you should always be on the look for animals crossing but not all car chats are on these roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speed limits shouldn't be changed because of to many speeding drivers or car crash they are all going to be the same. The speed limits should stay the same

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Don't change the speed limit

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Too much foot traffic around schooling so if speed reduction was enforced around times of traffic, and policed or wardened that might reduce accidents around schools

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Neutral (No opinion)

Q8. He aha ai?Why?

Open to the cbd having reduced speed but main issue for me is paired parking. I feel if would assist the local businesses if the parking wasn't an issue. Would create more foot traffic in the cbd to help our small businesses after the impacts of covid 19

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Police or warden when schools are highly active with foot traffic etc then left speeds be the same much like in broadlands where I travel through regularly for work. The speed through there is adequate I feel

Q11. Lowering speed limits will help reduce the Agree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Neutral (no opinion)
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Agree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Neutral (no opinion)
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

With and not with it. Good to put it out there to the community for the voices to be heard. I hope everyone votes regardless on final outcome

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Wardens/policing and free parking in cbd to promote more window shopping etc to help local businesses

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

That is where there is a concentration of children during certain hours and goes a long way to avoiding car vs kids scenario

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We need to get businesses performing better not worse, more time taken to transit through CBD means more \$\$ costs and less revenue

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The current scenario of speeds is fine, again causing further time delays in transiting rural roads leads to driver frustration and unnecessary risks being taken to get passed slow traffic, what needs to happen is for better formed roads

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

see other comments, we need to improve our roads before we just reduce speeds to compensate for bad roading

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Would be nice if the survey was in English first and Te Reo as the majority of NZers don't speak Te Reo, this typifies the way minorities are treated better above majorities..... similarly the Road sign suggestions to have both English and Te Reo, why don't we spend that money on making the roads safer for ALL NZers

Q22. **Tō IngoaName** David Rendall

Q23. **Tō ĪmēraEmail Address**

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Reducing speed limits isn't going to make people want to ride bikes and walk more that's a personal choice and if there not doing it now there not going to do it then it also doesn't have any effect on health! Again personal choice to walk or ride a bike and ital cause more pollution slowing down the speed then keeping it as it is they will be on the roads for a longer period of time this is a silly idea and a waste or tax payers money once again!

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

its important to reduce speed around schools as young people do not always understand cars etc are around and as we have taken there brains away in this area since the 90s the a like possums in headlights have no idea are car is approaching because Government & Councils has taken there rights to think for themselves away and they are a danger to themselves Best the get pick up in hot air Balloons .

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p> <p>Because our inner city is not the central hub you think it is everything is out lining around and we want to get to our destination today its not metropolitan Auckland</p>

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It makes sense to be 30 around schools however a 30km ban around town is ridiculous.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

It's too slow. People will get frustrated and cause more issues over taking on narrow town roads

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Once again it's ridiculously too slow. This will just cause more dangerous over passing

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

1: Lowering the speed limit to 30 km an hour all have a massive impact on emergency services been able to respond to emergency situations. With delay and emergency services been able to respond people's lives and Property will be at severe risk being that emergency services can only travel 20 km over the speed limit. Or someone having a cardiac arrest and being transported to hospital by ambulance travelling at 30k's puts more pressure on an ambulance crew that's already pushed to its limits patient care will suffer most likely resulting in more deaths or traumatic events for survivability of patience and stress on families. Even if an ambulance has a person severe enough for them to respond back to the hospital under lights and siren they can only travel at the posted speed limit so if it is 30 they will still only be allowed to do 30 km. As for Fire and Emergency New Zealand volunteer fire stations in Ngongotaha Mamaku will have a great impact on their response time volunteers are expected to have Leah for appliance on the road within five minutes of them being called again going to 30 km will push the time limit beyond its capabilities of being met we all have seen the ads and I told that Fire doubles in size every three minutes hence more properties will be lost with a strong possibility of lives dude I volunteer firefighters been able to get to the fire station was then time to get the appliances out the door. 2: under the official information act I would like to know where you have obtained your stats from proving that dropping the speed limits down to 30 km as realistic. 3: have you also taken into the account on the trucking industry with trucks been able to drive at 30 km an hour underload without causing extra pollution from buildup of salt and an burns diesel within the engines of the trucks also have you thought of logbook hours for drivers that will change the time it will change the ability of the maximum driving hours per day with the current speed limits getting dropped to 30 km putting more pressure on an industry that is also under pressure and overworked. 4: I personally think that no one has taken or looked at the implications that could result in delay for emergency services to respond to incidences or the pressure it will put on the trucking industry therefore I come to the conclusion that I can only four see if this all goes ahead that lies will be lost property will be lost and more emotional toll put on the victims due to delays of emergency services being able to respond to jobs and protect the communities that we serve with us being career firefighters volunteer firefighters New Zealand police or St John ambulance.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Drivers need to take care outside schools but it is ridiculous to think all urban roads have this blanket restriction.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

There is a small block only where it should apply - Eruera to Haupapa inclusive between Fenton and Amohia. Anything else is not necessary, especially down main feeder routes like Fenton and Hinemaru and Arawa.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will not achieve what you want. It will cause frustration and road rage. Outside schools ok but people should take responsibility and drive to conditions and either at or lower than the 50km speed limit without being dictated to.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Please rethink.

Āe | Yes

Q6. **Why?**

Because it will slow down everything and is draconian !! To have couriors travel at 30klh max would stop progress but thats what we are trying to do isnt it ?? slow every one down and control them, it will not stop the idiots speeding and crashing and pulling out of stop signs in front of motorcyclists those people need a different approach.. A real approach not a knee jerk reaction, and I dont mean spend 2 million on consultants this can be sorted with common sense and a talk....Thats what we voted ou in for dont bow down to waka kotahe they are making stupid rules for some reason..

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50kmh is slow enough anywhere in suburban areas except around school areas where the limit is dropped to 30kmh between drop off and pick up times as it presently stands. To many variable speed limits around city limits as it now stands.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Keep the same limits as they stand. Entering all rural areas are all subject to slower speed limits anyway.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

If you drop the 50kmh speed limit to 30kmh? My personal opinion is all you are going to do is increase driver frustration, as we already have drivers who drive around CBD and outlying areas who drive well under the present 50kmh speed limit. Then we will be driving at speeds at 20kmh or slower. We have contractors, trucking firms Etc who are all on deadlines to deliver.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Keep the city speed limit at 50kmh. Period.

Q8. He aha ai?Why?

Just going to encourage Road rage. Business that rely on deliveries , it will take longer to get there product to you. We need more driving lessons set up to teach people how to drive safely not make it dumber. Schools are already dumbing down things for our children, now are you wanting to pick on the adults too. Reducing the speed limit is not going to stop kids from not using the crossings. Teach the kids to walk on the footpath, cross the road correctly. Bring back the J walking rule.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Most rural school kids are on busses

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

the issue is the drivers, and even those of us that travel at the posted limit are overtaken by inconsiderate drivers. More effective policing of the roads and drivers held accountable for their lack of respect for the posted speed. a change is not going to fix this until the behaviour is changed

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

look into how the roads are being used, example springfield road is used a heavy truck route even though i would say the speed bumps on the first part of the road to Otonga are there to restrict acces, the otonga roundabout is not suitable for truck and trailers to travel through.

Āe | Yes

Q6. **Why?**

Care needs to be taken around schools, however many schools now have a drive in & pick up process. Schools that don't should put this in place so that school staff are supported by physical proximity to Children without having to manage public traffic as well. Children's brains & sense of speed are not sufficiently developed to manage their level of risk.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p>	
<p>It's not a practical solution. If this is Nanny State telling us we are not intelligent enough to reduce our speed where there are pedestrian risks to safe driving, then none of us should have licences to drive. How about using this revenue to tackle the huge number of people driving on provisional licences or no licence at all?</p>	
<p>Q9. <p>not answered</p>	

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering the speed limit will not take the reckless drivers of our roads.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

An issue around reducing the speed limit on other road spaces appears to be a revenue gathering strategy. Law abiding people will be punished and fined. They will pay their fines. The aggressive idiots who weave in & out of traffic now, will continue to drive without concern for their fellow motorists and there won't be an officer in sight to catch them. They will not be caught & if they are, they won't pay their fines. I encounter these aggressive drivers on our roads here in Rotorua at least fortnightly. Policing this aggressive driving behaviour would be a much better use of our public resources than reducing the speed limit. Resources that are being used here would be far better spent on Mental Health issues, to address angry drivers behaving without thought or care for others. Goodness knows what this reporting & consultation process is costing? When are the grown-up's going to stand up & ask for common sense to be applied to our roading management. Try driving at 30k in the areas proposed for the changes. You will very quickly see how slow it is & how it's not practical.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Focus should be on mobile phone use in cars and get the users who drive while on their phones have their cars confiscated. This will reduce the accident risk and rates. Rather than penalise the rest of us responsible drivers

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Fix the roads for which we are taxed for to make them safe

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As stated in my previous comments

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

30kms would only make sense in a few streets in the cbd. How about directing fast moving traffic around the CBD and not thru it. 30kms would only slow the honest people who already follow the law, People who speed or are intoxicated are still going to do the same thing regardless of speed limit.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Reducing the speed again only forces more unsafe passing and speeding. If your having issues with pedestrian and un safe driving, implement specific things E.g put crossing in on urban towns or roundabouts or speed bumps. Direct fast traffic around problem areas, Also I daily drive these roads and it's already impossible to go the speed limit, There's always road works on these roads. so to change it for the 0.1% of people who crash cause they are either tired, intoxicated, road conditions or are just straight incompetent is just silly and should be re thought and done once and done correctly, not this slap a speed sign up and cross your fingers.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's a stupid idea. YES 100% 30km around schools 300m from the gates in schooling hours. - but again why build all the schools next to main high ways, or key access roads. Slowing speed limit dosnt change how people drive. Dosnt change the noise or pollution of cars as people still have straight pipes and Rev the out of their cars. How would changinge the speed limit make us walk. The people who walk live close to the school or have no other choice 30kms is a speed limit for car parks, shopping centers, large park areas, not for the whole of a town that is growing, re direct traffic. Actually make a future road plan for rotorua and sit down and do it once and do it correctly.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Yeah figure out the direction rotorua is going In, do a future plan, stick to it and do it correctly and once. I already have over 10 speed bumps from town to my house, which is just ridiculous, and I don't want to be driving 30km as well. Get a real planner in there and do a proper job.

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

There will be massive congestion, lowering the speed limit so much will cause frustration of road users that will lead to road rage and people making bad choices and trying to pass unsafe putting all road users at risk.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Having so many different speed limits is going to cause confusion and frustration with all driver's.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There will be massive congestion, lowering the speed limit so much will cause frustration of road users that will lead to road rage and people making bad choices and trying to pass unsafe putting all road users at risk. Having so many different speeds is going to cause confusion to all road users and lead to frustration, potential road rage and people making bad choices as they want to get past.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Have you taken into account the price of living, you expect a whole family to go out and buy bikes when they are struggling to put food on the table, where are people going to park there bikes and feel that they are safe, the crime rate in this town is already out of control! This is the most stupid thing I have heard in such a long time! You seriously think that this will lower pollution? The cars are going to be on the road for twice as long as they are going at a snails pace and there's traffic backed causing you to get anywhere twice as long. The speed limit is not the cause of most accidents its distraction and everyone driving around on there phone. If people are going so slow they will feel more safe to be on there phone making the problem worse. Think of all the people making bad and unsafe decisions to try and pass people because they are going so slow.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's unnecessary, it's going to cost a fortune and achieve nothing, it'll cause more road rage more accidents and trying to police it will be extremely difficult with already strained police resources. Furthermore I feel the money that would be used to do this could be used to fix the roads instead! That sure as he'll would cause less accidents and improve safety for every person in or traveling throughout community.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you'd like to increase the amount of people walking their children to school, you'll need to look at the fact that surely the majority of people with school age children are dropping them to school on their way to work. I also know many people who use their work break time to pick their children up and transport to after school activities or someone like Nana to look after them until they then finish work, so walking home is often not an option either.

Āe | Yes

Q6. **Why?**

30kmh is too slow for to be placed upon every road within Rotorua. It would also be nearly impossible to enforce with our current police force who are strained enough as is without road speeds being changed:

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

As before, it is too slow for a city to have all its roads at 30kmh

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Āe | Yes

Q6. **Why?**

Common sense, kids are unpredictable and during school start and end there are a lot of kids on the sides of roads.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The general drivers in Rotorua are not going to reduce their speed to 30km/h and they just get annoyed with the drivers that do. That causes road rage.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Same as above

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Causes road rage and confusion

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Reducing the limit on Te Ngae Road by the ambulance station has not worked. Most drivers either ignore the signs or don't see them to reduce to 50. Too many speed limit changes causes confusion, like Te Ngae Road, 50km then 60 km then 70kms. Road rage in Rotorua is extreme and these speed limit reductions will just see an increase in road rage.

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I support the speed restrictions for around schools for the sake of safety. However, a 30km/h restriction through out the town and especially through rural areas is completely impractical and unnecessary. Not to mention traffic in some places causes enough issues at the current speed limit, lowering it would only make it worse. Rotorua Council needs to look at making the road conditions themselves a lot safer to start before pointing the finger at local drivers and perhaps not spending millions of dollars on a sculpture 10minutes out of the city centre.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. **He aha ai?Why?**

With all of the homeless and dangerous drug addicts walking around town these days, I see no need for anyone to be driving this slow. Also with most shops shut down, what is the point in reducing the speed limit? Maybe focus on bringing more business to the town then there may actually be a need for speed reductions.

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. **He aha ai?Why?**

For locals working in town, it takes long enough as it is to get to work. Reducing these speed limits in rural areas will cause an uproar. Again, look at making the conditions of the road safer first.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer**

Strongly Disagree

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lowering these speed limits will not cause people to bike anywhere. Rotorua is far too big for that. Not everyone lives 5 minutes away from the CBD. This will also cause more traffic jams leading to more pollution.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Less money on sculptures, more on building shopping complexes, tourist attractions, markets, free events, and road conditions. We need to bring Rotorua back to life. There's a reason everyone is fleeing to Australia. There's nothing at home anymore. Shops are all closing down and homeless are running rampant. Thank you for the opportunity to voice my opinion.

Q22. Tō IngoaName

Elijah Ngawhika

Q23. Tō ĪmēraEmail Address

Q24. Tō WāeaContact Number

not answered

Q25. TuakiriGender

Q26. I pēhea koe i rongō ai i tēnei kaupapa?How did you find out about this project?

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

There are parts of the CBD where lower speed would be beneficial but not all the CBD needs this reduction.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

Less of concern to me than urban areas

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The basis is fundamentally incorrect - there will never be a zero death/injury rate because crashes are caused mainly by people breaking the law ie speeding, drinking, etc and inattention. Lowering the speed limit is simplistic and will lead to increased frustration/ breaking the law.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Reductions in speed limits around schools should only apply at start and finish times. it should apply to tailored areas ie look at each school on a case by case basis - 500m is blanket and a lazy way to look at speed restrictions.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I don't think it will fix driver behaviour - I think drivers will speed out of frustration, leading to extra policing, ticketing, or other incidents. I think it is Political Correctness gone overboard.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Neutral (no opinion)

Q10. He aha ai?Why?

