

#### THE ROTORUA DISTRICT

#### Te Rohe o Rotorua

Rotorua District lies within the Bay of Plenty and Waikato Regional Council areas. According to oral history, many of Rotorua's Maori residents trace their ancestry to Tamatekapua, the captain of the Arawa canoe that arrived in New Zealand from the fabled homeland of *Hawaiki* more than six centuries ago. The Arawa canoe was beached at Maketu on the Bay of Plenty coast where the new arrivals settled down to live.

They had been at Maketu for some time when an ancestor called Kahumatamomoe journeyed inland to explore. He discovered what is now known as Lake Rotorua, and settled at what is now Kawaha Point.

The total size of the Rotorua district is 261,906 hectares. This consists of 41% forest, 43% agriculture and 8% lakes.

Rotorua's central business district (CBD) is located on the southern shore of Lake Rotorua. The city is nestled in a huge, ancient caldera 20km across at its widest point and 16km at the narrowest, with Lake Rotorua nearly 300 metres above sea level.

#### The region includes:

- 16 natural lakes over 8 hectares and 2 man-made lakes
- 800 hectares of parks, gardens and reserves for free public use
- 3 major rivers
- 7 geothermal fields with hot pools and spectacular steam eruptions
- 100,000 hectares of native and exotic forests with the largest commercial plantation forest in the Southern Hemisphere
- 100,000 hectares of farmland
- 120 wetlands
- Stunning volcanic landscapes with Mt Tarawera, Rainbow Mountain, Mt Ngongotaha and Mokoia Island as local icons
- Hundreds of kilometres of walking, cycling and mountain biking tracks.

The forests, coupled with extensive trees and gardens in the city, suburbs and parks, support a rich and varied bird life, both native and introduced. Some of New Zealand's rarer birds, such as the formerly endangered kokako and the spectacular native falcon, karearea, thrive in the district.

### Message from the Mayor

#### Tena koutou katoa

On 30 October, following local government elections on 12 October, I took the oath of office as mayor of Rotorua, alongside our 12 councillors. Earlier I had campaigned on a platform of change and I was therefore delighted to be given such a strong mandate through the election result. So from Day One, change became the order of the day for the new council.

A key focus of our first few months in office was development of a bold new vision for our district. The outcome of a major community engagement programme was the Rotorua 2030 vision and goals, including identification of a number of key priorities that we are committed to achieving during this term. These are not the council's goals alone; they also belong to the whole Rotorua community. They include some very ambitious aims which will only be progressed through creative and genuine partnerships.

While the chief executive set out to realign the organisation's operational structure, elected members revised the political structure so that we were also equipped to meet the challenges set in our Rotorua 2030 vision. This resulted in a new deputy mayor, new committee structure with new chairs and deputies, and the appointment of councillors as portfolio leads for seven key strategies to be developed.

We also made a commitment to do things differently. This included a pledge of community engagement, supporting community leadership, a new partnership with Te Arawa, working outside traditional delivery mechanisms, aligning all programmes with the district's ambitions, and reshaping the council to be more effective and responsive.

So, four vital principles have become hallmarks of this new council, and of the work we are now doing.

They are 'change,' 'engagement,' 'openness' and 'partnerships.'

Soon after the elections, the chief executive alerted us to his concerns about the unsustainable financial situation the council was in. It was clear that if we did not make wholesale changes to our current work plan, to our future commitments and to the growing level of debt, the council would find itself in a dire situation in the not too distant future. I am therefore proud of the hard decisions which elected members took to improve that potential outcome, and of the huge effort by management and staff, to turn things around.

While this report does not present the most ideal financial outcome, it does reflect a much more satisfactory result at the end of the 2013/14 year than would otherwise have been the case. But we can do better, and we will.

I take this opportunity to extend thanks to my council colleagues for agreeing to work alongside me at a fast pace and in a very different way than in the past. I thank them for their understanding, their commitment and their dedication, and for addressing the challenges we have faced together.

I also express my appreciation to chief Executive Geoff Williams and his team for their extraordinary achievement in reshaping this organisation to align with our bold new vision and the ambitious goals we have set in partnership with our community.

And finally I extend gratitude to the people of Rotorua for accepting my challenge to join forces with us for our district, and for coming on board to ensure that together we create a positive future for our district and for future generations.

Tatau tatau – we together

Hon Steve Chadwick JP Mayor

### Message from the Chief Executive

Kia ora

The 2013/14 year was my first as chief executive of Rotorua District Council, having taken up the position on 1 July 2013 - the first day of the 12 months period covered by this annual report.

The annual report details the overall performance of Rotorua District Council for the 2013/14 year, from 1 July 2013 to 30 June 2014. The report is a requirement under existing legislation and has been independently audited by the Office of the Auditor-General. It represents Year Two of the council's Long-term Plan 2012-2022, a plan which is scheduled for review in the coming year.

The annual report covers how well the council has performed over a range of specified activities. It reports on actual results against targets set, following consultation with the community, in the 2013/14 Annual Plan.

In the second quarter of the year, local authority elections were held. This resulted in the election of a new mayor, three new councillors and nine returned councillors, along with four members elected to the Rotorua Lakes Community Board.

In broad terms the council has continued to provide Rotorua residents with the services expected, and at generally high levels of quality. This view was reinforced by the results of an independent survey of residents' perceptions about the council, revealing high approval ratings for most council services.

However, within a relatively short time of assuming my chief executive role, it became increasingly evident that the council would need to substantially change the way it operated in the future. Of major concern was that the then standard of financial management was not meeting the organisation's needs and the financial path that had been set was unsustainable. The early employment of a chief financial officer, new finance manager and improved financial reporting systems became priorities, as was work on developing a new financial framework.

Elected in October 2013, the new mayor and council accepted recommendations to immediately constrain expenditure across the organisation, including some hard decisions to put on hold a number of previously committed capital expenditure programmes. A concerted effort by elected members and staff meant that by the end of the year, the deteriorating financial performance had been substantially corrected, and a more acceptable financial outcome achieved than would otherwise have been possible. The details of those financial results are set out in this report.

The progressive Rotorua 2030 vision for the district, set by the mayor and councillors in partnership with the community, meant a major restructuring of the organisation was essential if we were to meet the council's ambitious goals. That realignment programme has resulted in the largest organisational change in the council's history - not without some pain and upheaval for many staff members. However I am particularly proud of the way the people in this organisation have risen to the occasion and got behind the critical realignment of the organisation. By the end of the 2013/14 year the new structure was largely in place and I can now say with a high degree of confidence that we are well-positioned to meet the demanding programme the council and community have set for us in the years ahead.

I extend my thanks to the outgoing mayor Kevin Winters and councillors, and to his successor Mayor Steve Chadwick and elected members, to committee and sub-committee members and our staff. All have worked extremely hard to deliver services, projects and programmes for our community over the last 12 months.

Ma te mahi tahi ka tutuki – working together we will succeed.

Geoff Williams
Chief Executive

### 2013/14 major highlights and achievements

#### **Elections 2013**

Held in early October 2013, election results reflected a strong call for real change from our community, resulting in a new mayor and three new councillors.

Mayor Steve Chadwick is Rotorua's first female mayor and was joined by the youngest councillor to date on council, Tania Tapsell.

Within days of taking office the mayor, councillors and management gathered together in workshops to look at the issues Rotorua faced and to start crafting a new direction to address those issues. Out of this work a new vision and goals for Rotorua district were developed.

#### Rotorua 2030

Rotorua 2030 is the framework Council has developed in response to the community's expectations of real direction and change. The goals of Rotorua 2030 are:

- 1. A resilient community . . . He hāpori pūmanawa Inclusive, liveable and safe neighbourhoods give us a sense of place; and confidence to be involved and connected.
- 2. Homes that match needs . . . Kāinga noho kainga haumaru

Quality, affordable homes are safe and warm, and available to meet everyone's needs

- 3. Outstanding places to play ... Papa whakatipu Recreation opportunities are part of our lifestyle; connecting us, transporting us and surrounding us.
- **4. Vibrant city heart . . . Waahi pūmanawa**Our inviting and thriving inner city reflects our unique heritage and lakeside location
- 5. Business innovation and prosperity . . Whakawhanake pākihi

We boast a diverse and sustainable economy energised by our natural resources and innovative neonle

- **6. Employment choices . . . He huarahi hōu**We are a prosperous connected community; growing our education, training and employment opportunities.
- 7. Enhanced environment . . . Tiakana to taiao
  We are known globally for our clean, natural
  environment, air quality and healthy lakes

Along with the seven goals, four priority areas were established to focus the council on delivery of Rotorua 2030. A number of achievements have already been made to date on those priorities:

### 1. Develop a vibrant city heart that attracts people and activity

The Inner City Focus Group, retailers, landlords and councillors came together to discuss Stage One of the plan to revitalise the inner city. Council committed to replanting gardens in the CBD; and to work with the Inner City Focus Group on Stage Two of the activity plan for 2014.

In December Rotorua's new inner city parking regime came into effect, providing free parking in the inner city for a maximum period of two hours.

Work commenced on the Eruera and Tutanekai Streets intersection. This included a large wooden sculpture of a tui, carved by local artist Trevor Nathan, installed on the State Insurance corner.

# 2. Develop our economic base by growing existing and attracting new business to our region

In December Rotorua District Council became the first local authority in the country to scrap development contributions in their existing form.

In January changes were made to the council's procurement processes which will give local businesses more opportunity to tender for council business.

A delegation headed to Beppu, Rotorua's Japanese sister city in April, to join commemorations marking Beppu's 90<sup>th</sup> anniversary of city status, and the 100<sup>th</sup> anniversary of the city's famous hot springs festival. The visit was also an opportunity to meet with business people involved in geothermal attractions and hot springs, in line with the council's plan to position itself as the spa capital of the South Pacific.

### 2013/14 major highlights and achievements

### 3. Support reinvigorated neighbourhoods and the creation of healthy homes

In March Treasure Rotorua and steering group partners (Rotorua District Council, ACC, NZ Fire Service, Police, Neighbourhood Support, Civil Defence and Age Concern) begin *Te Pou Kapua o Te Koutu – Safe as Houses* project. Up to 500 households in Koutu were visited and offered free advice about reducing accidents in the home, installing safety devices and crime prevention.

Rotorua District Council and the Fordlands community joined forces to revitalise the neighbourhood. A leading edge 'eco village' prototype and community gardens that bring both food and colour to Fordlands were among ideas generated by residents at a meeting at Sunset Primary School on 26 March.

#### 5 June 2014

In June more than 70 trees were planted at Rotorua's Koutu Youth Space at Karenga Park as part of Rotorua District Council's contribution to Arbor Day.

### 4. Sustainable infrastructure and affordable, effective council services

In December the council was updated on the financial position and adopted a new financial strategy.

The council agreed to defer a number of scheduled projects as part of immediate action to reduce debt levels. The deferred projects had a total value of approximately \$5.4 million.

In May Council welcomed findings of an independent review of past financial disclosures. The review investigated the adequacy of past financial disclosures to elected members, and those made public during long-term plan and annual plan processes.

An announcement was made that Council would proceed with its TERAX project to construct a new high-tech plant for processing bio-solid sludge from the city's wastewater treatment plant, using TERAX technology developed by scientists from crown research institute Scion.

In June Rotorua District Council and CNI Holdings signed an agreement which will see an end to the spraying of treated wastewater in Whakarewarewa Forest by the end of 2019.

### Financial summary

#### Statement of comprehensive income (Council)

The financial summary above is presented in an alternative format that differs from the statement of financial position on page 128.

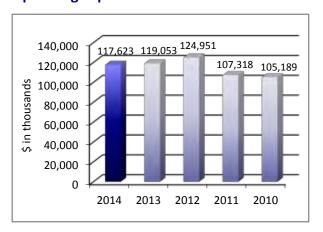

Council continued to manage its operations in a fiscally responsible manner.

### Financial summary

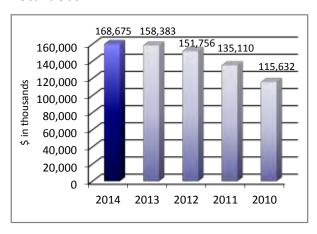

#### **Revenue mix**

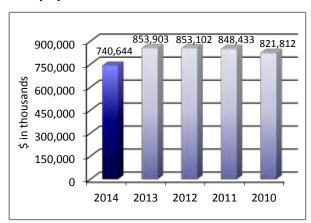

#### **Operating expenditure**

#### **Total debt**

#### Ratepayers' accumulated funds

### **Employment report**

#### **Employment relations**

The Northern Amalgamated Workers Union and FIRST Union represent our wage worker employees in terms of coverage clauses of the respective collective agreements whilst salaried staff are represented by the Public Service Association.

24.61% of salaried staff and 74.71% of waged staff are union members and therefore employed under the respective negotiated collective agreement terms and conditions, while 59.71% are employed on individual agreements.

#### Staff turnover

The overall staff turnover for the year ending 30 June 2014 was 14.46%, including both waged and salaried staff, but excluding fixed term and casual employees and those who were dismissed or made redundant.

The average national trend for turnover over this period was 12%.

#### Recruitment

During the year 139 (full time and part time) vacancies were advertised with 96 of these vacancies being a result of the council-wide reorganisation programme which was completed after 30 June 2014.

Of the remaining 43 vacancies, there were 36 new starts which included 28 external appointments, 10 internal transfers/promotions, and five vacancies/positions were not filled.

Eighty-eight staff left Council during this year which included a number of redundancies due to reorganisation of Council. Exit interviews highlighted various reasons including relocation, retirement, overseas travel, further education, family commitments.

These figures do not include casual and fixed term recruitment.

Council's recruitment practices aim to employ people who can be inspiring, helpful, innovative, respectful, engaging and who will provide quality services to our community.

## **Employee Assistance Programme (EAP) support service**

Council's EAP service provides external professional support to assist employees with a broad range of issues which may impact on their work performance, health and well-being. This support system is generally provided over a short-term period. The counselling service remains confidential to protect employees.

#### **Health and safety**

Rotorua District Council continues to provide a safe and healthy workplace. This is reflected in our ACC tertiary level accreditation rating for workplace safety management practices and our bronze accreditation status for workplace wellness under the WorkWell programme.

Our commitment to health and safety is demonstrated in the reduction of work-related injuries and lost-time injuries in the year ended June 2014:

- There was a 9% reduction in the number of work related injuries (115 work-related injuries, compared to 126 in the previous financial year).
- Our most significant improvement in this financial year was a large reduction in lost time injuries (any injury or illness that results in a worker losing at least one full day of work), a decrease of 81% (from 42 in the last financial year to 8 this year).

Staff continue to actively participate in health and safety matters, with operational health and safety committees and a steering committee functioning across Council.

Free flu vaccinations were also offered this year and 210 staff took advantage of this.

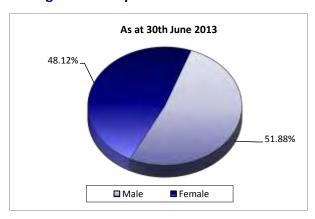

#### **Training and development**

Training and development needs for staff are identified from the annual performance review process or through Council initiatives. Human Resources arrange training with internal and external providers to meet those training needs.

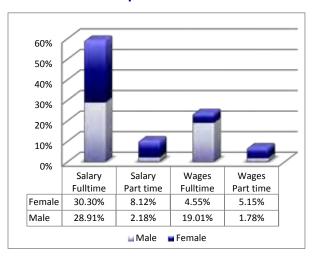

During this period 680 internal and external training courses, seminars, conferences, forums and tertiary development events were attended by staff. All training attended was specifically job related or was required for legal compliance.

### **Employment report**

#### 2014 gender composition

#### 2014 fulltime and part time status

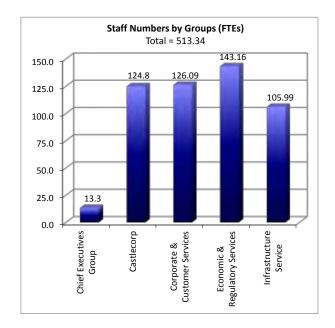

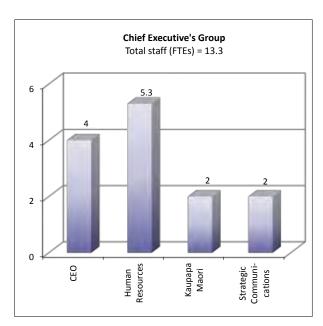

#### **Staff Numbers**

The following graphs show staff numbers by Group and by Department. The drop within groups was due to initial restructuring. While Council was moving towards an organisational review the majority of vacancies were not advertised until the outcome of review was known.

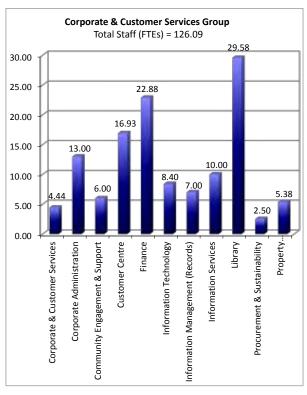

Staff numbers represent fulltime equivalents (FTEs).

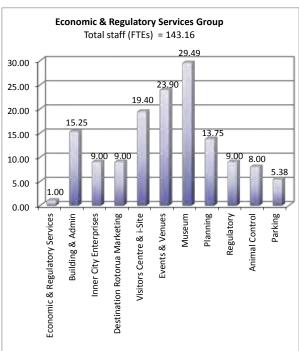

The FTE count includes all permanent, part-time and fixed-term employees. This includes an amount for casual employees and is calculated on the expected standard hours required of the casual workforce during a given year.

### Māori participation in decision making

#### Introduction

Council has a long standing history of working closely with Te Arawa and its hapū as the Confederated Iwi of Rotorua district. A number of mechanisms have been developed for consultation, engagement and communication purposes, and to involve Māori of the district in council decision-making processes. They will continue to be developed and reviewed to ensure their effectiveness.

These mechanisms provide a broad range of services on matters to do with Te Arawa, to ensure Te Arawa are able to participate in decision-making processes. The LGA has a number of references to Māori and the Treaty of Waitangi (Section 4 Part 1), Parts 2, 6 and schedule 10 clause 5 and Schedule 11.

The Resource Management Act (RMA) 1991 and the LGA 2002 are both specific in how local authorities must consult and include Māori and tangata whenua in decision making processes.

The following Māori groups within council provide opportunities for greater involvement by Māori in council's decision-making processes.

#### **Te Arawa Partnerships Model**

On Tuesday 8 October 2013 a formal workshop was held by the Te Arawa Standing Committee (TASC) to review the Committee's 'Terms of Reference'. The Committee's action plan as a result of the workshop was to delay elections and to focus on a future model for Te Arawa representation in the Rotorua District Council.

An informal workshop was held on Monday 11 November 2013 to further discuss the action plan from the October workshop. The resolutions passed were for the TASC Iwi members (now referred to as the Te Arawa Partnership iwi members) to set a date in February for the Te Arawa to meet to form a collective body and vision in forming an enduring partnership/relationship with Council.

On 24 January 2014 the Te Arawa Partnership Iwi members and Council's Kaupapa Māori unit called a hui with Te Arawa stakeholders with the aim of seeking their support and feedback on the current review plan.

The recommendations from the Stakeholder hui were:

- That all Te Arawa Stakeholders present supported the review process;
- 2. That a comprehensive review occurs; and

3. That plans and recommendations are drafted and taken out to the lwi.

Concurrently to the review of the TASC, Council engaged Mr Tama Hovell, Solicitor of Atkins Holmes Majurey to undertake a Cultural Engagement Audit of Council's engagement with Iwi/Māori as a result of the Rotoiti/Rotoma sewerage scheme Environment Court decision. Given that the development of a Partnership Model with Te Arawa would be a positive step going forward in regards to Council's engagement with Iwi/Māori Mr Hovell was asked to postpone the Audit and to start drafting model options for a Te Arawa Partnership Model that would enable an enduring, good faith and genuine partnership with Council.

This model is still currently being developed and the Te Arawa Partnership Iwi members are in the process of engaging with Te Arawa to seek endorsement of a final model. Once this model has been endorsed by Te Arawa it will then be presented to Council for adoption with the aim of being operational in 2015.

If the model is adopted it will create an opportunity for Iwi/Māori to have an active role in the decision making process of Council.

### Te Pukenga Koeke o te Whare Taonga o Te Arawa

Te Arawa Kaumatua contribute to decision-making processes pertaining to care and protection of Te Arawa taonga within the Rotorua Museum. The committee met periodically during the year to give guidance on the management of Te Arawa taonga.

Te Pukenga Koeke have been working steadily towards the goals of repatriating Te Arawa taonga from other Museums. To date a number of repatriations from the Auckland Museum have been successful. These taonga feature predominately in the Don Stafford Wing of the Museum opened to the public on 2 September 2011. They were also involved in the relocation of Pukaki from the Civic Centre to Rotorua Museum.

#### **Ngati Whakaue Gifted Reserves Protocol**

This is an agreement between the Rotorua District Council and Pukeroa Oruawhata Trust on behalf of the original owners of the Pukeroa Oruawhata Block (known as the City of Rotorua) and their descendants. Council gives effect to the protocol through consultation when there is a significant or important decision to change status of any affected reserve.

### Māori participation in decision making

#### **Iwi Consultative Committee**

The lwi Consultative Group meets on a regular basis to assess resource consent applications and advise council on section 6(e) of the Resource Management Act 1991, and to provide relevant tangata whenua contacts for consent matters.

#### **Kauae Cemetery Committee**

Kauae Cemetery Committee trustees meet twice a year to work through operations, policies and procedures, including provisions for the burial of descendants of Ngāti Whakaue and the general public. The Kauae Cemetery Committee consists of members from council and Ngāti Whakaue. They are appointed by the Māori Land Court.

#### Pūkāki ki Rotorua Charitable Trust

The Trust meets to ensure the safe-keeping, conservation and maintenance of Pukaki. In 2011 Pukaki was moved to Te Whare Taonga o Te Arawa – Rotorua Museum.

#### **Waka Taua Trust**

The main function of this trust is to ensure that Te Arawa Waka Taua and the shelter that houses the waka are both well maintained. The trust is administered by the Te Arawa Lakes Trust. The members of the trust are representatives of Te Arawa and the Rotorua District Council.

#### Council's Kaupapa Māori Department

This department maintains council relationships with tangata whenua and Māori as well as strengthening the organisation's ability to effectively engage with Māori through training in tikanga and te reo.

The department provides whanau, hapu, iwi and marae contacts and consultation advice to various council departments. The department has also produced resources such as 'Whare Korero', a pocket booklet for staff, councillors and the public. The booklet is a guide to Māori protocol, rituals and basic Māori language and pronunciation. The aim of the booklet is to provide an easy-to-use guide for Māori rituals, structures (marae) practices and language that council and members of the public may encounter in Rotorua.

The Kaupapa Māori department is involved in various projects including Memorandum of Understanding development with various Te Arawa iwi, District Plan Review, central business district revitalisation, Rotorua Eastern Arterial route, te reo training for staff and councillors, ongoing support to the Te Arawa Standing Committee.

Another significant role of the Kaupapa Māori department is building relationships and sharing information with private and public agencies, iwi and other councils that work with iwi and Māori in their regions and/or districts.

This Kaupapa Māori Unit also provides a broad and specific range of services, both internally and externally, on matters to do with Te Arawa/Māori and other local government responsibilities to ensure Te Arawa/Māori are able to participate in the decision-making processes aligning to the Local Government Act 2002 (LGA). The LGA has a number of references to Māori and the Treaty of Waitangi (Section 4 Part 1), Parts 2, 6 and Schedule 10 clauses 5 and Schedule 11. The Resource Management Act 1992 (RMA) and the LGA are both specific in how local authorities must consult and include Māori and tangata whenua in decision-making processes.

It is important that Council staff and elected members are provided with contacts, resources, protocols and methods to consult and communicate appropriately with tangata whenua (Te Arawa and their many hapu) and Māori.

# Mana Whenua Funding Policy (Iwi Management Plans)

In 2005/06 council reviewed its support of iwi management plans and developed a new Mana Whenua funding policy with objectives aimed at supporting the intent of section 81 of the Local Government Act 2002, and promoting resource management objectives. This policy was launched in October 2007.

The overall aim of the policy is to stimulate and encourage sustainable development of unoccupied Māori land in the district. The intent is to investigate viable strategies; build capacity of Māori land owners and develop joint projects that will benefit owners and the wider community. Recipients of the fund are Māori Ahu Whenua land trusts in the district, however Māori land reservations or marae undertaking projects that will improve water quality may also be eligible.

### Māori participation in decision making

#### **Rotorua Te Arawa Lakes Strategy Group**

This joint committee, with representatives from Bay of Plenty Regional Council, Te Arawa Lakes Trust and Rotorua District Council, meet regularly to ensure a proactive strategic approach to coordinating lakes quality improvement in the district. This structure has been enshrined in legislation as part of the Te Arawa Rotorua Lakes Settlement.

#### Lakes Restoration and Rehabilitation Programme

This programme was established for both the strategic and operational delivery of action to enhance fresh water sustainability of Rotorua lakes and has iwi representatives. A number of action plans for specific lakes have been developed with contributions from a range of stakeholders including iwi.

#### **Tuhourangi Memorandum of Understanding**

In April 2005, council signed a memorandum of understanding (MOU) with Tuhourangi. The founding statements of the memorandum include: "Council also wishes to establish and maintain processes to provide the opportunity for Tuhourangi to contribute to the decision-making of the council".

Tuhourangi meetings with council have included the following projects: Tarawera and Okareka Landscape Assessment; proposed Crater Lake Park Development update; traffic and parking management plan for Punaromia, Tarawera Landing; Lake Tarawera boat trailer parking; Whakarewarewa Forest Vision and Tarawera Trail.

## Te Arawa Lakes Trust and Rotorua District Council Memorandum of Understanding

On 18 December 2009 a protocol between the Rotorua District Council and the Te Arawa Lakes Trust was signed. The purpose is to ensure that engagement and communication between the organisations is effective, that respect for both organisation's roles and responsibilities is upheld, and that the cultural and spiritual relationship Te Arawa has with the 16 lakes and lake beds in Rotorua is recognised.

#### Ngāti Rangiwewehi, Ngāti Rangiteaorere, Tapuika (Nga Tokotoru) – MOU

2010 saw the development and completion of three new MOU between RDC and Nga Tokotoru. The purpose of these MOUs is to build relationships and to forge new partnerships with respective iwi and hapu.

#### Other Memoranda of Understanding

Other MOUs are being developed between Rotorua District Council and hapu of Te Arawa.

#### **Whare Korero**

This handbook guides staff in gaining a basic understanding of Māori rituals, protocol and etiquette. The pocket booklet includes Māori language and pronunciations, a guide to rituals or marae etiquette, names and contact addresses of marae, formal and informal greetings, waiata, chants and karakia.

### Council objectives

A strategic framework called 'Bright Future Rotorua - Community Outcomes' originally provided an overarching set of strategic goals that council and other organisations used to guide service delivery and resource allocation. The community outcomes were a focal point for promoting closer working relationships to ensure resources are used effectively and in a coordinated manner.

Amendments made to the Local Government Act in 2010 have changed the focus of community outcomes. They are now seen as statements of what councils want to achieve – the council's high level objectives. Freedom has been given to councils to decide how best to structure these outcomes and how to monitor and report on them.

During the 2011/12 year, while preparing the Longterm Plan 2012-2022, Council decided that their objectives were well-reflected in the existing community outcomes framework. This framework was developed with extensive community input and the key priorities of the community have been tested over the last six years. With this in mind Council focused on re-defining its role, with minor changes, to better reflect increased emphasis on aligning the goals of its services to the strategic long term goals of council. Through this the community outcomes become the council objectives.

The council's eight outcomes are linked by 'visionary community leadership', with each considered of equal importance. Together these objectives provide the basis for what the council wants to achieve for a bright future and a successful Rotorua. The updated council objectives are shown in the diagram below.

### Council objectives

#### Visionary community leadership

Overarching these community outcomes is a desire by council to exercise visionary, inclusive leadership, supported and fostered within Rotorua communities Ko te tūāpapa e whakamaru ana i nga whāinga ā hāpori he ākina na te kaunihera ki te whakamahi i ana tirohanga whakamua, tōna rangatiratanga, mā nga hāpori o Rotorua e tautoko e kōkiri

- Rotorua communities have a clear vision for sustainable development, prosperity and wellbeing.
- Communities are informed and engaged in planning and developing the district's future.
- Organisations and communities work together at all levels to achieve shared outcome.
- Maori are respected as partners in decision-making and have a voice in issues affecting the district.

#### Safe and caring

A community in which our families and whanau feel safe, strong and supported

He hāpori e haumaru ana e tautoko nuitia ana i ngā whānau

- Safe homes and streets
- Fewer road accidents
- Organisations working together on agreed priorities
- Providing safe public spaces
- Families and whanau work, play and talk together

- Strong sense of community spirit
- Respect for cultural diversity/strengthening relationships between all cultures
- Support for new New Zealanders to become part of the Rotorua community
- Support for young people and older people

#### **Prosperous economy**

A district with a reputation as an attractive place to live, work and play, with desirable living and skills standards, and sustainable economic growth He rohe e rongo nuitia ana mo te noho mo te mahi me te tākaro, he pai kē atu nga āhuatanga e paana ki te ōranga, te noho me te toko ake i te taha whai hua

- Encouraging private enterprise
- Enhancing tourism as an iconic sector of Rotorua's economy
- Encouraging development of Mâori land and resources
- Reducing unemployment rate

- More investment in our district
- More employment opportunities
- More new business
- Celebrating and promoting our district's unique qualities
- Encouraging growth
- An attractive and lively city centre
- Sustainable development
- Geothermal resources

#### **Excellent facilities and services**

A well planned district that is easy to get around, has essential services available to everyone, and offers accessible quality facilities that promote vibrancy. He mārama te haerere haere i roto i te rohe, he rātonga me nga rātonga whare e wātea ana ki te katoa

- Easy to get from place to place
- Good, safe, maintained services and facilities

- Provision of good quality event, conference and tourism facilities
- Good quality infrastructure for future
- Excellent reliable communication infrastructure
- A great trans-Tasman airport

### Council objectives

#### **Environment**

A district where we value our environs, understand and respect our lakes, streams, forests and geothermal resources, and where the community is committed to protecting, monitoring and improving the natural environment.

