

Want to make your home healthier?

Get free independent advice from Sustainability Options, which has teamed up with Rotorua Lakes Council.

They have set up a home performance advisory service to help Rotorua residents create warmer, drier homes that are cheaper to run.

For more information call Sustainability Options on: **022 497 2529** otherwise email: **service@so.org.nz**

*Helping create healthy homes,
one home at a time*

How will Sustainability Options help Rotorua residents?

- Sustainability Options will visit your home and provide you with free independent advice that helps make your home healthier, warmer and cheaper to run.
- The service is available for tenants, home owners and landlords.

What types of things will Sustainability Options want to look at in my home?

- The most common thing Sustainability Options Home Performance Advisors will look at is how and where you use power such as heating or lighting.
- The type of insulation in your home.
- How well your windows and doors keep out the cold, rain and/ or breeze.

• Is the advice really free?

- Yes it is free.
- Sustainability Options is conscious of the social pressures and barriers some families face in creating a healthy warm home and made the leap to offer its knowledge to help families - one home at a time.

How can I apply for a home assessment?

- Visit Sustainability Options website sustainabilityoptions.org.nz and fill out a free assessment form.
- Otherwise, contact Rotorua Lakes Council on **07 348 4199**.