I think there needs to be an element of driver trust - I agree that many roads are windy and are ill-suited to travelling much more than 80km, but the majority of people do make sensible decisions and adjust their speed to suit the conditions without it being law. It is the behaviour of a minority who choose to speed or drive while impaired which often leads to accidents.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As I mentioned in an earlier comment, I think it is political correctness gone overboard.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It's ludicrous and doesn't align with driver behavior

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again, speed limits need to be relative to driver behaviour. Not an attempt at social engineering

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's central government policy being forced on communities. The policy itself isn't appropriate for a community like Rotorua considering it was designed to reduce speeds in city CBDs such as Auckland and Wellington - where it is currently impossible to travel faster than 30km

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Listen to your community and be brave. Don't force unwanted change on Rotorua locals

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing the speed limits further than this is a ridiculous idea. I tried driving this speed the other day and it was ludicrous. I would have liked to have had further stats on where accidents had occurred etc. This was asked via facebook but was never answered.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>I think pedestrian awareness would be a far better option. If it was only the streets within the township itself it would be better.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). <p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

Lowering the speed limit will not stop the inappropriate driving we are already experiencing. There have been burnouts occurring on a nightly basis at the top of Sunset road and lowering the speed limit will not change this.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

When town/a street is quiet, a 30km speedlimit is not necessary. The existing is 50km - this means drive to the conditions up to a max of 50km, When there is lots of traffic or people around, people naturally drive slower anyway. 30km over the whole CBD in the map is way to broad and frustratingly slow

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

Alot of the open roads are narrow with alot of corners and not really suitable for 100km, so I'm not adverse to 80km, but 60km is often frustratingly slow

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The reductions are too extensive. Some small limited areas may be suitable, but the proposal is too broad and far reaching.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

I suspect speed related crashes are often by people who don't comply with speed limits anyway, so I doubt there will be any great impact. If speed reductions were released in conjunction with a programme to create cycle safe areas, that would perk my interest and i would perhaps think differently. But on it's own, no, I don't support the broad speed reductions. They'll potentially create frustration and road rage.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Around schools is much better then every st that is not a main connector. I'd rather more education for our children to help them cross the roads. I'd also like Pedestrian crossings outside all schools. Rotorua Primary for example have none at all but have a dangerous courtesy crossing that needs to be removed

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Agree</p>
<p>Q8. He aha ai?Why?</p>	
<p>Central CBD with more foot traffic may benefit from a lower speed limit. You shouldn't need to be travelling at 50 through the main CBD</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Disagree</p>
<p>Q10. He aha ai?Why?</p>	
<p>Why lower all the speeds when you can lower around the schools and small shops</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Disagree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Agree</p>
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	<p>Disagree</p>
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	<p>Strongly Disagree</p>
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	<p>Disagree</p>
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	<p>Disagree</p>
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	<p>Kao - No</p>
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

Because it's stupid, more education and policing needs to be done to help with safety

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More education and pedestrian crossings

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

because its more cost to implement. this feels like a patch to make roads in a terrible state safer. perhaps fix the roads and plan more to ease congestion. does economy and efficiency ever come into these plans? i cant see it

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

reduce the number of traffic lights on state highway through rotorua to allow congestion to ease and make it more efficient for trucks. sala street needs to be more friendly for trucks. where is the inquiry for the embarrassing road cone situation? Road workers disregard safety when they use road cones where there is no work or anything of concern in the road. dangerous as its niw like the boy who cried wolf affect with people no longer regarding cones as a warning of works when 80% of the time there is none

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Traffic usually dictates I go that speed anyway. But if it changes to 30 and I am going 50 I'm worried it will impact my excellent driving record. Besides people who use excess speed are not going to abide by this and don't care about paying traffic fines.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

Do not reduce speeds if you are not going to offer a high speed alternative. Build a motorway from Rotorua to Cambridge. Build a motorway from Rotorua to Taupo. Build a motorway from Rotorua to TePuke. Build a motorway from Rotorua to Whakatane and Gisborne. For decades the Rotorua area has not had investment of roading infrastructure. People will avoid Rotorua if it takes too long to get to and through. I agree the roads are dangerous and speeds should be lowered... But give us a way to move safely and quickly around the country before you slow us down to a snail's pace.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Neutral (no opinion)

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Strongly Disagree

Q8. **He aha ai?Why?**

It's ridiculous. Competent drivers slow down as appropriate. What other towns have this? How about you look at reducing rates instead of wasting money on this. Plus no one wants to go in the CBD anymore because of the emergency housing scum who walk around begging and the overpriced parking.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. **He aha ai?Why?**

Again, if you are a competent driver this is not a problem. Stop punishing the rest of us for those who either break the rules or aren't adequate drivers.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. **He aha ai?Why?**

Already stated.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Lowering speed may also cause congestion and increasingly frustrated drivers. Council should be more concerned with the people in this city struggling to stay here because of the cost and the feeling it's going "down hill".

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

30km is just far too slow, 40km at a minimum would be fine. It's not speed that's the issue, it's driver error at best.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

It does not need to change. If there are no schools in the area then reduced speed does not need to happen.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

30kms is far too slow. This will hinder travel to work ect. Slower drivers means leaving the house earlier just to get to work on time. This will cause more congestion on the roads. Making it unsafe rather than safe.. doing a van service for school is time consuming enough, then having to go slower is hindering my time picking up kids/ dropping them off.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I support lower speeds while children are going to and from school in the morning and the afternoon but 50km speed otherwise.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The vast majority of drivers are law abiding people. Reducing the speed limit is a huge inconvenience to good drivers who no doubt would obey speed limit, but will make no difference to the bad drivers who will continue to speed and cause accidents.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Good drivers already drive within the speed limits and drive to the conditions. Reducing speed does not necessarily mean reducing accidents. Rotorua has a problem with drugs, youth speeding , and unlicensed drivers. Reducing the speed limit will have no affect on these drivers.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q20. He aha ai?Why?

Already answered previously.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The justice system needs to get tough on driving offenders. I recall a judge soft on drink drivers until his daughter was badly injured by a drunk driver. After that he was tough. Our system needs to care about keeping communities safe by taking appropriate action against all unlicensed, dangerous, and drunk/ drugged drivers.

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Its nonsense and will only create conjection and frustration.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The metric of progress in nearly all systems is speed. As we move forward and cars get safer and faster we should also be increasing traffic flow and the quality of our roads for maximum efficiency not reducing speed to create congestion. More driver training should be implemented. Especially for those who have preventable accidents.

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

because this makes sense where as the rest does not, reducing speed past schools seems logical when you are dealing with kids. day to day life of 30 KPH everywhere is just a way of revenue collecting.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

why does the limit need to change and all the money spent when you can really only drive that fast anyway, once again is just an example of revenue collecting from tickets

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

money wasting, this seems unnecessary, they need to implemint more traffic control officers rather than targeting the wrong people

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. He aha ai?Why?

not answered

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. He aha ai?Why?

not answered

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. Why?

not answered

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

In the central CBD, from McDonald's to lake front only

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will create frustration that will create impatient drivers and messy traffic flow which will be counter productive to safer drivers and less injury

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It's going to cause more accidents as the line of traffic will longer and people will still try to out of intersection

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

There's nothing wrong with it being 100km and changing it is only going to cause more accidents with the people that aren't goi no the speed limit

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's a waste of money, why waste money on changing the speed when you can use that money to actually fix the roads so there isn't as many crashes from people trying to avoid all the pot holes ect

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I think it's a stupid idea wasting money on something that doesn't need it

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50km is already slow enough.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

I think the quality of the roads is a more important issue.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

50km has been the standard for so long and doesn't need to change. Making people do 30km will agitate them more, causing more accidents and trouble on the road. I think spending time and resources would be better spent elsewhere, like the quality of the roads.

change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The proposed roads are too extensive to allow efficient movement around the district. Almost every feeder road has been effected. The remaining roads have had speed humps installed already so there will be no roads with open access

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

The proposal to lower speeds around schools and Marae will effect movement at all times when the highest risks are not at all times. Schools have high risk for an hour at a time and only when open. Most school gates have traffic slowed at high risk times simply because of the increased movements. Not just traffic but people are seen so through traffic slows. Marae have even shorter risk times and again the congestion of vehicles and people create slower through traffic. For me the risk score does not equate to the proposed actions when the risk is short lived but the speed restriction will be permanent. I believe it is false to suggest an efficiency gain with lower speeds when firstly an idling or slow vehicle uses more fuel than one cruising plus the vehicle will take longer to cover the same distance hence more fuel burnt. Most fuel is burnt when accelerating. Changes in speed zones create more acceleration and braking. More noise from engines as well. I accept speeds need to be lowered but only in some places and only at some times. The better approach I believe is to allow the communities involved to make the decision rather than a blanket rule that could have unintended ramifications. I understand safety but efficiency and sustainability also needs to be considered.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because children can run out on to the road and these are congested areas at school time only. Everywhere else - keep as is. As a business owner, we would have to start on charging labour travel time to all residential work in the CBD as it would take additional time to reach our destinations. Another way that small trade business is effected...

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#)

Disagree

Q8. **He aha ai?Why?**

Changing the speed limit wont actually reduce speed. 50km is already slow and its just a revvue gathering tactic. The message 'drive to the conditions' is well cemented and is enough.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#)

Strongly Disagree

Q10. **He aha ai?Why?**

Changing the speed limit wont actually reduce speed. this is just a revvue gathering tactic. The message 'drive to the conditions' is well cemented and is enough.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Strongly Disagree

Q8. He aha ai?Why?

50 is slow enough & any good driver should drive to the conditions. you need more driver education such following distance and how to indicate on a round about.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

you need better driver education as any one who wants to speed will do it anyway.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Reducing the speed limit isn't going to change drivers bad habits let's not create more havoc by making things slower and creating more impatient drivers making more speed issues. Police have enough to deal with in our city then to adding more roads speed limits to be policed!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Best to reduce speed around a school especially with kids walking on the footpaths could just so happen run out on the road you never know

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Definitely too slow doesn't need to be that slow

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

No way 60 is ridiculous

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Changing speed limits won't help nothing people will still speed some could still crash it's just all on the person behind the wheel themselves

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I'm all for the inner CBD being 30kms but not all the suburban streets. I live in a rural area that for over 30 years of living here the main road was 100kms, and might I add had to contend with famers moving cows and sheep which was 100% more dangerous than the speed limits. Now it's 60 kms it has become dangerous, people getting impatient and speeding past other cars in dangerous manner. In all my time in my area no one was killed by speeding drivers. Accidents happen anywhere at any speed for many reasons. Today we have all the drugged out people behind wheels so do you think they're going to give a toss about a speed limit.....no they are not and I've seen it for my own eyes. So no I don't think much of your speed limit proposals..... if you're being honest it's just going to be another easy money revenue for people going at a reasonable speed. Lower the speed limit to where people are going to get frustrated at going so slow that they will get pulled over, and no they won't be speeding excessively. I really wish the cops would be around when the crazies are driving around sliding and skidding dangerously in our local park area in Hamurana. Why was a small fence not put up so they couldn't do that, too easy and logical to make everyone safe. No you'll wait till someone gets killed by a dangerous vehicle in a park NOT the road. Leave the damn speed limits as they are

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

As said in previous the speed limits are fine, you are not going to stop the drivers who are going to drive excessively fast and dangerous, you just make them more frustrated and become more dangerous

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Increases already congested areas. Traffic lights are already poorly timed for traffic flow.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Again added congestion. Plus our roads need to be improved. That is the bigger safety issue.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it is for want of a better term, stupid. It will increase road rage, increase people taking chances because of the slow moving flow. It will incur more accidents than before, stop trying to fix things that aren't broken and instead focus on fixing things that are. Like the actual roads.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Yes sack all the current council members because they are only in it for a wage. Not for the betterment of the community.

Q20. He aha ai?Why?

If you slow down the speed limits you are going to cause more issues with impatient drivers going faster overtaking following closely intimidating. A lot of the noise comes from drivers who already don't follow the laws not law abiding.

Āe | Yes

Q6. **Why?**

I understand 30km/h outside of schools. The rest of the roads is stupid, 50km/h is not fast. This country is becoming so P.C with healthy and safety it's ridiculous

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because 30km/h on these roads is stupid, 50km/h is not fast.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Again, just unnessecary. Changing the speed on these roads won't change anything. They won't be enforced and plenty of them are fine being 100km/h

Q11. Lowering speed limits will help reduce the number of speed-related crashes Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

People who live on the roads and areas or travel frequently on them, where speeds will be reduced, will be affected the most. I am overtaken on Hamurana Road (60km) on a weekly basis and that was a road that had its speed limit reduced. Recently, on the same road two cars approaching me overtook a car doing the 60km speed limit, and they almost collided head on with me. I had to veer heavily to the left almost driving into a ditch.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I don't mind if the speed limit is reduced outside school during the peak school hours, but no other time. People will remain in traffic longer than they need to be which makes no sense, as most people drive for the purpose of convenience of getting somewhere on time. Even if people leave earlier with speed limit changes in place, it's unfair to those living on these roads because it will just add extra time on for them trying to get ready to leave their home and make their journey.

Āe | Yes

Q6. **Why?**

People will still drive at 50km/h. Te Ngae Road changed from 70 to 50km/h and people are still going 70. I will be driving 50 km/h and people will be right up behind me. I fully support schools and inside of town to become 30 km/h but I highly doubt if it gets changed anyone will listen. I feel it's not the roads that need changing, it's the driver that have become a lot more aggressive.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Agree</p>
<p>Q8. He aha ai?Why?</p>	
<p>I work in the CBD and the amount of people trying to get out of their parking spots, waiting on the side of the road, and distracted drivers is very high and unsafe</p>	
<p>Q9. <p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	

Q19. He aha ai?Why?

I think people will still follow old rules. Slowing the roads down because of dangerous drivers won't be a fix. People will still speed, be on their phones while driving, run red lights, and much more but for the average drivers be penalised. I agree with the school and CBD area speed changes but not all 50km/h to 30km/h

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I feel like speed cameras are a better solution to this problem. If someone is speeding they get fined. Going over 30km/h around a school? Get a fine for dangerous driving.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The trouble ain't the vehicles it is the people.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

It's not an open road is it, were talking rural.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Agree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport

Agree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Agree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Its just gonna cause too much confusion and the police will end up getting the money in there hands as they will have to issue tickets

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The current speed limits (other than near schools) are more than realistic. Stop micro managing every aspect of our lives and allow people to take personal responsibility.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It's unnecessary and will cause frustration, potentially creating bigger problems.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

As above, allow people to take responsibility for themselves. The majority of us are safety conscious, and those who aren't will ignore the laws regardless of what they are.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

For the reasons previously given - its unnecessary, its over governing, and it will likely result in an increase in traffic issues due to frustration and the inability to get from a to b in a timely manner.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please remove the rest of the so-called Green Corridor and reinstate parking spaces.

Strongly Disagree

Q8. He aha ai?Why?