He rohe e ngākau nuitia ana ki tōna taiao, te tiaki i nga roto, nga awa, nga ngāhere me nga puna ngāwha, ko tā te hāpori he whakaihi i nga ahuatanga o tiaki i te taiao

- Looking after our air, land and water resources
- Improved lake water quality
- Beautiful, litter-free urban environments
- Waste reduction, re-use and recycling

- Kaitiakitanga (guardianship)
- People using and enjoying our natural environment
- Historical sites and buildings are protected and promoted
- Managing and protecting geothermal resources and our springs, trout, lakes, forests, geysers
- Encouraging sustainable modes of transport

#### Living Maori culture

A district where the history of Te Arawa in the district and the value of Maori culture is recognised and fostered.

He rohe tēnei e whakanuia ana e tiaki ana e pupuri ana i nga kōrero o nehe rā e paana ki a Te Arawa

- Preservation and sustainable development of Maori resources
- Respecting Te Arawa as part of the unique heritage of Rotorua district
- Celebrating and nurturing traditional Maori culture
- Maori are respected as partners in decision-making and have a voice in issues affecting the District

#### Learning

A district offering opportunities to expand the minds of its community, to explore ideas and to form strong well supported opinions.

He hāpori e tuku ana i ētahi huarahi angitu hei whakarahi ake i te tirohanga o te hāpori me te rangahau i ētahi atu ara hou hei whainga ma te katoa

Learning activities accessible for everyone

#### **Thriving**

An exciting place offering a wide range of activities and events, where diversity is encouraged and creativity inspires.

He waahi e hihiko ana e tuku ana i ētahi matatinitanga me ētahi kaupapa nunui hei haerenga mā te hāpori me te iwi whānui

- Lots of events including sporting, cultural, festivals, arts
- Leading edge activities and events
   Foster artistic expression, art, music, dancing, public performances and
- exhibitions

  Great facilities to visit e.g. museum, arts village, aquatic centre

#### Healthy

A community that is healthy and active, where air and water is of the highest quality, and where parks, reserves, walkways, cycleways and programmes encourage participation in recreational activity at all levels.

He hāpori hauora, hāpori kakama he rawe katoa te hau me nga ara wai. E wātea ana nga papa rēhia, nga whenua rāhui, nga ara hikoi, nga ara paihikara hei waahi tākaro mā te katoa

- Increasing recreational opportunities
- Safe drinking water
- Improved youth health
- Effective responses to developing health issues
- Warm, healthy homes
- Geothermal

#### Overview

The Corporate and Customer Services area underpins Council's democratic processes and provides policy and priorities for strategic direction, advocacy and delivery of services to best meet the community's needs.

Significant emphasis is being placed on a 'whole of council' approach to customer service and continuous improvement.

This area is central to ensuring that Rotorua District Council services are contributing towards the promotion of council objectives and improving social, cultural, economic and environmental wellbeing for the people of the district.

Procurement processes continue to be a key focus enabling council to hold rates over recent years to levels well below CPI. More gains are expected in this area based on greater use of 'whole of government' contracts being made available to Local Government.

This group is made up of the following activities:

- Community Engagement and Support, which includes:
  - Community grants
  - Halls and Community House
  - Policy and Resources
    - Community arts
    - Community safety
    - Youth activities
- District Library
- Emergency Management/Rural Fire
- Governance and Strategic Direction, which includes:
  - Chief Executive Group
  - Corporate planning and support
  - Corporate property
  - Customer Centre
  - Democracy
  - Financial Services
  - Human Resources
  - Information Services
  - Kaupapa Maori
  - Land information services
  - Pensioner housing
  - Procurement and Sustainability
  - Records

#### What we do

This activity covers a range of specific functions, in particular roles that work towards social wellbeing outcomes. The focus areas are:

- Engaging Communities
- Community Assistance
  - Community Asset Development Fund (CADF)
  - Community Grants
  - Creative Communities
  - Community Safety
  - Grants for Services
- Community Halls

#### Why we do it

To foster social and cultural wellbeing, by engaging with communities to help them achieve their objectives, build their capacity, strengthen their identity, and ensure their sustainability.

#### The year's highlights and achievements included:

- Sulphur Lake Sculpture Trail The establishment of a sculpture/leisure trail is deemed to provide significant benefits for locals and tourists alike. Aside from the aesthetic improvements and increased amenity value, a sculpture trail will provide a key connection for the Arts Village to other Government Gardens attractions Rotorua Museum, Blue Baths, Polynesian Spa etc. It represents an opportunity to showcase the talented artists that this district boasts, and to further acknowledge our Gifted Reserves.
- Memorial Bridge The consent process for the sculpture trail also allowed for the installation of a footbridge over the centre of Sulphur Lake as a permanent memorial to our WW1 soldiers. Memorial Bridge was originally a foot-bridge across the Utuhina Stream on the south side of Lake Road for approximately 40 years. Now fitted with new handrails and decking, Memorial Bridge was officially opened by the Mayor on 5 August 2014.
- **CBD Mural and Sculpture** A large mural was painted on the corner Tutanekai and Pukuatua Streets as part of the city revitalisation strategy. Two sculptures by leading local artist Joe Kemp now permanently adorn the same intersection. A large sculpture has been loaned by local carver Trevor Nathan for the Tutanekai and Eruera Streets corner.
- Creative Communities Rotorua The main funding round in November allocated \$28,609 to 19 groups including Cuban Festival, Night Magic, Mahi Toi Exhibition, Rainbow Quilters and the Highland Pipe Band.
- Creative Communities Rotorua For the discretionary round in April; grants were made to 15 organisations and individuals totalling \$29,800. Projects included Stage Challenge, the Welsh Society for a cultural celebration, the Rotorua Arts Village for the Tanabata Day with the Japanese Friendship Group, The Rotorua Youth Centre for a House of Horrors drama organised by young people, and Connected Media for a one day film making workshop.
- Community Crime Prevention Fund In November 2013 a total of \$25,000 was awarded to five successful applicants for the Crime Prevention Fund. Those applicants were Sexual Abuse Centre, Cactus Youth Programme, Safer Families, Neighbourhood Support and Age Concern.
- **'Keen to Get On it' Youth Alcohol Video Competition** –. A video competition for students aged 13-18 years, focussed on raising awareness about the effects of alcohol on people's behaviour. Prize money totalled \$1,900.00.
- **Youth Spaces** Te Koutu Youth Space at Karenga Park was upgraded with the addition of a whanau BBQ area, planting of over 80 fruit trees and native trees, and installation of additional seating.
- Healthy Homes Rotorua Healthy Homes project partnered with WISE Better Homes to retrofit 65 houses in the Rotorua area during 2013/14.
- **Rotorua Safer Families** Funding was secured from The Southern Trust to support the two Rotorua communities of Owhata and Fordlands to create and install billboards promoting safe families messages to be installed in November 2014.
- Rotorua Central Community Centre A new centre for community groups was developed, in conjunction with Council, in Te Ngae Road. Several not for profit groups are now located on-site, including the lead tenant – Rotorua Community Menz Shed.

#### Variance from budget

- Operating: There has been a significant increase in grants received over the long-term Plan and 2013/14 budget, which is offset with an increase in grants paid out. Community House maintenance cost has been transferred to Corporate Property from 2013/14 Annual Plan budget, which was not anticipated in the Long-term Plan.
- Capital expenditure: In 2013/14 Community House/Halls operations were transferred from Community Engagement to Corporate Property. A new Community Art Policy was adopted, which was not identified in the Long-term Plan process. The Art Policy allowed for 1% of the overall capital spend to be used on art projects throughout the community, for example the construction of the sulphur lake bridge, murals on CBD buildings, and the purchase of Kete Ora and Matau a Maui sculptures. Renewal was required on Lucas Place pensioner housing. This included work on the carpark. Dawson Drive pensioner housing required renewal work on the roof.

#### How we performed Achieved Not achieved Not measured **Performance** Target for **Achievement** Level of service **Achievement Comments** measure 2013/14 for 2012/13 Provide networks which Number of 10 We have achieved the following grow and sustain a strong community developments: development and empowered Rotorua Social Monitor 2013 prepared community through projects delivered and distributed. projects including: each year. Good Health 2014 updated research, programmes, and available on RDC events, services, website, and in hard copy. 3. #### What we do

#### Collections/lending services

The library provides a range of children's, teens' and adults' fiction and non-fiction books in normal and large print, magazines, not-for-loan reference books, special collections of NZ books, an historical collection of local newspapers on microfiche, talking books, music CDs, E-Audio books and DVDs. The library houses the Community Toy Library, a collection of material belonging to the Rotorua branch of NZ Society of Genealogists, Te Rangikaheke papers (held in trust for Ngati Rangiwewehi) and a variety of Maori Land Court minute books. All of these are available to the public.

#### **Kete Rotorua**

This web-based facility provides a 'kete' (basket) for collecting images and information about Rotorua and its inhabitants both past and present. It is managed by the library and enables individuals, community groups and associations to share information.

#### Website

The www.rotorualibrary.govt.nz website provides free access to the library's catalogue and a range of government, education and research databases, as well as the library's facebook and twitter pages.

#### Mobile Library/Housebound Service

The mobile library travels to outlying areas of the district, to rural schools, retirement homes and other areas where location and transport is an issue. The housebound service delivers books and resources to members of the community who are restricted to their homes due to illness or disability. The books are selected by staff and delivered fortnightly by volunteer drivers.

#### **Programmes/Displays and Exhibitions**

Various programmes are provided to cover differing age groups belonging to or using the library. These include:

- Rhyme 'n' Rumpus (twice a week)
- School holiday programmes
- Teens' programmes
- Author evenings (at least six times a year)
- Reading Round for adults (monthly)

Toi Tangata is a special exhibition area provided for local artists to display their work. There are also display cases and notice boards throughout the library to showcase community and national events.

#### **Library Mascot**

The library's mascot, Fletcher Tuatara, visits schools with staff to inform students about the library and encourages them to become members/users. All new entrants in the district's primary schools are invited to special library events throughout the year where they can join the library and receive a free book.

#### Why we do it

- To provide education, information, cultural and recreational resources and to minimise economic, social and cultural barriers to information access;
- To provide a repository for local history reflecting the community's culture and diversity, including special collections of New Zealand, Maori and Polynesian history, for future generations, and information and books in European, Asian and Pacific languages.

#### The year's highlights and achievements included:

- 125<sup>th</sup> Anniversary of library service to the community start of a year's celebration began in April
- Children's librarians introduced Baby Bop a programme for babies
- Online payments for fees and charges began in March
- Mobile Library attended the Kiwi Cultural Day in Ngongotaha on Waitangi Day

#### What it cost us

|                        | 423                        | 0  | 0   | 423  | 970                        | 0  | 0   | 970  |

#### Variance from budget

- Operating: The difference in staffing cost is due to unfilled vacancies in the library.
- Capital expenditure: Purchase of library books was less than anticipated in the Long-term Plan and Annual Plan 2013/14 (\$600,000). Re-carpeting was completed during 2012/13 and therefore funds were not required in 2013/14.

| Level of service   | Performance<br>measure   | Target for 2013/14 | Achievement | Comments Achievement for 2012/13   |
|--|--|--------------------|-------------|--|
| Library readily accessible to residents and visitors and meets the needs of the community.                   | 60% of the population are members of the library.  | 60%                | 59.6%       | This is up on last year's result and 58% only very marginally down against target.   |
|  | 75% of households<br>which have used the<br>library in the last 12<br>months.                    | 75%                | 68%         | Number of total visits to the library remains well above target, however reducing membership shows the trend in changing use of the library service, towards more community meeting space, study space, and participation in programmes. |
|  | 85% of residents are very/fairly satisfied with the level of service.                            | 85%                | 81%         | 84%  |
| Maintain a collection of local Maori and European print resources for reference and study.                   | 3% of overall book collection budget dedicated to purchase of Maori and European print resource. | 3%                 | 3.1%        | 3.2%   |
| Maintain collections of fiction and non fiction for information, education and recreation.                   | Average annual items issued per capita.  | 10                 | 9.75        | There were 636,518 items issued 9.68 during the year.  |
|  | 0.2 items purchased per annum per capita.  | 0.20               | 0.26        | A total of 17,344 items were 0.31 purchased.   |
| Provide events that reflect<br>the art and cultural<br>interest of the community<br>with a specific focus on | Four children's programmes per year.   | 4                  | 4           | There were 4 children's 4 programmes held in July, September, December/ January and April.   |
| literacy.  | Two teens' programmes per year.  | 2                  | 2           | 2 Teen's programmes were held 5 during the year including the summer reading programme in January and February.  |
|  | Two 'Rhyme 'n'<br>Rumpus sessions<br>per week during<br>term time.                               | 2                  | 2           | Rhyme 'n' Rumpus sessions were 2 held 2 days per week of each term throughout the year.  |
|  | Six guest authors per year.  | 6                  | 4           | The programme organiser retired 9 in January and was not replaced until July. Max Cryer, Jackie Evans, Reynold Macpherson and Vincent Pierse appeared in the library.  |
|  | Number of total visits to the Library  | 390,000            | 430,593     | Visits include the mobile library 452,177 and virtual visits   |

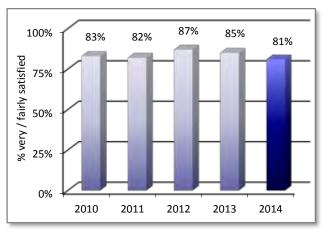

Note: All measures are currently under review as part of the development of the Long-term Plan 2015-2025. Measures in the future will be based upon the relevance to the level of service and the contribution towards Rotorua 2030 goals.

per year.

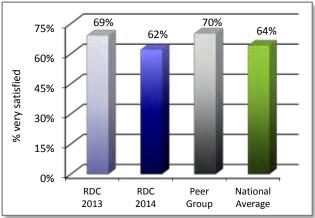

Number of total visits to the library remains well above target, however reducing membership shows the trend in changing use of the library service, towards more community meeting spaces, study space and participation in programmes.

#### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### **Emergency Management**

#### What we do

This activity covers Civil Defence and Rural Fire.

#### **Civil Defence**

The Civil Defence Emergency Management (CDEM) Act 2002 requires Rotorua District Council to be responsible for civil defence emergency management within its boundaries. Rotorua is a member of the Bay of Plenty (BOP) CDEM Group and is involved in strategic and operational planning for the region. A new BOP CDEM Group Plan has been prepared. Extra resourcing has been identified within the CDEM Group, the costs of which are proportioned amongst the local authorities in the Bay of Plenty. As a result there has been an increase of \$28,000 per annum for RDC from 2013 onwards. The plan is consistent with the national framework for CDEM in New Zealand and covers the period 2012-2017.

The Canterbury earthquakes have prompted a number of changes in how CDEM is undertaken at the national and local levels.

The Ministry of Civil Defence Emergency Management now requires local authorities to use EMIS (Emergency Management Information System) during emergencies. This will improve local, regional and national coordination. In addition, many regions are reviewing the resourcing they put to CDEM. RDC is taking a more 'whole of council' approach to CDEM with the various support services being required to support the specific needs of CDEM for our district.

The local Rotorua District Council plan meets the obligations of the CDEM Act and is consistent with the BOP CDEM Group Plan. New Zealand has an integrated approach to CDEM, known as the '4Rs' ie:

- Reduction Identifying and analysing long-term risks to human life and property from hazards; taking steps to eliminate these risks if practical, and, if not, reducing the magnitude of their impact and the likelihood of occurrence.
- Readiness Developing operational systems and capabilities before a civil defence emergency happens; including self-help and response programmes for the general public, and specific programmes for emergency services, lifeline utilities and other agencies.

- 3. **Response** Actions taken immediately before, during or directly after a civil defence emergency to save lives and protect property, and to help communities recover.
- Recovery The coordinated efforts and processes to bring about the immediate, medium-term and long-term holistic regeneration of a community following a civil defence emergency.

#### **Rural Fire**

The National Rural Fire Authority established a steering committee of Central North Island rural fire authorities, with representation from forest owners, Department of Conservation and territorial authorities, to develop a proposal for an Enlarged Rural Fire District for the Central North Island. The proposal was designed to:

- Clarify accountabilities and responsibilities for improving the effectiveness and efficiency of rural fire management by reducing duplication and improving the utilisation of existing resources;
- Improve the capability and capacity of the fire authorities by pooling and sharing resources and expertise;
- Increase the safety of rural communities by providing better leadership and advice to landowners and the public, and creating a greater awareness of fire threats and risks in the region;
- Improve the ability of fire authorities to comply with statutory obligations and meet the performance standards of the New Zealand Fire Service Commission;
- Enhance integration of fire management principles, policies, plans and practices for fire management and administration across different land uses and owners of rural landscape.

A proposal submitted for consultation recommended a hybrid structure. Submissions have been heard by the steering committee. More work is required on the details before a revised proposal referenced back to the New Zealand Fire Service for gazetting.

#### Why we do it

To support community wellbeing at a local, regional or national level through effective planning, training and education.

#### The year's highlights and achievements included:

- Canterbury Quakes display Rotorua Museum July to October. This included two Sunday afternoon talks from CDEM. One was the sharing of deployment experiences from a Response Team member perspective and the second was on general awareness and preparedness.
- Successful RECT grant application The Rotorua Emergency Response Team (RERT) received a grant of \$25,000 from Rotorua Energy Charitable Trust which enabled the team to purchase much needed equipment tents, sleeping bags, PHEC kits, stretcher and a tent for a mobile Incident Control Point.

### **Emergency Management**

- Youth in Emergency Services Project RERT engaged and trained with 12 young people for the second year running and has been joined by two of the candidates as cadets in the team. This year funding was received from Civil Defence Minister Nikki Kaye for the project. As an extension of the project the organising team was the proud recipient of an award at the Trustpower Spirit of Rotorua Awards.
- Swift Water qualifications RERT can now support local water responses with six qualified responders, five technicians and two qualified recovery managers. This will enhance the Police dive squad capabilities.
- The highly successful **Te Kapua Pou O Te Koutu (Safe as Houses) Project** was launched with a community fun day in March, followed by visits to over 500 houses with safety advice, information and free gifts such as non-slip mats, smoke alarms and the like.
- **BOP Text Alerting system** was introduced to the public.

#### What it cost us

#### Variance from budget

- Operating: Consultants' and contractors' costs were reduced as there were no major events for the year. Conference and meeting cost budgeted were partially paid by Bay of Plenty (BOP) Civil Defence Emergency Management (CDEM) group. Overheads allocation methodology in 2013/14 Annual Plan budget and actuals was different from the Long-term Plan hence the variance in overheads cost. Net impact across the organisation was nil.
- Capital expenditure: Rural fire pumps and hose renewals from the Long-term Plan 2014 year have been deferred.

National Research Bureau survey – a phone survey of 400 residents undertaken annually.

### **Governance and Strategic Direction**

#### What we do

This activity covers a range of specific functions and is also the home of corporate leadership, planning and technical and administrative support for Council's many services. The focus areas include:

- Chief Executive Group
- Corporate Planning and Support
- Corporate Property
- Customer Centre
- Democracy
- Financial Services
- Human Resources
- Information Services
- Kaupapa Maori
- Land Information Services
- Procurement and Sustainability
- Records

#### The role of this activity is to:

- Provide leadership for Council and the community.
- Provide technical and administrative advice and support to elected members representing the Rotorua district.
- Provide opportunities for public participation and involvement in decision-making and determining priorities and projects to meet community needs and aspirations.
- Ensure our internal systems and processes are upto-date and capable of supporting and enabling the organisation to perform its key tasks effectively and efficiently.
- Manage three-yearly council elections.
- Provide advice and assistance in the development of council policies which affect Maori and promote

- awareness and understanding of Maori culture and protocols.
- Facilitate communication with Maori on issues and decisions that directly or indirectly affect them.
- Manage Council's relationship with Te Arawa and tangata whenua and advise the council on protocol and Tikanga Maori.
- Provide excellence in first contact customer service focused on getting it right first time, listen, respond promptly and take responsibility.
- Provide easy access to council and district information via the internet by increasing online services including online transactions, web and social media.
- Provide an overarching framework to consider sustainability across all of the council's functions by ensuring the prudent use and management of all resources balanced with the consideration and integration of environmental, social, cultural and economic wellbeing.
- Deliver value for money in relation to the purchasing function in an open and transparent manner, managing risk and with adequate probity.

#### Why we do it

To provide the organisation and community with inspiring, competent leadership and direction; to ensure public awareness of and engagement in the council's decision making processes; and to provide high quality governance, technical and administrative advice and support to elected members and staff.

#### The year's highlights and achievements included:

- **Elections 2013** A new mayor for the district, Steve Chadwick, was sworn in on 30 October 2013; the first female Mayor for Rotorua. Three new councillors were Peter Bentley, Rob Kent and the youngest councillor to date, Tania Tapsell.
- New governance structure Previous committee structure disestablished and a new committee structure formed including a Strategy, Policy & Finance Committee, an Operating & Monitoring Committee and Audit & Risk Committee. These new committees provide the decision-making framework for Council to deliver its outcomes.
- Rotorua 2030 The vision of how the community wants Rotorua to change and develop in the future was developed through seven long term goals (Rotorua 2030 goals) and four medium term priorities (2016 priorities).

### **Governance and Strategic Direction**

#### Variance from budget

- Operating: Direct costs were on target against deliverables of the Long-term Plan. In the 2013/14 Annual Plan budget entities in this activity group have their cost and income redistributed against other council activities. This differs from the way they were distributed in the Long-term Plan in respect to the general rates and internal charges application. Differences in methodology of overheads and internal charges allocation for the Annual Plan budget 2013/14 were the major drivers for change in this area. The Long-term Plan methodology used specific cost drivers in the allocation of overheads and internal charges. The charging of actual costs is based on a different allocation formula. This has resulted in a number of variances compared to budget. Payments to staff and suppliers has a large variance against budget due to greater allocations to Governance and Strategy Direction which have subsequently been distributed through internal charges.
- Capital expenditure: In the Long-term Plan, the Civic Centre and Vaughan Road renewals were deleted from the Annual Plan 2013/14 as part of council-wide direct review of capital programmes. Strategic purchases include acquisitions of Victoria Street Arterial properties in Pererika and King Streets, and Bellingham Crescent properties. Lake Road properties acquired under our corporate property account were transferred to Roading and Footpaths' capital asset area.

### **Overview**

The Economic and Regulatory Services area underpins Council's refreshed focus on a 'whole of council' approach to sustainable economic growth to fulfil its critical role as a major influencer of Rotorua's sustainable economic growth environment.

Significant emphasis, through Economic and Regulatory Services activities, is being placed on Rotorua District Council contributing to the Rotorua Sustainable Economic Growth Strategy.

At a high level, Rotorua District Council's role is focussed on four main areas:

- 1. Setting a clear sustainable economic growth strategic direction;
- Creating an enabling regulatory environment that takes a sustainable approach to management of the district's physical and natural environment while supporting strategic direction;
- Investing in Infrastructure and services that support development of the strategic direction (including a focus on the Rotorua CBD);
- 4. Backing this approach with a customer friendly, 'cando' approach to delivery of services related to the strategic direction.

Economic and Regulatory Services includes:

- Alignment of regulatory and land-use planning policy with the sustainable economic growth strategy.
- An enabling regulatory function with a focus on an effective, efficient and customer-friendly 'can-do' approach to doing business.
- Promotion of the destination as a great place to visit, live, work, invest and do business.
- Committing resources to sustainable economic growth initiatives in areas where Rotorua has a

competitive advantage and where Rotorua District Council can genuinely influence outcomes that will complement and/or stimulate private sector investment.

- A set of integrated CBD-focussed actions and investments designed to contribute to the vision of "creating a public space where residents and visitors can enjoy recreation, outdoor dining, retailing and entertainment activities within a safe and attractive setting."
- Provision of high quality conference and event facilities and management services for the Rotorua community which support to attraction of large, highyield local, regional, national and international events and conferences.
- Provision of a world class museum experience.
- Reducing the net cost to ratepayers of those functions that can operate on a more commercially sustainable basis.
- Leading alignment of local sustainable economic growth plans and initiatives with key players at the regional and national level.
- Supporting the efforts of external sector-focussed entities charged with assisting in the creation of a sustainable economic growth environment, including the Rotorua Tourism Committee and the economic development council controlled organisation, Grow Rotorua Ltd.

This area is made up of the following activities of Council:

- Building Services
- Economic Development (Inner City Enterprises, City Services, Destination Rotorua Marketing, Travel Office)
- Events & Venues Rotorua
- Planning Services
- Regulatory Services; (parking enforcement, health inspection including noise, liquor licensing and Animal Control)
- Rotorua Museum Te Whare Taonga o Te Arawa

# **Building Services**

### What we do

- This activity administers the Building Act and Fencing of Swimming Pools Act. The activity includes:
- Processing Project Information Memoranda (PIMs).
- Processing building consent applications, assessing against the Building Code.
- Inspecting building work in conjunction with building consents.
- Issuing Code Compliance Certificates for buildings constructed in accordance with the consent.
- Auditing buildings that have a Building Warrant of Fitness (BWOF).
- Dealing with complaints and breaches of the Building Act.
- Issuing compliance schedules and compliance schedule statements.
- Issuing notices to fix.
- Issuing infringement notices.

### Why we do it

To promote community safety in and around buildings and to provide information to people planning to build on or purchase a property.

### The year's highlights and achievements included:

- **Building consents** There were 1232 building consents issued and 110 amendments to consents in the 12 month period. Approval of building consents were achieved in a timely manner with:
  - 53.2% of building consents issued within 5 days compared to 61.3% the previous year.
  - 65.7% of building consents issued within 10 days compared to 76% the previous year.
  - 88.1% of building consents issued within 15 days compared to 90.8% the previous year.
- Code compliance certificates There were 1524 code compliance certificates issued for the same 12 month period. Approval of code compliance certificates were achieved in a timely manner with:
  - 54.8% of code compliance certificates issued within 5 days.
  - 63.8% of code compliance certificates issued within 10 days.
  - 71.6% of code compliance certificates issued within 15 days.
- Historical building consent reduction project In the past twelve months the number of historical building consents without code compliance certificates pre-July 2007 has reduced by 139 (18%) to a total of 642. This in turn has reduced the risk profile associated with these older building consents and has provided closure for building owners who may have been disadvantaged without final sign off by Council.
  - The historical building consent project was stalled during the year when the fixed term resource left and a replacement was sourced.
- **Building Consent Authority Accreditation** Rotorua District Council continues as an accredited building consent authority and is due for it bi-annual audit by International Accreditation New Zealand in April 2015.

### Variance from budget

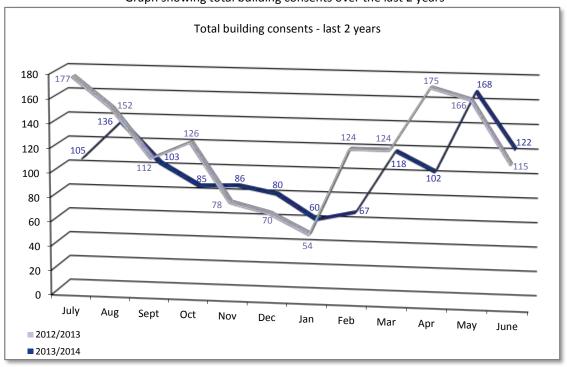

• Operating: Consent fee volumes were less than originally planned reflecting lower than expected new construction. Reduced internal charges reflects the overall change in overhead allocation across council.

### **Building consent levels**

### What we do

This activity is driven by the objectives of the Rotorua Sustainable Economic Growth Strategy.

Through various activities the following key economic objectives apply for Rotorua over the next five years:

- Promotion of the destination as a great place to visit, live, work, invest and do business.
- Committing resources to sustainable economic growth initiatives in areas where Rotorua has a sustainable competitive advantage and where Rotorua District Council can genuinely influence outcomes in a manner that will complement and/or stimulate private sector investment opportunities.
- A set of integrated CBD-Ofocussed actions and investments designed to contribute to the vision of "creating a public space where residents and visitors can enjoy recreation, outdoor dining, retailing and entertainment activities within a safe and attractive setting."
- Reducing the net cost to the ratepayer of those functions that can operate on a more commercially sustainable basis.
- Leading in aligning local sustainable economic growth plans and initiatives with key players at the regional and national level.

In order to achieve these objectives Council has focused activity on:

### **Council Controlled Organisation**

In September 2011, Council adopted the Rotorua Sustainable Economic Growth Strategy (RSEGS) and in November 2011 agreed to consider the establishment of a Council Controlled Organisation (CCO) as the preferred structure to drive implementation of the growth strategy. The CCO has now been adopted by Council and \$850,000 included in the Economic Projects budget in the first year, to fund establishment and operation of this entity.

### **Economic Projects**

Tasked with working alongside the CCO and other council departments, the Economic Projects department was responsible to delivering key elements within the newly adopted Sustainable Economic Growth Strategy. These are:

- Focusing on the CBD with implementation of the Urban Design Framework – Walkable City, incentive scheme, transport centre, Eat Streat, Lakefront development, CDB investment pitch.
- Marketing of the destination as a place to live, work and invest, leveraging off the work of Destination Rotorua Marketing.

- Partnering with SCION and Bay of Connections to implement Forest & Wood processing strategy actions.
- Participating in identification of land use change/management initiatives with Bay of Plenty Regional Council including the development of a Rotorua spatial plan to inform future investment decisions.
- Overseeing implementation of the Rotorua component of the National Cycleway.
- Working across council departments to assist in making the regulatory interface with RDC (across all regulatory areas) run more smoothly for investment opportunities.
- Focusing on working with neighbouring councils and economic development organisations of the upper North Island.
- Working to bring a more sustainable economic development/growth focus to RDC.

