Fund Ex Energy Events				
Centre	(3,000)	-	-	-
Loans	13,831	36,841	20,154	51,205
Total Funding for Capital	44,452	63,800	56,059	76,573

#### Lake Water Quality Initiatives

Council is continuing with the programme of constructing sewerage schemes for lakeside communities to help improve the water quality of the district's lakes. Funding has been secured which will ensure that schemes will go ahead.

The Hinemoa Point scheme will be completed early in 2008/09, and work will continue on the Brunswick Park/Rotokawa wastewater scheme. Also there will be an extension of the eastern trunk line linking the new schemes in the eastern area back to Council's wastewater treatment plant.

#### Rotorua International Airport

Council is continuing with the process to establish trans
Tasman flight capability at the Rotorua Airport, with the target
to complete by the middle of 2009. Council is also
investigating alternative funding sources for this work.

To date the designation change to the District plan to allow the expansion of the runway has been approved. Expansion to both the terminal building and the carpark has been completed. Also extension to the northern end of the runway has been done.

The work programmed for 2008/09 includes:

 Earthworks for extending the southern end of the runway, which will add a further 342 metres to the runway.

- Continuation of purchasing and soundproofing of selected properties affected by the extension to the runway
- · Strengthening work to existing runway

Once this project has been completed it will be a significant asset for the district. It will allow residents to have hassle free trans Tasman flights and also permit tourists to fly directly into Rotorua from Australia which it is anticipated will increase tourist numbers and the length of time that they stay in Rotorua.

# Variances to Council's Ten Year Plan for 2008/09

Overall Council is budgeting for a further \$.5 million of revenue when compared to what was in the Ten Year Plan for 2008/09. This is a result of slightly more subsidies for lakes sewerage schemes.

Operating expenditure is increased by \$1.6 million when compared to the budget in the Ten Year Plan for 2008/09.

The reasons for this include:

- Increase in staff costs mainly to ensure legislative compliance and events
- Increased landfill costs
- Increase in street cleaning contract
- · Increase in rubbish collection area

The total capital expenditure is increased by \$17.9 million mostly because of increased costs for airport development. There is also additional capital expenditure included for Civic building alterations to provide a customer service center, water reticulation improvements, and road widening.

## Preparation of Council's next Ten Year Plan 2009-2019

Council will be preparing and consulting on its next Ten Year Plan 2009-2019 during 2008/09. As part of this process Council will be reviewing the community outcomes to ensure that these are still what the community sees as being important. Also Council will be reviewing its levels of service, particularly where the community has previously identified that a change in the level of service is wanted. Finally, as part of this process the plan, including indicative costs and significant Council policies, will be consulted with residents. The Ten Year Plan will then be adopted by Council before 30 June 2009.

# Arawa/Tutanekai Streets Intersection Safety Project

Arawa/Tutanekai Street intersection has long had an unacceptable crash rate and again highlighted in the most recent LTNZ publication on sites with a high crash rate. It has been reported to Council a number of times, most recently in August 2002 following comprehensive analysis of options for improvements and on-site trials. Nothing has really changed in that time, with the crash rate remaining at the same level. Council is going to extend the median strip in Arawa Street preventing right turning into or out of Tutanekai Street and straight through traffic in Tutanekai Street to mitigate the crash rate.

# Changes to draft Annual Plan following consideration of submissions

The following changes have been incorporated into the Annual Plan following the deliberations by the Finance committee on the submissions made to Council's draft Annual Plan:

- Inclusion of staff submission for carry forwards and corrections. Net change +\$4,703,160
- Traffic calming measures at Meadowbank and Bellingham Crescents +\$50,000
- Playground Equipment at Fordlands +\$20,000
- Youth Centre Acquisition (Net) +\$500,000
- Haumoana Reserve fence +\$5,000
- Mamaku Domain Upgrade +\$20,000
- 10% reduction in urban water targeted rate (offset by increased borrowing)
- 10% reduction in urban wastewater targeted rate (offset by increased borrowing)
- Reduced grants for Rotorua Airport (from Environment BOP and other) \$18.6 million

## THE PLANNING PROCESS

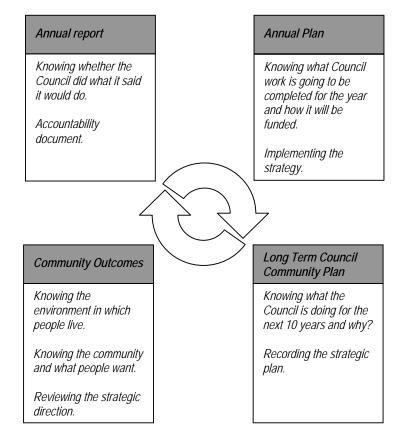

Council's Ten Year Plan details activities and related financial information for a ten year period and is reviewed and updated every three years. In the intervening years when the Ten Year Plan is not reviewed, Council produces a separate Annual Plan with the purpose of:

- Supporting the Long Term Council Community Plan (LTCCP) in providing integrated decision-making and co-ordination of the resources of the local authority.
- Identifying any variances from the funding and financial information in the LTCCP for that year.
- Extending the opportunity for public participation in decision-making processes relating to costs and funding.
- Contributing to the Council's accountability to its community.
- Detailing the annual budget and funding impact statement.

If there are significant changes from the Ten Year Plan, or changes of a particular type, it may be necessary to amend the Ten Year Plan as well as produce an Annual Plan. Such changes could include decisions to:

- significantly alter service levels of significant activities
- transfer ownership or control of strategic assets
- construct, replace or abandon strategic assets; or
- that would have a significant direct or indirect impact on either the capacity of a local authority to deliver on an activity or on the cost of undertaking that activity.

This year, Council is proposing several amendments to its Ten Year Plan. These amendments will be consulted on at the same time as the Annual Plan

## CAPITAL WORKS PROGRAMME - RURAL

# INDICATIVE RATES FOR REPRESENTATIVE PROPERTIES

This schedule provides a representative selection of examples of rates movements by the different rating groups. The comparison shown is between the rates set in 2007/2008 and the proposed rates for 2008/2009.

Note: This schedule does not include: a) rates for the capital costs of new sewerage schemes; b) rates for metered water; c) Environment Bay of Plenty rates.

This schedule uses set values of services to get a direct year to year comparison.