Having driven these roads - the speed limit is totally fine and all of the taxpayer money going towards the street signs etc should be spent on driver training instead. Your issue is not speed it is the lack of awareness on the road.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The plan of making rotorua a "walkable" city and a more pedestrian friendly city by reducing speed limits is completely flawed especially for rotorua - it has a tiny cbd with absolutely none of the chaos compared to Auckland's cbd. Changing these speed limits now will have a negative effect on the future growth of rotorua

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

In future would be great if you could have the english question first before the Maori translation - makes it confusing and hard to read for 95% of kiwis

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

No one wants to slow down in the cbd because it's full off half wits and parking fines

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

I don't think that a slower speed limit will stop me from dangerously swerving over the roads to dodge pot holes so I don't have to pay for expensive repairs on my vehicle

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I think safer roads come from safer roads we are ment to go forward not backwards. The reasons people are crashing are not the speeds it's bad decisions from the drivers like using phone while driving. Bikes are never going to be safe on our roads because cars are big and heavy and people don't pay attention to what they are doing while driving.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Do us all a favor and lower the weight limit for trucks so our roads can stand a chance or dig them all up and make them capable of what your asking of them

Strongly Disagree

Q8. He aha ai?Why?

Because research from around the world, if you bothered to investigate it, shows that this increases accidents and significantly increases pollution

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

When Auckland decreased speed limits accidents went up. This will increase journey times, frustration and costs for everyone and everything as a consequence. This is nothing more than your wanting control of people. If they spend more time travelling then you know what they are doing. If you were serious about road safety you'd invest in training

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

You've seen my previous comments. This will increase accidents pollution and costs of living, and affect for the lives in a negative way of everyone

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It is an absolute overkill. Having a few central streets at 30km/h is fine but having a blanket through the CBD is just another hindrance to everyday life

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The speed limits are fine as they are. The focus needs to be on road maintenance which is poor, education of drivers and enforcement

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is absolutely ridiculous. It is preventing normal law abiding people, going about their business as they should be allowed to. What needs to be done is better maintenance of the road, better enforcement, and better driver education. There are too many unsafe vehicles on the road due to poor enforcement and driver education is a major issue. Changing the speed limit will not fix this.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The money that it will cost to change would be better spent on roading repairs and education. There are far bigger issues right now that need fixing within the city

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Agree with lowering the speed limit in areas close to schools only during drop off and pick off time. Most children these days do not walk to school - only short distances and children are not on the streets during school time eliminating the need for reduced speed during all hours. It is only at times before and after school when the streets may have large numbers of children walking home or to vehicles that the speed should be at 30km.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

Reducing the speed limit will not make our streets more vibrant and liveable. The issue here is not vehicles but the lack of retail outlets and the unsafe nature of our streets due to vagrants and unchecked violent and abusive people. Our CBD is not a safe place and residents already do not visit the CBD because of this. Lowering the speed limit will merely make it even less attractive to drive in the central city streets. We already lock our car doors for fear of having doors opened by unsavoury people so making it easier to approach slower vehicles is increasing the risk.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

Reducing speed limits will add further to journey times impacting on deliveries, school children travelling to schools and rural folk attempting to go about their business. Where is the risk assessment for the current speed limits?

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Support reduced speeds around schools at drop off an pick up time only, a blanket reduction will clog our roads, cause driver frustration and consequently more accidents from driver frustration.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Te Ngae Road is 70km between Fenton Street and Sala Street, drops to 50km from Sala Street to Tarawera Road, up to 60km from Tarawera Road to Hannahs Bay, 70km until just before the Airport then 80km to SH 30 intersection. Not one vehicle drives to the 50km limit between Sala and Tarawera Road, and vehicles continue to drive at 100km between the Airport and SH30. There is no enforcement of these speed limits so how will all these speed limit changes to local roads be enforced. Not only that Te Ngae Road has vehicles overtaking on the centre median in an extremely unsafe manner on a regular basis. Again no consequences or enforcement of the current safety rules. These proposed changes will end up being a revenue gathering exercise and potentially policed through speed cameras. Many of the offenders will be recidivist offenders and become part of the 33% of fines not collected. All in all a fruitless exercise.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Whilst I support reducing speed limits outside schools to have all roads reduced to 30km/ hrs will cause more problems. Slowing the speed will cause congestion and more road rage incidents. Policing would be a nightmare, Fenton Street for example was a 60 km zone, it reduced to 50km but drivers still go 60 km.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>You can go through the inner city streets at 50km and still slow for lights and people crossing the roads.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

most of time you can only do about 30km in the cbd

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Disagree

Q10. He aha ai?Why?

Some roads don't need to change

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Will create more drivers doing crazy passing, the bad drivers will be worst due to lower speed limits. Will not create a safer roads.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Around schools speed limits should be reduce around start of school and end of school day only. Works well in Australia. Take Sunset primary as example, even when school comes out very few children around, very really see children around this area otherwise. Pointless when schools are out for school holidays.

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

People have to move and work. In other countries where this has been tried eg Wales there has been an increase in dangerous driving, passing and tailgating. Also pedestrians have found it harder to cross roads due to more slowly moving traffic bunching closer together. A reduced speed limit never dissuaded dangerous drivers.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

People have to travel to and from work and for work. This proposal increases time and costs. It will result in more fines for infringements as the more offences you create and the harder you make it for people to remain within the law the more they will inadvertently break the law.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Agree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will make travel too difficult. I would actively avoid coming into Rotorua if there were a 30km limit. I would travel elsewhere or purchase on line from out of area suppliers.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I recently tried driving at 30km/h in an urban area leading to frustration as it hardly feels as if you're moving, as well as causing chaos in those following me!

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

not answered

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It'll be widely ignored, so why do it anyway

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I oppose because its going to add to the carbon footprint, increase traffic pollution and increase anxiety and stress getting to work/school on time. Services such as grocery deliveries, export, mechanical, plumbing, nurses etc travel times will be affected and the added cost and time will be already put on and added to breaking point/ financial burden of the common person. Already with limited roading available due to continous roadworks we are experiencing longer wait times due to decreased speeds and less lanes open. Its a nightmare. I agree only to reduced speed around schools 8-9am and 2.30-3.50pm of main school traffic hours.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p> <p>50km an hour is very safe</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p> <p>Because</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The speed limits are fine as they are. Its the People not abiding the currency rules that are the problem.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

Again it's the people that don't abide the rules that are causing the issues.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Lots of people do what they want. I can not see a speed limit change make any difference.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

not answered

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because that is the sensible compromise in this situation!

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

When town is busy you are only doing 30km anyway!

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Safer speed

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it is ridiculously slow, and will cause frustration, and anger among drivers. Take longer to travel, and use more gas in the process!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Stupid idea. No one will stick to the 30km. Except directly outside of schools.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

There is no need to slow all cars in the area. You will affect bus routes. You will have impatient people overtaking aggressively. That sounds more hazardous and risky! Directly outside the school is reasonable. 500m is probably still excessive though.

Q7. Pātai tuarua (Question 2) He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map	Disagree
Q8. He aha ai?Why? More time consuming on people's day... making people frustrsted (not safe drivers). People will over take impatiently. Its not safe.	
Q9. Pātai tuatoru (Question 3) He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map	Disagree
Q10. He aha ai?Why? Same reasons as other answer	
Q11. Lowering speed limits will help reduce the number of speed-related crashes	Strongly Disagree
Q12. Lowering speed limits will reduce traffic noise	Agree
Q13. Lowering speed limits will help reduce traffic pollution	Neutral (no opinion)
Q14. Lowering speed limits will encourage more walking and cycling for transport	Strongly Disagree
Q15. Lowering speed limits will improve health and wellbeing of the community	Strongly Disagree
Q16. Lowering speed limits will improve liveability in the city by making it safer	Disagree
Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?	Kao - No
Q18. He aha ai?Why? not answered	
Q19. He aha ai?Why? not answered	

Q20. He aha ai?Why?

It is ridiculous. The question before about pollution... people will be on the road for longer so I imagine it's very same. Noise will reduce but it's not that huge of noise anyway. Lower speed directly outside school I can support. The rest is preposterous!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Do not be ridiculous!

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

30kmph limit 500 m either side of school entrances is completely logical and reasonable as we need to protect our tamariki, they have do not have the capacity yet to understand the full dangers of moving vehicles.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

the CBD has Mutiple issues that affect its desirability, and the speed of vehicles certainty is not one that is remotely high on the priority list .

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Road condition improvement and education around rural areas is what is required in these areas not speed reduction.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Āe | Yes

Q6. **Why?**

Kids are impulsive and this will ensure their safety to a degree

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The CBD is not currently attractive and there is nothing to slow down for

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Deal with the goons not the individuals who stick to the limit- accidents occur quite often with the snail drivers not reading the traffic flow in front and behind them

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not all traffic offences are related to speed and more related to poor decisions by drivers and lack of accountability as the laws do not hold them accountable

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it'll force people to speed! 30 is just plain STUPID, reducing the speed limit even more will in turn increase people to just go over this "new" speed limit. Te nage is at a STUPID speed limit of 50 people still do the 70 speed limit ~ it's not going to work.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Well because it'll encourage people to speed! 30 is just to slow no one and I mean no one! Will go that speed. Your just encouraging people to break the law to speed more and your idea will backfire ~ I'm highly disappointed in this idea

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

I'm dissatisfied with this plan

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The current speed limit is fine as it is, so long as people drive to traffic conditions as the majority of sensible and sober people do

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Again so long as people drive to conditions the current speed limits are appropriate.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The proposal to reduce speeds on the majority of roads within the city impacts on efficiency of transport. those who want to bike and walk already are- many of us depend on our vehicles for efficiency- particularly those of us who live rurally where it is simply impractical to use other forms of transport. increasing travel times for healthcare workers (hospice, district nurses, GPs doing home visits, caregivers) further compromises an already stretched service by increasing travel times. I can't see that this is going to significantly improve road safety, as high speed crashes often involve those going above the limits anyway, law abiding folks going to disproportionately affected and won't change anything as those who speed and drive dangerously will ignore new limits anyway.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I can't find anyone I have spoke to who supports this idea. the community as a whole is against this plan

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50km is good

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

100,80&60km is good

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will create more accidents as drivers will become even more impatient and take more risks.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Most people die from making poor decisions on the roads, lets not give people another reason by lowering the speed limits.
Less speed = more risk takers, More risk takers = more deaths.

Q20. He aha ai?Why?

As stated in other boxes, the speeds aren't the problem it's the drives, drivers that choose to cross centre lines by choice are the problem, drivers that stop in stupid place (blind corners) are the problem, drivers choosing to pass in unsafe places are the problem not the speeds

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It will just create congestion and make people drive more irresponsibly because of frustration, the trip taking longer etc. I don't believe that speed is the main issue, driving ability is.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Again speed is not the issue, driving ability is. As someone who lives rurally, the main issues I see on a regular basis are: people purposefully cutting corners, driving much slower than is safe or necessary, passing and pulling over in places that aren't safe or appropriate. You should be focusing on making sure people are actually capable of driving the rural roads e.g. defensive driving courses, harder licence tests etc. Also you will be making town less accessible for rural communities-deliveries, emergency services.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree

hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

See above. If speed around schools is the issue, then put speed limits in place for during SCHOOL TIMES. It's already in the road code that we must slow down past a school bus at 20km/h, why isn't this being tackled in the same way? People who speed are always going to speed, no matter what the sign says.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I think you should focus on other aspects of prevention: Drivers ed in schools, refresher courses after holding a licence for x amount of time, resitting your licence after x amount of years, more difficult driving tests, more regular testing/conditions for elderly drivers. Teaching our kids road safety, employing road safety officers for outside schools etc.

number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because its just ridiculous. People are lazy, they are always going to use their car over walking say a distance of 3km. Lowering the speed limits are not going to change this. It will not want to make them walk more. People are going to crash from being distracted, under the influence of drugs or alcohol, and in this day and age working long hours and making the wrong decisions while driving or falling asleep at the wheel. Speed is just one factor and slowing us down will decrease productivity and create huge frustration and anger, people are already to stressed, you want to make another stressor? - not able to get somewhere in a reasonable time - slow km driving NO!!!! Also our roads need great improvement.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is wrong to decrease the speed anywhere but around schools. Its lunacy and nanny state.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

How do you expect to catch all the drivers who will ignore speed restrictions (as they do now) without more poicing/speed cameras? 30kph means more exasperated impatient drivers

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Agree

Q8. He aha ai?Why?

narrow streets, angle parking

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

less traffic but element of surprise and kids cannot estimate speed and distance of oncoming vehicles

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Agree

Q12. Lowering speed limits will reduce traffic noise

Strongly Agree

Q13. Lowering speed limits will help reduce traffic pollution

Agree

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Pointless making changes to streets without schools on them pukhangi edmund road. etc 30kph too low for such streets surely 50 adequate but use more cameras because speeds are often far in excess of 50/60 allowable, speedsters won't change and even speed bumps don't slow down such drivers - see that every day on Edmund Road.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Around schools there is always more children around and more cars so slowing down the traffic makes sense. We also need to invest more in safe areas for children to cross roads around schools.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Slowing cars down is not going to encourage more people to walk and feel safe on the streets. It's other people that is making our streets unsafe and I have no idea how you would fix that issue.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō **whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Agree

Q10. He aha ai?Why?

I understand reducing speeds where there is more traffic and children eg around a school or play ground. I think having to many different speeds is just going to confuse people which will then have the roads unsafe

Q11. Lowering speed limits will help reduce the number of speed-related crashes Agree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Neutral (no opinion)

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Within school hours yes

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

No need pedestrian zones exist

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

This would cause more frustrations. Instead of lowering speed limits how about someone fix the road

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Proposed changes are ridiculous. Fix the roads and the punish people currently speeding. Someone that drives dangerously now isn't going to change because I sign did

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because 30kph is ridiculous. Maybe 45kph most vehicles can stop safely at that speed

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Because it is just revenue gathering at its best. Focus on more important things

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

How can it reduce pollution when people will be taking longer to travel to their destination because they have to travel at 30kph? People already ignore the new speed limit on te ngae road so what will make this any different.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

For the Rotorua lakes council to wake up and deal with the real issues Rotorua faces daily. Ive lived in Rotorua my whole life and i am raising my daughter here but Rotorua doesnt offer what it did for me at my daughter's age. Its a shame because im now agreeing with people when they talk about how undesirable Rotorua has become

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

What you're proposing is too much. I can support reducing speed limits to 30km on school entrance roads only and between 7am-9am and 2pm-4pm but any other time is unnecessary. I can also support reducing speed limits in the very center of town, hinemoa and tutanekai etc. but ranolf and Fenton should remain at 50km. Reductions in all other other areas are simply unnecessary.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

People aren't going to adhere to the speed limits, it will just increase people getting fines that they can't afford in the current financial climate which will probably lead to more crime if people have increasing debts. I would argue that reducing speed limits as drastically as proposed would make Rotorua more undesirable of a place for people to visit since 30km is such an annoying speed limit to try to maintain. I would also argue that reducing speed limits wouldn't be safer for pedestrians, pedestrians will be expecting cars to be going the 30km speed limit and let's be honest, very few people are going to actually adhere to any speed changes. I believe this has been the case in areas in south Auckland where they reduced speed limits to try and achieve the same goal but more children were hit by vehicles. Perhaps making buses more accessible and appealing will help reduce traffic on the road.