### **City Services**

Managed from City Focus in the CBD to provide handson liaison with shoppers, retailers, residents and visitors. The service includes, the CBD, City Focus, public places, street appeals, servicing public conveniences, parking management, Lakefront, Government Gardens, street cleaning and maintenance of a crime prevention camera network.

### **Sister Cities**

The strategic purpose for involvement with sister cities has been strengthened meaning that the programme will establish relationships with international cities, with a focus on economic development, growth, trade and potential new business opportunities. Council maintains formal Sister City relationships with Wuzhong (China), Beppu (Japan), Lake MacQuarrie (Australia) and Klamath Falls (USA).

### **Destination Rotorua Marketing**

The goals of this service are driven by opportunities identified for growth, key areas of focus based on changing tourism trends, strengthening the local market and brand positioning. The key goals are to:

- Aggressively target and grow the Asian visitor market – specifically China.
- 2. Grow and increase Rotorua's share of the Australian visitor market especially off-peak.
- 3. Increase average room nights and spend, to be equal to the national average, for both international and domestic visitors to Rotorua.
- 4. Increase the Auckland visitor market by 5% to 50,000 visitor nights.
- 5. Work in partnership with wider-Rotorua and regional operators and Tourism New Zealand.

- Take a leadership position in online marketing and travel search.
- 7. Increase ease of access to Rotorua as a visitor destination by helping Rotorua International Airport gain additional services.

### **Travel and Information Office**

### **Domestic travel bookings**

Offers a comprehensive domestic travel reservation service for Rotorua and New Zealand products to local residents and visitors. Commercial returns are earned through commissions on sightseeing and travel sales. It is also contracted to the Rotorua Education Network to provide quoting and booking services for school groups visiting Rotorua.

A key focus of the Travel and Information Office is to reduce funding required from rates. Within the first three years of this plan it is forecast that approximately 25%-30% less in rates funding will be required.

### Information (i-SITE)

A full information service is provided for Rotorua and the rest of New Zealand through counter enquiries, email requests and phone calls.

### 'The Organiser'

A one-stop-shop for groups (international and domestic), corporates, associations and conference organising. The conference and event services provided are full registration, budget and accounting, development of programmes, venue management, speaker liaison, sponsorship and exhibition along with promotion of an event. Group services provided include quotes, itinerary planning (Rotorua tours or NZ-wide tours) and New Zealand-wide attraction, accommodation and travel arrangements.

### Why we do it

To co-ordinate and influence the building of a sustainable competitive advantage for the district, assisting the local economy to grow faster than it otherwise would through targeted areas of activity.

### The year's highlights and achievements included:

- Community Stakeholder Groups Formation of the business community based Inner City Focus Group to lead revitalisation of the inner city.
- Inner City Revitalisation Strategy Working with the community and stakeholders within the inner city to capture and reflect their vision for our city and begin forming a roadmap to achieve future success.
- Park Rotorua Introduction of time-limited free parking within the core inner city to lure customers back into the city and provide a level playing field within core retail precincts.
- Scrub Day Now an annual event where inner city businesses take charge of their city and give it a makeover, including community planting, building cleaning and painting and other community events.
- Community art installations Bringing significant artworks into our inner city, providing features within our streets, showcasing our local artists and placemaking for our community to enjoy.
- Pop-up shops Including gallery art, ideas bank, and community engagement opportunities, making use of empty buildings, showcasing their potential.
- Street lighting Reviewed and increased lighting to provide increased visibility at night within inner city streets, providing a safer environment for customers and workers.
- Online ideas bank Providing a place for our community to submit their ideas for the inner cit a place to get conversations started and to drive the next project ideas.
- **Tutanekai Street intersections** Altering the footpaths to enable safer crossing areas, new seating, larger median crossings down the street to enhance foot-traffic and making-over gardens to provide a great environment for our community and visitors to enjoy.
- City Focus Establish a full-time visitor centre within City Focus and alter the opening hours to 7 days a week, including later hours to support and reflect the retail environment around it.

- **City Safe Guardians** Relocate the guardians into City Focus to ensure they are working directly in the spaces that require their attention.
- Community Constable, Inner City Working alongside the guardians, Police have redeployed an inner city Police Constable, operating out of City Focus.
- **CCTV** (camera security) Purpose built operations room for the Guardians/Police to utilise the inner city camera system as a proactive tool for identifying and mitigating unwanted social activity and inner city crime.
- Heart of the City News Bi-monthly inner city news from inner city stakeholders, keeping everyone in touch with what is happening, sharing ideas and 'connecting the dots'. A separate events calendar is also circulated informing businesses and their staff of conferences, events and other key information for the two month period.
- Parking building upgrade Automation of the Pukuatua Street parking building providing safe and convenient parking for longer term inner city parking at affordable rates. This building, once only open Monday to Friday 7am to 6pm, is now open 7 days a week.
- Mural / street art Utilising blank walls or areas that have attracted unwanted attention, painting murals (Tutanekai/Pukuatua Street) to create life and a focal point within inner city areas.
- **Eat Streat precinct** Completion of this four year trial to define this important gateway precinct between our inner city and the lakefront. This alfresco area is all about attracting people into town, increasing foot traffic and distributing people around the city.
- **Gardens** Including community participation, re-focusing our inner city gardens to provide a great environment for pedestrians, to showcase Tutanekai Street as something special ... providing a high street or obvious hierarchy to our flat grid pattern that can confuse people.
- Jake seats A community project initiated through our local high schools to give our young designers the opportunity to design and implement a new seat concept for our inner city. Through collaboration of local businesses, Jake Kreb (Lakes High) the design winner, has had the opportunity to work with professionals to complete his design, creating build plans and then working with businesses to actually construct his seat. Made from timber with solar lighting and silver fern motif, these seats are now being replicated along Tutanekai Street.
- Live, Work and Invest website Continuing to develop a dedicated site, alongside our visitor information, about our city from a live, work and invest perspective. Inner city businesses can register their details and promote what they offer. This is a free service
- Inner city welcome pack One-on-one visits with Cr Hunt and RDC staff providing new inner city businesses
  with information that they can take advantage of and providing contacts for any matters concerning the inner
  city.
- Inner city partnership proposal A community partnership document to encourage financial and in-kind support for inner city projects that will help achieve the community's 2016 milestones and 2030 vision.
- Inner city ambassadors Database of people sharing their story and successes about living, working and doing business in the inner city.
- Inner city funding partnerships underway Successfully secured three financial partners to help install more seating along Tutanekai Street.
- **Kia Ora Official Inner City Guide** Worked alongside Rotorua Chamber of Commerce to better promote the inner city as a destination in its own right.
- **Famously Rotorua Lifestyle Guide** Summer edition, sent to 48,000 Aucklanders and 22,000 Rotorua residents, promoted the inner city as a place to live, work and do business.
- Inner city retail spend report Developed a relationship with Marketview to access invaluable data that can highlight retail spend growth in the inner city and in certain precincts. This will help show the relationship between recent developments and the impacts those developments have had.

### Variance from budget

- Operating: In relation to the Annual Plan 2013/14 lower expenditure was achieved across all activities due to savings targets and lower visitor numbers. Long-term Plan variances are mainly due to change in the City Clean contract for CBD services.
- Capital expenditure: The Long-term Plan anticipated some urban city development but plans have been significantly revised under current growth patterns experienced in the district. In the Annual Plan 2013/14 priority was given to inner city and other revitalisation capital programmes with the total budgeted amount of \$3.6 million allocated to Inner City Enterprise (ICE), Eat Street and Tutanekai Street urban design project and Rotoruanz.com website building, all achieved by the year end.

### How we performed

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

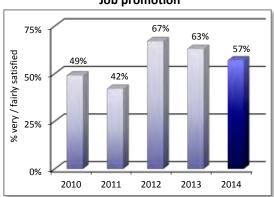

### City centre cleanliness

### **Public toilets**

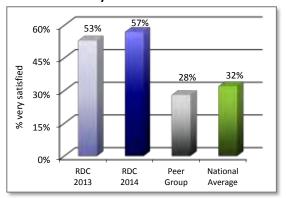

### Job promotion

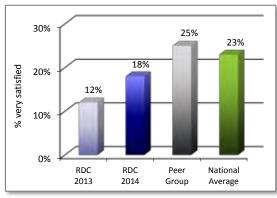

These graphs show the percentage of survey respondents very or fairly satisfied with these services over the last five years.

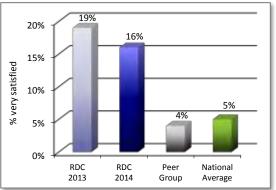

### City centre cleanliness

### **Public toilets**

### Job promotion

These graphs show the percentage of survey respondents "very" satisfied with these services over the last two years and compares it with our peer group and the national average for 2014.

### What we do

# Continued focus on high quality conference and events facilities

In recent times Rotorua has had an encouraging level of forward bookings, especially in the lucrative Conference & Incentive market due to sustained growth in business levels and market share. The challenge is to continue to increase market share to offset the impact of the economic downturn and pricing pressures bought about by competition, to ensure retention of income levels and drive the economic impact of conferences and events for the Rotorua economy.

An updated new strategy on major events attraction is being finalised and will concentrate on securing regular events with a logical linkage to Rotorua as a destination, and to assist in their ongoing retention. Emphasis will also be placed on growing existing events and maximising length of stay and spending levels by participants and families.

This activity covers the operation of:

- Energy Events Centre (including the Sportsdrome)
- Rotorua Convention Centre (including the Civic Theatre and ticketing agency)
- Te Runanga Tea House
- The Soundshell
- Rotorua International Stadium (including Number 2 field).
- Equipment Shed access to sporting, event management and facilitation equipment

The role of this activity is to:

- Provide quality event facilities for the Rotorua community which support endeavours to attract large, high-yield local, regional, national and international events.
- Provide for the identification and attraction of large major events to Rotorua and their subsequent growth.

- Provide assistance to event promoters and organisers in dealing with the array of people, processes and legislation involved in organising a major event.
- Support local event organisers through provision of the equipment shed and recreation programmes
- Assist in the marketing of function space at the Rotorua Museum
- Manage on behalf of the Parks and Recreation department management of the booking system for non-sports code bookings on Council's parks and reserves.

The range of uses within the venues includes:

- Local amateur performance
- Sport and recreation
- Conference and incentive activities
- Social functions
- Touring and local professional performing groups
- Cultural activity performances
- Manage a ticketing agency (currently Ticketmaster) to service client/venue needs.

In the short to medium future, Events and Venues will be competing in a much more challenging marketplace but successes in recent years have provided a strong base for business retention and growth. In the longer term, business growth will be influenced by the economic health of the Australasian economies in particular.

### Why we do it

- To provide conference, entertainment and sporting venues to meet the needs of local residents and visitors.
- To attract events that offer economic benefit and contribute to Rotorua's reputation as an attractive place to live and visit.

### The year's highlights and achievements included:

- World Festivals and Events Award from international association, IFEA. Award for recognition in developing, attracting and promoting events.
- **Conventions and Incentives** 31 conferences held.
- In November 2013 Rotorua hosted the World Rafting Championships attracting 70 teams from 28 nations. In addition to a strong local spend the event attracted worldwide recognition for Rotorua and this form of recreational activity. Thanks are due to Kawerau for their assistance.
- In May 2014 the **50**<sup>th</sup> **Rotorua International Marathon** was hosted with the biggest number of total entrants ever (over 9,100) with 4,500 competing over the full marathon distance, the second highest total in the marathon's history. Widespread publicity for both the lead-up and the event itself was exceptionally valuable to Rotorua. 6,978 of the participants came from beyond Rotorua.
- February saw the launch of the Rotorua Bike Festival which contained a mix of sporting and recreational cycling events, highlighted by two national mountain bike championships; the Downhill and Cross Country events. In all there was a total of 24 events over 9 days.
- The Tarawera Ultra Marathon joined the World Ultra Tour and received NZ Major Events support.
- Other major sporting events hosted included an ANZ netball encounter, The Phoenix football team's first match in Rotorua, national Waka Ama championships, National Touch championship, The NZRFU Sevens National Championship, the Rotorua Running Festival, the Weetbix Tryathlon, NZRL Youth Tournament and the 3D championships.
- Glo Festival 2013/14 was the second year of the Glo Festival and saw increased support with the introduction of an outdoor movie prior to the New Year's Eve fireworks display. Glo is positioned for local and visiting families and increased support from this sector enables further development in the coming years.
- Fire and Ice Festival Rotorua's mid winter festival was further developed in 2013. Based around the ice rink attraction at the Village Green the festival also saw the introduction of the Luminate Lantern Festival in Government Gardens. A strong community support in the making of the Lanterns created an outstanding spectacle and proved the value of the Gardens as an event venue.

### Variance from budget

- Operating: Events and Venues continued to operate in a challenging marketplace. While the number of events
  remained similar to the previous year, the yield was lower due to more discounting in the marketplace, lower
  attendances, reduced budgets from hirers and shortened events. Expenditure, when compared with the Annual Plan
  and Long-term Plan, was favourable reflecting shortened events and revenue decreases.
- Capital expenditure: In the 2013/14 year an upgrade/repair of the Energy Events Centre air handling units and kitchen
  roof repairs was undertaken at a cost of \$400,000. This necessitated deferral of stadium bus stop and other
  Convention Centre renewals to remain within Annual Plan budget. Soundshell renewals were also deferred.

### How we performed

| Achieved | Not achieved |
|----------|--------------|
|          |              |

Not measured

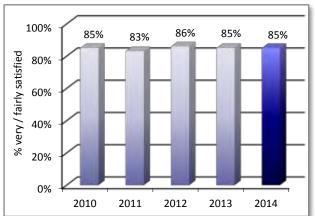

| Level of service   | Performance measure  | Target for 2013/14 | Achievement | Comments  | Achievement for 2012/13 |
|--|--|--------------------|-------------|---|-------------------------|
| Excellent well maintained and well used venues.  | 85% of residents have used/visited an event venue in the last 12 months.   | 85%                | 85%         | This is measured through the National Research Bureau survey 2014.*   | 84%                     |
|  | 85% of residents very/fairly satisfied with the service/facility.          | 85%                | 85%         | This is measured through the National Research Bureau survey 2014.*   | 85%                     |
|  | 50% of repeat bookings from commercial clients within a three year period. | 50%                | 52.1%       | There were 88 repeat bookings from commercial clients for the year which represented 52.1%.   | 57.8%                   |
| Encourage and promote a wide   | More than 25 conferences held each year.                                   | 25                 | 31          | Up by two conferences on the 2012/13 year.  | 29                      |
| range of events and conferences with high levels of participation that add to the appeal of Rotorua for its citizens and visitors. | More than 11,000 conference delegates attending each year.                 | 11,000             | 11,065      | Delegate numbers dropped by 870. This is consistent with the national market for conference and incentives which remains depressed. | 11,934                  |

<sup>\*</sup> National Research Bureau survey – a phone survey of 400 residents undertaken annually.

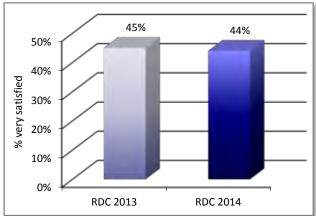

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

### **Event promotion**

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### What we do

This activity covers the functions of:

- Policy development
- Planning implementation
- Quality assurance and performance.

### **Policy Development**

- A core function is developing and maintaining the District Plan, one of the key documents Council has to manage and control land use and subdivision in the district.
- Advocacy on behalf of the community on local, regional and national environmental issues is another core function of this team. This generally translates to providing advice on draft national policy statements, national environmental standards, regional policy statements and regional plans.
- Responding to regional and central government policy proposals where these affect land use and resource management within the district.
- Provision of a duty planning service for the community to help understand how the district Plan may impact on activities on land.
- Provision of strategic policy advice in relation to the environment, land management and subdivision, to elected members of Council.

### Planning implementation

- Provide planning advice to customers to determine whether consent is required, and the type of information required for lodgement with Council.
- Processing consents (land use and subdivision).

 Processing Notices of Requirements and outline plans for designated public works or areas of land.

### **Quality Assurance and Performance**

- Monitor and report 'The State of the Environment' within the district every 5 years.
- Monitoring of compliance for conditions of consent.
- Take enforcement actions to ensure compliance is achieved.
- Develop business improvements to optimise the performance of the policy development and planning implementation teams, based on the outcomes of monitoring, compliance and regular reviews of national best practice.

### Why we do it

- Administer the District Plan and process consent applications to ensure the quality of the environment is balanced with the need for sustainable economic growth to be enabled in accordance with the aims of the Rotorua Sustainable Economic Growth Strategy.
- To ensure sustainable management of natural and physical resources and to manage adverse effects.
- To guide and enhance the quality of the natural and physical environment as the district develops.

### The year's highlights and achievements included:

- **Proposed District Plan** The Proposed District Plan was notified on 31 October 2012. 518 submissions and 104 further submissions were received, summarised and analysed during 2013. Planners' section 42RMA reports have been written and District Plan hearings held throughout 2014. Council decisions on submissions and further submission on track for release later this year.
- **Rotorua Spatial Plan 'Smart Futures'** The first draft spatial plan Generation 1 is well underway. Generation 1 summarises available statistics, census data and provides an overview of key issues. Engagement with key stakeholders is underway.

### Variance from budget

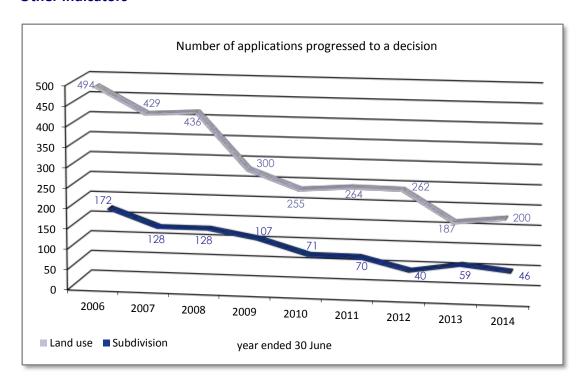

• Operating: Savings made in reduced staff costs when compared to budget. Long-term Plan expenditure was in line with actuals. Fewer consents have also reduced consultants' costs for year. Long-term Plan overheads are different to actuals due to a different allocation methodology used in the Annual Plan 2013/14.

### **Other indicators**

### What we do

This activity covers a range of specific functions. Focus areas include:

- Animal Control
- Inspection
- Parking Enforcement

The role of this activity is to:

### **Animal Control**

- Register dogs in the district.
- Provide a complaint resolution service in relation to uncontrolled dogs.
- Control the number of dogs kept on individual properties in the urban area through a kennel licensing regime.
- Undertake mobile patrols to apprehend and impound wandering dogs.
- Provide an animal pound facility for the safe and humane containment of dogs and stock found wandering (1,900 dogs impounded each year; 800 dogs euthanised each year).
- Respond immediately to reports of livestock wandering in public places.
- Provide an educational programme on dog control which is available on an 'on demand' basis to primary and intermediate schools in Rotorua district.

### Inspection

- Promote and conserve public health.
- Register and inspect food premises, hairdressers and camping grounds.

- Investigate health complaints, monitor water supplies, swimming pool water quality and noise control
- Manage the district licensing agency to ensure managers and licenced premises hold the appropriate liquor licence and to work towards a reduction in abuse of liquor in the community.
- Provide a complaint response service for matters covered by a number of bylaws to minimise nuisance to the general public (this includes signs, obstruction of public property, disposal of abandoned vehicles, littering, prostitution and gambling).
- Administer the Geothermal Safety Bylaw 2008.
   Provide an advisory role including undertaking testing for the presence of hydrogen sulphide gas with the intention of ensuring as far as possible, the safety of public from geothermal activity.
- Ensure public safety in the handling and storage of hazardous substances.

### **Parking Enforcement**

 Maximise the availability of safe and appropriate parking during working and shopping hours.

### Why we do it

To enhance the public safety, health and wellbeing of residents and visitors.

### The year's highlights and achievements included:

- Micro-chipped dogs 673 dogs were micro-chipped at the pound during the period. While slightly down on last year's figures this is still a very good service provided to dog owners.
- Registered dogs 11,422 dogs were registered to the end of the reporting period. This figure represents an increase of 390 registered dogs compared with the previous year. For the second year running the total number of dogs registered was more than the known dogs at the beginning of the year. This is a result of a great strong effort by the Animal Control Unit.
- **Noise infringements** A total of 67 infringements were issued for the year aimed at addressing recidivist offenders or those who have no regard to their neighbours.
- **Liquor licensing** The new Sale and Supply of Alcohol Act 2012 came into force on the 18 December. This required the formation of the new District Licensing Committee under the control of the chairperson Cr Karen Hunt. We have been able to quickly move to efficient and cost-effective processing of applications under this regime.

### What it cost us

### Variance from budget

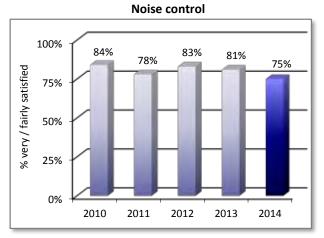

- Operating: Parking enforcement fees and charges are lower than budget due to a change in the inner city parking regime, freeing up certain on-street metered areas to assist inner city activity. This is offset by an increase in revenue for inspections, as Council began liquor licensing administrative responsibilities from December 2013 (\$140,000 additional revenue). This was not factored in the Long-term Plan.
  - Long-term Plan overheads are different to actuals due to different allocation methodology used in the Annual Plan 2013/14. Actual expenditure is close to Annual Plan 2013/14. Increases in expenses for liquor licensing have been offset by savings in operating expenditure across all regulatory services.
- Capital expenditure: New handheld ticket writers purchased in 2013/14 are more efficient technology that does not require the replacement of a printer, and has enabled cost savings.

### What we do

Rotorua Museum (Te Whare Taonga o Te Arawa) is situated in the Bathhouse building, an historic landmark sited strategically in Government Gardens, a heritage precinct of national importance. The Bathhouse building holds a Category 1 classification from Heritage New Zealand, the highest level of significance for buildings in New Zealand.

The museum opens to the public every day except Christmas Day, from 9am to 8pm daily during daylight saving time, and from 9am to 5pm the rest of the year, with entry for local residents remaining free.

The Centennial Project was completed in 2011 with the opening of the Don Stafford wing, completing the building to its original footprint proposed by Dr Arthur Wohlmann more than 100 years after the building first opened to the public. The \$22 million project was made possible by generous funding partnerships including Rotorua District Council, Rotorua Trust, Central Government, and the Museum Centennial Trust.

Reflecting the value added through the capital investment Council has increased its adult admission price to visitors to \$18.00. However this remains one of the most popular Rotorua tourist destinations.

### **Exhibitions**

### Taking the Cure

Tells the story of the Bathhouse building and the origins of tourism in Rotorua.

### Maori Battalion

B Company of 28 Maori Battalion was made up of volunteers from the Rotorua/Bay of Plenty/ Thames-Coromandel areas and fought in some of the most famous campaigns of WWII. This exhibition is a tribute to those men, and the people they left behind.

### Tarawera Eruption

The 1886 eruption of Mount Tarawera changed the lives forever for all who lived in this area. The famous Pink and White Terraces were destroyed, along with many villages around the mountain. This exhibition tells the story of the fateful night and remembers the victims, both Maori and Pakeha.

### Rotorua Stories Cinema

An interactive theatre experience telling the stories of Rotorua in a dramatic and entertaining way was added to the museum's attractions in 1998, and has been upgraded at regular intervals since. It remains a core part of the museum experience for locals and visitors alike.

### Mudbath Basement

The famous Mudbath Basement has recently been opened up again to visitors after 100 years. Visitors must go through the basement of the building to arrive at the mudbaths which have sat undisturbed for over 100 years.

### Viewing Platform

Reinstatement of the historic viewing promenade on the North Wing roof (Stage 1 of the centennial project) was completed in March 2006, and made possible by grants from the Ministry of Tourism and the NZ Lotteries Grants Board, supplementing annual plan funding from RDC.

### Nga Pumanawa o Te Arawa

A major exhibition covering eight galleries in the new Don Stafford Wing (opened September 2011) tells the story of the Arawa people from origins in Hawaiiki through until present day Rotorua. A number of significant Te Arawa taonga have returned to Rotorua Museum on loan from institutions around New Zealand and overseas for this groundbreaking new exhibition.

### **Programmes**

A dynamic and active programme of public lectures, films, tours, floor talks and children's activities is provided throughout the year. Some of the events are so popular that dozens of people are turned away.

### **Guided Tours**

Guided tours provided by a team of over 80 volunteer docent guides have become a core part of the Rotorua Museum experience. The guides undergo a rigorous 14 week training programme before graduating and starting their careers as guides for museum visitors. Tours take place on the hour in the summer months and five times daily in winter.

### Education

Since 1998 the museum has been contracted by the Ministry of Education to provide 'Learning Experiences Outside the Classroom' to some 12,000 school students per annum. Two teachers are employed to develop and deliver curriculum-linked programmes and school groups come from all over New Zealand to use the service. The current contract expires in 2013 after which the museum will seek a new contract.

A dynamic and active programme of public lectures, films, tours, floor talks and children's activities is

provided throughout the year. Some events are so popular that people are turned away.

### Why we do it

- To provide a world class museum for the community and visitors
- To collect, preserve and interpret local material cultural heritage for the benefit of future generations
- To maintain the integrity of the Bathhouse as an iconic Rotorua and New Zealand building.

### The year's highlights and achievements included:

### Rotorua Museum efforts recognised by awards

- 2014 Museums Aotearoa Award for 'Best Museum Project' for the *On the Wing* project, the first ever urban release of a threatened species in New Zealand. The collaboration between Rotorua Museum and Wingspan National Bird of Prey Centre saw three New Zealand falcons (kārearea) raised and released from the Museum's rooftop.
- 2014 Trust Power Community Award in the Environment and Heritage Category, for the 'On the Wing' falcon release project (and The Friends of Rotorua Museum were commended for the Summers Sculptures).
- 2014 New Zealand Radio Awards 'Best Direct Client Campaign' for the same-sex wedding event and promotion, in conjunction with Mediaworks partner The Edge.
- 'Hospitality and Attractions Award' at the 2013 Westpac Rotorua Business Excellence Awards.
- The 80-strong team of volunteer museum guides were runners-up in the 2013 Trustpower Spirit of Rotorua Community Awards.
- **Record revenues** of \$1.937 million or 50% above last year were achieved, though a strong retail performance and the café acquisition.
- Visitor numbers A total of 99,671 visitors during the year, +2.2% on the previous year 30% local, 26% domestic and 44% International.
- Education programme A total of 11,338 school students, +8% on the previous year, visited to participate in curriculum-linked learning opportunities delivered by museum educators. The education programme, largely funded by the Ministry of Education, has recently had its contract extended to December 2016.
- Museum Bus Funded by the Ngati Whakaue Education Endowment Trust, the Museum Bus provided transportation to Rotorua Museum for over 4230 +3.4% on the previous year local students from decile one to five schools (1 July 2013 to 31 June 2014). Since its inception, 19,621 students have taken advantage of this initiative, with every eligible school in the district utilising this service.
- Collections There were over 200 enquiries by the public to the museum seeking further information on collection items. The museum's collection was revalued during the year with an increase of \$18.5 million to a total value of over \$24 million. The collection was last valued in 2008.
- Exhibitions 21 exhibitions were presented during the year with 15 locally curated shows supporting our Rotorua relevance strategy with community participation, local content, and local stories. Exhibitions like Matatoki, Te Ara, Be Amazed and Down the Hall on a Saturday Night were highlights, these catered to a wide range of audiences from our community and visitors.
- Public programmes 46 public programmes were hosted during the year which were well supported with 9,851 participants.
- **Customer satisfaction** Quantitative information collated by *Museums Aotearoa* (through a nationwide survey of museums), indicates 95% (2013) were 'satisfied' with their visitor experience at Rotorua Museum compared to 86% (2013) for all museums.
- Marketing result A total of 269 free media stories were achieved during the year, showing a 57% increase on the previous year. 69 of the stories were attributed to the same sex wedding promotion and reached a large international audience, while 49 of the stories were focused around 'On the Wing' falcon release which got strong national coverage. 224 media and tourism trade people were hosted on famils of the museum. In the last year our museum Facebook page has increased its 'likes' by 31% to 3,052 likes.

### What it cost us

### Variance from budget

- Operating: The Long-term Plan did not include the Museum Café within operating assumptions. The museum previously received a number of large capital subsides for building and the Long-term Plan assumed these would continue into 2013/14. The Long-term Plan overheads are different to actuals due to a different allocation methodology used across council.
- Capital expenditure: Exterior of museum feature lighting programme was deferred during the year along with a number of other capital projects.

### How we performed

Achieved

Not achieved

Not measured

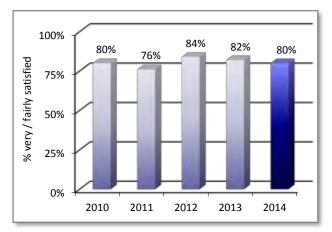

| Level of service   | Performance<br>measure   | Target for 2013/14 | Achievement | Comments Achieve for 201:  |   |
|--|--|--------------------|-------------|--|---|
| An outstanding museum experience, open seven days a week and free to local residents of Rotorua.             | 60% of households in Rotorua have used/visit the museum in the last year.                      | 60%                | 68%         | This is measured through the 64%<br>National Research Bureau survey<br>2014.*  | • |
|  | 80% of local residents very /fairly satisfied with the museum and its services.                | 80%                | 80%         | This is measured through the 82% National Research Bureau survey 2014.*  |   |
| Provide a range of learning opportunities for primary, secondary, tertiary and adult learners.               | Number of public programmes (workshops/lectures) per year.                                     | 20                 | 46          | A conscious decision was made this year to run fewer programmes than the previous year (64 in 2013) to provide a greater focus on participation in the programmes offered. Target of 20 will be reviewed in the Long-term Plan 2015 preparation.       |   |
|  | Number of students each year participating in the LEOTC programme (curriculum based learning). | 11,000             | 11,338      | 11,338 students participated in the LEOTC programme for the year.  Numbers were up 8.2% on the previous year, due to the free museum bus strongly supported by local schools and a more favourable exhibition programme that linked to the curriculum. |   |
| Position the Museum as a "must see" attraction to visitors to the district, both international and domestic. | Total number of paying visitors per year.  | 80,000             | 69,706      | The domestic market numbers were down slightly due to lack of wet weather days during peak holiday times. The target of 80,000 was set using unsustainable growth assumptions and will be reviewed in the Long-term Plan 2015.                         | • |
|  | Average spend per paying visitor.  | \$14               | \$25.86     | This is directly related to the success within the retail sector of the Museum; both the shop and the café.  |   |

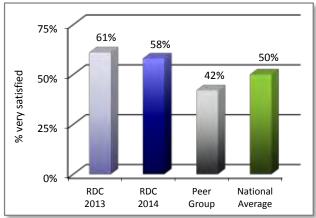

<sup>\*</sup> National Research Bureau survey – a phone survey of 400 residents undertaken annually.

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### **Overview**

The Infrastructure Services area covers a wide range of asset-based services and facilities.

This area is important for enabling business development in the district – directly through provision of key infrastructure, and also in supporting planning and consenting processes.

Council spends a significant portion of its operating and capital expenditure budgets on these activities, which include:

- Aquatic Facilities
- Infrastructure Planning and Compliance
- Parks and Open Spaces
- Rotorua International Airport
- Stormwater and Land Drainage
- Transport
- Waste Management
- Water supplies

The Infrastructure Services area provides many of the key services traditionally associated with councils, such as water, sewerage, roads, parks and refuse collection. To provide these services council owns and manages many large and complex assets on behalf of the community.

Some of the services provided are recognised as very important to the community and would not be provided to the level expected without council's contribution and involvement.

### What we do

### **Aquatic Facilities**

The Rotorua Aquatic Centre is open seven days per week from 6am to 9pm and operates 364 days per year. It is a Pool Safe accredited facility.

The facilities hold Enviro Gold accreditation and five star Qualmark certification from Tourism New Zealand's official quality agency. The aquatic centre is also a member of the Rotorua Sustainable Charter Incorporated.

### **Recreational and Sporting opportunities**

The centre is one of many major aquatic facilities based in the central North Island and caters for local, regional and national aquatic sports, and provides recreational, health, fitness and leisure programmes and services. Sporting and physical activity opportunities include recreational programmes such as aqua jogging and aerobic classes, aqua mums, Green Team holiday programme and Flippa Ball (mini water polo). Other activities include swimming, water polo, canoe polo, outrigging (waka ama), underwater hockey, 'learn to swim' programmes, playground and inflatable fun, volleyball and onsite cardio studio.

### **Water Safety Education**

The centre offers Learn to Swim programmes targeting all age groups, Unison Lake Safety Programme (major sponsor Unison Networks Limited), Rangatahi Lifeguard Award, Go4it Schools Swimming Initiative in conjunction with Water Safety New Zealand, Outrigging (Waka Ama), Central North Island Lifeguard Competition, Boat Safety in conjunction with Rotorua

Coastguard, Swim for Life Campaign, pre-entry Police swim testing, training and assessment.

### **Health and Community Wellbeing**

The centre offers a variety of programmes and events throughout the year which cater for children, schools, teenagers, adults, parents and seniors. Programmes and events include children's holiday programmes, whanau days, 'heart stopper challenge', 'give it a go' day, ladies nights and a women's expo. The centre also supports a number of community initiatives including Salvation Army food bank appeal, SPCA, Bay Trust Rescue Helicopter, Keep Rotorua Beautiful, 'Learn to Swim' Scholarships (which include a partnership with Ngati Whakaue Education Endowment Trust Board) as well as assistance in many other community fundraising events. The cardio studio contributes to healthy living by offering a range of cardio vascular equipment for building fitness, rehabilitation and weight management.

### Why we do it

- To promote a fun, safe, healthy and active lifestyle to the local community at an affordable cost through a range of aquatic leisure and recreational opportunities.
- To develop strategic community partnerships with swimming and sporting groups, recreation and health professionals, government agencies and private sector organisations.

### The year's highlights and achievements included:

- **Visitor admissions** 364,105 total admissions; 12% above the annual target.
- **Learn to Swim** An average of 11,057 students enrolled by term in learn to swim programmes.
- New Zealand Water Safety Secured \$45,000 delivery contract from New Zealand Water Safety to teach Rotorua kids to swim 200m
- Energy reduction Total energy consumption reduced by 6.3% or 89,498 kWh on the previous year
- National Award Swimsation Franchise National Award Winner 2013 best swim school
- City Award Keep Rotorua Beautiful Awards Certificate of Appreciation 2013 winner

### Variance from budget

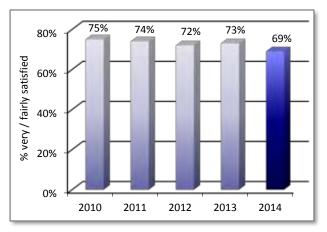

- Operating: Long-term Plan income included revenue from a proposed health spa which did not go ahead. Annual Plan 2013/14 income was exceeded due to strong admission revenue, improved value-added activities, services and products provided to customers which in turn is driving repeat business. There was an increase in operational cost for repairs and maintenance due to the ageing state of the facility.
- Capital expenditure: Development of health spa and café as outlined in the Long-term Plan was reviewed by Council during the year and has been deferred as a result.
  - Aquatic Centre renewals amounted to \$170,000 with the balance being deferred.

| Provide water and land based recreational opportunities.                       | 10,500 individuals participate in Learn to Swim School programmes per term. | 10,500             | 11,057      |   | 11,057                  |
| Provide an excellent facility and variety of services in a sustainable manner. | 75% of residents are very/fairly satisfied with the level of service.       | 75%                | 69%         | A further 4% reduction on last year's satisfaction. This is felt to be as a result of deferral of capital development. 30% of respondents to the National Research Bureau survey want a higher spend for aquatic services and facilities.                                   | 73%                     |
| Provide a variety of fun and accessible activities and events.                 | Number of visitors<br>to the aquatic<br>centre per year.                    | 320,000            | 364,105     | An annual increase in visitors to the Aquatic Centre of 13.8%. This may be showing a move towards more people wanting to increase their physical activity.  | 327,670                 |
|  | Percentage of households using/visiting the aquatic centre in a year.       | 65%                | 64%         | Not achieved with the main comments being upgrade of facilities. Funds have been set aside in 2014/15 to undertake investigations into future developments of the Aquatic Centre along with work being undertaken to investigate future potential partnership developments. | 63%                     |

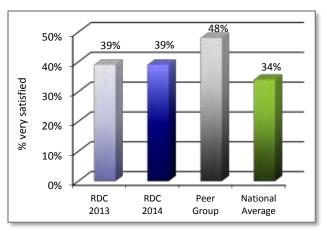

The same percentage of households continue to use the Aquatic Centre; however satisfaction continued to decline. It is believed this is directly attributed to the dated facility and deferral of physical works.

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

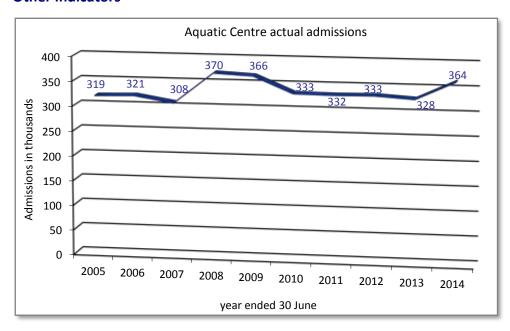

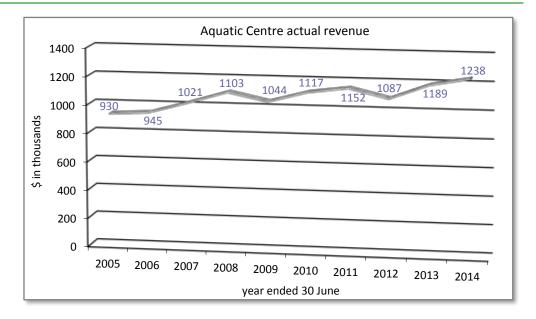

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

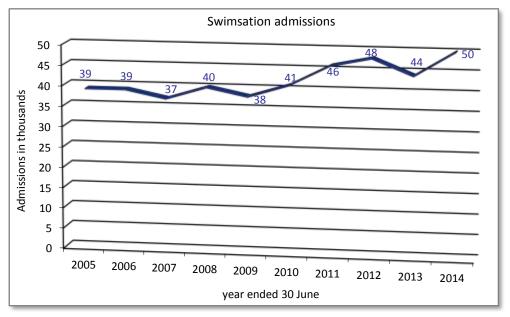

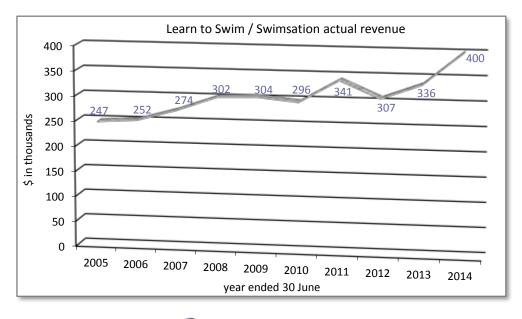

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### Other indicators

### **Engineering Services**

### What we do

Ensure resource consent processes and any consequential effects on Council's infrastructural assets are managed on a sustainable basis, while providing specialist support to Council's engineering services.

### Why we do it

 To monitor strategic policies that may affect council utility operations.

- To identify, prioritise and minimise Council's exposure to risk and ensure that risk analysis is carried out in day-to-day decision-making and practice.
- To provide a trade waste, stormwater, licensing, spill control and road opening administration function for Council.
- To provide land development engineering input to resource consent, building consent, PIM and LIM processes.
- To provide an asset transfer control, engineering standards and engineering audit function.

### Variance from budget

- Operating: Hydrus revenue including internal recoveries is down as engineering unit ceased operations in February 2014. Payments to staff and suppliers variance is due to a reduction in capital expenditure and other activities, as well as to the dis-establishment of Hydrus (design services).
- Capital expenditure: Renewal of laboratory equipment was deferred from 2013/14 year.

#### What we do

#### Open space

The council provides and manages 800 hectares of reserve land (excluding the Tokorangi Forest), 45 kilometres of walkways, 72 playgrounds with 227 individual pieces of play equipment, and 50 hectares of sportsfield land. This open space provides for recreation and organised sport, garden environments and green corridors that contribute to the district's natural form, character and amenity values.

#### Cemeteries/crematorium

The council provides and manages five operational cemeteries and one crematorium to meet the burial and remembrance needs of the community. Cemeteries are located at Rotorua, Mamaku, Reporoa, Ngakuru-Waikite and Kauae. Kauae Cemetery is owned by the Kauae Cemetery Trust with Council being responsible for its maintenance.

### Tokorangi / Whakarewarewa forest parks

Rotorua District Council is responsible for the maintenance of walking and mountainbike trails in the Tokorangi Forest, famous for the magnificent stands of towering Californian Coastal Redwoods. The tracks in the adjacent Whakarewarewa Forest are maintained by volunteer track sponsors.

The council is charged with maintaining and enhancing the landscape, recreational potential and aesthetic value of the forest as a significant backdrop to Rotorua.

#### Urban design / policy development

The Parks and Recreation Department plays a major role in urban design, being responsible for peer review of all subdivision and landscaping plans submitted to council. This department provides a consultation service to other council departments on landscaping, recreational opportunities and optimal utilisation of potential resources.

The department also manages development of strategic documents for parks and recreation activity for the service to be provided within council policy and industry best practice.

#### Nursery

Council operates an in-house nursery to provide a cost-effective supply of quality plants for Council's parks, gardens and displays (indoor and outdoor); environmental improvement and streetscaping projects. The nursery also provides high quality plant material to other local authorities which in turn subsidises the cost of plants used within Rotorua district.

### Why we do it

- To provide an open space network for casual and organised recreation, supporting social, cultural, economic and environmental community wellbeing;
- To contribute to the community's physical, mental and spiritual wellbeing;
- To provide facilities for burial and cremation;
- To protect and enhance ecological and heritage landscape values.

### The year's highlights and achievements included:

- Karenga Park youth space Completed stage 2 construction of Karenga Park youth space in Koutu with playing fields upgrade, seating and barbeque area. Official launch combined with neighbourhood safer communities' launch
- Lake Road landscaping Completed street and adjacent Kuirau Park landscaping associated with Lake Road
  upgrade.
- Redwoods public toilets Completed and officially opened new iconic art-inspired public toilets adjacent to Redwoods Visitor Information Centre.
- Waipa mountain bike carpark public toilets Completed and launched new iconic mountain bike public toilets and shower block at Waipa mountain bike carpark incorporating a unique ride over mountain bike trail.
- Redwoods/Tokorangi Forest Green Flag Accreditation The Redwoods/Tokorangi Forest received the international Green Flag Award for the second consecutive year. Green Flag is the internationally accredited parks benchmark standard which assesses the quality of parks across a number of categories.
- **Conservation revegetation sustainability plantings** Undertook community conservation planting projects alongside the Utuhina and Puarenga Streams at Boord Park and Waipa entrance to Whakarewarewa Forest.

### Variance from budget

- Operating: 2014 actual revenue planned from harvesting Tokorangi forest was due to lower than expected log prices.
   Tree harvesting deferred to 2014/15 financial year.
  - Staffing costs less due to unfilled vacancies held over prior to organisation restructuring programme.
  - Long-term Plan overheads are different to actuals due to a change in allocation methodology used across council.
- Capital expenditure: Kuirau Park building and facilities renewal (\$740,000) deferred awaiting decisions on development options.
  - Playground resurfacing (\$80,000) and other non-urgent renewals all deferred due to Council's review programme. Boatramp navigation lights are now provided by Bay of Plenty Regional Council.
  - Contractor delays resulted in Government Gardens lighting upgrade being carried over from previous year.
  - Lakefront development works deferred pending partnership agreement with Pukeroa Oruawhata and Te Arawa Lakes Trusts.
  - Contractor delays resulted in final payments for Redwoods toilets being carried over from previous year.
  - Blue Lake toilets (\$140,000) and Trout Pool Road toilets (\$35,000) deferred to offset unbudgeted Waipa mountain bike toilets.
  - Development and improvement programme for various reserves deferred.
  - Additional cost incurred for Lake Rotoma walkway reconstruction, Kerosine Creek toilet, Tarawera Landing toilets and new i-Site 24 hour toilet.
  - Contractor delays resulted in final payments for the roof of the toilets at the crematorium being carried over from previous year.

| Level of service   | Performance<br>measure  | Target for 2013/14 | Achievement | Comments   | Achievement for 2012/13      |
| Provide safe parks and reserves.   | 95% of playgrounds<br>comply with<br>Playground Safety<br>Standard<br>(NZS:4828).                     | 95%                | 98.7%       | Council has 78 playgrounds. Following an annual playground audit 1 did not comply due to erosion around the concrete edging of the playground. This has been addressed.  | 98.7%                        |
|  | 100% of all new<br>development on<br>reserves designed<br>to incorporate<br>CPTED principles.         | 100%               | Achieved (  | Two new developments (Kawaha Point playground and Stage 2 Karenga Park). Both had Crime Prevention Through Environmental Design (CPTED) incorporated into their design.  | Achieved (                   |
| Enhance the aesthetic look of Rotorua in terms of quality plantings, bedding displays, interpretation and design and appropriate access. | 95% of residents very/fairly satisfied with the level of service for beautification and landscaping.  | 95%                | 95%         | RDC is still above its peer group (87%) and above the national average of 83%. This is due to the ability of RDC to supply bedding plants direct from its own nursery.   | 96%                          |
| Protecting and enhancing reserves for the enjoyment of all.  | 90% of residents very/fairly satisfied with the level of service for parks, reserves and playgrounds. | 90%                | 88%         | 4% decrease on last year. This is an area where park and reserve maintenance was cut back due to pressure on budgets identified during Council's financial review in December 2013.  | 92%                          |
|  | 85% of households used/visited parks, reserves and playgrounds in last 12 months.                     | 85%                | 90%         | The last year has had favourable seasonal conditions of a longer summer, and milder spring and autumn which has resulted in increased visits.  | 90%                          |
| Provide and maintain facilities for recreational activities.   | 80% of residents are very/fairly satisfied with the level of service for sportsfields.                | 80%                | 82%         | Satisfaction is 6% down on last year as a result of pressure on the budgets which resulted in lower under-sowing of turf.  | 88%                          |
|  | 70% of households have used/visited sportsfields in last 12 months.                                   | 70%                | 70%         | 1% improvement on last year. Favourable seasonal conditions resulted in increased visits/ utilisation.   | 69%                          |
| Provide adequate open space to meet community needs.   | Amount of reserve per 1000 population.  | 12 ha              | 17.1 ha/    | There is a slight reduction here as a result of council selling Apirana Reserve. This 40 ha block had originally been purchased for the development of a cemetery, however unresolvable community opposition to its purpose has resulted in Council selling the site and seeking alternative sites for a cemetery. | 17.3 ha/ (a) 1000 population |
|  | 90% of children's<br>play areas within<br>500m of dwellings in<br>the urban area.                     | 90%                | 97.1%       | 0.5% increase on last year with<br>19,206 dwellings closer than 500<br>metres from a children's play area<br>out of a total of 19,874 dwellings<br>in the urban area.  | 96.6%                        |

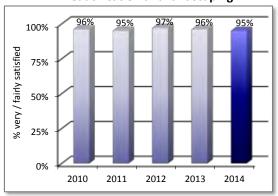

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

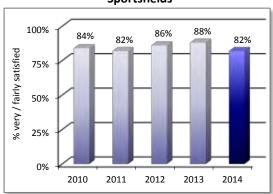

#### Parks and reserves

### Beautification and landscaping

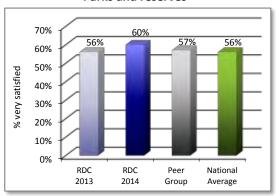

### **Sportsfields**

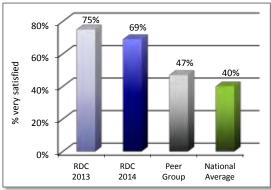

These graphs show the percentage of survey respondents very or fairly satisfied with these services over the last five years.

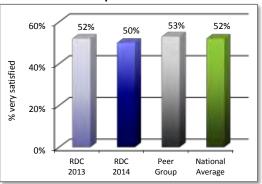

### Parks and reserves

### Beautification and landscaping

### **Sportsfields**

These graphs show the percentage of survey respondents "very" satisfied with these services over the last two years and compares it with our peer group and the national average for 2014.

#### What we do

This activity includes development and management of the roading network including public transport infrastructure, safety programmes, alternative transport modes and long term planning. Roading networks are critical to supporting and developing the economy particularly in Rotorua district where three major economic drivers of forestry, agriculture and tourism are so reliant on efficient transport systems.

Highlights in the Long-term Plan include the Victoria Street Arterial, expansion of the Rotorua Transport Centre and developments within the CBD. The Rotorua Eastern Arterial is an NZTA project but Council will play a significant support role in implementation of this crucial project. The council will:

- Manage, administer, and maintain the local road network, including kerb and channelling, road marking, traffic signals, signage, street furniture, and street lighting.
- Plan, implement and manage improvements to the network.
- Prioritise and manage programme of road safety improvements.
- Provide, maintain and manage infrastructure to support walking, cycling and public transport (by providing and managing bus shelters and bus stops).

- Provide footpath and verge maintenance and construction in both urban and rural areas.
- Provide an ongoing programme of seal extension in the rural areas.
- Provide roadside mowing and vegetation control.
- Provide co-ordination, education, resources, support and advice to individuals, community groups and other agencies on road safety and alternatives to private passenger vehicles.
- Provide information and respond to the public on local highway issues.
- Provide local emergency response on highway corridors.
- Provide local area contact for the NZ Transport Agency for highways.
- Provide strategic planning advice.
- Act as delegated highway manager.
- Manage highway maintenance activities within nationally set levels of service.

### Why we do it

- To provide a safe and efficient transport network that supports the district's economy, provides access for utilities and supports facilitation of events and other activities;
- To promote road safety and encourage sustainable forms of travel.

### Variance from budget

- Operating: Variance in subsidies are a result of changes to NZTA subsidised programmes. Overhead allocation methodology in 2013/14 Annual Plan budget and actuals was different from the Long-term Plan hence the variance.
- Capital expenditure: There were a number of programmes deferred in the 2013/14 financial year such as rural seal extensions, Maori roadlines and minor safety projects.
  - Passenger Transport Centre was differed as not funded by NZTA. CBD upgrade budgets were removed from Roads and Footpaths as work was done under Economic Development/ICE and CBD projects.
  - Ngongotaha cycleway construction and new bus shelter project carried forward from 2012/13 year. Lake Road reconstruction capital cost transferred from Corporate Property.

### How we performed

Achieved

Not achieved

Not measured

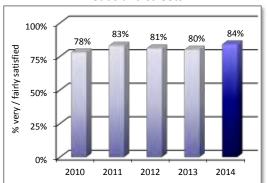

| Level of service  | Performance<br>measure   | Target for 2013/14 | Achievement | Comments  | Achievement for 2012/13 |
|---|--|--------------------|-------------|---|-------------------------|
| Provide a safe roading network.   | Declining trend for injury crashes.                                      | 64                 | 42          | This is a positive result showing that educational road safety programmes, road maintenance and the targeting of black spot areas is having a positive result.  | 67 (2013 target – 65)   |
| Provision of an efficient well maintained roading network.                      | 95% of public bus services run on time.                                  | Achieved           | 87%         | Figure supplied by Bay of Plenty<br>Regional Council.   | 88%                     |
|   | Cumulative road condition indice within 1.5% of national average.        | Achieved           | -0.4%       | Road condition indices measure structural condition of roads. RDC aims to have NZ average condition roads and being an urban authority would expect to be below NZ average. The target of -1.5% means that a very small number of roads fall below average. The 2013/14 results are not available at the time of final audit, therefore 2012/13 results have been used. | -0.36% (2011/12 result) |
|   | 80% of residents are very/fairly satisfied with the roading network.     | 80%                | 84%         | This is measured through the National Research Bureau survey 2014.*   | 80%                     |
| Provide good utilisation of public parking.                                     | 70%-90% average parking occupancy during normal business hours.          | 70-90%             | 70-90%      | Surveys completed on demand within target range where measured.   | 70-90%                  |
|   | 65% of residents are very/fairly satisfied with parking in Rotorua city. | 65%                | 83%         | Free two hour parking was introduced into the CBD.  | 68%                     |
| Provide educational and sustainability programmes that support the environment. | 6 educational<br>programmes<br>delivered per year.                       | 6                  | 8           | 8 programmes were delivered which were:  Cycling Speed Alcohol Walking Younger drivers Safer roads and roadsides Older drivers – Agewise NCS Highways   | 9                       |

<sup>\*</sup> National Research Bureau survey – a phone survey of 400 residents undertaken annually.

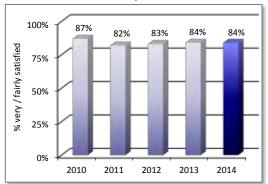

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

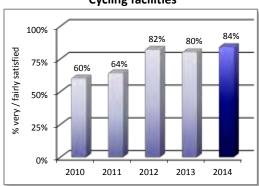

### **Roads and streets**

### **Footpaths**

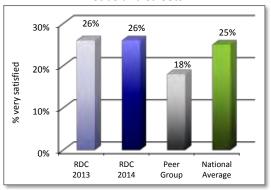

### **Cycling facilities**

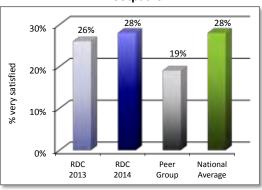

These graphs show the percentage of survey respondents very or fairly satisfied with these services over the last five years.

#### Roads and streets

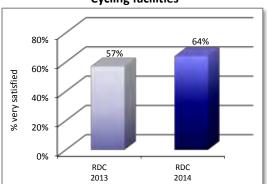

#### Footpaths

These graphs show the percentage of survey respondents "very" satisfied with these services over the last two years and compares it with our peer group and the national average for 2014.

### **Cycling facilities**

This graph show the percentage of survey respondents "very" satisfied with this service over the last two years.

### Rotorua Airport Infrastructure

### What we do

Rotorua District Council owns the assets at Rotorua International Airport and leases them to an operating company, Rotorua Regional Airport limited (RRAL) – a council controlled trading organisation, in accordance with the Local Government Act 2002.

This activity plan is focussed on optimal management of the assets for the overall benefit of the community through their utilisation by the operating company.

### Why we do it

To develop and maintain a domestic and international airport servicing the needs of Rotorua and wider Bay of Plenty residents, with operational capability for direct access to/from key New Zealand and Australian cities.

### Variance from budget

- Operating: Other receipts were optimistic in the Long-term Plan and Annual Plan 2013/14. Annual Plan fees were based on those charged the previous year with a decrease and a margin deducted for collection costs to Rotorua Regional Airport Ltd. There was some overspend on consultants for wetlands consenting and other issues, which was partially offset by insurance. Actual finance costs are based on a lower opening debt position for the airport recalculated in accordance with debt policies and taking advantage of lower interest rates.
- Capital expenditure: Overall savings from deferred capital programmes and property purchases. Noise and wetland mitigation required as condition of airport designation and investigation of suitable site is continuing.

#### What we do

This activity comprises the collection, treatment and disposal of sewage from toilets and drains, from the three urban areas of Rotorua (Ngongotaha, city and eastern suburbs) as well as identified rural lakeside communities.

### Functions required for the provision of these services include:

- Strategic planning and improvement of sewerage networks to provide for growth within the district.
- Planning and implementation of renewal work to ensure infrastructure is maintained.
- Developing maintenance, levels of service and quality standards.
- Management and maintenance of assets and services including monitoring of flow and sewerage treatment effluent quality.
- Developing emergency and contingency plans to ensure the service is maintained during adverse events.

- Educating and informing the public regarding sewage services and sewerage systems.
- Developing funding policies and systems to enable continuing provision of the service into the future.

### Rotorua's key wastewater assets are summarised as follows:

- 1 central wastewater treatment plant
- 1 composting plant
- 1 land effluent disposal system
- 68 pumping stations
- 7,270 manholes
- 418km of sewer gravity and rising mains
- 20,300 lateral connections

### Why we do it

To provide for the removal of sewage and liquid trade wastes from communities, to promote public health and minimise the impact of communities on the environment.

2012/13

2013/14

### The year's highlights and achievements included:

- Wastewater treatment and disposal system resource consent conditions variation Council successfully
  applied to the Bay of Plenty Regional Council for variations to the consent conditions which will make it possible
  to consistently achieve full compliance for the remainder of the term of this consent.
- Alternative effluent disposal system consultation and investigation A project steering committee was set up to progress this project, and an agreement signed with the current landowners (CNI lwi Holdings Ltd) enabling the continuation of existing disposal whilst progressing an alternative system outside the current land area.
- **Rotoma/Rotoiti Sewerage Scheme** A project steering committee and technical advisory group has been set up to evaluate options for the provision of sewerage services for these areas.
- Wastewater Treatment Plant resource consent compliance For the first time in a number of years, full compliance was achieved for all conditions of the resource consent.

### Variance from budget

- Operating: Trade waste income has increased from the Long-term Plan due to programmes to capture use of premises and increased usage.
  - Consultants and legal fees were incurred due to consenting issues and extended consultation on proposed Rotoiti/Rotorua sewerage scheme.
  - Insurance costs have increased significantly over the last two years.
  - Subsidies and grants and lump sum contributions not realised due to delays to the Rotoiti/Rotoma sewerage scheme.
- Capital expenditure: Wastewater Treatment Plant dewatering plant and other renewals were deferred pending possible alternative treatment and disposal system under investigation.
  - Pipeline renewal programme deferred to offset unbudgeted network improvements which included Fenton Park upgrade and CCTV equipment (previously deferred).
  - Waipa mountain bike toilet connection and Waikuta Road extension.
  - Depot Street pump station upgrade work deferred from previous year.
  - Investigation and consultation work for the alternative wastewater disposal system was brought forward two years to start in this year.
  - Progress on the TERAX project was delayed from the original Long-term Plan programme and will now proceed in 2014/15
  - Hamurana sewerage scheme completion was carried over from previous year, plus some extra costs for odour control. Rotoiti/Rotorua sewerage scheme was delayed and Mamaku Sewerage scheme design deferred.
  - Capital expenditure deferrals have not resulted in a significant change to existing levels of service.

| Level of service     | Performance<br>measure                    | Target for 2013/14 | Achieven | nent | Comments  | Achievement for 2012/13   |
| As per previous page | 95% of overflows responded within 1 hour. | 95%                | 100%     |      |   | 97.5%   |
|                      | 100% of consent conditions complied with. | 100%               | 100%     |      | The level of achievement of 100% represents total compliance with management, sampling and discharge requirements for the wastewater treatment plant and compost plant. Previous 1% non-compliance relates to the level of nitrogen in the Waipa Stream, part of which Council has no control over. Council has successfully applied for a variation to the existing consent conditions which will make it possible to consistently achieve 100% in future years. | 99% 1% unable to be achieved as out of Council's control (2013 target – 100%) |

<sup>\*</sup> National Research Bureau survey – a phone survey of 400 residents undertaken annually.