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. He aha ai?Why?

not answered

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. He aha ai?Why?

not answered

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. Why?

not answered

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Those who drive dangerously will flaunt the speed limit anyway and potentially pass cars dangerously

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

not answered

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There are so many lawbreakers here, it won't make a difference

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

not answered

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

This is the high risk areas Changing all speed limits just affects the law abiding citizens and not the dangerous drivers

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

If you want to create a more vibrant and liveable inner city stop the patched gang members in public. That a far better way to make it a vibrant and liveable space not to mention attractive

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

My small business can't take even more restrictions on how much we can get done it a day .. fuel going through the roof speed 9 speed bumps up Kawaha point road and now 60 -80 speed limits.. so wrong

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Just slowing down the honest drivers, the dangerous drivers will still carry on , they have no respect for law

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you want safer put in red light cameras . Every morning at Kawaha point Rd and fairy springs Rd people are still going through the lights when mine turns green .. now there's an idea ..

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Safety of children is important, however the reduction of speed of urban connectors is a pointless waste of everyone's valuable time, costly to productivity and unjustified when modern cars with various autonomous safety features designed to protect the occupants and those around them are considered.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Neutral (No opinion)
<p>Q8. He aha ai?Why?</p>	
<p>CBD speed is typically around this speed or less due to foot traffic. Don't care if it's reduced, as it really won't slow any responsible driver down.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p>	
<p>Rural roads are commonly driven by regular users who can drive at 100kmph without causing a dangerous situation. People who aren't familiar with the road will slow down anyway.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Neutral (no opinion)
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The increased costs in fuel consumption and to the environment due to operating motor vehicles in an inefficient manner(slowly with multiple speed changes which drastically increases fuel consumption/increased greenhouse gas emissions) Will likely lead to more accidents as motorists will also pay no attention due to the extreme time warp they will be experiencing.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Who comes up with this? It would seem someone with no sense of the environment or road safety.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because kids often cant judge the speed of vehicles, and having 75% of the city at 30 km/hr speed limit is TOTAL LUNACY

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Because I can walk faster than that speed. there is no need to drive so slowly.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Because modern vehicles are designed to drive at the current speed limits. Just because some tree hugger woke Govt official thinks its a good idea to slow the economy down by making everyone drive SLOW, its not a good idea.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because our RIGHTS are being taken away, if i want to drive somewhere the current posted speed limits are acceptable. Almost halving them (from 50 to 30 km/hr) is insane and will make drivers (including myself) angry.

Q21. He kōrero anō wāu?/Is there anything further you would like to comment on?

Its time that Waka Kotahi GOT REAL and sorted the roads around NZ, lowering speed limits isn't going to make any difference to peoples lives. I value my time and spending more of it driving because some woke tree hugger idiot with a Govt job thinks "driving slow everywhere in the city" is a good idea, will only get me (and others) angry. These proposed changes are TOTAL LUNACY.

Q6. Why?

not answered

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

not required. people looking for parking spots keep the speed down in any case.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

reduced speeds equals more transport costs and further inflation.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

potholes need to be fixed. roads need to be improved. no need to slow traffic.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The Hemo roundabout was poorly designed. Should have been 2 lanes, camber down towards the centre.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Because it's not the speed limit that's causing the tolls. It's alcohol,drugs or stupidity.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Same as previous. Not the speed limit that's causing the tolls, it's the alcohol, drugs and/or stupidity.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it's a joke. There's no issue with the speed limits that are in place

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Stop wasting council money

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Want to encourage more people into the cod so more foot traffic to local shops & businesses. T

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

How would this be policed/managed? Sounds like another way to collect revenue. Nothing to do with road safety

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

As previously mentioned, it's a revenue making plan. It will not reduce the amount of vehicles on the road one bit. Accidents/pollution etc will still occur regardless of speed limits

Strongly Disagree

Q8. He aha ai?Why?

50kms has been no issue in all my 34 years, there is very rarely vehicle accidents or pedestrian accidents in the cbd. Don't fix what isn't broken.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

People already get frustrated with drivers that drive under the speed limit as it is. Sometimes resulting in accidents because people are impatient following these types of people. If you made the speed limit this "80km" people will not adhere due to it being a "highway" . People should be allowed to go 100km. Also this looks more like a revenue gathering for council and police when they are issuing speeding tickets for people who are doing the original speed limit that has been in place for "1million" years.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree

the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because this isn't even relevant to what is actually happening in this town, focus on making our streets safer by reducing the crime rate. Bring back the old Rotorua where kids and adults alike were safe to walk down the same streets you are trying to reduce the speed limit on.

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

It's not speed limits that cause accidents, it's driver distraction and inattention. Reducing speed to 30km within areas of Rotorua will increase driver frustration which increases stupidity

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Driver frustration will increase recklessness, which will increase accidents

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Why fix what's not broken....this is getting ridiculous, come on it's driver stupidity that causes accidents, there's nothing wrong with the speed limits around Rotorua and districts.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It only needs to be directly around the school gates/entrances. Ridiculous idea putting it all over

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Stupid idea...if it's to help pedestrians and cyclists they should be more aware of cars on the road as that's what they were made for

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Too slow

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Totally disagree with it

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

People who speed will do so regardless of the speed limit, taking more risks to get past people doing the speed limit. We already see this when people travel under the current speed limit, reducing it further will likely increase this risky behaviour, putting more people at risk.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

People need to learn to drive to the conditions. 50km/h is a safe speed in most of town most of the time.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Driver education is the solution to safer driving not reducing speeds.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Cars are most fuel efficient at speeds between 50-100km/h. Driving at slower speeds costs more to run your car as well as the extra time to get to your destination. This will only add to the cost of living. Driving at slower speeds can increase driver distraction so I don't believe that lowering the speed limits will achieve what is proposed.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This proposal needs to stop as it will no achieve any of the promoted objectives.

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Those who speed aren't scared of the police in rotorua anyway. This will just annoy nice regular living people and change nothing to gang activities and delinquency.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fix the pot holes on our street with better and stronger materials and a quick fix for 2 days then the hole spoear again. Wast of time and money and extremely unsafe.

Āe | Yes

Q6. **Why?**

I drive 30km outside school at starting of school day and end when the children are getting dropped off and picked up anyway , it's safer for the children , children are unpredictable , I worry they will run out in front of a bus and I won't see them comingbut at any other times is unwarranted.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q8. He aha ai?Why?</p> <p>I can understand central city, from the warehouse down to the novated, but any further is ridiculous , it will cause a lot of driver frustration and more road rage</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	<p>Strongly Disagree</p>
<p>Q10. He aha ai?Why?</p> <p>That's ridiculous to go down to 60km , I think 100 to 80 is absolutely fine , and again it will cause to much driver frustration and road rage, I think the people who live in these areas should have the say not people like the council who do not live or drive in these areas and it won't effect them</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	<p>Disagree</p>
<p>Q12. Lowering speed limits will reduce traffic noise</p>	<p>Strongly Disagree</p>

<p>Q18. He aha ai?Why?</p> <p>not answered</p>	

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

It's a stupid idea. Unrealistic , the reason there are accidents now is people are in to much of a hurry and they speed overtake now , if you decrease the speed to 30 it will cause more of this as people will just get frustrated more and more road rage as it's to slow

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

The council need to listen to its people and not just dictate what's going to happen , people should vote on this

Āe | Yes

Q2. **He aha ai?Why?**

Because it will save lives, and reduce accidents causing long term disabilities. It prioritizes people over cars. There're good precedents in places like the Netherlands where neighborhoods become friendlier creating other social benefits like people spending more time outdoors and even talking to each other!

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Schools are a huge risk factor for speed related incidents.speed needs to be reduced. however, reducing to 30km in all areas that have being drafted, would only slow down our city, will cause huge frustration/impatience leading to unwanted incidents & aggression, which we have had too much of. The speed limits will only be obeyed by those who obey, those who don't, will see no change, especially that resources to police this would be difficult, meaning those percentages would continue to travel at 50km + as they do now. let's keep moving forward rather than going backwards to vintage times.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p>	
<p>will cause frustration and unwanted patience leading to unnecessary aggression and incidents as we see too much of now.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Agree
<p>Q10. He aha ai?Why?</p>	
<p>a mix of speeds in areas should be considered rather than a blanket decision, as areas are different with the dynamic of road quality. meaning, a number of these roads are well roadworthy to handle its current speeds of 100km.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Disagree
<p>Q13. Lowering speed limits will help reduce traffic pollution</p>	Disagree
<p>Q14. Lowering speed limits will encourage more walking and cycling for transport</p>	Disagree
<p>Q15. Lowering speed limits will improve health and wellbeing of the community</p>	Strongly Disagree
<p>Q16. Lowering speed limits will improve liveability in the city by making it safer</p>	Disagree
<p>Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?</p>	Kao - No
<p>Q18. He aha ai?Why?</p>	
<p>not answered</p>	
<p>Q19. He aha ai?Why?</p>	
<p>not answered</p>	

Q20. He aha ai?Why?

the question should be, "Do you support speed reduction in high-risk areas?" which is yes.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Please base your decision on what impacts to our local and tourism community would occur from this. It is fact, that causing frustration, will lead to impatience creating unnecessary incidents, some serious. Caused due to slowing down travel in non-essential areas.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

because of the evidence that reducing speed of an accident reduces the chance of serious injury, and increases the safety for children, pedestrians and cyclists, and in doing so will make the CBD a more useable and friendly environment

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Agree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Rural people die on rural roads, The problem is that local rural people think they know their roads and they are safe on them and hence drive them too fast , not expecting anyone to be on them Recently I was nearly wiped out when 2 articulated loaded logging trucks were "racing ' up Oturoa Rd. i was cycling up Oturoa Rd, the first one went past me, and I was sucked in by their slip stream, wobbled and very nearly came off, the second truck had no idea I was there and was very close behind the first truck. I was unharmed but severely shaken. I am an experienced cyclist. I have never come across such appalling truck driving behaviour whilst cycling in my life.

Q11. Lowering speed limits will help reduce the Strongly Agree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic Strongly Agree
pollution

Q14. Lowering speed limits will encourage more Strongly Agree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Agree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Agree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Āe | Yes
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

because of the evidence that reducing speed of an accident reduces the chance of serious injury, and increases the safety for children, pedestrians and cyclists

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I thought there was discussion about reducing the speed limit to 30kph in a 1 km radius around schools. I support this and I have particular concerns about the 60kph on Fairy Springs Rd where there are several schools - Selwyn, WHHS, Kawaha Pt School. I think the speed limit should be reduced on this road now. In Ngongotaha I support 30kph in the village, which is less than 1km radius from Ngongotaha School. I mention these 2 areas because this is the area I live in and am most familiar with. I still remember the tragedy of a child being killed on the Waiteti Stream Bridge on the Ngongotaha/Hamurana road junction nearly 40 yrs ago, the scar and hurt for that family lives forever

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

School yes makes sense but it's not needed in any other areas. If people speed at 50 they will still do it at 30. And who's going to enforce? The people are under staffed now and can't police the 50,60,80 or 100 km. Let's keep it real and simple.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Same as last comment

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

All schools should be the same, less confusion and all children deserve to be valued equally. Our country kids are equal to town kids.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

I see no evidence as to why this should be reduced.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Who says 100km/h isn't safe and what evidence do they have. I see no problems and have no problems myself with the 100km/h limit

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

No evidence for any suggestions or recommendations you have proposed. Absolute waste of time and money that will offer no benefit.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

All I see here is a personal initiative buy some that don't know what the actual cause of issues are. Wouldn't it be easier to actually properly police legislation. Remove drivers with no license. Remove cars with no WOF or registration. Change infringements to public displays of appreciation like picking up rubbish and glass from the sides of roads. There are a few bad eggs that are causing the thought of changing limits. In reality are you expecting these eggs to stop. The answer is NO so please don't waste any more time or money on this initiative and get the people who a for this initiative to remove the bad eggs off the roads.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The basic rule of driving is to drive to the conditions. At peak time you cant go 50 anyway. I drive many times where there is little or no traffic on the road where 30k would just be stupid. Not just on school holidays or out of school hours but also early morning going to work, coming home late after work etc etc. What about the poor tradies trying to get from one job to another, delivery drivers etc. Its just a stupid idea. The poor cops cant control the morons on the road now who break every law available. The only people who will obey this new insane regulation are the ones who obey the rules now and drive to conditions now - ie, reduce speed where it is necessary. The idiots will continue to drive like idiots and not pay their fines (which get wiped anyway), the poor sod who gets caught out driving over 30k who now obeys all rules will be the only ones filling the coffers. if you think the traffic police have the time to police this new idiocy you are dreaming,

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p> <p>because in business hours responsible people don't/can't drive at 50k anyway. They drive to the existing conditions. It's only morons who do, they won't change their behaviours because you change the limits that most of them don't follow now!!</p>	
<p>Q9. Q20. He aha ai?Why?

read my previous comments! thats why

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

the thought it will reduce traffic noise is laughable. The noise I get bothered by now are the cars with the souped up engines and exhausts, lower speeds won't fix them. It also won't change the noise of the constant guys breaking all the rules on their often unregistered or stolen motor bikes screaming around the suburbs. The police can't even deal with them and you want them to try and police this. Crazy nonsense

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

In most of the CBD areas it's hard and makes sense to go below 50km during busy times (say 30km) but when their isn't anyone around leaving the 50km limit as is would be preferable. Aspects of speed enforcement and giving police grounds to harass citizens based on such a low speed limit is problematic especially for Maori whom bias is most likely felt. If speed in the CBD is a problem do as has been done in the suburbs and put annoying speed bars in.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Decisions on safe roading speeds should be governed by evidence not a blanket change. If the road is dangerous then a case for a speed drop is valid.

Q11. Lowering speed limits will help reduce the Strongly Agree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

Q14. Lowering speed limits will encourage more Neutral (no opinion)
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

A blanket change in speed limits not based on need and evidence I don't support. Decisions need to be evidence based with a need identified as in the current system to put in speed bumps.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

A stupid national policy which doesn't translate to more liveable cities or safer roads. Akin to demanding only one car maximum for each household in nz, this would produce similar outcomes.

Āe | Yes

Q6. Why?

As an ex Rotorua School Principal I am very aware of the risks School children face on roads surrounding our many schools. A 30 km speed limit in the immediate areas surrounding schools is an excellent method of minimising such risks. Other roads should remain at 50 km/hour with the possible exceptions of the central CBD roads where access to and from car parks can cause congestion and subsequent problems. As current speed limits are very often ignored anyway, lowering all limits to 30 km/hour will only add to driver frustration and probably increased road rage, not to mention the increased demands on enforcement agencies. Or could this just be an income gathering exercise? if you must lower the overall speed limits, 40 km/hour, should be adequate, but is still unlikely to be adhered to by the majority of drivers. A good example of this has been the recent extension to the the 50 km/ hour limit on Tarawera Road, much of which is still considered rural open road.