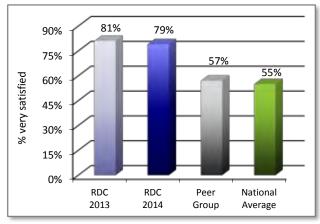

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

#### Wastewater treatment

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### Stormwater and Land Drainage

### What we do

- Maintain stormwater systems to manage drainage of excess rainfall.
- Develop and implement programmes to progressively improve stormwater systems in areas that experience localised flooding, usually resulting from extreme rainfall episodes.
- Manage an integrated approach to planning and maintaining a stormwater system that includes: ecosystems, people, urban design, communities and businesses, as well as cultural, amenity and social values. Regulate property owner responsibilities to utilise public stormwater facilities to assist in the provision of a fully functional stormwater system.

### Why we do it

To manage the drainage of excess rainfall so that property and people are protected from flood damage, and to mitigate the adverse effects of stormwater run-off on the district's lakes and waterways.

### Variance from budget

- Operating: There has been a reduction in work undertaken on the Kaituna scheme due to lack of any significant risk events and BOP Regional Council seeking to outsource less work to council. This has resulted in savings in cost but also reflected in less income received.
  - Long-term Plan overheads are different to actuals due to a different allocation methodology used in the Annual Plan 2013/14.
- Capital expenditure: Several projects initially planned in the Long-term Plan deferred as a result of Council's capital programme review and less funding allocation from NZTA.
  - Catchment 15 project will now take place in 2014/15 year. Work on Susan Street area was delayed and will be tendered in 2014/15 year.
  - NIWA has been engaged for a water quality programme to support Council's application for a comprehensive consent for the Rotorua urban area.

## Stormwater and Land Drainage

<sup>\*</sup> National Research Bureau survey – a phone survey of 400 residents undertaken annually.

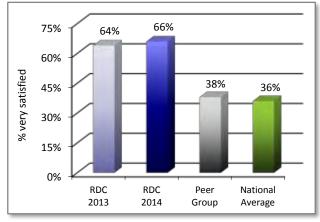

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

### Stormwater

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### What we do

- Refuse collection
- Waste management
- Landfill operation
- Provide a weekly refuse collection service for residential properties.
- Manage and provide recycling and re-use services.
- Plan, provide and manage waste disposal facilities.
- Provide litter collection and management services.
- Provide waste minimisation education to the community.

- Provide and operate transfer stations for rural communities.
- Receive and dispose of domestic hazardous wastes.

### Why we do it

To manage the collection, reduction, re-use, recycling and disposal of waste in an environmentally sustainable manner.

### Variance from budget

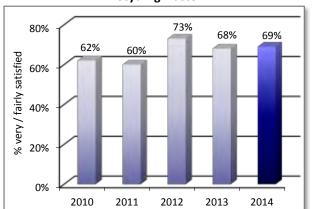

- Operating: Income was significantly lower than estimated in the Long-term Plan due to the lost volume redirected by major users at the transfer station. Several options are currently being investigated to provide the landfill with opportunities to replace or regain the lost volume. Due to delay in the decisions to proceed with the TERAX demonstration plant, there was no MFE funding this year. Maintenance programmes were within budget of the Annual Plan 2013/14.
- Capital expenditure: Cost for TERAX research programme examining suitability of municipal solid waste were higher than the Long-term Plan and updated in the Annual Plan 2013/14. Work to date shows wider range of wastes than originally thought can be processed into useable products. Some savings on capital programmes offset by MFE funding not received.

| Provide sustainable disposal facilities.  | Less than 55,000 tonnes rubbish/ waste landfilled annually.                    | 55,000             | 34,669<br>tonnes | While this seems like a good result, an ongoing issue with competition from other services providers and the reduced utilisation of the landfill is contributing to this result. | 41,911 <b>(a)</b> tonnes                           |
| Provide efficient household waste collection service.                             | 95% of residents very/fairly satisfied with refuse collection service.         | 95%                | 91%              | Reasons for why residents are not satisfied include:  Need for recycling  Not enough rubbish bags  Would like bin/wheelie bins  Dislike paper rubbish bags                       | 94%  |

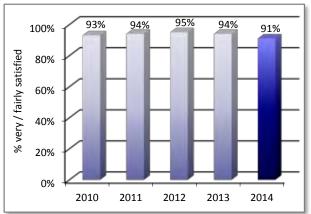

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

### **Recycling waste**

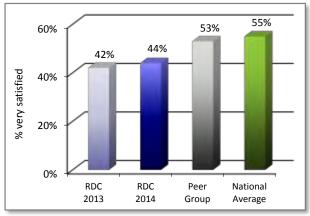

### **Rubbish collection**

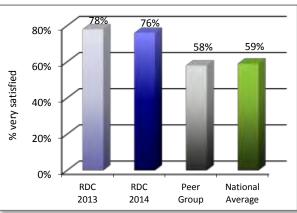

These graphs show the percentage of survey respondents very or fairly satisfied with these services over the last five years.

### **Recycling waste**

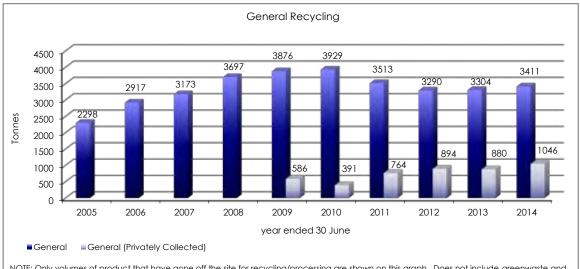

### **Rubbish collection**

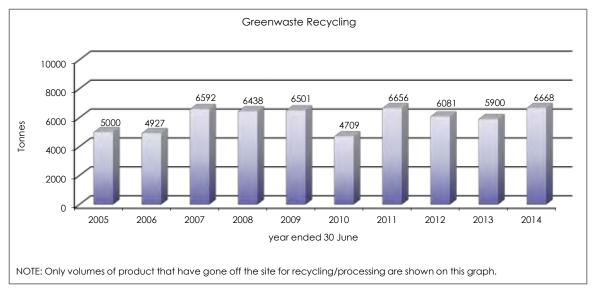

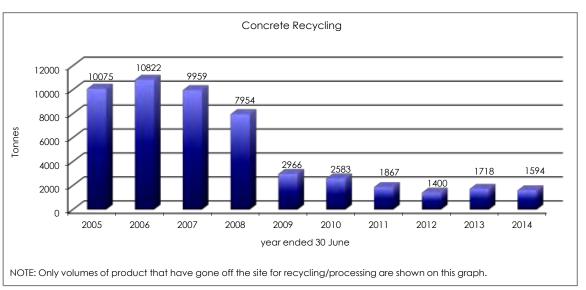

These graphs show the percentage of survey respondents "very" satisfied with these services over the last two years and compares it with our peer group and the national average for 2014.

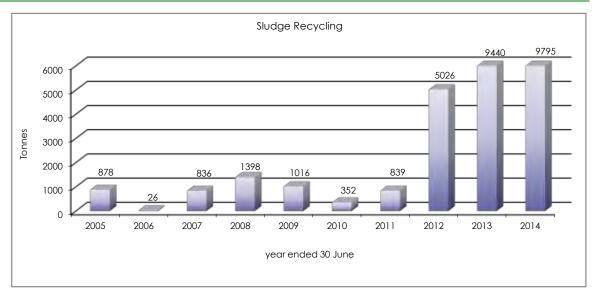

### **Other indicators**

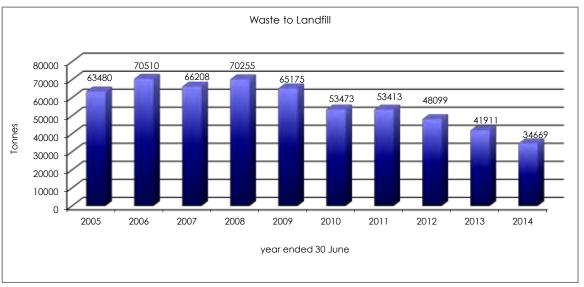

NOTE: Only volumes of product that have gone off the site for recycling/processing are shown on this graph. Does not include greenwaste and concrete. Includes glass, paper, cardboard, aluminium and steel cans, scrap metal, plastics, batteries, e-waste, (does not include material at the 'Urban Ore' store). Private collections data obtained from Waste Management NZ Ltd.

### What we do

The water supplies activity comprises the provision of potable water to three urban supply areas, five rural residential supply areas and two farming supply areas.

#### Functions carried out in providing the service include:

- Strategic planning and improvement of water networks to provide for growth within the district.
- Planning and implementation of renewal work to ensure infrastructure is maintained.
- Developing maintenance planning, levels of service and quality standards.
- Management and maintenance of assets and services including monitoring of pressure, flow and water quality.
- Developing emergency and contingency plans to ensure service is maintained during adverse events.
- Provision of information and education to the public regarding water use and conservation.
- Development of funding policies and systems to enable continuing provision of the service into the future.

### Rotorua's key water supply assets are summarised as follows:

- 9 water sources
- 16 pump stations
- 22 reservoirs
- 24,000 connections
- 688km of pipe work

Council will, in areas where it is cost-effective to do so, provide a supply of drinking water which is "safe." The commercial / industrial sector, including dairy farming, also expects Council (in currently served areas) to ensure there is adequate water provided for these businesses to operate and develop. Council will ensure, through strategies and sound planning, that these services will be available to areas of the district in which growth and development is expected.

The Health Act 1956 (section 23) requires councils to improve, promote and protect public health. Whilst not expressly requiring councils to provide a public water supply, the provision of a safe, potable water supply to dwellings contributes significantly towards this objective.

The Local Government Act 2002 requires councils currently providing public water supplies to continue to do so.

### Why we do it

To provide cost-effective, constant, adequate sustainable and high quality supply of water.

### Variance from budget

- Operating: During the year there was a change in the cost allocation methodology resulting in the variances.
   Savings were made in staffing costs and delaying the backflow preventer installation and monitoring programme.
- Capital expenditure: Ngongotaha alternative source bore investigation work was deferred pending further consultation.

Non-urgent urban network improvement works deferred including backflow preventor installation, rider main additions and Eastern/Central emergency link.

Also deferred was central reservoir storage.

Meter and backflow preventer renewals requirement was greater than budgeted.

Network renewal expenditure was partly deferred to offset additional plant renewals required.

| How we perform  | med  |                    | Achieved        | Not achieved 🏉 Not   | measured              |   |

| Level of service  | Performance<br>measure   | Target for 2013/14 | Achievement     | Comments   | Achieven<br>for 2012/ |   |
| Provide water to<br>households that is<br>safe to drink,<br>sustainable and has<br>adequate pressure<br>and flow. | 100% compliance with<br>the Drinking Water<br>Standards New Zealand<br>monitoring<br>requirements.           | 100%               | 99.8%           | There is a requirement that the maximum elapsed time between water sampling on the city supply is four days. On one of 588 samples this time was exceeded by two days.   | 100%                  | 4 |
|   | Achieve MOH gradings of minimum Cc across all water supplies.  | Achieved           | Not<br>achieved | A Cc rating is the minimum potable water for human consumption based upon the Ministry of Health. Given that many of the Rotorua water supplies come from underground aquifers the quality of water is expected to be much higher than water that is sourced from rivers and needs multiply treatments before it can be considered potable. Technical faults with the treatment monitoring system have delayed the grading review. Currently 8 out of 9 treatment plants should meet the requirements for achieving a C grade or better when gradings are carried out. The remaining one is expected to be eligible for grading in 2016. The distribution zone grades already achieve c or better, apart from two which are designated as ungraded. The current grades as published by the Ministry of Health are detailed below. ** | Not<br>achieved       |   |
|   | Less than 3 per 1000 properties lodge a complaint regarding low pressure during normal operating conditions. | Achieved           | 1.5             |  | 1.6                   |   |

### **Community satisfaction survey**

The graphs below were prepared from the annual Community Satisfaction Survey.

This graph shows the percentage of survey respondents very or fairly satisfied with this service over the last five years.

This graph shows the percentage of survey respondents "very" satisfied with this service over the last two years and compares it with our peer group and the national average for 2014.

### Castlecorp

### **Overview of Castlecorp**

Castlecorp provides infrastructural related services as a service provider to council departments. Council undertakes this activity to meet legislative requirements and community expectations.

Castlecorp is a business unit of Council which generates its income from regularly reviewed contracts and service agreements for in-house service delivery to departments of Council. These services include:

- Refuse collection
- Litter clearance
- Footpath and verge maintenance
- Stormwater system maintenance
- Water supply reticulation maintenance
- Water supply pump stations and reservoir operation and maintenance
- Water supply leak detection, meter reading, and water sampling
- Wastewater reticulation maintenance including forest irrigation
- Cemetery maintenance and operation, and management of crematorium

- Sportsfield and reserve maintenance
- Public garden and horticultural maintenance
- Janitorial Services
- Purchasing and maintenance of small plant and fleet vehicles
- Rural Fire
- Events Management. Assisting before, during and after events (Night Market, Raggamuffin etc).

Castlecorp aims to improve the quality of life of residents and visitors through provision of quality services and the maintenance of essential infrastructure, employing sound business practices based on continuous improvements to match quality and cost effectiveness of the private sector.

Castlecorp not only maintains essential networks of underground services and parks, but also supports the Rotorua community by participating in a wide range of community activities, and developing close working relationships with community organisations. Customer-based strategies and a strong commitment to sustainable operations reflect the values of continuous improvement and value for customers.

### Variance from budget

- Operating: Castlecorp had a large amount of work in progress for completion by 30 June 2014. A number of projects
  were delayed in other council activities and this had an adverse financial impact on Castlecorp resources which were
  not able to be deployed or reduced.
  - Long-term Plan overheads are different to actuals due to a different allocation methodology used in the Annual Plan 2013/14.
- Capital expenditure: the Long-term Plan fleet renewals figure included only capital purchases and excluded fleet sales
  estimate, and the actual renewals include the amount of capital purchases and the proceeds from sale in the
  calculation.
  - Office equipment replacements budgeted were not actually required in 2013/14 financial year.

### Annual report disclosure statement for year ending 30 June 2014

#### What is the purpose of this statement?

The purpose of this statement is to disclose the council's planned financial performance in relation to various benchmarks, to enable an assessment of whether the council is prudently managing its revenues, expenses, assets, liabilities and general financial dealings. The council is required to include this statement in its Annual Report in accordance with Local Government (Financial Reporting and Prudence) Regulations 2014 (the regulations). Refer to the regulations for more information, including definitions of some of the terms used in this statement. Note that this year is a transitional year under the new regulations.

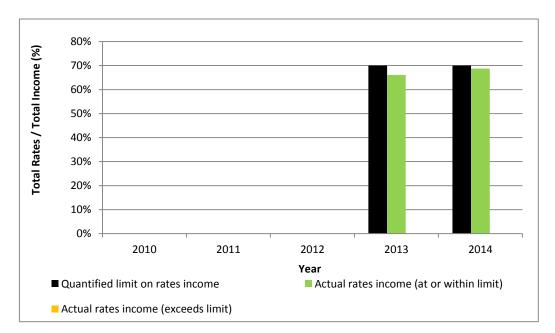

### Rates affordability benchmark

The council meets the rates affordability benchmark if:

- its actual rates income equals or is less than each quantified limit on rates; and
- its actual rates increases equal or are less than each quantified limit on rates increases.

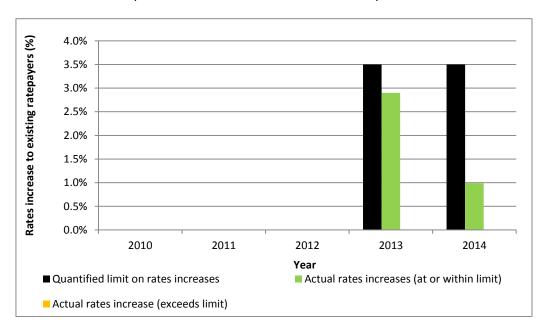

#### Rates (income) affordability

The following graph compares the council's actual rates income with a quantified limit on rates contained in the financial strategy, included in the Long-term Plan. The quantified limit is that council will limit total rates as a proportion of total revenue to less than 70%.

#### Rates (increases) affordability

The following graph compares the council's actual rates increases with a quantified limit on rates increases included in the financial strategy included in the Long-term Plan 2012-2022. The quantified limit stated is that rates increases are limited to no more than 3.5% for years 1-3 and no more than 2% above CPI in years 4-10.

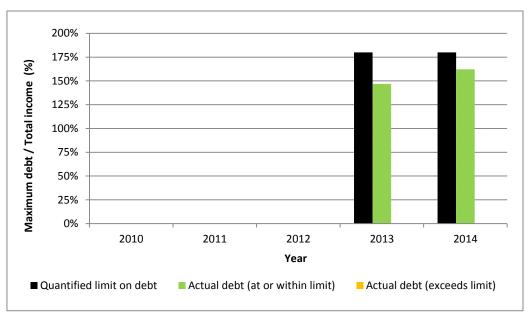

### **Debt affordability benchmark**

The council meets the debt affordability benchmark if its actual borrowing is within each quantified limit on borrowing. The six quantified limits are that:

- Council's debt is not to exceed 180% of total revenue.
- Gross interest expense of all borrowings will not exceed 15% of total annual revenue.
- Net cash flows from operating activities are to exceed gross annual interest expense by a multiple of at least 2.
- Maximum debt not to exceed 20% of total assets.
- No more than \$60 million or 50% of existing external borrowing (whichever is greater) is subject to refinancing in any financial year.
- Gross interest expense of all borrowings will not exceed 20% of total rates annual revenue.

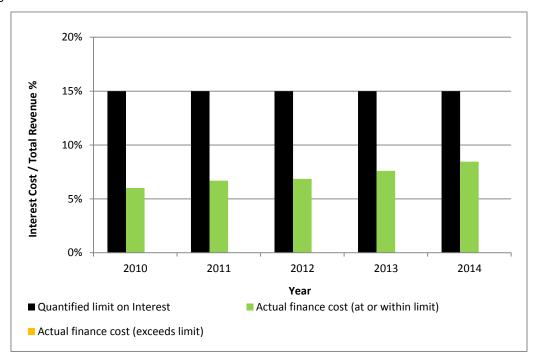

#### Council's debt is not to exceed 180% of total revenue

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that council's debt is not to exceed 180% of total revenue.

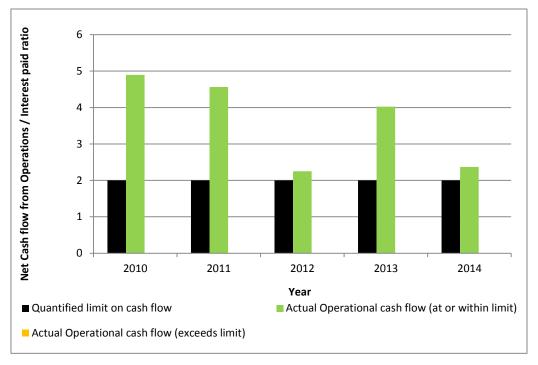

#### Gross interest expense of all borrowings will not exceed 15% of total annual revenue

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that gross interest expense of all borrowings will not exceed 15% of total annual revenue.

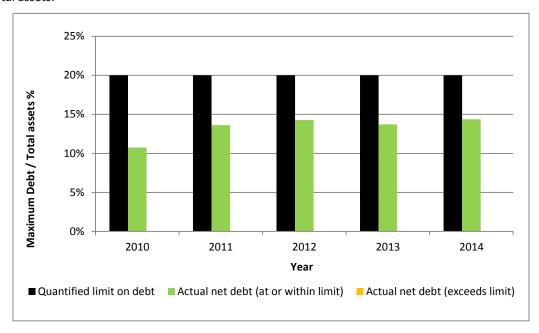

### Net cash flows from operating activities are to exceed gross annual interest expense by a multiple of at least 2

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that net cash flows from operating activities are to exceed gross annual interest expense by a multiple of at least 2.

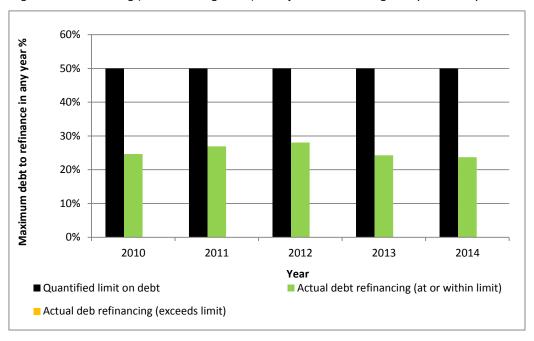

### Maximum debt not to exceed 20% of total assets

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that maximum debt not to exceed 20% of total assets.

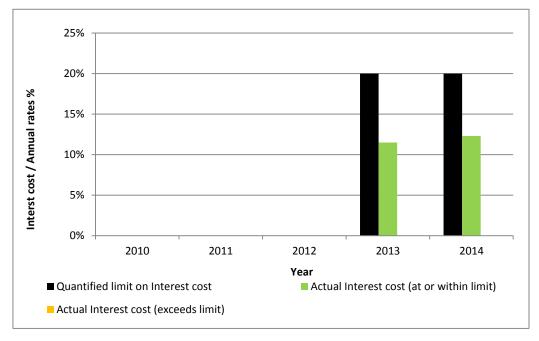

# No more than \$60 million or 50% of existing external borrowing (whichever is greater) is subject to refinancing in any financial year

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that no more than \$60 million or 50% of existing external borrowing (whichever is greater) is subject to refinancing in any financial year.

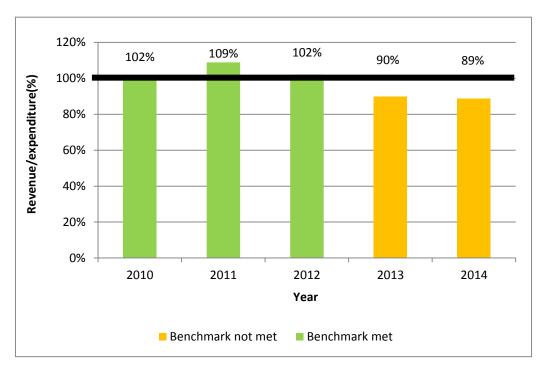

### Gross interest expense of all borrowings will not exceed 20% of total rates annual revenue

The following graph compares the council's actual borrowing with a quantified limit on borrowing stated in the financial strategy included in the council's Long-term Plan. The quantified limit is that gross interest expense of all borrowings will not exceed 20% of total rates annual revenue.

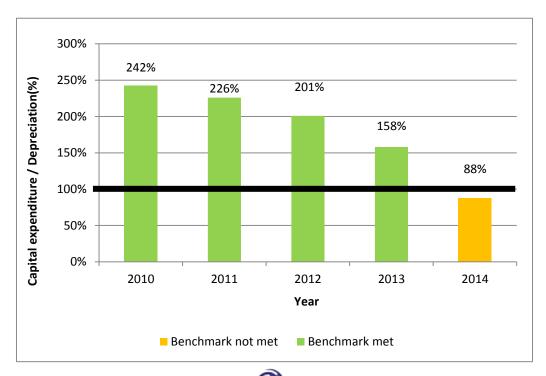

### **Balanced budget benchmark**

The following graph displays the council's revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluations of property, plant, or equipment) as a proportion of operating expenses (excluding losses on derivative financial instruments and revaluations of property, plant, or equipment). The council meets this benchmark if its revenue equals or is greater than its operating expenses.

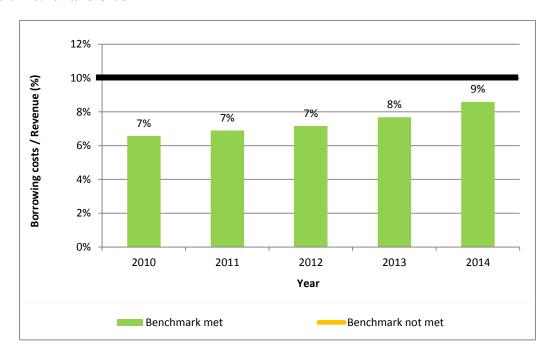

### **Essential services benchmark**

The following graph displays the council's capital expenditure on network services as a proportion of depreciation on network services. The council meets this benchmark if its capital expenditure on network services equals or is greater than depreciation on network services.

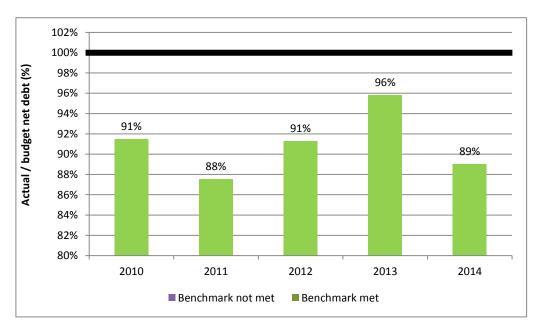

### **Debt servicing benchmark**

The following graph displays the council's borrowing costs as a proportion of revenue (excluding development contributions, financial contributions, vested assets, gains on derivative financial instruments, and revaluation of property, plant or equipment). Because Statistics New Zealand projects that the district's population will grow at or lower than the national population growth rate, it meets the debt servicing benchmark if its borrowing costs equal or are less than 10% of its revenue.

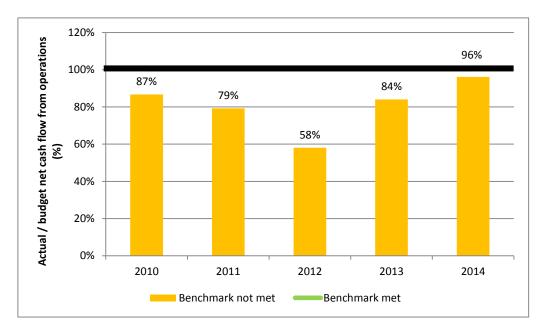

### **Debt control benchmark**

The following graph displays the council's actual net debt as a proportion of planned net debt. In this statement, net debt means financial liabilities less financial assets (excluding trade and other receivables). The council meets the debt control benchmark if its actual net debt equals or is less than its planned net debt.

### **Operations control benchmark**

This graph displays the council's actual net cash flow from operations as a proportion of its planned net cash flow from operations. The council meets the operations control benchmark if its actual net cash flow from operations equals or is greater than its planned net cash flow from operations.

### Rotorua Regional Airport Limited

### **Overview**

Rotorua Regional Airport Limited (RRAL) is a limited liability company which trades as Rotorua International Airport. RRAL is fully owned by the Rotorua District Council and is a Council Controlled Trading Organisation as defined under section 6 of the Local Government Act 2002.

Airport operations are managed by a chief executive reporting to the company's board of directors

### Management and governance

The following Directors held office as at 30 June 2014:

|                              | Date of     |
|------------------------------|-------------|
|                              | appointment |
| Raymond Noel Cook (Chairman) | 10/12/2002  |
| Wiremu Atetini Kingi         | 10/12/2002  |
| Stuart Alan Crosby           | 22/12/2010  |
| Peter Stubbs                 | 01/06/2014  |

The following Directors resigned during the year:

|                     | Date of     |  |
|---------------------|-------------|--|
|                     | resignation |  |
| Kevin Allen Winters | 14/10/2013  |  |
| Raymond John Sayer  | 17/03/2014  |  |

### 2013/2014 Summary

### **Total revenue**

Total revenue was down \$60,997 (2.5%) when compared to the Statement of Intent (SOI) budget. The 2.5% reduction in revenue was largely driven by a 16% reduction in Rotorua-Sydney capacity and the consequent 17% reduction in international passengers, with the company proactively working with Air New Zealand to cancel poorly performing

winter flights in order to reduce the subsidy paid on these flights. These cancellations have saved Rotorua District Council \$350,000 in subsidy payments. The decision to cancel these flights was only made after the finalisation of the SOI and consequently not incorporated within its revenue targets.

Overall domestic passengers were slightly higher (2.3%) when compared to the budget, largely driven off strong results on Auckland-Rotorua with passengers on this sector up 15% on the prior year. International and domestic numbers are the key driver of the airport's revenue with a direct correlation between them and landing charges revenue, development levy revenue, retail revenue shares and car parking revenue.

### **Total expenses**

2014 target

Actual expenses increased by \$193,032 or 8% when compared to the SOI budget. This large increase was mainly due to tree trimming and removal costs arising out of the five-yearly flight path obstruction survey (\$200,000) together with the company paying the full costs of runway insurance (\$90,000) whereas previously these costs had been paid by Rotorua District Council. When the SOI was completed, it was based on the understanding that Rotorua District Council, as the owner of the airport's infrastructural assets, would be paying for these costs as they had historically, and as such these costs were not included in the company's forecast. However, as these costs are operational expenses, the company has agreed to pay for these in the 2014 and future financial years. Looking forward, the company expects future tree trimming and insurance costs to be significantly lower than this financial year now that the company has full accountability over these costs.

### Terax 2013 Ltd and Terax Limited Partnership

Rotorua District Council (RDC) and the New Zealand Forest Research Institute Ltd (Scion) have created Terax Limited Partnership (the Partnership) and Terax 2013 Ltd (the Company).

The Partnership has been formed under the Limited Partnership Act with RDC and Scion as Limited Partners and providing investment funding (the Investors).

The purpose of the Partnership is to commercialise the TERAX $^{\text{TM}}$  organic waste treatment process and thereby generate returns to its investors.

The process destroys sewage treatment plant sludge and other organic wastes that are typically landfilled. It combines hydrothermal and biological processing to break down complex organic materials into simpler molecules. The consequence of this process is elimination of the organic solids content of the feed material. RDC and Scion have both invested in maturing this process targeting specific application to urban waste water treatment and have formed an Unincorporated Joint Venture for this purpose. The Joint Venture was successful in attracting grants from the Ministry for the Environment Waste Management Fund to evaluate the process at pilot plant level. This work has been successful and the potential for commercial application identified for application to the RDC Waste Water Treatment Plant and the much wider application of treating municipal waste streams both in New Zealand and internationally.

# Rotorua District Council Holdings Limited

In 2010 council established a holding company, Rotorua District Council Holdings Limited, to be used as an umbrella for a range of commercial activities that were identified at the time, such as attracting inward investment and wealth creation, CBD revitalisation and lakefront development, energy and geothermal use, Waste 2 Gold, airport capital expenditure funding, and property development. Rotorua District Council has 100% shareholding in Rotorua District Council Holdings Ltd. As at 30 June

2014 the holding company had not traded. As the holding company has not operated, and there are no indications that it will commence operations in the short term. Council have supported an exemption for a period of three years commencing 2013/14. This is in accordance with section 7 Local Government Act 2002. The company has been registered on the companies register as a non-trading company.

### **Local Authority Shared Services Limited**

The Local Authority Shared Services Ltd (LASS) was incorporated in December 2005. The LASS was established as a Control Controlled Organisation under the Local Government Act for the 13 Waikato/Rotorua councils. Rotorua District Council has an approximately 7% shareholding in the company.

Over the period the company has been operating benefits have been delivered in the form of:

- Improved level and quality of service
- Coordinated approach to the provision of services
- Reductions in the cost of services
- Opportunity to develop new initiatives
- Opportunity for all councils irrespective of location or size to benefit from joint initiatives
- Leverage provided from economies of scale resulting from a single entity representing councils leveraging procurement opportunities

At this stage these gains have been realised by shareholders in the Shared Valuation Data Service (SVDS), the Waikato Regional transport model (WRTM), and through joint procurement contracts.

The ability of LASS to contribute to a greater extent in terms of shared services and also at a strategic

collaboration level has been the subject of discussion and agreement through the Waikato Mayoral Forum.

The Directors have been tasked with identifying ways to progress these initiatives. This will involve resourcing and funding a range of initiatives that will potentially extend the services currently offered by LASS. The LASS Directors will continue to seek any new opportunities, either from internal investigations, or shareholder initiatives that are presented to it with a sound business case.

New services that are intended to be initiated under the LASS umbrella will only be adopted where a business case shows that they provide some form of benefit to the shareholders. The benefits that may be gained include development of intellectual property through new business services, protection of Council data, improved levels of service and/or reduced cost. All such proposals will be presented to the Shareholders for approval prior to implementation.

The following performance measures were incorporated into the Statement of Intent for the 2013/14 financial year.

### Performance measure

The company will carry out an annual survey of shareholders to assist Directors in developing improvements on behalf of the shareholders, and to receive a majority of shareholder approval on the service provided.

### **Actual outcome**

Annual survey of shareholders was completed in January 2014 with nine of the twelve shareholder Councils responding. Nine Councils responded that the concept of LASS was still delivering benefits to their council. Two Councils responded that they were satisfied with the efforts being made by LASS to advance shared services opportunities and seven were fairly satisfied. The comments were made that achievements are constrained by fundamental challenges, and that more benefits could be seen with a more dedicated resource.

Administration expenditure shall not exceed that budgeted by more than 5% unless prior approval is obtained from the Directors.

Achieved, actual expenditure was \$10,306 unfavourable to budget (-4.8%).

# **Local Authority Shared Services Limited**

| Performance measure  | Actual outcome  |
|--|---|
| The company maintains an overall positive cash flow position.  | Not achieved this year as cash flow was intentionally operated at a negative level in order to use up prior year surpluses. The Company still maintains a safe cash position with the cash, cash equivalents and bank accounts balances at the end of June 2014 being \$442,598.  |
| The Board will provide a written report on the business operations and financial position of the LASS as a minimum on a six monthly basis.   | Six monthly reports have been sent to shareholders.   |
| There will be an annual report to directors that all statutory requirements of the LASS are being adhered to.  | All parties have confirmed that there were no legislative breaches during the year and this will be reported to the LASS Board at the September meeting when the Annual Report is presented.  |
| That SVDS is available to users at least 99% of normal working hours.  | SVDS was available 100% of working hours.   |
| That at least 98% of agreed timelines are met for sale and property files that have been delivered to the FTP server for access to customers.  | 100% of Sales and Property files were supplied to Property IQ on time.  |
| All Capital SVDS enhancement work is supported by a business case approved by the Advisory Group.  | Not applicable this year as only minor work items of \$5,000 or less have been undertaken as per the road map approved by the advisory group.   |
| That all required WRTM modelling reports are actioned within the required timeframe.   | All WRTM modelling reports were completed within specified timeframes.  |
| That the base model adheres to "Screenline Validation<br>Standards" as set out in the NZTA Economic Evaluation<br>Manual as indicated by an external independent peer review.          | No peer review has been undertaken in the current year (the last report from the peer reviewer was in October 2013 which stated that the model continues to meet all the set out criteria). As a result of the census, an update to the model is being undertaken and an independent reviewer is involved in this process. An independent review will be completed in October 2014. |
| That a full report on progress of the WRTM model be provided to the LASS Board twice each year.  | Reports were provided at the LASS Board meetings in January and May 2014.   |
| The key performance indicators from appendix 4 of the insurance brokerage contract are met.  | This target has been achieved.  |
| That any joint procurement projects deliver as per project approved objectives.  | LASS joint procurement satisfactorily completed for computer generated print, mail and E-Services for rates, accessing online economic profile data, and postal and courier services.   |
| In response to requests from shareholders, the Company will provide regular reports and updates to the Waikato Mayoral Forum group regarding progress with shared service initiatives. | Updates are provided at all Mayoral Forums, the most recent being June 2014.  |

# Bay of Plenty Local Authority Shared Services Limited

Rotorua District Council is also a one-eighth shareholder in Bay of Plenty Local Authority Shared Services Ltd (BOP LASS). BOP LASS was incorporated during 2007/08 and the following performance indicators were included in its Statement of Intent for 2013/14.

| Target   | Result            | Narration  |
|--|-------------------|--|
| Successfully implement two of the identified Shared Service projects within a 12 month period.   | Not achieved      | Inter-council network security standards and protocols developed and established.  Development of shared IT hosting infrastructure completed within external datacentre.  Following a strategic review in late 2013, the BOPLASS Board advised in the 2014 Half Yearly Report that BOPLASS strategy had been reset and the shared services target for 2013/14 would not be applicable or   |
| Investigate a minimum of four Joint Procurement or Shared Services initiatives per year for goods and services from sources offering best value, service, continuity of supply and/or continued opportunities for integration. | Achieved          | Infrastructure insurance options investigated and new contracts established for participating councils.  Joint Media Monitoring contract implemented and shared portal developed.  Radio telephony procurement and regional strategy initiated.  Travel and accommodation services procurement initiated.  Document back scanning services investigated and establishment of a BOPLASS service evaluated.  High volume print and mail services procurement initiated.  Additional GIS software joint procurement opportunities investigated.  Antivirus alternatives investigated.  Agenda Management software provider appointed.  Database monitoring procurement investigated.  Aerial drones procurement and capabilities under investigation.  Shared licence management server developed to support joint procurement of current and future software licences. |
| Manage and/or renegotiate existing contracts ensuring appointed vendors remain competitive and continued best value is returned to shareholders.   | Achieved          | Telecommunications contract tendered with further discounts negotiated.  Postal services contract renegotiated.  ESRI and contract renegotiated and renewed.  Further N3 contract discounts negotiated.  New aerial photography contract investigated.  Fuel contract reviewed and alternative proposed to councils.  Improved pricing and standardisation through an enterprise objective document management contract investigated.  Video conference services renewal options investigated.   |
| Perform self assessment reviews of governance.  Communicate with each shareholding council at appropriate levels with at least one meeting with each Leadership Team per year.   | Achieved Achieved | Strategic reviews and facilitated workshops completed by the Board.  Meetings held with councils.  |
| Ensure sufficient income is available from activities to sustain a viable company.   | Achieved          | Council contributions levied, activity groups levied, contributions received from activities producing savings.  Non-voting shares issued to improve equity ratios.  |

Explanations of major variances against budget are provided in note 35

The accompanying notes should be read in conjunction with these financial statements.

Following a review of the 2012/13 Statement of Cashflows, a classification issue was noted between operating and investing activities of \$6 million. These figures have been restated this year to provide better comparative information with the 2013/14 Statement of Cashflows. The net impact on the cash and cash equivalents is nil.

for the year ended 30 June 2014

### 1: Statement of accounting policies

### **Reporting Entity**

Rotorua District Council is a territorial local authority governed by the Local Government Act 2002 and is domiciled in New Zealand.

The Rotorua District Council group (Group) consists of the ultimate parent, Rotorua District Council (Council) and its subsidaries Rotorua Regional Airport Limited (100% owned), Grow Rotorua Limited (100% owned), and jointly controlled entities Terax 2013 Limited (50% owned) and Terax Limited Partnership (50% owned). The Councils subsidiaries and jointly controlled entities are incorporated and domiciled in New Zealand.

The primary objective of the Rotorua District Council is to provide goods or services for the community or social benefit rather than making a financial return. Accordingly, the council has designated itself and the Group as public benefit entities for the purposes of New Zealand equivalents to International Financial Reporting Standards (NZ IFRS).

The financial statements of Rotorua District Council are for the year ended 30 June 2014. The financial statements were authorised for issue by Council on 5 November 2014.

### **Basis of preparation**

### **Statement of Compliance**

The financial statements of the Rotorua District Council and Group have been prepared in accordance with the requirements of the Local Government Act 2002 which includes the requirement to comply with New Zealand generally accepted accounting practice (NZ GAAP).

These financial statements have been prepared in accordance with NZ GAAP. They comply with NZ IFRS, and other applicable Financial Reporting Standards, as appropriate for public benefit entities.

### **Measurement Base**

The financial statements have been prepared on an historical cost basis, modified by the revaluation of land and buildings, certain infrastructural assets, collections, biological assets and certain financial instruments (including derivative instruments).

### **Functional and presentation currency**

The financial statements are presented in New Zealand dollars and all values are rounded to the nearest thousand dollars (\$000). The functional currency of Rotorua District Council and Group is New Zealand dollars.

### Changes in accounting policies

There have been no changes in accounting policies during the financial year.

# Standards, amendments, and interpretations issued that are not yet effective and have and not been early adopted

The Minister of Commerce has approved a new Accounting Standards Framework (incorporating a Tier Strategy) developed by the External Reporting Board (XRB). Under this Accounting Standards Framework, the Council is classified as a Tier 1 reporting entity and it will be required to apply full Public Benefit Entity Accounting Standards (PAS). The effective date for the new standards for public sector entities is for reporting periods beginning on or after 1 July 2014. Therefore, Council will transition to the new standards in preparing its 30 June 2015 financial statements.

The Council has not assessed the implications of the new accounting standards framework at this time.

### **Significant Accounting Policies**

### **Basis of Consolidation**

The consolidated financial statements are prepared by adding together like items of assets, liabilities, equity, and income and expenses on a line-by-line basis. All significant intragroup balances, transactions, income and expenses are eliminated on consolidation.

### Subsidiaries

Rotorua District Council consolidates as subsidiaries in the group financial statements all entities where Rotorua District Council has the capacity to control their financing and operating policies so as to obtain benefits from the activities of the entity. This power exists where Rotorua District Council controls the majority voting power on the governing body or where

### for the year ended 30 June 2014

such policies have been irreversibly predetermined of such policies is unable to materially impact the level of potential ownership benefits that arise from the activities of the subsidiary.

Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The consideration transferred in an acquisition of a subsidiary reflects the fair value of the assets transferred by the acquirer and liabilities incurred by the acquirer to the former owner.

The Council will recognised goodwill where there is an excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed. This difference reflects the goodwill be recognised by the Council. If the consideration transferred is lower than the net fair value of the Council's interest in the identifiable assets acquired and liabilities assumed, the difference will be recognised immediately in the surplus or deficit.

### **Associates**

The council accounts for investments in associates using the equity method. An associate is an entity over which the council has significant influence and that is neither a subsidiary nor an interest in a joint venture. The investment in the associate is initially recognised at cost and the carrying amount in the group's financial statements is increased or decreased to recognise the groups share of the surplus or deficit of the associate after the date of acquisition. Distributions received from an associate reduce the carrying amount of the investment.

If the share of deficits of an associate equals or exceeds its interest in the associate, the group discontinues recognising its share of further deficits. After the groups interest is reduced to zero, additional deficits are provided for, and a liability is recognised, only to the extent that the council has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports surpluses, the group will resume recognising its share of those surpluses only after its share of the surpluses equals the share of deficits not recognised.

Where the group transacts with an associate, surplus or deficits are eliminated to the extent of the groups interest in the relevant associate.

Dilutions gains or losses arising from investments in associates are recognised in the surplus or deficit.

The investments in the associates is carried at cost in the council's parent entity financial statements.

### Joint Venture

A joint venture is a contractual arrangement whereby two or more parties undertake an economic activity that is subject to joint control. For jointly controlled entities, the Council and group recognises in its financial statements the assets it controls, the liabilities and expenses it incurs, and the share of income that it earns from the joint venture using the proportionate consolidation method.

#### Revenue

Revenue is measured at the fair value of consideration received or receivable.

#### Rates revenue

Rates are set annually by a resolution from Council and relate to a financial year. All ratepayers are invoiced within the financial year to which the rates have been set. Rates revenue is recognised when payable.

Rates collected on behalf of Bay of Plenty Regional Council (BOPRC) are not recognised in the financial statements as Rotorua District Council is acting as an agent for BOPRC.

Revenue from water rates by meter is recognised on an accrual basis. Unbilled usage, as a result of unread meters at year end, is accrued on an average usage basis.

### Government grants

Government grants are received from the New Zealand Land Transport Agency, which subsidises part of the costs in maintaining the local roading infrastructure. The subsidies are recognised as revenue upon entitlement as conditions pertaining to eligible expenditure have been fulfilled.

### Provision of services

Revenue from the rendering of services is recognised by reference to the stage of completion of the transaction at balance date, based on the actual

### for the year ended 30 June 2014

service provided as a percentage of the total services to be provided.

#### Vested assets

Where a physical asset is acquired for nil or nominal consideration, the fair value of the asset received is recognised as revenue. Assets vested in the council are recognised as revenue when control over the asset is obtained.

### Sale of goods

Sales of goods are recognised when a product is sold to the customer.

### Traffic and parking infringements

Revenue from traffic and parking infringements are recognised when payment of the ticket is received.

### Interest and dividends

Interest income is recognised using the effective interest method. Interest on an impaired financial asset is recognised using the original effective interest rate.

Dividends are recognised when the right to receive payment has been established.

### Development contributions

Development and financial contributions are recognised as revenue when the council provides, or is able to provide, the service for which the contribution was charged. Otherwise development and financial contributions are recognised as liabilities until such time the council provides, or is able to provide, the service

Development contributions are classified as part of "Other Revenue".

### **Construction contracts**

Contract revenue and contract costs are recognised as revenue and expenses respectively by reference to the stage of completion of the contract at balance date. The stage of completion is measured by reference to the contract costs incurred up to the balance date as a percentage of total estimated costs for each contract.

Contract costs include all costs directly related to specific contracts, costs that are specifically

chargeable to the customer under the terms of the contract and an allocation of overhead expenses incurred in connection with the group's construction activities in general.

An expected loss on construction contracts is recognised immediately as an expense in the surplus or deficit.

Where the outcome of a contract cannot be reliably estimated, contract costs are recognised as an expense as incurred. Where it is probable that the costs will be recovered, revenue is recognised to the extent of costs incurred.

Construction work in progress is stated at the aggregate of contract costs incurred to date plus recognised profits less recognised losses and progress billings. If there are contracts where progress billings exceed the aggregate costs incurred plus profit less losses, the net amounts are presented as a liability.

### **Borrowing costs**

The council and group has elected to defer the adoption of NZ IAS 23 *Borrowing Costs* (Revised 2007) in accordance with its transitional provisions that are applicable to public benefit entities.

Consequently, all borrowing costs are recognised as an expense in the period in which they are incurred.

### **Grant expenditure**

Non-discretionary grants are those grants that are awarded if the grant application meets the specified criteria and are recognised as expenditure when an application that meets the specified criteria for the grant has been received.

Discretionary grants are those grants where the Council has no obligation to award on receipt of the grant application and are recognised as expenditure when approved by Council and the approval has been communicated to the applicant.

### **Foreign currency transactions**

Foreign currency transactions (including those for which forward foreign exchange contracts are held) are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of

### for the year ended 30 June 2014

monetary assets and liabilities denominated in foreign currencies are recognised in the surplus or deficit.

#### Income tax

Income tax expense includes current tax and deferred tax.

Current tax is the amount of income tax payable based on the taxable surplus for the current year, plus any adjustments to income tax payable in respect of prior years. Current tax is calculated using tax rates (and tax laws) that have been enacted or substantially enacted at balance date.

Deferred tax is the amount of income tax payable or recoverable in future periods in respect of temporary differences and unused tax losses. Temporary differences are differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable surplus.

Deferred tax is measured at the tax rates that are expected to apply when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at balance date. The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the group expects to recover or settle the carrying amount of its assets and liabilities.

Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which the deductible temporary differences or tax losses can be utilised.

Deferred tax is not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition of an asset and liability in a transaction that is not a business combination, and at the time of the transaction, affects neither accounting surplus nor taxable surplus.

Current tax and deferred tax is recognised against the surplus or deficit for the period, except to the extent that it relates to a business combination, or to transactions recognised in other comprehensive income or directly in equity.

#### Leases

#### Finance leases

A finance lease is a lease that transfers to the lessee substantially all the risks and rewards incidental to ownership of an asset, whether or not title is eventually transferred.

At the commencement of the lease term, the council recognises finance leases as assets and liabilities in the statement of financial position at the lower of the fair value of the leased item or the present value of the minimum lease payments.

The finance charge is charged to the surplus or deficit over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability.

The amount recognised as an asset is depreciated over its useful life. If there is no certainty as to whether the council will obtain ownership at the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

### Operating leases

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

### Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

### **Debtors and other receivables**

Short-term debtors and other receivables are recorded at their face value, less any provision for impairment.

Impairment of a receivable is established when there is objective evidence that the Council will not be able to collect amounts due according to the original terms of the receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into

### for the year ended 30 June 2014

bankruptcy, receivership or liquidation, and default in payments are considered indicators that the debt is impaired. The amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted using the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectible, it is written off against the allowance account for receivables. Overdue receivables that have been renegotiated are reclassified as current (that is, not past due).

# Derivative financial instruments and hedge accounting

Derivative financial instruments are used to manage exposure to foreign exchange and interest rate risks arising from financing activities. In accordance with its treasury policy, the council does not hold or issue derivative financial instruments for trading purposes.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value at each balance date. The method of recognising the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

The associated gains or losses of derivatives that are not hedge accounted are recognised in the surplus or deficit.

The Council and group designates certain derivatives as either:

- Hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge);
- Hedges of highly probably forecast transactions (cashflow hedge).

The council and group documents at the inception of the transaction the relationship between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking various hedge transactions. The Council and group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair value or cash flows of hedged items.

The full fair value of hedging derivatives is classified as non-current if the remaining item of the hedged item is more than 12 months and as current if the remaining maturity of the hedged item is less than 12 months.

The full value of a non-hedge accounted foreign exchange derivative is classified as current if the contract is due for settlement within 12 months of balance date: otherwise, foreign exchange derivatives are classified as non current. The portion of the fair value of a non-hedge accounted interest rate derivative that is expected to be realised within 12 months of the balance date is classified as current, with the remaining portion of the derivative classified as non current.

### Fair value hedge

The gain or loss from remeasuring the hedging instrument at fair value, along with the changes in the fair value on the hedged item attributable to the hedged risk, is recognised in the statement of other comprehensive income. Fair value hedge accounting is only applied for hedging fixed interest borrowings.

If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to surplus or deficit over the period to maturity.

### Cash flow hedge

The portion of the gain or loss on a hedging instrument that is determined to be an effective hedge is recognised directly in other comprehensive income and the ineffective portion of the gain or loss on the hedging instrument is recognised in the surplus or deficit as part of "gains" or "finance costs".

If a hedge of a forecast transaction subsequently results in the recognition of a financial asset or a financial liability, the associated gains or losses that were recognised directly in other comprehensive income will be reclassified into the surplus deficit in the same period or periods during which the asset acquired or liability assumed affects surplus or deficit. However, if it is expected that all or a portion of a loss recognised directly in other comprehensive income will not be recovered in one or more future periods, the amount that is not expected to be recovered is reclassified to the surplus deficit.

### for the year ended 30 June 2014

When a hedge of a forecast transaction subsequently results in the recognition of a non-financial asset or a non-financial liability, or a forecast transaction for a non-financial asset or non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, then the associated gains and losses that were recognised directly in other comprehensive income will be included in the initial cost or carrying amount of the asset or liability.

If a hedging instrument expires or is sold, terminated, exercised or revoked, or it no longer meets the criteria for hedge accounting, the cumulative gain or loss on the hedging instrument that remains recognised directly in other comprehensive income from the period when the hedge was effective will remain separately recognised in other comprehensive income until the forecast transaction occurs. When the forecast transaction is no longer expected to occur, any related cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective is reclassified from other comprehensive income to the surplus or deficit.

### Other financial assets

Financial assets are initially measured at fair value plus transaction costs unless they are carried at fair value through surplus deficit, in which case the transaction costs are recognised in the surplus deficit.

Purchases and sales of financial assets are recognised on trade-date, the date on which the council and group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the council and group has transferred substantially all the risks and rewards of ownership.

Financial assets are classified into four categories:

- financial assets at fair value through surplus or deficit;
- loans and receivables
- held to maturity investments; and
- fair value through other comprehensive income.

The classification depends on the purpose for which the investments were acquired.

Management determines the classification of its investments at initial recognition and re-evaluates this designation at every reporting date.

Financial assets at fair value through surplus or deficit

Financial Assets at fair value through surplus or deficit include financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of short term profit taking. Derivatives are also categorised as held for trading unless they are designated into hedge accounting relationship for which hedge accounting is applied.

Financial assets acquired principally for the purpose of selling in the short-term or it is part of a portfolio classified as held for trading are classified as current assets. The current/non current classification of derivatives is explained in the derivatives accounting policy as above.

After initial recognition, financial assets in this category are measured at their fair values with gains or losses on remeasurement recognised in the surplus or deficit.

### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance date, which are included in non-current assets.

After initial recognition they are measured at amortised cost using the effective interest method. Gains and losses when the asset is impaired or derecognised are recognised in the surplus deficit.

Loans to community organisations made at nil or below-market interest rates are initially recognised at the present value of their expected future cash flows, discounted at the current market rate of return for a similar financial instrument. The loans are subsequently measured at amortised cost using the effective interest method. The difference between the face value and present value of expected future cash flows of the loan is recognised in the surplus deficit as a grant.

### for the year ended 30 June 2014

Held to maturity investments

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that Council has the positive intention and ability to hold to maturity. They are included in current assets, except for maturities greater than 12 months after balance date, which are included in non-current assets.

After initial recognition they are measured at amortised cost, using the effective interest method, less impairment. Gains and losses when the asset is impaired or derecognised are recognised in the surplus or deficit.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are those that are designated as fair value through other comprehensive income or are not classified in any of the other categories above. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance date. The council and group includes in this category:

- Investments that Council intends to hold long-term but which may be realised before maturity; and
- Shareholdings that it holds for strategic purposes.

These investments are measured at their fair value, with gains and losses recognised directly in other comprehensive income, except for impairment losses, which are recognised in the surplus or deficit.

On derecognition the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to the surplus or deficit.

### Impairment of financial assets

Financial assets are assessed for objective evidence of impairment at each balance date. Impairment losses are recognised in the surplus or deficit.

Loans and other receivables, and held to maturity investments.

Impairment is established when there is objective evidence that the council and group will not be able to collect amounts due according to the original terms of the debt. Significant financial difficulties of the

debtor, probability that the debtor will enter into bankruptcy, and default in payments are considered indicators that the asset is impaired. The amount of the impairment is the difference between the assets carrying amount and the present value of estimated future cash flows, discounted using the effective interest rate. For debtors and other receivables, the carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectible, it is written off against the allowance account. Overdue receivables that have been renegotiated are reclassified as current (that is not past due). Impairment in term deposits, local authority stock, government stock and community loans, are recognised directly against the instruments carrying amount.

Financial assets at fair value through other comprehensive income.

For financial assets at fair value through other comprehensive income, a significant or prolonged decline in the fair value of the investment below its cost is considered objective evidence of impairment.

For debt instruments, significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, and default in payments are considered objective indicators that the asset is impaired.

If impairment evidence exists for investments at fair value through other comprehensive income, the cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the surplus or deficit) recognised in other comprehensive income is reclassified from equity to surplus or deficit.

Equity instrument impairment losses recognised in the surplus or deficit are not reversed through the surplus or deficit.

If in a subsequent period the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed in the surplus or deficit.

### for the year ended 30 June 2014

#### **Inventories**

Inventories held for distribution or consumption in the provision of services that are not supplied on a commercial basis are measured at the lower of cost, adjusted when applicable, for any loss of service potential. Where inventories are acquired at no cost or for nominal consideration, the cost is the current replacement cost at the date of acquisition.

Inventories held for use in the production of goods and services on a commercial basis are valued at the lower of cost and net realisable value. The cost of purchased inventory is determined using the average cost method.

The amount of any write-down for the loss of service potential from cost to net realisable value is recognised in the surplus or deficit in the period of the write down.

When land held for development and future resale is transferred from investment property/property, plant, and equipment to inventory, the fair value of the land at the date of transfer is its deemed cost.

Cost directly attributable to the developed land are capitalised to inventory, with the exception of infrastructural asset costs which are capitalised to property, plant, and equipment.

### Non-current assets held for sale

Non-current assets held for sale are classified as held for sale if their carrying amount will be recovered principally through a sale transaction, not through continuing use. Non-current assets held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

Any impairment losses for write-downs of non-current assets held for sale are recognised in the surplus or deficit.

Any increase in fair value (less costs to sell) are recognised up to the level of any impairment losses that have been previously recognised.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale.

### Property, plant and equipment

Property, plant and equipment consist of;

*Operational assets* – These include land, buildings, landfill post closure, library books, plant and equipment, recreational forests and motor vehicles.

Restricted Assets - Restricted assets are parks and reserves owned by the council and group which provide a benefit or service to the community and cannot be disposed of because of legal or other restrictions.

Infrastructure assets – Infrastructure assets are the fixed utility systems owned by Council and group. Each class includes all items that are required for the network to function, for example, sewer reticulation includes reticulation piping and sewer pump stations.

Property, plant and equipment is shown at cost or valuation, less accumulated depreciation and impairment losses.

#### Revaluations

Land and buildings (operational and restricted), library books, and infrastructural assets (except land under roads) are revalued with sufficient regularity to ensure that their carrying amount does not differ materially from fair value and at least every three years. The value of recreational forests is at deemed cost. All other assets are carried depreciated historical cost.

The carrying values of revalued assets are assessed annually to ensure that they do not differ materially from the assets' fair values. If there is a material difference, the off-cycle assets are revalued.

Revaluations of property, plant and equipment are accounted for on a class-of-asset basis.

The net revaluation results are credited or debited to an asset revaluation reserve in equity for that class of asset. Where this result is a debit balance in the asset revaluation reserve, this balance is not recognised in other comprehensive income but is recognised in the surplus or deficit. Any subsequent increase on revaluation that reverses a previous decrease in value recognised in the surplus or deficit will be recognised first in the surplus or deficit up to the amount previously expensed, and then recognised in other comprehensive income.

### for the year ended 30 June 2014

### Additions

The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the council and group and the cost of the item can be measured reliably.

Work in progress is recognised at cost less impairment and is not depreciated.

Property, plant and equipment is recognised at its cost. Where an asset is acquired at no cost, or for a nominal cost, it is recognised at fair value as at the date of acquisition.

### Disposals

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposals are reported net in the surplus or deficit. When revalued assets are sold, the amounts included in asset revaluation reserves in respect of those assets are transferred to accumulated funds.

### Depreciation

Depreciation is provided on all fixed assets with certain exceptions. The exceptions are:

- Land is not depreciated.
- Roading, wastewater reticulation, stormwater systems and water reticulation assets are depreciated as noted below. A number of the components of the roading network such as excavation, sub-base materials and compaction are not depreciated as these assets have an infinite life. Stormwater channels are also considered to have an infinite life and are not depreciated. Signs and markings are not depreciated as these assets are maintained to the same level.
- The useful lives of the Rotorua Museum collections and the library reference collection are considered to be extremely long. Therefore, due to its insignificance, no depreciation has been brought to charge.

All other assets are depreciated on a straight-line basis at rates that will write off their cost or valuation over their expected useful economic lives.

Vehicles are depreciated on the basis of diminishing value and at a rate of 20% calculated to allocate the motor vehicles cost over their estimated useful lives.

The expected lives of major classes of assets are:

| _                  | • •   |   |     |          |
|--------------------|-------|---|-----|----------|
| Вι                 | 111   | n | ın  | $\sigma$ |
| $\boldsymbol{\nu}$ | a i i | u | 111 | 5        |

| Structure     | 10 to 80 years |
|---------------|----------------|
| Services      | 20 to 50 years |
| Fit-out       | 5 to 40 years  |
| Site specific | 2 to 20 years  |

Library books (excluding reference) 3 to 10 years

Plant and equipment 10 to 20 years

Parks and Reserves 5 to 100 years

Sewage

Treatment plants and facilities 5 to 100 years

Wastewater and reticulation

(other assets) 10 to 140 years

Water

Treatment plants and facilities 5 to 100 years

Water and reticulation

(other assets) 10 to 130 years

Stormwater drainage 10 to 130 years

Roads and footpaths

Seal - first coat and base80 yearsSeal - second coat12 yearsFootpaths (concrete)100 yearsFootpaths (bitumen)7 to 20 yearsBridges40 to 100 years

Landfill improvements 3 to 100 years

Airport

Runway 150mm AC surface 15 years Wetland 9 years

Computer systems 3 to 5 years

The residual value and useful life of an asset is reviewed, and adjusted if applicable, at each financial year-end.