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map Agree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There has been comment sections added to all questions which does not allow for clarification. The reason why lowering speeds won't likely increase more people walking and cycling is because there will always still be those irresponsible who break the rules. Council and other agencies have still not stopped the bikes around Western heights, fairy springs, koutu and ford block. There is a cost of living crisis and bikes are expensive. households require 2 parents to work these days - being able to escort your child to school walking or via bike is a luxury that time does not afford these days. Which brings me to the timing of this strategy and the cost involved to replace signs? It does not seem like a critical piece of work despite government providing funding if that's the case, staff resources are still attributed to this and should be focused on fixing current concerns like the bikes on reserves, footpaths etc. Monitoring and providing more education around freedom camping sites which are have been left to their own demise ie Hamurana. This type of work except for lowering the obvious speeds around town, buses and schools is not needed.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Perhaps survey people on spending priorities first before spending time/money/resources on initiatives that may not be needed.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

These are the most at risk areas. But it should only apply when schools are active. It is pointless having a speed restriction in place outside of normal school hours such speed restrictions are already in place in parts of the city and are effective. Also consider speed calming devices around schools as an efficient alternative.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. **He aha ai?Why?**

This is a very vibrant area with many hazards that deserve a lower speed limit

Q9. **Pātai tuatoru (Question 3)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. **He aha ai?Why?**

Most of these country roads have very few traffic usage. This is a water of money with no visible positive impact

Q11. **Lowering speed limits will help reduce the number of speed-related crashes**

Disagree

Q12. **Lowering speed limits will reduce traffic noise**

Disagree

Q13. **Lowering speed limits will help reduce traffic pollution**

Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport**

Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community**

Q17. **Pātai tuawhā (Question 4)**Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. **He aha ai?Why?**

not answered

Q20. He aha ai?Why?

Some of the reasoning is fundamentally flawed. For example there is no evidence to support the premise that lowering speed limits will encourage people to ride bikes. There is more evidence to support lowering the road toll also corresponds with improving the quality of the roads themselves. Also on these quiet roads in the country there is no enforcement at all so how is lowering the speed limit going to be enforced.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This whole program seems to be a bit of a knee jerk reaction to a politically motivated need to reduce the road toll. Consider employing more police dedicated to road safety and increase the fines for breaking the law. All of which accompanied by clever speed calming devices will have a far greater effect than lowering speed limits. Learn from history we tried lowering speed limits years ago and it was an unmitigated failure please learn from previous mistakes.

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

In the CBD motor vehicle speed is controlled by the conditions with in the location of each motor vehicle and the operator should move at a speed that is agreeable at that moment. The speed will be between 1km and 50km subject to the conditions. The promoter of this proposal and all RLC Councilor's should take a vehicle into the yellow zone at high and low volume traffic periods on all days of the week and and record their ability to keep to 30km and the impact 30km has on their mental health conditions whist driving at 30km and below and other motorist reaction to their driving. Stay at 50km on all CBD roads. Enforcement of the Road Code to all users Vehicle, Motor Bike, Cycle and Pedestrian and Machinery that should not be on the road would make the roads safe..

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Some of the through streets should stay at 50.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Some of the roads are suitable for 100.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Agree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

A lot of the roads are suitable for the speed limits as they are at present. The problem is the attitude and training of those driving. Many accidents are caused by people not driving to the conditions and not taking any notice of current speed signs. By having too low a speed limit it will frustrate drivers and lead to wrong decisions beings made.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I agree about the need to have 30 outside schools but only at certain times of the day and not at weekends or school holidays. This can be achieved by having flashing signs at the appropriate times.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Due to the unpredictability of young people. Think 500 metres could be reduced to 300 metres. Also encourage the use of variable speed so that motorists are not inconvenienced outside of school hours

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

This shows the CBD being a large portion of the Rotorua town. I can see a 30 km/hr in the central hub being a good idea, That being right in what I would consider the CBD i.e Tutanekai, Amohia, Hinemoa etc

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Many of our rural roads are fine to drive at 100 km, I'm afraid that the powers that be don't actually live in our communities and are out of touch with reality. Stop dumifying your people and making rules that impact 100 % of the people in order to cause affect to the 1 or 2 % that cause this to be an issue.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Not necessary, It the central government wanting to control its population. Don't believe it will help the road toll at all, But cause more frustration and potentially increase the amount of accidents. Obviously there needs to be a criteria that governs the speed limit on any road.....but not a blanket approach.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It's not the speed that is causing accidents, it's people lack of understanding the road rules and constant running of red lights.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Instead of focusing on speed, focus on placing cameras at traffic lights to catch people running red lights causing near misses or accidents at these intersections. There have been so many people running red lights and nothing has been done about it.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The city will be in deadlock..with most modern cars is very hard to keep to 30km. Agree with short distances near schools but anything else is ludicrous

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

City will be in deadlock and residents just wish to have sensible decisions made re other streets and just keep 30km just near schools and people will adhere to that more workable option.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Disagree

Q10. He aha ai?Why?

You can't lump all rural roads under one rule, they differ & drivers can make their own rational decisions on individual roads & conditions.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Why change things that make the city traffic slow in areas not near schools. Enforce speeds near schools & let traffic flow as normal in other parts of the city.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Visitors who we know when come to Rotorua just can't believe how many change of speed zones from Rotorua to Mt Maunganui. 70 km an hour being changed down to 60 km in lots of areas..even when no houses on each side of road!

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

My mum live on the east side of town and it will take her 3 times as long to travel into town. People that speed already will not be stop by lowering the speed limit. I can understand lower speed around school entrances but not at a 1km radius. .

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Not everyone can switch to walking or biking. This is ridiculous and dangerous. As for accidents around schools please do something about parents who drop off children and just open their car doors into traffic. Speed isn't the factor, its people not being responsible drivers and obeying current rules.

Strongly Disagree

Q8. He aha ai?Why?

NO DATA/STATS were provided even I asked many time on FB such as break down % of drinking driving, drug related and used a mobile phone for 430 deaths and serious injuries (DSI) in the Rotorua District in the last 10 years, and the time between 8am and 8:45am, between 2:45 and 3:30pm, between 5pm and 6pm & after 7pm. Some toddlers died at the driveway by less than 5km an hour while the drivers were reversed. It means that speed does not matter for some of DSI. Also, I have not got a confirmation from RLC that this implement won't cost any to rate payers as some of us really struggles with this year's rates increase and I am afraid that anything more would cause them depression then can lead them to commit suicide.

Q9. Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

30kph is ridiculously slow. What is the need? I would like to see how many injuries and/or deaths are attributable to drivers driving 50km or less. It would be interesting to compare that to injury/death statistics where the speed was over 50kph. I understand why this would be happening around schools, although I believe that 500m from a school is too wide a catchment. 300m is better.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Where is the need? This is ridiculous. Investing in a better road network would reduce road accidents, if that is the driver behind this. I suspect the driver is less about safety and more about green issues. (And Nanny State keeping us under the thumb.)

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The need is not there. Build better roads - that will make the roads safer. Speed bumps if you must. Education.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is just another reason to move away from this district and maybe even our beautiful country. Rotorua has become a far less lovely place to live over the last 5 years. This may be the nail in the coffin for many of us.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will cause commuter frustration, law breakers, people will use cars regardless of speed limits, it's an accessibility issue not speed issue.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Only 32% of deaths' are caused for car travelling too fast for the conditions almost none in urban areas. There are so many changes in speed limits over small stretches of roads creating confusion for drivers. Creating artificially low speed limits starts to become a revenue collection exercise rather than enhancing safety. When an area is busy drivers naturally reduce their speed to accommodate hazards. This policy is not clear actually what problem it is trying to solve.

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree

Q8. **He aha ai?Why?**

Only 32% of deaths' are caused for car travelling too fast for the conditions almost none in urban areas. There are so many changes in speed limits over small stretches of roads creating confusion for drivers. Creating artificially low speed limits starts to become a revenue collection exercise rather than enhancing safety. When an area is busy drivers naturally reduce their speed to accommodate hazards. This policy is not clear actually what problem it is trying to solve.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Agree

Q10. **He aha ai?Why?**

80KPH seems sensible for minor rural roads and does respond to the death statistics. If this goes along with upgrading State Highways to improve driveability.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Strongly Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Strongly Disagree

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Strongly Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Strongly Disagree

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Strongly Disagree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It makes the assumption that all problems are related to speed this is not borne out by the statistics.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

A more substantial and reasoned approach is needed to address and improve safety on the road. Better highways, more expressways, better on going training of drivers.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We have a State Highway running through the city. Reducing the speed limit will end up another Huntly - ghost town.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

It is better to invest in education rather than reducing speed limit. This is like putting law-abiding citizens in prisons and tell them that this is for their own benefit. This proposal is completely a waste of tax-payer money.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Educate drivers. I am starting to walk my child to school on a sunny day and my child is catching the bus home. I can't see any benefit even to raise this awareness. There are a lot more people working from home and less driving. Spend money on the actual thing - roads.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The actual question is why there is an accident rather than speeding. Cars are safer these days. Why are trying to lower the speed limit yet getting high performance car? Make car registration more expensive on cars that can go at higher speed.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

I believe this will assist In child safety but only needs to be during hours that are relevant to school hours & not at all during weekends & holidays. Speed limits to be highlighted during relevant high risk hours as many already do.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The layout & traffic flow of the CBD automatically dictates the speed as needed & relevant at the time.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Makes sense for safety but again during relevant hours only. Businesses need to be able to move around our country to operate efficiently & provide their services so we need to take them into account when setting limits. Much of this happens in the night & when little or no pedestrian activity around schools.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Speedsters will still speed irrespective of the limit. I do not believe more children would ride their bikes or walk to school as the social issues in Rotorua (and many other areas) dictate that parents need to be comfortable that human factors other than speed are not a threat to their children getting safely from A to B in our city.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The roads need to be made safe to help prevent accidents. At present people are dodging potholes on a very regular basis & every time someone has to do this they are putting themselves & someone else at risk. On open roads this creates an even bigger risk. Speed limits have been getting lower but the road toll is not. So why? Road conditions & poor maintenance is my answer. Along with drugs, alcohol etc. To my mind long periods driving at low speeds can potentially affect concentration causing drowsiness & reducing reflex reactions which are more alive if driving at a slightly higher speed. I also feel for businesses trying to operate with current conditions & reducing speed limits. Hourly rates have increased dramatically & now employers are having to pay more to get the same end result but at a lot slower pace. Surely a great contributor to inflation & higher cost of living.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

We are not a major city. We use our CBD as any other street in the town to get the shortest route to our destination. Reducing the speed will only hinder the travel. (for instance Countdown on Fenton street to Bunnings)

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

The roads and speed limits are fine, it's only bad drivers that would possibly cause the accidents ie drink diving or being an idiot. Your only hindering those who use those roads in the correct way.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise

Q13. Lowering speed limits will help reduce traffic pollution

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q15. Lowering speed limits will improve health and wellbeing of the community

Q16. Lowering speed limits will improve liveability in the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

There are many dickheads on our roads and changing the speed limits won't change their habits. The majority of driver I see observe the road rules as they are and when they do traffic flow is almost perfect. You will only hinder those who already do the right thing with these changes.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is nuts! Do not go ahead with this the community uproar will be insane. You'll have have MORE CARBON EMISSION by having cars run for longer on the roads. MORE minor crashes in the first 18 months while people try (a lot won't) to adjust, MORE traffic congestion (lord knows we need that) and the dickheads will be out in force which will lead to police wasting their time (and my money) dealing to people going 41kmh . I beg you. 0 road deaths is impossible and anyone with half a brain knows that. God damn! I can't believe I'm wasting my time debating such a stupid proposal. Have fun screwing up our already sinking town. Peace out- 31yo home owner in Hilcrest

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

This makes sense as it's safer for the kids and isolated to areas required

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Again this is a highly built up area if this is only around the shops in very central city area ONLY not the main roads such as Amohau Fairy Springs etc - they should remain current speeds

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

We live out on rural roads and they should remain 100kms - most of the roads have several corners that prevent you from doing 100km the entire time however where appropriate 100km is safe and should remain.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Agree

Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is just a revenue gathering exercise. Lower speed limits is not going to fix the health problem of our country. Be better off to close down mcdonalds, KFC etc. These obese unhealthy people are not going to walk just because the speed limit is lowered. It's also going to increase the amount of road rage and dangerous passing maneuvers we see already on these country roads. Totally unnecessary on rural roads, absolutely agree around heavily built up areas and schools to ensure safety but cannot disagree more about all rural roads proposed as such. We live out hamurana and its not the speed limit that causes crashes its the drivers. There are so many more pressing issues to deal with than enforcing such ridiculous speed reductions in such a wide area. Rotorua has deteriorated in many ways and this is going to plummet it further. Total joke!

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Don't continue on with this proposal of blanket reductions. Ridiculous, unnecessary and will not force people to do what you are hoping for. We are supposedly meant to have much higher safety rated cars than we ever have yet we are looking at reducing speeds to "keep everyone safe". It's the drivers that are rubbish NOT the speed limits. Reducing the speed will not stop the crashes by any stretch nor will it force people to walk or bike.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

The current speed limit outside schools is 30 km most drivers observe it and depending on the number of students present reduce speed even further

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Most people travel through the area at a reduced speed depending on the traffic and the number of walkers in the area

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Drivers usually drive to a speed that reflects their skill level on rural roads. In many cases the road conditions do not allow for the current speed limit.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Too resistive in the wider city. People comment I will have to leave home half an hour earlier to get to work.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

As a volunteer driver for St John who takes patient's to and from medical centres in the town and local surrounding rural areas the proposed speed limits will restrict the number of patients by half that we could offer our service too due to increased travel times. This would have a sever impact on those who rely on this service. Observations of drivers in this city: - far too many distracted by phones while driving. - running red lights - drivers not wearing seat belts and passengers - too many cars in an unfit state on the roads. - lowing the speed limits will increase the number of impatient drivers who will continue to drive fast and disregard road rules as they usually do. There needs to be more emphasis on Road Policing and increased visibility of patrol cars on all roads Tv education adverts on safe driving.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Safety of pupils and attending traffic

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Reducing to 40 is reasonable given the foot traffic and vehicle movements

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

It will add to frustration, inattention leading to more crashes

Q11. Lowering speed limits will help reduce the number of speed-related crashes Disagree

Q12. Lowering speed limits will reduce traffic noise Agree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Emergency services can only travel 30km above the speed limit and this will add further delay to attending emergencies. Research shows most accidents happen at speeds below 40km/hr Fixing pot-holes and making man-holes flush to the road surface will improve road safety

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

This is over kill, reducing speed limits around schools during pick up and drop off times is a proportionate response.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Yes can agree with that distance proposed for around schools. However not for any other areas. 50 km/h is appropriate.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

Dropping the speed limit will encourage kaos. Drivers will end up clogging the carriageway instead of getting to where their meant to be.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Under these current proposals we may as well get rid of all motor transport in NZ and go back to horse and carts. History will show that there were serious accidents with this mode of transport back in those days.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te

Kao - No

Q2. He aha ai?Why?

not answered

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

not answered

Q4. He aha ai?Why?

not answered

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

not answered

Q6. Why?

not answered

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

I'm not entirely opposed to slower speed limits, but there are some streets where I don't think this makes sense. It will slow down cars to a crawl. Some streets (eg parking islands in the middle) it makes sense to slow down. Where this isn't the case, standard speed is fine.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Slower speeds in certain villages (eg Mourea) have been good. The issue is the connecting roads between villages that are too slow.

Q11. Lowering speed limits will help reduce the Neutral (no opinion)
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Neutral (no opinion)
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Blanket reduction in speed is counterintuitive. A more targeted response would be much better. Likely that offenders are the ones who don't obey speed rules anyway. There are some poor drivers, but speed reduction might only have a small effect on those instances. A more targeted response might be better too.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Frustration at low speed zones (if blanket approach) might encourage people to break speed limits more often in multiple locations. People might ignore speed limits altogether, rather than slow down in most critical places.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Schools are susceptible to traffic related incidents so enforcing 30km/h within 500m of a school is reasonable, however the whole city being reduced to 30km/h is ridiculous and pathetic. Why don't we spend our time, money and resources on the actual roads themselves. How about you be honest with us and tell us the real reason why these speed limit changes have even been proposed.. revenue, and image. This is a democracy so please listen to us. We deserve a say.