### Subsequent costs

Costs incurrent subsequent to initial acquisition are capitalised only when it is probable that future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably.

### for the year ended 30 June 2014

The costs of day-to-day servicing of property, plant, and equipment are recognised in the surplus or deficit as they are incurred.

### **Intangible assets**

### Goodwill

Goodwill on acquisition of businesses and subsidiaries is included in "intangible assets". Goodwill on acquisition of associates is included in "investments in associates" and is tested for impairment as part of the overall investment balance.

Separately recognised goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. An impairment loss recognised for goodwill is not reversed.

Goodwill is allocated to cash-generating units for the purposes of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

### Software acquisition and development

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Costs that are directly associated with the development of software for internal use are recognised as an intangible asset. Direct costs include the software development employee costs and an appropriate portion of relevant overheads.

Staff training costs are recognised in the surplus deficit when incurred.

Costs associated with maintaining computer software are recognised as an expense when incurred.

### Carbon Credits

Purchased carbon credits are recognised at cost on acquisition. They are not amortised, but are instead tested for impairment annually. They are derecognised when they are used to satisfy carbon emission obligations.

#### **Amortisation**

The carrying value of an intangible asset with a finite life is amortised on a straight-line basis over its useful life. Amortisation begins when the asset is available for use and ceases at the date that the asset is derecognised. The amortisation charge for each period is recognised in the surplus or deficit.

The useful lives and associated amortisation rates of major classes of intangible assets have been estimated as follows:

Computer software 3-5 years 20-33%

# Impairment of property, plant and equipment and intangible assets

Intangible assets that have an indefinite useful life, or not yet available for use, are not subject to amortisation and are tested annually for impairment. Assets that have a finite useful life are reviewed for indicators of impairment at each balance date. When there is an indicator of impairment, the asset's recoverable amount is estimated. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Value in use is depreciated replacement cost for an asset where the future economic benefits or service potential of the asset are not primarily dependent on the assets ability to generate net cash inflows and where the entity would, if deprived of the asset, replace its remaining future economic benefits or service potential.

The value in use for cash-generating assets and cashgenerating units is the present value of expected future cash flows.

If an asset's carrying amount exceeds its recoverable amount, the asset is impaired and the carrying amount is written down to the recoverable amount. For revalued assets the impairment loss is recognised against the revaluation reserve for that class of asset. Where that results in a debit balance in the revaluation reserve, the balance is recognised in the surplus or deficit.

For assets not carried at a revalued amount, the total impairment loss is recognised in the surplus or deficit.

### for the year ended 30 June 2014

The reversal of an impairment loss on a revalued asset is credited to the revaluation reserve. However, to the extent that an impairment loss for that class of asset was previously recognised in the surplus or deficit, a reversal of the impairment loss is also recognised in the surplus or deficit.

For assets not carried at a revalued amount (other than goodwill) the reversal of an impairment loss is recognised in the surplus or deficit.

### Forestry assets

Standing forestry assets are independently revalued annually at fair value less estimated point of sale costs for one growth cycle. Fair value is determined based on the present value of expected net cash flows discounted at a current market determined pre-tax rate. This calculation is based on existing sustainable felling plans and assessments regarding growth, timber prices, felling costs and silviculture costs and takes into consideration environmental, operational, and market restrictions.

Gains or losses arising on initial recognition of biological assets at fair value less estimated point of sale costs and from a change in fair value less estimated point of sale costs are recognised in the surplus or deficit.

Forestry maintenance costs are recognised in the surplus or deficit when incurred.

Recreational forest assets not managed for harvesting into agricultural produce, or being transformed into additional biological assets are reported as property, plant and equipment in accordance with the policies for property, plant and equipment.

### **Investment property**

Properties leased to a third parties under operating leases are classified as investment property unless the property is held to meet service delivery objectives, rather than to earn rentals or for capital appreciation.

Investment property is measure initially at its cost, including transaction costs.

After initial recognition, all investment property is measured at fair value as determined annually by an independent valuer.

Gains or losses arising from a change in the fair value of investment property are recognised in the surplus or deficit.

### Creditors and other payables

Short-term creditors and other payables are recorded at their face value.

### **Borrowings**

Borrowings are initially recognised at their fair value net of transaction costs incurred. After initial recognition, all borrowings are measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless Council or the group has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

### **Employee Entitlements**

Short-term employee entitlements

Employee benefits expected to be settled within 12 months of balance date are measured at nominal values based on accrued entitlements at current rates of pay.

These include salaries and wages accrued up to balance date, annual leave earned to but not yet taken at balance date, and sick leave.

A liability for sick leave to the extent that absences in the coming year are expected to be greater than the sick leave entitlements earned in the coming year. The amount is calculated based on the unused sick leave entitlement that can be carried forward at balance date, to the extent that it will be used by staff to cover those future absences.

A liability and an expense for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation.

Long-term employee entitlements

Entitlements that are payable beyond 12 months, after the employee renders the related service, such as long service leave and retirement gratuities, have been calculated on an actuarial basis. The calculations are based on:

### for the year ended 30 June 2014

- likely future entitlements accruing to staff, based on years of service, years to entitlement, the likelihood that staff will reach the point of entitlement and contractual entitlements information; and
- the present value of the estimated future cash flows.

### Presentation of employee entitlements

Sick leave, annual leave, vested long service leave, and non-vested long service leave and retirement gratuities expected to be settled within 12 months of balance date, are classified as a current liability. All other employee entitlements are classified as a non-current liability.

### Superannuation schemes

### Defined contribution schemes

Obligations for contributions to defined contribution superannuation schemes are recognised as an expense in the surplus or deficit as incurred.

### Defined benefit schemes

The council belongs to the Defined Benefit Plan Contributors Scheme (the scheme), which is managed by the Board of Trustees of the National Provident Fund. The scheme is a multi-employer defined benefit scheme.

Insufficient information is available to use defined benefit accounting, as it is not possible to determine from the terms of the scheme, to the extent to which the surplus/deficit will affect future contributions by individual employers, as there is no prescribed basis for allocation. The scheme is therefore accounted for as a defined contribution scheme. Further information on this scheme is disclosed in note 28.

### **Provisions**

The council recognises a provision for future expenditure of uncertain amount or timing when there is a present obligation (either legal or constructive) as a result of a past event, it is probable that expenditures will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects

current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as an interest expense and is included in "finance costs".

### **Equity**

Equity is the community's interest in the Rotorua District Council and is measured as the difference between total assets and total liabilities. Equity is disaggregated and classified into a number of components.

The components of equity are:

- Retained earnings
- Self-funding reserves
- Council created reserves
- Restricted reserves
- Fair value through equity reserves
- Asset revaluation reserves

### Restricted reserves

Restricted reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by Council.

Restricted reserves are those subject to specific conditions accepted as binding by Council and which may not be revised by Council without reference to the Courts or a third party. Transfers from these reserves may be made only for certain specified purposes or when certain specified conditions are met.

Also included in restricted reserves are reserves restricted by Council decision. The council may alter them without references to any third party or the courts. Transfers to and from these reserves are at the discretion of the council.

The council's objectives, policies and processes for managing capital are described in note 34.

### Property revaluation reserves

This reserve relates to the revaluation of property, plant and equipment to fair value.

### for the year ended 30 June 2014

Fair value through other comprehensive income reserves

This reserve comprises the cumulative net change in the fair value of fair value through other comprehensive income.

Cash flow hedge reserves

This reserve comprises the effective portion of the cumulative net change in the fair value of derivatives designated as cash flow hedges.

### Goods and Services Tax (GST)

All items in the financial statements are stated exclusive of goods and services tax (GST), except for debtors and other receivables and creditors and other payables, which are stated on a GST-inclusive basis. GST not recoverable as input tax then it is recognised as part of the related asset or expense.

The net amount of GST recoverable from, or payable to, the Inland Revenue Department (IRD) is included as part of receivables or payables in the statement of financial position.

The net GST paid to, or received from the IRD, including the GST relating to investing and financing activities, is classified as an operating cash flow in the statement of cash flows.

Commitments and contingencies are disclosed exclusive of GST.

### **Budget figures**

The budget figures are approved by the Council in its 2013/14 Annual Plan. The budget figures have been prepared in accordance with NZ GAAP, using accounting policies that are consistent with those adopted in preparing of the financial statements.

### **Cost allocation**

The Rotorua District Council has derived the cost of service for each significant activity of council using the cost allocation system outlined below.

Direct costs are those costs directly attributable to a significant activity. Indirect costs are those costs which cannot be identified in an economically feasible manner, with a specific significant activity.

Direct costs are charged directly to significant activities. Indirect costs are charged to significant activities using appropriate cost drivers such as actual usage, staff numbers and floor area.

### **Critical accounting estimates and assumptions**

In preparing these financial statements estimates and assumptions have been made concerning the future. These estimates and assumptions may differ from the subsequent actual results. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations or future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

### Landfill after care provision

Note 24 provides information about the estimates and assumptions surrounding the landfill aftercare provision.

#### Infrastructural assets

Note 17 provides information about the estimates and assumptions applied in determining the fair value of infrastructural assets.

# Critical judgements in applying accounting policies

Management has exercised the following critical judgements in applying the Rotorua District Council's accounting policies for the period ended 30 June 2014:

### Classification of property

The council owns a number of properties, which are maintained primarily to provide housing to pensioners. The receipt of market-based rental from these properties is incidental to holding these properties. These properties are held for service delivery objectives as part of the council's social housing policy. These properties are held as property, plant and equipment.

### for the year ended 30 June 2014

The council owns land which is classified as property, plant and equipment. This land has been identified by the council as a potential site for the development of the airport extension. The final decision as to the suitability of the site for airport development is still dependent on the airport operation. If the site is not suitable for airport development then the council will reassess the best use of the land, which could include commercial leases or disposal.

#### Rounding

Some rounding variances may occur in the financial statements due to the use of decimal places in the underlying financial data.

#### 2: Rates, excluding targeted water supply rates

|   | Council |         | Group   |         |
|---|---------|---------|---------|---------|
|   | 2014    | 2013    | 2014    | 2013    |
|   | \$000   | \$000   | \$000   | \$000   |
|   |         |         |         |         |
| General rates                                       | 46,531  | 46,238  | 46,457  | 46,161  |
| Targeted rates attributable to activities:          |         |         |         |         |
| - water, excluding water supply rates               | 3,710   | 3,703   | 3,706   | 3,698   |
| - sewerage  | 11,184  | 11,036  | 11,184  | 11,036  |
| - refuse and sanitation                             | 2,237   | 2,119   | 2,237   | 2,119   |
| - lakes enhancement rate                            | 439     | 437     | 439     | 437     |
| - eastern sewerage capital rates                    | 660     | 1,409   | 660     | 1,409   |
| - business development targeted rates               | 5,351   | 5,078   | 5,351   | 5,078   |
| - urban sewerage develop. rate                      | 59      | 59      | 59      | 59      |
| - lakes community board rate                        | 51      | 48      | 51      | 48      |
| - rate penalties                                    | 1,169   | 1,225   | 1,169   | 1,225   |
| Less rates charges to Council properties            | (3,163) | (3,162) | (3,163) | (3,162) |
| Total rates, excluding targeting water supply rates | 68,228  | 68,190  | 68,150  | 68,108  |

The Council is required by the LGFA Guarantee and Indemnity Deed to disclose in its financial statements (or notes) its annual rates income. That Deed defines annual rates income as an amount equal to the total revenue from any funding mechanism authorised by the Local Government (Rating) Act 2002 together with any revenue received by the Council from other local authorities for services provided by that Council for which those other Local Authorities rate. The annual rates income of the Council for the year ended 30 June 2014 for the purposes of the LGFA Guarantee and Indemnity Deed disclosure is show below.

|  | Council |        | Group  |        |  |
|--|---------|--------|--------|--------|--|
|  | 2014    | 2013   | 2014   | 2013   |  |
|  | \$000   | \$000  | \$000  | \$000  |  |
| Rates, excluding targeted water supply rates                   | 68,228  | 68,190 | 68,228 | 68,108 |  |
| Targeted water supply rates                                    | 3,535   | 3,427  | 3,535  | 3,427  |  |
| Less targeted water supply rates charges to Council properties | (298)   | (296)  | (298)  | (296)  |  |
| Total annual rates income                                      | 71,465  | 71,321 | 71,465 | 71,239 |  |

### for the year ended 30 June 2014

#### **Rates remissions**

Rates revenue is shown net of rates remissions. The Council's rates remission policy allows rates to be remitted on condition of a ratepayer's extreme financial hardship, land used for sport, and land protected for historical or cultural purposes.

|  | Council |        | Group  |        |  |
|--|---------|--------|--------|--------|--|
|  | 2014    | 2013   | 2014   | 2013   |  |
|  | \$000   | \$000  | \$000  | \$000  |  |
| Total gross rates, excluding targeted water supply rates         | 69,191  | 69,371 | 69,191 | 69,289 |  |
| Rates remissions:  |         |        |        |        |  |
| - General rates remissions                                       | 538     | 892    | 538    | 892    |  |
| - Targeted rates remissions                                      | 164     | 149    | 164    | 149    |  |
| - Penalty remissions   | 261     | 140    | 261    | 140    |  |
| Total remissions   | 963     | 1,181  | 963    | 1,181  |  |
| Rates (net of remissions), excluding targeted water supply rates | 68,228  | 68,190 | 68,228 | 68,108 |  |

#### Non-rateable land

Under the Local Government (Rating) Act 2002, certain properties cannot be rated for general rates. These properties include schools, places of religious worship, public gardens, and reserves. These non-rateable properties may be subject to targeted rates in respect of sewerage, water, refuse, and sanitation. The non-rating of non-rateable land does not constitute a remission under the Council's rates remission policy.

#### **Rating base information**

The number of rating units within the district or region of Rotorua District Council at 30 June 2013 was 29,784.

The total capital value of rating units within the district or region of Rotorua District Council at 30 June 2013 was \$12,762,254,900.

The total land value of rating units within the district or region of Rotorua District Council at 30 June 2013 was \$6,463,550,100.

#### 3: Subsidies and grants

|   | Council |        | Group |        |
|---|---------|--------|-------|--------|
|   | 2014    | 2013   | 2014  | 2013   |
|   | \$000   | \$000  | \$000 | \$000  |
| New Zealand Transport Roading subsidies | 5,926   | 8,764  | 5,926 | 8,764  |
| Grants subsidies and donations capital  | 2,112   | 3,205  | 2,112 | 3,205  |
| Other subsidies operating               | 653     | 661    | 653   | 661    |
| Total subsidies and grants              | 8,691   | 12,629 | 8,691 | 12,629 |

There are no unfulfilled conditions and other contingencies attached to subsidies and grants recognised (2013: \$Nil).

### for the year ended 30 June 2014

#### 4: Finance income and costs

|   | Council |       | Group |       |  |
|---|---------|-------|-------|-------|--|
|   | 2014    | 2013  | 2014  | 2013  |  |
|   | \$000   | \$000 | \$000 | \$000 |  |
| Finance income                            |         |       |       |       |  |
| Interest income                           |         |       |       |       |  |
| - term and call deposits                  | 76      | 49    | 101   | 78    |  |
| Total finance income                      | 76      | 49    | 101   | 78    |  |
|   |         |       |       |       |  |
| Finance costs                             |         |       |       |       |  |
| Interest expense                          |         |       |       |       |  |
| - interest on bank borrowings             | 8,789   | 8,198 | 8,789 | 8,198 |  |
| - discount unwind on provisions (note 24) | (558)   | (17)  | (558) | (17)  |  |
| Total finance cost                        | 8,231   | 8,181 | 8,231 | 8,181 |  |
| Net finance costs                         | 8,155   | 8,132 | 8,130 | 8,103 |  |

### 5: Development and financial contributions

|   | Council |       | Group |       |
|---|---------|-------|-------|-------|

| Balance at 30 June 2013               | (2,918)                                   | 0                                 | 0                      | 2,918                  | 0              |
| Charged to surplus or deficit         | (1,356)                                   | 0                                 | 0                      | 1,356                  | 0              |
| Charged to other comprehensive income | 0   | 0                                 | 0                      | 0                      | 0              |
| Balance at 30 June 2014               | (4,274)                                   | 0                                 | 0                      | 4,274                  | 0              |

A deferred tax asset has not been recognised in relation to unused tax losses of Council \$10,724,302 (2013: \$11,690,328), Group \$13,465,162 (2013: \$14,234,063).

#### 11: Cash and cash equivalents

|                                 | Cou   | ıncil | Gro   | oup   |
|---------------------------------|-------|-------|-------|-------|
|                                 | 2014  | 2013  | 2014  | 2013  |
|                                 | \$000 | \$000 | \$000 | \$000 |
| Cash at bank and on hand        | 5,329 | 663   | 5,998 | 2,258 |
| Total cash and cash equivalents | 5,329 | 663   | 5,998 | 2,258 |

The carrying value of cash at bank and short-term deposits with maturities less than three months approximates their fair value.

Cash, cash equivalents and bank overdrafts include the above for the purpose of the statement of cashflows.

for the year ended 30 June 2014

#### 12: Debtors and other receivables

| GST receivable                                   | 797     | 2,644   | 798     | 2,644   |
| Current gross debtors - other receivables        | 9,633   | 15,300  | 9,803   | 15,611  |
|  |         |         |         |         |
| Less: Provision for impairment of receivables    | (1,298) | (1,073) | (1,298) | (1,073) |
| Total current portion                            | 8,335   | 14,227  | 8,505   | 14,538  |
|  |         |         |         |         |
| Non-current portion debtors and other receivable |         |         |         |         |
| Community Loans                                  | 11      | 11      | 11      | 11      |
| Total non-current portion                        | 11      | 11      | 11      | 11      |
|  |         |         |         |         |
| Gross debtors – other receivables                | 8,346   | 14,238  | 8,516   | 14,549  |

#### **Fair Value**

Debtors and other receivables are non-interest bearing and receipt is normally on 30-day terms, therefore the carrying value of debtors and other receivables approximates their fair value.

#### **Impairment**

When Council provides for impairment on rates receivables, it takes into account its various powers under the Local Government (Rating) Act 2002 to recover any outstanding debts. These powers allow the Council to commence legal proceedings to recover any rates that remain unpaid 4 months after the due date for payment. If payment has not been made within 3 months of the Court's judgement, then the Council can apply to the Registrar of the High Court to have the judgement enforced by sale or lease of the rating unit.

Ratepayers can apply for payment plan options in special circumstances. Where such repayment plans are in place, debts are discounted to their present value of future payments if the effect of discounting is material.

#### **Community Loans**

The fair value of community loans is \$10,782 (2013: \$10,841).

### for the year ended 30 June 2014

The ageing profile of receivables at year end is detailed below:

|  |       | 2014       |       |        | 2013       |        |
|--|-------|------------|-------|--------|------------|--------|
| The status of receivables as at 30 June 2014 and | Gross | Impairment | Nett  | Gross  | Impairment | Nett   |
| 2013 are detailed below:                         | \$000 | \$000      | \$000 | \$000  | \$000      | \$000  |
| Council  |       |            |       |        |            |        |
| Not past due                                     | 4,801 | 0          | 4,801 | 8,817  | (15)       | 8,802  |
| Past due 1-60 days                               | 1,494 | (112)      | 1,382 | 2,997  | (40)       | 2,957  |
| Past due 61-120 days                             | 127   | (54)       | 73    | 102    | (25)       | 77     |
| Past due > 121 days                              | 3,222 | (1,132)    | 2,090 | 3,395  | (993)      | 2,402  |
| Total  | 9,644 | (1,298)    | 8,346 | 15,311 | (1,073)    | 14,238 |
|  |       |            |       |        |            |        |
| Group  |       |            |       |        |            |        |
| Not past due                                     | 4,971 | 0          | 4,971 | 9,131  | (15)       | 9,116  |
| Past due 1-60 days                               | 1,494 | (112)      | 1,382 | 2,997  | (40)       | 2,957  |
| Past due 61-120 days                             | 127   | (54)       | 73    | 102    | (25)       | 77     |
| Past due > 121 days                              | 3,222 | (1,132)    | 2,090 | 3,395  | (993)      | 2,402  |
| Total  | 9,814 | (1,298)    | 8,516 | 15,625 | (1,073)    | 14,552 |

All receivables greater than 30 days in age are considered to be past due.

The impairment provision has been calculated based on a review of specific overdue receivables and a collective assessment. The collective impairment provision is based on an analysis of past collection history and a debt write-offs.

|                                | Cou   | ıncil | Gro   | oup   |
|--------------------------------|-------|-------|-------|-------|
|                                | 2014  | 2013  | 2014  | 2013  |
|                                | \$000 | \$000 | \$000 | \$000 |
| Individual impairment          | 1,298 | 1,073 | 1,298 | 1,073 |
| Collective impairment          | 0     | 0     | 0     | 0     |
| Total provision for impairment | 1,298 | 1,073 | 1,298 | 1,073 |

Individually impaired receivables have been determined to be impaired because of the significant financial difficulties being experienced by the debtor. An analysis of these individually impaired debtors is as follows:

|                             | Cou   | ncil  | Gro   | oup   |
|-----------------------------|-------|-------|-------|-------|
|                             | 2014  | 2013  | 2014  | 2013  |
|                             | \$000 | \$000 | \$000 | \$000 |
| Not past due                | 0     | 15    | 0     | 15    |
| Past due 1-60 days          | 112   | 40    | 112   | 40    |
| Past due 61-120 days        | 54    | 25    | 54    | 25    |
| Past due > 121 days         | 1,132 | 993   | 1,132 | 993   |
| Total individual impairment | 1,298 | 1,073 | 1,298 | 1,073 |

Movements in the provision for impairment of receivables are as follows:

|  | Cou   | ncil  | Gro   | oup   |
|--|-------|-------|-------|-------|
|  | 2014  | 2013  | 2014  | 2013  |
|  | \$000 | \$000 | \$000 | \$000 |
| At 1 July                                  | 1,073 | 954   | 1,073 | 954   |
| Additional provisions made during the year | 484   | (119) | 484   | (119) |
| Receivables written off during the period  | (259) | 238   | (259) | 238   |
| At 30 June                                 | 1,298 | 1,073 | 1,298 | 1,073 |

The Council and group had no collateral as security or other credit enhancements over receivables that are either past due or impaired.

for the year ended 30 June 2014

#### Fair value

Interest rate swaps

The fair values of interest rate swaps have been determined by calculating the expected cashflows under the terms of the swaps and discounting these values to present value. The inputs into the valuation model are from independently sourced market parameters such as interest rate yield curves. Most market parameters are implied from instrument prices.

#### Interest rate swaps

The notional principal amounts of the outstanding interest rate swap contracts for the Council were \$15 million (2013: \$15 million) and for the group were \$15 million (2013: \$15 million). At 30 June 2014, the fixed interest rates of cashflow hedge interest rate swaps varied from 4.12% to 5.25% (2013: 4.12% to 5.25%).

Gains and losses recognised in the hedging reserve in equity (note 25) on interest rate swap contracts as at 30 June 2014 will be released to the surplus or deficit as interest is paid on the underlying debt.

The Council and group currently have no fair value hedges.

for the year ended 30 June 2014

#### Fair value

Term deposits

The carrying amount of term deposits approximates their fair value.

**Unlisted shares** 

The fair value of the unlisted shares of NZ Local Government Insurance Corporation Limited and of Local Authority Shared Services Limited (LASS) has been approximated by using the lower of cost or market value.

The Waikato LASS share investment comprises:

- 1 ordinary share
- 126,703 Shared Valuation Database shares
- 7,516 WRAP service shares, which are uncalled as at balance date

The service shares are non-voting and do not carry the right to share in any distributions of the company.

The BOP LASS share investment comprises 5 ordinary shares (2013: 1). The fair value of the BOP LASS, approximated using the net asset backing method, is \$9,935 (2013: (\$3,939)). BOP LASS issued 22 new ordinary non-voting shares for the 2013/14 financial year. Council paid for 4 of these shares totalling \$16,634 after 30 June 2014, and this has been included as an accrual within the net asset backing method calculations.

The cost price of the share investment in the subsidiary Rotorua Regional Airport Limited amounts to \$2,051,000. The recoverable amount is approximated by using the net asset backing method and amounts to \$1,690,057 (2013: \$1,925,525). The deficit for the year of (\$235,468) (2013: \$141,474) is recognised in the Statement of comprehensive income.

### for the year ended 30 June 2014

The cost price of the share investment in the subsidiary Grow Rotorua Limited amounts to \$100. The recoverable amount is approximated by using the net asset backing method and amounts to \$57,038 (2013: \$330,011). The deficit for the year of (\$272,973) (2013: \$329,911) is recognised in the Statement of comprehensive income.

The cost price of the share investment in the subsidiary Terax 2013 Limited amounts to \$300. The recoverable amount is approximated by using the net asset backing method and amounts to (\$1,009) (2013: (\$1,009)). The Nil result for the year (2013: (\$1,309)) is recognised in the Statement of comprehensive income.

The cost price of the share investment in the subsidiary Terax Limited Partnership amounts to \$190,000. The recoverable amount is approximated by using the net asset backing method and amounts to \$73,795 (2013: \$22,871). The deficit for the year of (\$98,918) (2013: (\$17,129)) is recognised in the Statement of comprehensive income.

Council is also the 100% shareholder in one dormant non-operational company – Rotorua District Council Holdings Ltd.

#### **Impairment**

A total impairment loss of \$352,958 (2013: Nil) has been recognised in the surplus/deficit of the statement of comprehensive income in the line item "other expenses" (note 9). This related to investment in CCOs and other similar entities of \$350,664, and investment in other entities of \$2,294. An additional total impairment of \$314,227 was recognised through other comprehensive income. This related to investments in CCOs and other similar entities of \$272,973, and investments in other entities of \$41,254.

#### 15: Inventory

| Total inventories  | 1,298 | 1,327 | 1,298 | 1,327 |

No inventories are pledged as security for liabilities (2013: \$Nil). However, some inventories are subject to retention of title clauses.

#### Held for distribution inventory

The carrying amount of inventory held for distribution that are measured at current replacement cost as at 30 June 2014 amounted to \$Nil (2013: \$Nil).

### for the year ended 30 June 2014

The write-down of inventory held for distribution because of a loss in service potential amounted to \$Nil (2013: \$Nil). There have been no reversals of write-downs (2013: \$Nil).

The loss in service potential of inventory held for distribution is determined on the basis of obsolescence.

#### Commercial inventory

The write-down of commercial inventory to net realisable value amounted to \$Nil (2013: \$Nil). There have been no reversals of write-downs (2013: \$Nil).

#### 16: Non-current assets held for sale

The following seven Council owned properties have been presented as held for sale following the approval by the Council on 18 December 2013 for them to be declared surplus, as they provide no future use to the Council: 2A Bennets Rd, 137A Lake Rd, and 149 Lake Rd. The completion dates for sales are expected before the end of 2014.

#### Land (operational, restricted, and infrastructural)

The fair value of land is reviewed at three yearly intervals. The most recent valuation was performed by independent valuers QV and was effective as at 30 June 2014. There were also four separate land parcels valued by independent valuers Telfer Young, which were excluded from the QV valuation. The Telfer Young valuations collectively totalled \$525,000 and are effective February 2014.

Land is valued at fair value using market-based evidence based on its highest and best use with reference to comparable land values. Adjustments have been made to the "unencumbered" land value where there is a designation against the land or the use of the land is restricted because of reserve or endowment status. These adjustments are intended to reflect the negative effect on the value of the land where an owner is unable to use the land more intensely.

#### Buildings (operational and restricted)

The fair value of buildings is reviewed at three yearly intervals. The most recent valuation was performed by independent valuers Landmass. The valuation is effective as at 30 June 2014. There were also four separate buildings valued by independent valuers Telfer Young, which were excluded from the Landmass valuation. The Telfer Young valuations collectively totalled \$530,000 and are effective February 2014.

There are 122 bus shelters that were not included in the building valuations, but are included as assets in the building class. The carrying value of these assets as at 30 June 2014 is \$235,000.

Specialised buildings are valued at fair value using the depreciated replacement cost method because no reliable market data is available for such buildings.

Depreciated replacement cost is determined using a number of significant assumptions including:

- The replacement asset is based on the reproduction cost of the specific asset with adjustments where appropriate for obsolescence due to over-design or surplus capacity.
- The replacement cost is derived from recent construction contracts of similar assets and Property Institute of New Zealand cost information.
- For Council's earthquake prone buildings that are expected to be strengthened, the estimated earthquake strengthening costs have been deducted off the depreciated replacement cost.
- The remaining useful life of assets is estimated.
- Straight line depreciation has been applied in determining the depreciated replacement cost value of the asset.

Non specialised buildings (for example, residential buildings) are valued at fair value using market-based evidence. Market rents and capitalisation rates were applied to reflect market value. These valuations include adjustments for

### for the year ended 30 June 2014

estimated building strengthening costs for earthquake prone buildings and the associated lost rental during the time to undertake the strengthening work.

Infrastructural asset classes: sewerage, water, drainage, and roads

Sewerage, water, drainage, and roading infrastructural assets are valued using the depreciated replacement cost method. There are a number of estimates and assumptions exercised when valuing infrastructural assets using this method. These include:

- Estimating any obsolescence or surplus capacity of the assets.
- Estimating the replacement cost of the asset. The replacement cost is derived from recent construction contracts in the region for similar assets.
- Estimates of the remaining useful life over which the asset will be depreciated. These estimates can be affected by the local conditions. For example, weather patterns and traffic growth. If useful lives do not reflect the actual consumption of the benefits of the asset, then the Council could be over-or-under-estimating the annual depreciation charge recognised as an expense in the Statement of comprehensive income. To minimise this risk, infrastructural asset lives have been determined with reference to the NZ Infrastructural Asset Valuation and Depreciation Guidelines published by the National Asset Management Steering Group, and have been adjusted for local conditions based on past experience. Asset inspections, deterioration, and condition-modelling are also carried out regularly as part of asset management planning activities, which provides further assurance over useful life estimates.