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Strongly Disagree
<p>Q8. He aha ai?Why?</p> <p>These adaptations will not change anything, other than making us good kiwis angry. People who speed are not magically going to stop, criminals aren't going to be thinking 'well, I better slow down!'.</p>	
<p>Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map</p>	Strongly Disagree
<p>Q10. He aha ai?Why?</p> <p>This even being a thought is absolutely pathetic. Why not spend the money on making these roads safer? Rebuilding them? That's the way to make us kiwis happy.</p>	
<p>Q11. Lowering speed limits will help reduce the number of speed-related crashes</p>	Strongly Disagree
<p>Q12. Lowering speed limits will reduce traffic noise</p>	Strongly Disagree

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Getting more people out walking? To only get mugged by the parasites that plague our streets? My father walked his dog to keep fit and got jumped by 2 high crackheads. So now he drives to a park because it is safer. I wouldn't let my children bike in Glenholme without my supervision. Not because of vehicles but because of the people! Reducing the number of vehicles on the road will make more space for these motorbike drug runners around Mangakakahi, Fordlands, Western and Selwyn etc. The noise will increase and Police will be inundated with callouts.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Focus on cleaning up the people in the city. In turn, this will reduce the number of vehicle accidents and offenses.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

For rural communities eg Mamaku, before you encourage people to walk maybe you could put in the infrastructure for them to walk on, not all our streets have footpaths so maybe put them in first.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If parents didn't insist on driving their kids to school there would be less traffic, maybe encourage them to get the kids walking, biking etc. The teens are so keen on savirhe planet you'd think they'd be walking and biking off their own initiative.

Strongly Disagree

Q8. He aha ai?Why?

Because we're a tourist city.. Who is going to drive that slow? The locals who know to go 30km vs visitors who would expect it to be 50km - there will accidents, road rage etc. Plus what a hassle and inconvenience for the locals plus an unnecessary cost.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Ensuring there is a drop in speed around schools will make people think and slow down. If you have the speed all the same at 30 people will start to creep it up including around school areas

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

You will reduce the flow of traffic significantly especially during rush hour and the school run

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

People will not stick to the lower speeds, they will get angry with those that do and take chances and create an accident. This happens all the time on the Taupo Napier road where it has been reduced from 100 to 80

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

If you reduce the speed especially in the rural SH areas people will continue to take chances and cause accidents. Education is one of the keys. Also all modern vehicles have the ability to do way more than the speed limit, why don't we limit what vehicles can do to help the situation

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Reducing speed will not make it safer for cyclists. I cycle and would prefer dedicated cycle lanes to allow myself and the vehicles more space.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Driving is already 30km in the centre. Why ask this question?

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

It makes no sense. Driving at 30kms is about forcing people out of cars. What will happen is no one will shop in Rotorua. I would rather drive elsewhere.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It will not achieve your agenda. It will force people to shop elsewhere, online and not support business. This is on a slippery slide downwards.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Why ask for feedback, when you will action your agenda regardless of the public view. It is quite narcissistic I think you have lost touch with the people and what they want.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Unlike residential streets where you're often alone on the road, the CBD has more foot traffic and cars pulling out of car parks etc... and 50kph most the time isn't safe.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Speed reduction increases frustration. Leads to more distraction as you take longer as your mind starts to wander. Why so many accidents happen on long straight stretches of open road. People break their focus or look at their phones. Or let their mind wander. This just isn't safe and if it leads to frustration then people do stupid things like taking more risks at giveaways. You'll also have a long period where some people will follow new speed and others will refuse resulting in road rage and more accidents. I really hate the idea.

Q11. Lowering speed limits will help reduce the Strongly Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic Neutral (no opinion)
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

One qualification to my know is allowing for room for particular high risk streets or busy areas such as the CBD to have speed reductions. Otherwise apart from what I've already said driver frustration will be a thing. Everything will take longer. They'll be less inclined to give way or be nice to pedestrians or cyclists. Courtesy crossings will lose their value. I just don't see the advantages and outside theory it will just be annoying. While I don't put the economy first in such arguments on safety and life, some consideration must be given to the extra time it will take all of us to get to work, the extra time we'll spend in gridlock, the extra time our deliveries take, or how much more expensive it will be to have food delivered etc... how will freight, courier and companies like Uber respond? Like in theory they should raise costs by almost one third to make up for it? Or just give worse service? I'm just not convinced and I think this is a multi-fascited issue rather than a simple argument that under certain conditions it reduces accidents.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If you do this then you need a heavy fist to ticket, ticket, ticket. Te Ngae reduction was horrible as there were those who followed the limit immediately and those who drove dangerously by trying to keep going 20-30k over the limit and blasting horns and angry at the slow drivers. This will happen now throughout the city and kill people on such a scale. So please consider how you will get that many cameras and enforcement folks out on the road because the only redemption for such a plan will be to become traffic Nazis for a month. Otherwise people will die and it will be on the councils hands.

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The speed limit is the last focus for how to make the CBD more attractive, vibrant and safer! Time, energy and money should be put into other options to ensure the CBD is a safer place to be so people want to shop here.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

100km is too fast for main roads for schools.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Majority of the areas being impacted is unnecessary and will cause more issues than reduce. Many don't need to be 30km 24/7. Don't agree with the attitude that 'lets force them onto buses, walking, biking by making driving harder'. Many people can't bike or walk no matter what you try to do to make them! Time, energy and money can be better utilised to actually make more positive impact.

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The roads shown as being reduced to 30kph cover a MUCH wider area than the CBD. It would appear that the reduced speed limits go beyond the limit of the map. These reduced speed limits will have a huge impact on productivity and delivery times.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There are lots of roads where you can't even travel at 80kph but there are also lots of places where it is quite safe to travel at 100kph. There is no need to have a blanket speed limit.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

This is going to make travel within the city increasingly frustrating and will increase costs to consumers by increasing travel times for all goods and services deliveries.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

For ourselves we estimate the increased cost for each delivery will be about \$30. This will need to be passed on to the consumer. This is a complete over reaction and more nanny state behaviour.

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

I agree that speeds outside schools need to be 30km/h but not the surrounding streets.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

You are going to significantly increase response times for emergency services. Anyone living off western road will be affected trying to get to Ngongotaha Fire Station within the 5minute response time, trucks will be delayed going out the door, delayed getting to properties, it takes 3minutes for a house to become well involved in fire. Ambulances will take longer trying to get to patients facing imminent death. People refuse to follow 50km/h outside the ambulance station, the only agency winning is the police who get to increase their revenue collecting. Get out there and drive 30km/h, 50km/h or 80km/h on the identified roads and see how slow and infuriating it is like a lot of us have. Where are the statistics to support this change? The road to zero will never be achieved, you cannot change how someone chooses to drive. If anything this will irritate people more and reckless driving could increase.

Strongly Disagree

Q10. He aha ai?Why?

If 100km has been safe forever then why is it no longer safe??? I think you are penalising rural people by adding significantly to their commute. If the roads are not safe enough to do 100km it is only because of lack of maintenance so perhaps that should be the focus rather than spending the money on signs to reduce the speed.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Mostly because I think the rural speed changes are unfair, unnecessary and with a bit of actual road maintenance they would be fine as is.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

The crashes, noise pollution etc in the poll are often caused by those who don't follow speed limits anyway. Reducing limits won't solve these problems

Strongly Disagree

Q8. He aha ai?Why?

Because it's stupid. We already have terrible roads and infrastructure, not just around the city. You would literally be bringing every street to a stop on the traffic lights.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Most accidents and happening on state highways. Agriculture and forestry run this culture on the timings we have now and apply common sense in most areas.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Reducing speed limits does not compensate for poor street design. Safety is better achieved by improving pedestrian crossings ect

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Most rural roads are suitable for 100 km limit with little to no accidents refusing to 80 km will increase freight costs commute times which will adversely impact rural communities with no change in Safety

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is a poorly thought out plan that will negatively affect community's and not achieve the desired result

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

The people who don't follow the speed limit now won't follow it if it changes to 30kms.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Again changing the speed to slower isn't going to make a difference to people who don't already follow the speed limit.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The views of the speed limit changing how people drive is incorrect and isn't a good use of time for the people who do follow the speed already and don't cause harm on the roads.

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The problem of 'safety' in the vicinity of schools is not one of speed (currently up to 50 kph) but of congestion in areas where children are picked up or dropped off. Most schools have no off street drop zones. Any business that generated the amount of traffic a school does twice a day (but for not more than half the week days in a year) would be required to provide off street parking. Why are schools not required to do so or at a minimum replace the wide berms on their street entrance areas with a drop off lane? I doubt the current trend of parents dropping their kids off at school will change even if the speed limit is reduced.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I have grave doubts of much of what Whaka Kotahi NZ Transport Agency say and propose. If they cannot even do the basic job of filling potholes on highways why should we accept their views on more complex matters such as speed limits on urban and country roads.

Disagree

Q8. He aha ai?Why?

Some of the proposed streets are still main commuting routes. Several of the proposed downtown streets would benefit from better pedestrian infrastructure (crossings etc) more so than reduced speed limits

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Neutral (no opinion)

Q10. He aha ai?Why?

I think there is value in reducing speed limits for roads that are typically used by cyclists/farm vehicles.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Agree

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Applying a lower speed limit is not a fix to poor road quality, driving standards, and pedestrian/cyclist infrastructure.

Q1. Pātai tuatahi (Question 1):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. He aha ai?Why?

not answered

Q3. Pātai tahi ira rua (Question 1.2):E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. He aha ai?Why?

not answered

Q5. Pātai tahi ira rua ira rua (Question 1.2.2):Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. Why?

30km around schools during pickup and drop off time makes sense, but not all the time. Adds to driver frustrated

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Some roads in cbd are narrow, makes sense to lower speed limits there

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

There are roads nowhere near schools like Te Kopia road that don't need to be reduced to 80km

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Overkill in some rural areas

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Fix existing roads and street lamps before spending money on replacing speed road signs.

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

It makes a lot more sense to only slow down traffic around schools specifically... you people need to realise that there is those of us still trying to get places and it's just going to waste more time in our busy day needing to leave an extra 20 minutes to get to and from places around town. Also this speed change should only be active during the time that kids are going to and from school it doesn't need to be in place during the day when children are in school and it most definitely doesn't need to be in place at 7pm-6am when people should really be in bed 😊 the whole thing is stupid just leave it as it is and put the money into actually making our roads suitable for our cars....

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree
<p>Q8. He aha ai?Why?</p>	
<p>Roads are for cars to travel more efficiently, put the money into making the roads safe for our cars and reach pedestrians to actually use pedestrian crossings and not just walk across roads</p>

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Reducing the speed limit will not deter those who already drive dangerously in these areas, or who already disregard designated speed limits. Excellent idea to reduce speed limits outside of schools to ensure our tamariki are safe, however this is fully dependant on the community doing the right thing and abiding by the sign posted speed limits (which as of late, we are seeing more and more reckless drivers on our streets)

<p>Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map</p>	Disagree

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

50km/hour is safe speed for this population of town. Sometimes the tourist came and went slow and give us more dangerous circumstances

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

The speed limit does not give us safety. The dangerous one is the one who does not follows the law.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

The law is sufficient enough. What makes unsafe in Rotorua is the people who doesn't with comply with the any law. Also unsupervised children or teenagers.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Making law or strict regulation restrict decent large percentage of population who always follows the rules. We need more strict action who does not care about other people. Need more education for the people who does not want to be considerate.

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Safer when busy

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Lots of rural roads are straight and have good visibility so 100km/hr is a safe speed limit. Also they are not very busy. Makes no sense to reduce speed limits on ALL rural roads.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Neutral (no opinion)

Q13. Lowering speed limits will help reduce traffic pollution

Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It makes no sense to reduce speed limits on all urban roads. I drive daily around Rotorua and many urban streets are not busy, have good visibility and there are no cyclists or children walking so it does make sense to reduce the speed limits of all of these roads to 30 km/hr all of the time.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

If the goal is to improve road safety, I feel a better use of resources would be to focus on intersections with traffic lights and install cameras to catch vehicles running red lights. This is a big and dangerous issue in Rotorua and should be addressed before reducing speed limits on all urban roads.

Kao - No

Q2. **He aha ai? Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohono Do you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors? Click Here to enlarge map

Kao - No

Q4. **He aha ai? Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai. If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because it's safer. Reducing the speed limits everywhere else is stupid, considering there's only a select few who speed through those kinds of places anyway, and a lower speed limit won't stop that

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei? How much do you agree or disagree with the following? Having a 30km/h speed limit in the CBD Click Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Dosent need to be that low. Look at our new drivers education and learning system, create more pedestrian crossings

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Strongly Disagree

Q10. He aha ai?Why?

Because it's stupid. There are sections of road that you can't do 100 safely on, but that's up to the driver to slow down for those signposted corners ect. Slowing a road that's probably got some open straight 100kph sections just to slow people around the twisted is silly. Again, look at the driver licensing system

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Neutral (no opinion)

Q15. Lowering speed limits will improve health and wellbeing of the community

Neutral (no opinion)

Q16. Lowering speed limits will improve liveability in the city by making it safer

Neutral (no opinion)

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it's a load of woke Focus on training our drivers better, and making it harder for incompetent people to get their licence

Strongly Disagree

Q8. He aha ai?Why?

Due to traffic and roading layout it is not possible to do more than 30km/hr in the city anyway. So no need to make it 'official'
It is self regulated. Plus what about outside of business hours in our city? How ridiculous and tiresome to have to do 30km/hr
at night when there is literally no one there.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō Strongly Disagree
whakaae rānei whakahē rānei ki ēnei e whai ake
nei?How much do you agree or disagree with
the following?An 80km/h and 60km/h mix for
rural roads (currently 100km/h, 80km/h,
60km/h). This does not include state
highways.Click Here to enlarge map

Q10. He aha ai?Why?

Because the 100km/hr limit has not been a problem up til now. Reducing the speed will create a problem as you are dealing
with people getting frustrated as they can't pass and spend more time looking at their speedo than the road.

Q11. Lowering speed limits will help reduce the Disagree
number of speed-related crashes

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic Strongly Disagree
pollution

Q14. Lowering speed limits will encourage more Strongly Disagree
walking and cycling for transport

Q15. Lowering speed limits will improve health and Strongly Disagree
wellbeing of the community

Q16. Lowering speed limits will improve liveability in Strongly Disagree
the city by making it safer

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Kao - No
Mahere Hukihuki Whakaere Tere Waka me te
hiahia ki te whakarerekē i te pae tere?Do you
support the draft Speed Management Plan to
change speed limits?

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Ill thought out with no regard to how this will affect people's daily routines. It's about being seen to be doing the right thing. Acknowledging it does happen, but Rotorua is not rife with car/pedestrian accidents. It doe snot need this speed reduction on any of its roads. Go ask the good people of Napier how the speed reduction on the Napier-Taupo road has worked for them. It has added 15min to the journey to Rotorua, thus extra time on the road=increased petrol=increased climate damage=increased wear and tear on vehicle

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Have any of you involved in the plan actually tried to drive continually at 30km/hr? With the rise and fall of both say Sunset and Malfroy roads, it would be almost impossible to stick to 30kms. My concern is that people will be continually looking at their speedo thereby not concentrating on what is happening around them. I sincerely hope all submissions will be taken into account and that this hasn't just been a 'box-ticking' exercise for the council. And that council will take rate payers opinions into consideration and reconsider this proposal if the majority of submissions are against this draft.

Āe | Yes

Q6. Why?

I think that permanent 30km/h speed limits for the majority of the city are completely ridiculous. It is slower than many people cycle, and likely to be as ignored as the speed change on Te Ngae road where almost none of the drivers observe the 50km change. For an automatic vehicle, it is on the cusp of the limits of gears, and these cars will be constantly shifting between gears - not great for the engine. Also, I fear that a much slower pace of 30km would likely result in more texting etc while driving as people will become complacent at this low speed. I've tried to stay to 30km a couple of times driving home from town (obviously not in peak traffic!) and it is painfully slow! My car kept shifting between gears, and each time it went up a gear I had to brake to reduce my speed, then it would go down a gear and be at high revs... frustrating to say the least, as well as likely not a great way to run the car engine on a permanent basis. Personally I'm not worried about the travel time to town / work increasing by a couple of minutes at all, but I still don't support this permanent change across most of the city. I would support a wider radius than 500m outside schools if the council would consider a variable speed limit within school travel times, and this would still be within the land transport rules. I'm really surprised and puzzled that this hasn't been offered as an option for residents to consider.

Q7. Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD[Click Here to enlarge map](#)

Strongly Disagree

Q8. He aha ai?Why?

Again, I think it's too slow. I think that instead of lowering the speed limit, council should look to cities like Napier how they have made the CBD more pedestrian friendly. The old Tutanekai mall was a great example of this, a way for shoppers to walk safely within the CBD by making designated spaces for them.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.[Click Here to enlarge map](#)

Disagree

Q10. He aha ai?Why?

I'm not too opposed to some rural roads becoming 80km, but I think that 60km is too slow for rural roads that have been 100km, and that drivers will not follow the speed limits.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Neutral (no opinion)

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4) Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere? Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai? Why?

not answered

Q19. He aha ai? Why?

not answered

Q20. He aha ai? Why?

I think that the council is tackling this from the wrong angle. I understand that other approaches would cost more, but in the longer term I think that it would be more successful. A more pedestrian / cyclist centred approach rather than a driver restriction approach.

Q21. He kōrero anō wāu? Is there anything further you would like to comment on?

I think that the statement that lowering the speed limits will encourage residents to walk and bike is ridiculous. What would encourage us to walk or bike is to actually make safer bike/walking areas like the wide paths along Springfield Road. Make places for crossing roads to be safe. Make pedestrian/bike refuges. Making the vehicles slower makes no tangible improvement to the spaces that you walk and cycle in. Make better bus services to take more cars off the road. Make free car parking areas outside of the CBD with free buses to take shoppers to the CBD. Encourage and support ride share services for commuters. I also think that it is appalling that there is no option within this plan for variable speed limits within school travel times. This is clearly stated as an acceptable option in the Land Transport Rule documents, and has not been an option that council have entertained at all with its exclusion from the draft plan. I'd be very interested to know why this has been completely overlooked by council and not allowed to be part of the traffic management for our city.

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Kao - No

Q6. **Why?**

not answered

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Disagree

Q8. He aha ai?Why?

The "CBD" area as shown is way to large. CBD stands for central business district and should be that, not residential areas.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

Nothing wrong with what is currently set. The speed issue isn't "speed", it's the excess speed and drivers not skilled enough.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It doesn't achieve anything. Government should be pushing for mandatory refresher training for license holders every 2-3 years, at the cost of the holder. Having a licence isn't a right, it's a responsibility.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

All this will do is create more negativity within the city and it's people. More should be done about housing costs than wasting money on this.

Āe | Yes

Q6. **Why?**

Reducing speed on all roads 24/7 will not get abided by, by drivers as they are in muscle memory of 50kmp and wont comply with lower speed limits all day, 7 days per week when they know school hours/days. Install more flashing lights around schools in the times they arrive and leave school Mon-Fri when it is needed for drivers to reduce speed. The slower speed will impact pricing for courier deliveries as they will take longer, trades will increase prices as time between jobs is longer, Plunket/hospice wont visit as many people daily as travel takes longer. It is possible to reduce speed around schools with flashing lights and speed signs that work at the moment and speed humps. Dont use a sledge hammer when smarter signing and warning signs are better

- Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Strongly Disagree
-
- Q8. **He aha ai?Why?**
Drive to the conditions of the road. The MAX limit is 50 - use lights, humps, chicains to slow traffic where needed
-
- Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree
-
- Q10. **He aha ai?Why?**
Drive to the road conditions. Improve our roads with less corners, more median barriers. The country is long and road travel is still the main method. Improve and maintain the roads better like they do overseas
-

-
- Q19. **He aha ai?Why?**
not answered

Q20. He aha ai?Why?

E-bikes in city boundaries and CBD will travel over 30kmp. Who will police this? Reducing accidents by 2050 can't simply be done with slower speed - pedestrian education needs to be reintroduced Being on the road for longer, with slower traffic causes more pollution Changing to electric vehicles lowers pollution of the air but increase land pollution as the batteries can't be recycled

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Dont go for the cheapest method to lower accidents, use technology and driver compliance better Parents drop kids off to school, because both work. Not because they don't trust drivers who travel along school roads. It's parents that are causing the accidents between cars and pedestrians. No statistics have been shared as to the number of school pedestrians and cars in collisions between the hours of 8am-9am or 3pm-4pm to validate this proposal

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Because these are areas where there are children, and many of them before and after school. I would then have the whole road reduced from 50 to 40 on all urban road.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Agree

Q8. He aha ai?Why?

The Centre of the CBD is a shared space, with pedestrians, cyclists, and other vehicles. Also being such an open space it doesn't look like an area where vehicles would mix with people. I think there needs to be a slower space so that if a person is off in a dream walking cycling injury is less likely.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map** Strongly Disagree

Q10. He aha ai?Why?

I travel rural roads and find 60 Km fast enough. There are many concealed driveways, and other rural activities including the discovery of a tractor driving just around the corner or stock being moved from one area to another. The roads are also narrower and cornering is done better at a slower speed.

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Agree

Q12. **Lowering speed limits will reduce traffic noise** Neutral (no opinion)

Q13. **Lowering speed limits will help reduce traffic pollution** Neutral (no opinion)

Q14. **Lowering speed limits will encourage more walking and cycling for transport** Disagree

Q15. **Lowering speed limits will improve health and wellbeing of the community** Neutral (no opinion)

Q16. **Lowering speed limits will improve liveability in the city by making it safer** Agree

Q17. **Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?** Āe | Yes

Q18. He aha ai?Why?

Because in many cases vehicles are already driving above the current speed limit, so by lowering the speed limit it will bring the chance of severe injury if hit by a vehicle to a lesser level. Also there are more elderly and young people around now and reaction times by those on foot, with walkers, on bicycles will be better served if the motor vehicles are being driven at a slower speed.

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

not answered

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I would like to see the speed limit through Ngongotaha Village lowered to 40km from just before the Railway Park & Gull Station until over the bridge just past the Western Road Intersection. We have traffic moving through the village faster than the now 50 km. We have many elderly living at the St Barnabas Close Village and also the Village by the Lake who walk through Ngongotaha and cross the road to the various services ie hairdressers, eateries etc. I have been on the crossing at times and vehicles have driven straight through while I have been on the crossing. Others have experienced the same. The driver on one occasion just looked out of his window and his mouth was wide open in shock. It will do our drivers and pedestrians alike a better chance of increasing safety in this area by reducing the speed to 40 Km. Thank you

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te **Āe** | Yes
whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton? Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street? Click Here to enlarge map

Q2. **He aha ai? Why?**

I am writing in support of the proposed speed limit reductions in Rotorua urban areas. Reducing the speed limit in urban areas of Rotorua would not only reduce injuries and deaths, but also make our city a better place to live. Herein, I provide evidence to support this position. Safety In the Rotorua district there have been 430 deaths and serious injuries over the past 10 years (<https://www.newstalkzb.co.nz/news/national/rotorua-speed-limit-changes-days-left-to-submit-on-draft-speed-management-plan/>). This causes severe distress and hardship to families, friends, and businesses. Reducing urban speed limits will considerably reduce the risk of injury or death to our community. The risk of injury or death if a pedestrian is hit by a vehicle is substantially reduced at lower speeds. For example, reducing the speed limit from 50 km/h to 40 km/h reduces the risk of dying from c.a. 90% to around 10% (Kroyer (2015) IATSS Research, 39:1 p.42-50). In the UK, the introduction of 20 miles per hour zones resulted in a 42% reduction in road casualties, with the greatest reduction observed for children (Grundy (2009) BMJ 339 b.4469). Closer to home, in an Aotearoa / New Zealand scenario, a 38.8% reduction in fatalities was observed on Tamaki Makarau / Auckland roads in the 24 months following the reduction of speed limits, as compared to what would have been expected if no changes to speed limits were made (Auckland Transport (2022) Safer speeds phase 1 - 24 month interim evaluation, 10 Nov 2022). The evidence clearly shows that reducing urban speed limits will save lives. Travel times The main counter argument to the proposed changes is an increase in travel time and reduced productivity. However, research has shown that the increase in travel times due to lowered urban speed limits is very minimal (Jang et al (2022) Applied Science 12(11) 5296). Detailed calculations from the UK showed that lower speed limits in urban areas have minimal impact on travel times (<https://futuretransport.info/impact-of-maximum-speed-on-journey-times/>). As an example, I have calculated the maximum increase in travel time for two example commutes in Rotorua city, as follows (distances and travels times calculated using Google Maps): Trip 1: 8 Farnworth Avenue, Holden Bay to Rotorua Library. Travel distance 9.5 km. Estimated travel time at current speed limit 14 min. Estimated travel time based on proposed lower speed limits 15 min 36 sec Trip 2: 21 Emerald Street to 25 Vaughan Road. Travel distance 10.2 km. Estimated travel time at current speed limit 16 min. Estimated travel time based on proposed lower speed limits 17 min 12 sec. The maximum increase in travel time in both instances is not more than 10%. However, this simple calculation does not account for acceleration/deceleration time so in reality the increases will be significantly less than this. Pollution Emissions from motor vehicles are also reduced with decreasing speed. Vehicle pollution is estimated to cause 2,000 pre-mataure deaths each year in Aotearoa / New Zealand (Kuschel et al (2022) Health and air pollution in New Zealand 2016. MfE/MoH/MoT/NZTA). Lower speed limits will encourage more people to use alternative transport modes and also minimize tail pipe emissions of air pollutants. Connectivity Reduced urban speed limits would enhance connectivity amongst communities, making streets feel safer for pedestrians, children, and other users. Busy roads with noisy and fast moving traffic create a barrier cutting our city into small-isolated regions. Research has shown that reduced speed limits encourage connectivity (Anderson et al (2023) Int J Environ Res Public Health 20(4) 3743), improving communities and making our city a better place to live. To conclude I am in full support of the proposal to reduce urban speed limits in Rotorua. Nga mihi Jamie Bridson

Disagree

Q8. He aha ai?Why?

There is no need to reduce the speed limits from where they are currently . I cant recall in history when the last time was that someone was run over etc in the cbd due to the speed limit being where it currently is . This is why we have a driver licensing system where you should be qualified to operate the vehicle that you are in . The emphasis should be on the drivers ability . A modern car can stop n a matter of metres but i would nearly guarantee that 99.9 % of the drivers of those cars would be unable to make that happen

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Q10. He aha ai?Why?

again this is ludicrous theft of peoples time . If you are on any road outside of the city limits this should be 100kmph. Our modern vehicle fleet is more than capable of this . if rural schools etc have their entrances on rural roads it should be their responsibility along with transit NZ to have appropriate loading zones etc The level of frustration that these proposed changes will make will further frustrate drivers an already very ordinarily organsied road speed situation . if the limit gets slowed to 80kmph how then are you supposed to safely pass a logging truck etc where as currently within the laws you can have enough road speed to pass without risk to the public. These changes are directed at the wrong group of people. Your law abiding citizens should be punished for the idiots that are the small minority. Our road toll is reflective now days of the volume of traffic that has nearly doubled in the last decade or so and to be honest i think the state of our roading accross the nation leaves more than a bit to be desired .

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

what has been proposed here is some pencil pushing person trying to justify their job . This is a completely wrong way to address a "speed" issue. there is no urban road that you could see 300m at a minimum in front of you so why would the speed limit reflect a distance of that far these is far to many reasons not to just leave the limits the way they are currently .

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Yes i think there needs to be clarification to the public that this submission is not a council directive but a central government directive that the local council has chosen to put to the people for consultation as they are required to act on it . I also think the the RLC needs to have a back bone and fight for the people as everyone has clearly put their feelings forward that they do not want this to change from the status quo . You are welcome to contact me anytime regarding this on 021764265. Cheers . Rohan Knowles

Āe | Yes

Q6. **Why?**

Slower around schools and in inner city shopping areas or areas with a lot of car parking is a good idea. I would be very interested in seeing the statistics for speed related crashes when the driver was doing the sign posted speed, changing speed limits won't change people who are willing to drive faster than the posted speed. Changing signs is a band aid fix and doesn't address the problem

Q7. **Pātai tuarua (Question 2)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBD**[Click Here to enlarge map](#) Disagree

Q8. **He aha ai?Why?**

For the CBD(where there are businesses and car parking) yes great idea. Residential and industrial areas no.

Q9. **Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.**[Click Here to enlarge map](#) Strongly Disagree

Q10. **He aha ai?Why?**

You need to address the root cause of this issue and speed limits are not it. Changing a sign will not change the behaviour of people who are willing to drive faster than the sign posted limit. More focus needs to be on driver education and changing the culture of our driving so speed and aggressive driving is not as common. Slowing roads down will add to driver frustration and frustrated angry drivers make bad decisions. I commute everyday to work and the amount of terrible driving I witness nearly on a daily basis is quite astounding. Signs are not going to fix this problem!

Q11. **Lowering speed limits will help reduce the number of speed-related crashes** Strongly Disagree

Q12. **Lowering speed limits will reduce traffic noise** Disagree

Q13. **Lowering speed limits will help reduce traffic pollution** Disagree

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is a band aid fix that is not addressing the root cause.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

With the increase in population you need to be looking at ways to reduce traffic congestion. Walking, cycling and public transport are a great idea but not realistic. There are a lot of contributing factors at play with road safety and lowering speed limits are the easy button. There should be more effort put into driver competency and trying to change the culture and if done right you will see speed related deaths drop dramatically. Changing the limits are just giving our already struggling police force more work to do. The sign posted speeds are not the problem.

Kao - No

Q18. **He aha ai?Why?**

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

Because it is idiotic. All it will do is create frustration (that's if anyone takes any notice). Reduce the speed around the entrances of schools and then put some effort into educating children to be road traffic aware and better still spend some money on making our roads fit for purpose.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Seriously, I can't believe that this is under consideration. I drive around town alot, including non feeder streets, and as I did so today I tried to keep to 30kph!!! OMG I just cannot believe you are seriously considering this. Have any of you actually spent time driving our streets at 30kph????? And what do you think it is going to do for businesses - for productivity and for deliveries??

Strongly Disagree

Q8. He aha ai?Why?

The map you give doesn't only show the CBD, so I do not agree. The CBD is the area inside Ranolf St, Amohau St, Hinemaru St and Arawa St. Given the increase in traffic within the CBD in the 18 years I have lived here, it isn't possible to travel faster than 50km/h in this zone.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

There is no evidence justifying reducing rural posted limits 24/7. Reduce the speed limit past schools, specifically during drop-off and pick-up times only.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Strongly Disagree

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

You haven't transparently presented evidence to show what WILL happen. You present evidence to show what you will EXPECT to happen. Please provide us with a breakdown of the Deaths & Serious Injury category. How many deaths, exactly? What were ALL the contributing factors? How many serious injuries, exactly? What were ALL the contributing factors?

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

Given the recently released map images, detailing the areas to be affected, it is mind-boggling that RLC would actually contemplate this. Disqualified drivers, inebriated drivers, drugged drivers, repeat offenders, non-road worthy vehicles, poor weather conditions, excessive speed, human error (by all involved, pedestrian, cyclist, driver) will NOT be eliminated by this legislation, Social media feedback & kickback has clearly shown RLC the general sentiment of the community re this move. Imposing drastic, blanket new limits 24/7 is an insult to the intelligence & skillset of the people of this area. Conversely, if, as you maintain, there is veritable "killing field" taking place outside our schools, as a parent I demand to know why it has taken the RLC this long to take action.

Strongly Disagree

Q8. He aha ai?Why?

Summary: Biking or walking cannot be a replacement for cars in this city and is unrealistic, given the planning separation of work venues with residential areas, our weather patterns, and based on the under-use of a dedicated Cyway, and does not account for electrification of private and commercial road transport. Schools already run their own bus services. Proportionate measures are already in place and very similar to existing time-based school zones at 40km/h. No option offered to adjust existing variable 40km/h signs to 30 km/h with the mandatory 300m buffer. Proportionate measures are based on proximity and time of risk, to encourage driver compliance, and reduce delays and reduce pollution (a stated objective) from ICE engines, a short term issue that arguably run less efficiently at speeds below 50km/h for an entire journey, and are being overtaken by electric power. Safety. Consultation document. Page 7. "Streets safer for people, especially children, to walk and cycle. More people walking, cycling and taking the bus..." One of the key outcomes is the assumption in expecting parents to start sending their children walking or biking to school in any season, including winter because suddenly the traffic is slower. Is there any evidence of this behaviour change in similar climates and urban layouts in any other implementation of lower speeds, anywhere in the world? "Movement and place Rotorua speed limits will reflect the location and use of the road." Page 9. The fixed speed change is not addressing the far lower risk outside of school start/finish hours. 30km/h on these roads in the evenings is not proportionate or equitable for road users. It does not reflect the location and use, referred to in Consultation document page 9. "A variable speed limit can be an effective option to address road safety and traffic management priorities. They can be operated manually for specific timeframes or events or automatically for specific timeframes Traditionally, variable speed limits have been used outside schools. They have been shown to be effective for reducing the severity of injury crashes at high-risk intersections and on road corridors during cold and wet weather." Ref: <https://www.nzta.govt.nz/assets/resources/speed-management-guide-road-to-zero-edition/speed-management-guide-road-to-zero-edition-additional-technical-information.pdf> Cost of alternative. "The use of electronic variable speed limit signs outside all school entrances would incur a significant cost, in the vicinity of \$6m." The cost of these variable speed electronic signs estimated at \$6 million or \$120,000 per school (48 schools) is similar to the amount spent on a Cyway. The cost per student is very reasonable at \$430 per student using previous sizing of 14,000 students. No option or discussion for variable signage outside all schools is offered in this consultation, therefore It appears no genuine consultation, or consideration has been given for this proportionate, equitable existing solution. <https://letstalk.rotorualakescouncil.nz/draft-speed-management-plan-2023/widgets/408205/faqs#103106> 3.2 Will RLC remove speed humps and traffic calming measures in existing 50km/h areas if there is a blanket 30km/h limit applied.? There should no longer be any need for more traffic calming measures in these streets.. 4.And likewise an assumption that lower speeds will encourage or force more people to choose biking to work? Rotorua is not an arid temperate climate, it is wet, cold and frequent changes of weather in 1 day. Children will continue to be dropped off on the way to work for commuters who use cars, because it is more comfortable and still safer, even with the existing Cyway. This is easily seen daily outside every school in Rotorua in the frequent wet and cold weather we have. School buses provide safe drop-offs for students beyond 1km. In wet weather there is no good health or safety reason to be outside on a bike or walking to a school or work, with reduced visibility for children and drivers in wet weather. Each school already runs their own bus service to pickup and drop-off children in surrounding and outer suburbs including Ngongotahā. 5. Replacement benefits Where is the modeling or travel pattern analysis that shows the number of commuters who can genuinely replace their commute by car with a bike or walk, to get to their destination in Rotorua? How many people need to be biking as a replacement to commuter traffic, to reduce an unspecified carbon emission target and un-defined 'congestion'. Congestion is a relative term to other metro commutes. The consultation documents (page 5) states that "The local environment has changed since speed limits were originally set." Agree, a key change that has not been discussed in this consultation document is the construction of 23.7km of shared cycling and walking paths. 6. The CyWay programme Over 23.7km was "to be a catalyst for more people to choose to walk or cycle to work, to school, to shops and for recreation, as well as to tourism attractions. Rotorua's cycling network already provides easier and safer access for people cycling to school, with (at the time) almost 14,000 students within 500 metres of the primary cycling network. The completed network was expected to increase cycling from the suburbs and increase mode share for cycling to work and to school. "We now have an extended network throughout our city, a total of about 60 kilometres that link to and around the CBD, and a transport functionality review that provided options for the CBD determined that it could be removed." Deputy chief executive Stavros Michael 2023 This construction already included introducing slower driving speeds along the route, new signage, and education and promotion programmes in schools and workplaces. Ref: <https://www.nzta.govt.nz/assets/Walking-Cycling-and-Public-Transport/docs/urban-cycleways/Cycling-fund-regional-factsheet-Rotorua.pdf> Cyway TOTAL ESTIMATED PROJECT COST \$5.52 million URBAN CYCLEWAYS FUND

SHARE \$1.5 million NATIONAL LAND TRANSPORT FUND SHARE \$2.09 million ESTIMATED LOCAL SHARE ESTIMATED \$1.93 million Ref: <https://www.nzta.govt.nz/walking-cycling-and-public-transport/cycling/investing-in-cycling/urban-cycleways-programme/rotorua-urban-cycleways-programme/> After that work we now see parts of it being removed. "Rotorua cycleway to be removed for car parks" 11 November 2022 Ref: <https://www.rnz.co.nz/news/ldr/478562/rotorua-cycleway-to-be-removed-for-car-parks> Twenty-nine car parks removed seven years ago as part of Rotorua's "Green Corridor" cycleway are set to return as a stretch of the cycleway is removed. The removal, starting next week, will cost \$50,000. The entire cycleway's construction cost \$442,000 in 2015. The announcement, made on Thursday, has been met with joy from one affected business, whose manager says the cycleway was rarely used. Rotorua mayor Tania Tapsell was pleased the work would likely be completed ahead of the holiday season. "We've listened to feedback and are taking action to help support local businesses and residents as we lead into a busy summer shopping period." "It is such a waste of money, it's a waste of space, there are no car parks, no one uses it." It would "definitely" improve business and the removal made "sense", Lunam said. "We have people come in and they've been driving around for ages trying to get car parks. Vault bar owner Ross Swenson, who had previously organised a petition against the Green Corridor that attracted 700 signatures, said the announcement was "absolutely brilliant". Lotus Cafe and Bakery manager Amy Nguyen said it was "very good news" She said she did not like the cycleway and rarely saw people use it. The existing under-used bike paths are evidence that peoples behaviour will not change to choosing alternative transport. As there is already evidence of under-use in CBD, and a dedicated Cyway, why is there expectation that this will change with slower road speeds? The proof of expectation of behaviour change and commitment to CBD traffic reduction will be to ask all RLC staff to bike or walk to work at least 1 day a week. 7. The council consultation 1-page flyer, paragraph two, says RLC is "proposing 30kmp/h speed limits on SOME of our streets". This is misleading, as using the map in the consultation document it should state the changes are to MOST of our streets. The consultation document on page 6 infographic highlights that 20% of crashes locally involve speed. So this city-wide change that affects 60,000 people is about 20% of the crashes, where are solutions for the 80% of crashes? The plan described 'vehicle' and 'roads' as the other contributors. 8. Traffic Flow: New timings for traffic lights onto state highways will need to be implemented to prevent worse bottlenecks, but national through-roads will reduce optimisation of changes to lights and turn ins. A lower speed limit is very likely generating increased congestion or non-compliance, which negates the safety benefits. 9. Driver Behaviour: If the lower speed limit is not perceived as reasonable or proportionate by drivers, compliance may be low, leading to a mix of speeds on the road, which could create its own safety hazards. Therefore a proportionate approach around schools using existing variable speed limits can be extended. If there is a concern of cost then include speed cameras around schools to make the changes revenue neutral, even revenue positive. 10. RLC planning impacts If RLC wants to be 'Transforming our urban and village streets and residential estates from being car dominated to people-friendly spaces' then provide more flexible planning with satellite work and shopping precincts, not just suburban fast food and bottle shops. Do not force everyone in say Western Heights, Pukehangi or Ōwhata to commute to a 'vibrant' CBD to have to shop or access services. Have more micro mixed-use corner or suburban work and services venues in the suburbs, for local walkable accessible food, services or flexible work options, especially Pukehangi. This will reduce congestion and travel. Current town planning design is a bunch of dormitory suburbs in the hills and everyone has to drive to get food or anything else. 11. Pollution reduction. Consultation document page 7 • Reduced air and noise pollution • Reduced carbon emissions (helping us to mitigate climate change to help meet national emissions targets - refer to NZ Emission Reduction Plan) The proposal assumes reduction in pollution, but ignores the move to electric and hybrids underway, that will be the major factor in pollution and noise reduction, not existing speed limits. Along with cars, buses and trucks are going electric. Volvo Trucks New Zealand has received its first electric truck order from Waste Management NZ Ltd. The Volvo has a range of up to 300km and quiet operations – perfect for working in residential areas during unsociable hours. 12. Timing and Central Government policy alignment. The Waka Kotahi plans do not have to be implemented for 4 years?, this proposal is to push it through in 12 months at the end of 2024. There is no need to implement until the effects of further private and commercial vehicle electrification adoption is seen. Likewise a decision on what to adopt should be made after the national election in October 2023, in 6 weeks time, not before. The major alternative party has several policies that will affect the strategies used to justify this proposal.

Q1. **Pātai tuatahi (Question 1):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori ahakoa tāone, taiwhenua rānei, me ngā huarahi whakahonohono pērā i ngā rori a Sunset, Malfroy, Tarawera me Fenton?Do you support reducing the speed to 30km/h for all local streets (urban and rural) including urban connectors such as Sunset Road, Malfroy Road, Tarawera Road and Fenton Street?Click Here to enlarge map

Kao - No

Q2. **He aha ai?Why?**

not answered

Q3. **Pātai tahi ira rua (Question 1.2):**E tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora ki ngā rori o ngā hapori taiwhenua pērā i a Mamaku me ko Reporoa, hāunga ia ko te 50 kiromita i te haora ki ngā huarahi whakahonohonoDo you support reducing the speed to 30km/h for all local streets including local streets in rural hubs (Mamaku, Reporoa), excluding existing 50km/h on urban connectors?Click Here to enlarge map

Kao - No

Q4. **He aha ai?Why?**

not answered

Q5. **Pātai tahi ira rua ira rua (Question 1.2.2):**Ki te kore koe e whakaae, e tautoko ana koe i te whakaheke pae tere ki te 30 kiromita i te haora, rima rau mita te tawhiti i waho tonu o ngā wāhi urunga o ngā kura katoa tāone mai, taiwhenua mai.If not, do you support reducing the speed limit to 30km/h for only 500m from outside the front entrance of all urban and rural schools?

Āe | Yes

Q6. **Why?**

Most accidents are caused by motorists exceeding the speeding limits, inattention and failure to follow driving rules at intersections. Reduction to 30km/h outside schools would increase the safety of our children,

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Agree

Q8. He aha ai?Why?

Traffic density and pedestrian safety in the CBD would be improved.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map Strongly Disagree

Q10. He aha ai?Why?

Driver error and attitudes cause the majority of accidents and we don't believe reducing the official speed limit will make a significant difference. Policing and increased use of speed cameras would be a good deterrent and less invasive solution.

Q11. Lowering speed limits will help reduce the number of speed-related crashes Strongly Disagree

Q12. Lowering speed limits will reduce traffic noise Disagree

Q13. Lowering speed limits will help reduce traffic pollution Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community Strongly Disagree

Q16. Lowering speed limits will improve liveability in the city by making it safer Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits? Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

We believe this does not deal with the real reasons for accidents i.e. poor driver decisions.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

More policing of the existing driving rules would reduce accidents without impacting on everyone's travel and movement around the city and district.

Āe | Yes

Q6. **Why?**

Only before and after start finish times. Safety for unsupervised children, traffic congestion. The streets in town are not the same, usually travel slower anyway because of lights...but ridiculous to have to drive slow evenings etc.

Q7. **Pātai tuarua (Question 2)**He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?Having a 30km/h speed limit in the CBDClick Here to enlarge map

Strongly Disagree

Q8. He aha ai?Why?

Only in the centre of town...not outskirts. There is no need ...it just adds unnecessary frustration and delays.

Q9. Pātai tuatoru (Question 3)He pēhea te kaha o tō whakaae rānei whakahē rānei ki ēnei e whai ake nei?How much do you agree or disagree with the following?An 80km/h and 60km/h mix for rural roads (currently 100km/h, 80km/h, 60km/h). This does not include state highways.Click Here to enlarge map

Agree

Q10. He aha ai?Why?

Not all rural roads are safe for 100km.

Q11. Lowering speed limits will help reduce the number of speed-related crashes

Disagree

Q12. Lowering speed limits will reduce traffic noise

Strongly Disagree

Q13. Lowering speed limits will help reduce traffic pollution

Strongly Disagree

Q14. Lowering speed limits will encourage more walking and cycling for transport

Strongly Disagree

Q15. Lowering speed limits will improve health and wellbeing of the community

Strongly Disagree

Strongly Disagree

Q17. Pātai tuawhā (Question 4)Kei te whakaae koe i te Mahere Hukihuki Whakaere Tere Waka me te hiahia ki te whakarerekē i te pae tere?Do you support the draft Speed Management Plan to change speed limits?

Kao - No

Q18. He aha ai?Why?

not answered

Q19. He aha ai?Why?

not answered

Q20. He aha ai?Why?

It is not your business to tell people what mode of transport to use. It is not at all possible for many people...,myself included...to use any mode of public transport for work or personal. Shows you know nothing about your community, you are only focused on a small number of people. Noone uses the bike lanes now.

Q21. He kōrero anō wāu?Is there anything further you would like to comment on?

I'm all for cycle lanes in the right place.. Survey the cyclists who don't use them. Spend money on decent signage for entering school zones...not just leaving school zones. Reducing speeds out of the cbd is just going to add frustration and congestion.