The fair value of infrastructural assets will be revised at three yearly 'rolling' intervals. The most recent valuations are performed by Council engineers and are peer reviewed by independent valuers Beca Valuation Services Limited. The effective dates of these valuations are:

Water reticulation system: 1 July 2009

Wastewater reticulation system: 30 June 2014Stormwater and land drainage system: 30 June 2014

Roading network: 1 July 2012

Parks and reserves assets: 1 July 2010

The valuation for wastewater reticulation system is included within the classification 'sewerage other'. Other assets within this classification were not included within the wastewater reticulation asset valuation. These included pump station plant assets and wastewater treatment systems which had carrying values of \$4.25 million and \$66,000 respectively as at 30 June 2014.

#### Library collections

Library collections are valued at depreciated replacement cost in accordance with the guidelines released in 2002 by the New Zealand Library Association and the National Library. Library valuations are performed by Council's library staff, and are subject to independent review by Barbara Whitton, an Associate and Registered member of LIANZA. The last valuation was effective as at 1 July 2010.

#### Art collections

The Museum art collections are valued at fair market value. Determination of fair value is made by: If an active market exists for the same or similar asset the market prices are deemed to be the fair value or If there is no active market fair value should be determined by other market based evidence adjudged by us as active and knowledgeable participants in the market. The last valuation was completed by independent valuer Art + Object and is effective 30 June 2014. There are a small number of artworks owned by the Council, but not housed in the Museum which were not revalued. The collective carrying value of these assets at 30 June 2014 is \$349,000.

#### Airport assets

The airport land, buildings and runway are valued at fair value using market based evidence, depreciated replacement cost, market rents and capitalisation rates where applicable.

### for the year ended 30 June 2014

The most recent fair value of the airport land was valued by independent valuer QV. The valuation is effective as at 30 June 2014.

The most recent fair value of the airport buildings was valued by independent valuer Telfer Young. The valuation is effective as at 31 January 2014.

The most recent fair value of the airport infrastructure (including runway) was valued by independent valuer AECOM. The valuation is effective as at 30 June 2014.

An artificial floating wetland which is included within the airport asset class is not included in the above valuations. The carrying value of the wetland as at 30 June 2014 is \$692,000.

#### **Impairment**

Impairment losses of \$1.98 million from an impairment on the revaluation of plant, property and equipment (2013: \$Nil) have been recognised in the statement of comprehensive income.

#### Work in progress

The total amount of property, plant and equipment in the course of construction is \$16,306 million (2013: \$25,291 million). The breakdown by asset class is as follows:

|   | 2014   | 2013   |
|---|--------|--------|
|   | \$000  | \$000  |
| Operational assets                        |        |        |
| Land                                      | 72     | 238    |
| Buildings                                 | 280    | 187    |
| Art collections                           | 0      | 236    |
| Plant and equipment                       | 66     | 9      |
|   |        |        |
| Infrastructural assets                    |        |        |
| Parks and reserves                        | 306    | 1,427  |
| Roading and footpaths                     | 1,928  | 3,934  |
| Sewerage - treatment plant and facilities | 7,033  | 5,426  |
| Sewerage - other                          | 3,822  | 7,416  |
| Stormwater                                | 451    | 2,754  |
| Water - treatment plant and facilities    | 237    | 1,357  |
| Water - other                             | 758    | 1,231  |
|   |        |        |
| Restricted assets                         |        |        |
| Airport                                   | 147    | 863    |
| Landfill                                  | 1,206  | 213    |
| Total work in progress                    | 16,306 | 25,291 |

#### Leasing

The net carrying amount of plant and equipment held under finance leases is \$Nil (2013: \$Nil).

for the year ended 30 June 2014

#### 18: Intangible assets

|   | Council           |                      |          |       | Group |

#### Carbon credits

During 2012/13, the Council acquired 75,000 carbon credits for the purpose of meeting its obligations under the Emissions Trading Scheme for carbon emissions from its landfill operations. During 2013/14, the Council purchased a further 25,163 carbon credits to the value of \$5,536. These were forfeited in order to meet its 2013 calendar year carbon credits emissions liability. At 30 June 2014, Council's closing carbon credit balance of 75,000 units were revalued based on the market spot rate at balance date.

#### Goodwill

In May 2013, the Council purchased a Café business (the 'Museum Café'). Goodwill on acquisition was \$212,000. An impairment test was completed on the goodwill acquisition value as at 30 June 2014. When comparing future discounted cashflow projections based on the first year of operations of the business with the original business case projections, goodwill has been considered to be impaired at an estimated rate of 56%. An impairment loss of \$117,000 (2013: \$Nil) has been recognised in the statement of comprehensive income in the line item "other expenses" (note 9).

### for the year ended 30 June 2014

Work in progress

The total amount of computer software in the course of construction is \$30,000 (2013: \$438,000).

#### 19: Depreciation and amortisation expenses by group of activity

| Balance at 30 June   | 0       | 1,276 | 0       | 1,276 |

### for the year ended 30 June 2014

The Council owns six forestry stands located at:

- Tutukau Road this stand measures 10 hectares of Pinus Radiata forest with a current age of 14 years.
- Near the Rotorua Landfill that measures 2.4 hectares of Pinus Radiata forest with a current age of 31 years.
- Great West Road spring reserve measures 2.5 hectares of Pinus Radiata forest with a current age of approximately 34 years.
- Hill Road spring reserve measures 1.6 hectares of Pinus Radiata forest with a current age of 26 years.
- Reservoir Road spring reserve measures 7.6 hectares of Pinus Radiata forest with a current age of 13 years.
- Tokorangi forest measures 112.2 hectares and consists of multiple species including Redwood, Douglas Fir, Pinus Radiata, Pinus Patula, Eucalyptus, Larch and Blackwood. The age of each stand of species varies, depending on year of planting, and ranges from 2 -113 years.

#### **Tokorangi Forest (Redwood Forest)**

In 1993 the Crown Forest License for the Tokorangi Forest (Redwood Forest) was transferred to Council from the Crown in recognition of the significant recreation resource with the valuable aesthetic and landscape features that the forest represents for the people of Rotorua, as well as its national and international visitors. There are covenants in place that restrict the licence to this effect. The majority of the forest will therefore not be managed commercially.

The land on which the forest grows is in the process of being transferred from the Crown to the new Central North Island Iwi Collective. Council has the licence to continue managing the forest for the next thirty five years.

#### Valuation assumptions

Independent valuers Prime Forest Management Limited have valued forestry assets as at 30 June 2014. The following significant valuation assumptions have been adopted in determining the fair value of forestry assets:

- a discount rate of 8% (2013: 8%) has been used in discounting the present value of expected cash flows
- notional land rental costs have been included for freehold land
- forests have been valued on a going concern basis and only includes the value of the existing crops on a single rotation basis
- no allowance for inflation has been provided
- costs are current average costs. No allowance has been made for cost improvements in future operations
- log prices are based on three-year historical rolling averages

#### **Re-classification**

As at 30 June 2014, the forestry assets have been re-classified as plant, property, and equipment (note 17). Here they are classified as recreational forests, as part of the Council's operating assets. This re-classification recognises that the forestry assets are predominately used for recreational purposes, rather than being managed primarily for harvesting, or being transformed into additional biological assets.

#### 21: Creditors and other payables

|  | Council |        | Gro    | oup    |
|--|---------|--------|--------|--------|
|  | 2014    | 2013   | 2014   | 2013   |
|  | \$000   | \$000  | \$000  | \$000  |
| Trade payables                             | 9,066   | 17,154 | 9,014  | 17,582 |
| Other payables                             | 372     | 391    | 413    | 391    |
| Deposits and bonds                         | 922     | 1,054  | 922    | 1,054  |
| Rates, fees and grants received in advance | 3,749   | 3,874  | 3,749  | 3,874  |
| Accrued interest                           | 2,633   | 2,155  | 2,633  | 2,155  |
| Total creditors and other payables         | 16,742  | 24,628 | 16,731 | 25,056 |

Creditors and payables are non-interest bearing and are normally settled on 30-day terms. Therefore, the carrying value of creditors and other payables approximates their fair value.

| Derivative valuation       | 0       | 33      | 0       | 33      |
| Total                      | 136,032 | 122,572 | 136,032 | 122,572 |

#### **Registered security stock**

Security stock of \$23,675,000 (2013: \$43,350,000) is at floating interest rates. The interest rate is reset based on the bank bill rate plus a margin for credit risk.

Borrowing from the Local Government Funding Agency (LGFA) of \$55 million (\$2013: \$20 million) is at fixed interest rates for the term of the stock.

#### Registered debenture stock

Debenture stock of \$90 million (2013: \$80 million) is at fixed interest rates for the term of the stock. Debenture stock of \$15 million (2013: \$15 million) is at floating interest rates. The interest rate is reset quarterly or six monthly based on the equivalent bank bill rate plus a margin for credit risk.

#### Security

All Council's borrowings are secured by a floating charge over the future rate income of the district through the operation of a Debenture Trust Deed.

Council does not have an overdraft facility.

### for the year ended 30 June 2014

#### **Treasury Policy compliance ratios**

|   | Limit        | 2014         | 2013         |
|---|--------------|--------------|--------------|
| Net debt as a percentage of equity  | <20%         | 16.62%       | 16.53%       |
| Net debt as a percentage of income  | <200%        | 156.26%      | 147.44%      |
| Net interest as a percentage of income  | <15%         | 8.38%        | 7.65%        |
| Liquidity (external debt plus cash or near cash financial investments plus committed loan facilities, to existing external debt | >100%        | 125.22%      | 110.93%      |
| No more than 50% of outstanding debt or \$60 million (whichever is the greater) can mature in any rolling 12 month period       | <50%         | 23.71%       | 24.28%       |
| Headroom for undrawn committed bank facilities  | >\$2 million | \$36 million | \$16 million |

The weighted average effective interest rate on borrowings is 5.47% (2013: 5.22%).

#### 23: Employee entitlements

|                       | Council |       | Council Group |       |
|-----------------------|---------|-------|---------------|-------|

| Sick leave            | 80      | 110   | 80            | 110   |
| Total current         | 6,121   | 5,652 | 6,194         | 5,724 |

|                       | Council |       | Gro   | oup   |
|-----------------------|---------|-------|-------|-------|
| Non august            | 2014    | 2013  | 2014  | 2013  |
| Non current           | \$000   | \$000 | \$000 | \$000 |
| Long service leave    | 82      | 129   | 82    | 129   |
| Retirement gratuities | 172     | 347   | 172   | 347   |
| Total non current     | 254     | 476   | 254   | 476   |

The present value of retirement and long service leave obligations depend on a number of factors. Two key assumptions used in calculating this liability include the discount rate and the salary inflation factor. Any changes in these assumptions will affect the carrying amount of the liability.

Expected future payments are discounted using forward discount rates derived from the yield curve of New Zealand government bonds. The discount rates used have maturities that match, as closely as possible, the estimated future cash outflows. The salary inflation factor has been determined after considering historical salary inflation patterns and after obtaining advice from an independent actuary. A weighted average discount rate of 3.5% (2013: 1.6%) and an inflation factor of 1.6% (2013: 0.7%) were used.

| Balance at 30 June 2013                    | 0             | 657                             | 2,577                 | 81              | 46                      |

#### Restructuring

The council began a formal organisational review in October 2013. This resulted in an organisational restructuring plan being announced in June 2014. The restructuring will result in a reduction in full-time staff employed by the council. The restructuring plan and associated payments are expected to be completed by December 2014.

#### Weathertightness claims

There are currently four claims lodged with the Weathertight Homes Resolutions Service (WHRS) and the Financial Assistance Package as at 30 June 2014 (2013: seven). These claims relate to weathertight issues of homes in the Rotorua area and name the Council as well as other parties. Council has recognised a provision of \$573,000 for actual and any potential future claims, which has been based on historical average claim levels and other information held.

### for the year ended 30 June 2014

The actual costs to the Council may vary significantly from the amount of the provision currently recognised, particularly the estimations of unreported claims, which is based on historical data collected on the number of claims lodged allows assumptions to be made on the percentage of homes that experience issues that will result in a successful weathertightness claim.

#### Landfill aftercare costs

Council has resource consent to operate the Rotorua Landfill. The Council has responsibility under the resource consent to provide ongoing maintenance and monitoring of the landfill after the site is closed.

The management of the landfill will influence the timing of recognition of some liabilities. The current landfill will gain increased capacity in two stages. A liability relating to stage one will only be created when this stage is commissioned and when refuse begins to accumulate in this stage.

- The current remaining capacity of the site is 730,000 cubic metres, increasing up to 2.360 million cubic metres at stage two (refuse, clean fill and cover).
- The estimated remaining life (including stages one and two development) is 45 years.
- Estimates of the life have been made by Council's engineers based on historical and projected volume information.

The cash out flows for the landfill post-closure are expected to occur in about twenty years time. The long-term nature of the liability means that there are inherent uncertainties in estimating costs that will be incurred. The provision has been estimated taking into account existing technology and using a discount rate of 5.5%.

#### **Refund of rates**

This provision primarily relates to a provision for historical errors for rates charged in prior years.

#### 25: Equity

|   | Council  |          | Group    |          |
|---|----------|----------|----------|----------|
|   | 2014     | 2013     | 2014     | 2013     |
|   | \$000    | \$000    | \$000    | \$000    |

| Transfer from restricted reserve                          | (253)    | 285      | (253)    | 285      |
| Balance at 30 June  | 740,644  | 853,903  | 740,701  | 854,373  |

#### **Self funding reserves**

Self funding reserves are reserves established at Council's will for activities that will generate enough revenue over time to cover the cost of their operation. The reserves balances represent accumulated balances to date of such activities.

A major review of Self Funding Reserves occurred during 2013/14, and the majority of the individual reserves that had balances as at 1 July 2013, have been cleared to accumulated funds. This decision signals that funding of Council related activities will be funded through debt and available cash rather than from the creation of specialised reserves relying on replenishment from uncertain future cash flows.

#### **Council created reserves**

Council created reserves are established by Council resolution. Transfers to and from these reserves is at the discretion of Council.

A major review of Council created reserves occurred during 2013/14, and the majority of the individual reserves funded from development contributions that had balances as at 1 July 2013, have been cleared to accumulated funds. This decision signals that funding of Council related activities will be funded through debt and available cash rather than from the creation of specialised reserves relying on replenishment from known future cash flows.

| Total Council created reserves | (25,045)                          | 1,367                | (1,325)   | 0                             | (25,000)                           |

The Reporoa and Waikite Domain reserves were established to account for the domain board committee current account balances. These were established when the Reserves Act came into effect. The reserve recognises a future call on funding towards improvements to various categories of capital assets; for example the Waikite Domain reserve assists with development of the Waikite Hot Pools.

#### **Restricted reserves**

Restricted reserves are subject to specific conditions set either by legislation, trust or bequests and the purpose may not be changed without reference to the courts of a third party.

#### Restrictions

Reserve development – Section 108 of the Resource Management Act 1991 requires funds to be set aside for the development of reserves.

Creative NZ Reserve — Funds held and used in accordance with the policies of organisations external to Council; for example RDC allocates funds on behalf of Creative NZ on application for funding. Funding rounds occur approximately two times per year dependent on funds.

#### Cashflow hedge reserve

|   | Council   |          | Group |       |
|---|-----------|----------|-------|-------|
|   | 2014 2013 |          | 2014  | 2013  |

During 2013/14 a review of the fixed asset register occurred. From the review a number of duplicated assets were identified. These were created through previous revaluations. The 2014 revaluation reserve has been adjusted to remove these historical errors.

| Airport                           | 84      | 77     | 84     | 77     |
| Total capital commitments         | 15,987  | 24,826 | 15,987 | 24,826 |

Capital commitments represent capital expenditure contracted for at balance date but not yet incurred.

#### Operating leases as lessee

The Council and group leases property, plant and equipment in the normal course of its business. The majority of these leases have a non-cancellable term of 60 months. The future aggregate minimum lease payments payable under non cancellable operating leases are as follows:

|   | Council |        | Group  |        |
|---|---------|--------|--------|--------|
|   | 2014    | 2013   | 2014   | 2013   |
|   | \$000   | \$000  | \$000  | \$000  |
| Not later than one year                                     | 478     | 469    | 538    | 469    |
| Later than one year and not later than two years            | 287     | 357    | 347    | 357    |
| Later than two years and not later than five years          | 774     | 722    | 954    | 722    |
| Later than five years                                       | 1,066   | 1,220  | 1,216  | 1,220  |
| Total non cancellable operating lease commitments as lessee | 2,605   | 2,768  | 3,055  | 2,768  |
|   |         |        |        |        |
| Total commitments   | 18,592  | 27,594 | 19,042 | 27,594 |

The total minimum future sublease payments expected to be received under non cancellable subleases at balance date is \$Nil (2013: \$Nil).

In general, leases can be renewed at the group's option, with rents set by reference to current market rates for items of equivalent age and condition. For some lease agreements the group has the option to purchase the asset at the end of the lease term.

For the majority of lease agreements, there are no restrictions placed on the group by any of the leasing arrangements.

### for the year ended 30 June 2014

#### Operating leases as lessor

The Council leases land, buildings, parks, reserve land and commercial premises under operating leases. The majority of these leases have a non cancellable term of 120 months. The future aggregate minimum lease payments to be collected under non cancellable operating leasers are as follows:

|  | Council |        | Group |        |
|--|---------|--------|-------|--------|
|  | 2014    | 2013   | 2014  | 2013   |
|  | \$000   | \$000  | \$000 | \$000  |
| Not later than one year                            | 1,581   | 1,385  | 1,121 | 1,385  |
| Later than one year and not later than two years   | 1,365   | 1,057  | 905   | 1,057  |
| Later than two years and not later than five years | 3,187   | 2,256  | 1,809 | 2,256  |
| Later than five years                              | 6,044   | 5,443  | 4,433 | 5,443  |
| Total non cancellable operating leases as lessor   | 12,177  | 10,141 | 8,268 | 10,141 |

No contingent rents have been recognised during the period.

#### 28: Contingencies

#### **Contingent liabilities**

|  |       |       |       |       |
| Performance Bond                                   |       |       |       |       |
| Performance bond BNZ on behalf of Tourism Rotorua  | 235   | 235   | 235   | 235   |
|  |       |       |       |       |
| Suspensory Loan                                    |       |       |       |       |
| Housing New Zealand Corporation suspensory loan    | 1,532 | 1,532 | 1,532 | 1,532 |
|  |       |       |       |       |
| Legal proceedings                                  |       |       |       |       |
| The Group's effective exposure to legal claims     | 902   | 732   | 902   | 732   |
|  |       |       |       |       |
| LAPP   |       |       |       |       |
| Local Authority Protection Programme Disaster Fund | 0     | 1,928 | 0     | 1,928 |
|  |       |       |       |       |
| Total contingent liabilities                       | 2,792 | 4,570 | 2,792 | 4,570 |

#### **Financial guarantees**

The value of the guarantees disclosed as contingent liabilities reflects the group's assessment of the undiscounted portion of financial guarantees that are not recognised in the statement of financial position. Contingent assets (below) on the effect of Council's underwriting conditions on all financial guarantees.

#### **Performance Bond**

Council being a member of Travel Agents Association of New Zealand (TAANZ) is required to enter into a Deed of Indemnity to provide some protection for members of the public against any possible default by members of TAANZ in

### for the year ended 30 June 2014

accounting for monies received for the purpose of travel and/or accommodation deposits, bookings or reservations. This bonding scheme with TAANZ requires Council to provide through the BNZ a letter of credit of \$235,000 as security for the Deed of Indemnity.

#### **Suspensory Loan**

The Housing New Zealand suspensory loan has been spent on specific social housing projects in accordance with the loan agreement. The Council is not required to repay the outstanding principal, including interest and costs, provided the Council meets the conditions of the loan during a 20 year period commencing December 2005. The loan is secured by first ranking mortgage over the land.

#### Legal proceedings

The Council is currently facing five legal claims (2013: six). An estimate of council's share of exposure is \$902,000 (2013: \$732,000), and includes an estimate for other known situations out of which a formal claim may arise. The Council does not accept the validity of all these claims and is in the process of resolving them through normal legal channels.

#### **Unquantified claims**

As disclosed in note 24, a provision of \$573,000 (2013: \$657,000) has been recognised for weathertightness claims. Included in this amount is an estimate of \$300,000 (2013: \$375,000) being Council's exposure to potential future claims which have not yet been advised until the statutory limitation period expires. Claims must be made within 10 years of construction or alteration of the dwelling in order for the claim to be eligible under the Weathertight Homes Resolution Services Act 2006, but other statutory limitation periods could also affect claims.

RiskPool provides public liability and professional indemnity for its members, of which Council is no longer a member. The trust deed of RiskPool provides that, if there is a shortfall (whereby claims exceed contributions of members and reinsurance recoveries) in any fund year, then the board may make a call on members for that fund year. \$103,634 was paid by Council during 2012/2013, and no further call for additional contributions occurred during 2013/2014. RiskPool have advised that based on the Fund's present position there will be no need to make a call for the 2014/15 financial year. However it is possible that further calls could still be made beyond this date, and a liability will be recognised for the future calls when there is more certainty over the amount of the calls.

The Council is a participating employer in the Defined Benefit Plan Contributors Scheme ("the Scheme"), which is a multi-employer defined benefit scheme. If the other participating employers ceased to participate in the Scheme, the council could be responsible for the entire deficit of the Scheme. Similarly, if a number of employers ceased to participate in the Scheme, the Council could be responsible for an increased share of the deficit.

As at 31 March 2014 the Scheme had a past service surplus of \$16.2 million (8.0% of the liabilities). (2013: surplus of \$17.4 million (7.7% of the liabilities)). This amount is exclusive of Specified Superannuation Contribution Withholding Tax and calculated using a discount rate equal to the expected return on the assets, but otherwise the assumptions and methodology were consistent with the requirements of NZ IAS 19.

The Actuary to the scheme recommended previously that the employer contributions were suspended with effect from 1 April 2011. In the latest report, the Actuary recommended employer contributions remain suspended.

#### **Local Government Funding Agency**

The Council joined the New Zealand Local Government Funding Agency Limited (LGFA) in February 2013 as a guarantor local authority. The LGFA was incorporated in December 2011 with the purpose of providing debt funding to local authorities in New Zealand and it has a current credit rating from Standard and Poor's of AA+.

### for the year ended 30 June 2014

The Council is one of ten local authority borrowers and guarantors with the LGFA which now has 30 local authorities and the Crown as shareholders of the LGFA. At 30 June 2014, the LGFA had borrowings totalling \$3,695 million (2013: \$2,475 million).

#### **Local Authority Protection Programme Disaster Fund (LAPP)**

Council's underground infrastructure assets are insured through a fund held jointly with the majority of other local authorities. This fund was nearly exhausted through the two Christchurch earthquakes claims. Subsequently, in order to keep premiums at a more affordable level, the fund has incorporated a risk sharing scheme. This meant that as at 30 June 2013 that Rotorua District Council may have had to contribute up to \$1,928,000 if there were two Christchurch type events in the next financial year. Rotorua District Council formally withdrew its membership from LAAP effective as at 30 June 2014.

#### **Contingent assets**

|   | Council |       | Group |       |
|---|---------|-------|-------|-------|
|   | 2014    | 2013  | 2014  | 2013  |
|   | \$000   | \$000 | \$000 | \$000 |
| Loan guarantees                               |         |       |       |       |
| Rotorua Badminton Club Incorporated           | 41      | 46    | 41    | 46    |

| Total   | 192     | 213   | 192   | 213   |

The Council operates a scheme whereby sports clubs are able to construct facilities (eg club rooms) on reserve land. The clubs control the use of these facilities and the Council will only gain control of the asset if the club either vacates the facility, or defaults on the council-guaranteed loan. Until this event occurs, these assets are not recognised as assets in the Statement of financial position.

As at 30 June 2014 there are three facilities with a book value of \$192,303 (2013: \$213,362).

| Total group key management remuneration         | 1,768   | 1,711 |

#### Transactions with key management personnel

During the year councillors and key management personnel, as part of a normal customer relationship, were involved in minor transactions with the council (such as payment of rates, fees and charges, purchase of rubbish bags etc).

During the financial year the Council received, funded or made payments to entities in which Councillors had governance, shareholder or other interests. Councillors do not participate in decisions directly related to funding of their related entities.

Geoff Williams, Chief Executive, is director for BOP LASS Limited to which Council paid \$294,864 (2013: \$275,778) for services provided. An outstanding equity amount payable at 30 June 2013 was \$16,634 and also services amount payable was \$3,272 (GST incl) (2013: \$20,163) and Council received \$410 (2013: \$3,125) during the year from BOP LASS Limited.

Geoff Williams, Chief Executive, is also a director for LASS Limited, to which Council paid \$96,283 (2013: \$Nil) towards contributions to projects and services provided. An outstanding credit balance was owed to Council of \$20,966 (GST incl) at 30 June (2013: \$Nil).

There are close family members of key management personnel employed by the Council. The terms and conditions of these arrangements are no more favourable than Council would have adopted if there were no relationship to key management personnel.

No provision has been required, nor any expense recognised for the impairment of receivables, for any loans or other receivables, to related parties 2014 \$Nil (2013: \$Nil).

#### 30: Remuneration

#### Chief Executive's remuneration

The Chief Executive of Rotorua District Council is appointed under Part 4, section 42 of the Local Government Act 2002.

The Chief Executive received the following remuneration:

|  | Cou     | ncil    | Group   |         |  |
|--|---------|---------|---------|---------|--|
|  | 2014    | 2013    | 2014    | 2013    |  |
|  | \$000   | \$000   | \$000   | \$000   |  |

|--|-------|
|  | 2014  |
| Total annual remuneration by band for employees as at 30 June: |       |
| < \$60,000   | 388   |
| \$60,000 - \$79,999  | 103   |
| \$80,000 - \$99,999  | 35    |
| \$100,000 - \$119,999  | 14    |
| \$120,000 - \$139,999  | 7     |
| \$140,000 - \$159,999  | 7     |
| \$160,000 - \$199,999  | 6     |
| >\$200,000   | 5     |
| Total employees  | 565   |

|  | Total |
|--|-------|
|  | 2013  |
| Total annual remuneration by band for employees as at 30 June: |       |
| < \$60,000   | 424   |
| \$60,000 - \$79,999  | 113   |
| \$80,000 - \$99,999  | 33    |
| \$100,000 - \$119,999  | 12    |
| \$120,000 - \$139,999  | 7     |
| \$140,000 - \$159,999  | 7     |
| \$160,000 - \$239,999  | 6     |
| >\$240,000   | 1     |
| Total employees  | 603   |

Total remuneration includes non-financial benefits provided to employees.

At balance date, the Council employed 427 (2013: 462) full-time employees, with the balance of staff representing 72.35 (2013: 76.37) full-time equivalent employees. A full-time employee is determined on the basis of a 40 hour working week.

### 31: Severance payments

The council made one severance payment to an employee during the year totalling \$2,000 (2013: two - \$39,130.58).

The value of each of the severance payments was \$2,000 (2013: \$27,841.58 and \$11,289).

#### 32: Agency relationships

Council is involved in administering expenditure and revenue on behalf of other organisations as follows:

These agency transactions have not been included in council's current year operating results. Council has, however, included the net movement in agency debtors and creditors in its statement of cashflows, and included the council's asset or liability in relation to the agencies in its statement of financial position. Council derives commission income to compensate for the cost of administration.

#### 33B: Fair value hierarchy disclosures

For those instruments recognised at fair value in the statement of financial position, fair values are determined according to the following hierarchy:

- Quoted market price (level 1) Financial instruments with quoted prices for identical instruments in active markets.
- Valuation technique using observable inputs (level 2) Financial instruments with quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in inactive markets and financial instruments valued using models where all significant inputs are observable.
- Valuation techniques with significant non-observable inputs (level 3) Financial instruments valued using models
  where one or more significant inputs are not observable.

## for the year ended 30 June 2014

There were no transfers between the different levels of the fair value hierarchy.

### for the year ended 30 June 2014

Valuation techniques with significant non-observable inputs (level 3)

The table below provides a reconciliation from the opening balance to the closing balance for the level 3 fair value measurements:

|   | Council |       | Group |       |
|---|---------|-------|-------|-------|
|   | 2014    | 2013  | 2014  | 2013  |
|   | \$000   | \$000 | \$000 | \$000 |
| Balances 1 July   | 2,627   | 2,147 | 332   | 363   |
| Gains and losses recognised in other comprehensive income | (502)   | 480   | (27)  | (31)  |
| Balance at 30 June  | 2,125   | 2,627 | 305   | 332   |

Any hedging must be approved by council.

#### 33C: Financial instrument risks

Council has a series of policies to manage the risk associated with financial instruments and is risk averse and seeks to minimise exposure from its treasury activities. The Council has established liability management and investment policies. These policies do not allow any transactions that are speculative in nature to be entered into.

#### Market risk

Price risk

Price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices. At present the Council is not exposed to any equity securities price risk as the council holds no listed equity instruments.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The Council purchases plant and equipment associated with the construction of certain infrastructural assets from overseas, which require it to enter into transactions denominated in foreign currencies. As a result of these activities, exposure to currency risk arises.

Interest rate risk

The interest rate risk comprises:

- Fair value interest rate risk: the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Borrowings issued at fixed rates expose the council to fair value interest rate risk.
- Cash flow interest rate risk: the risk that the cash flows from a financial instrument will fluctuate because of changes in market interest rates. Borrowings and investments issued at variable interest rate expose the council to cash flow interest rate risk.

To manage these risks the council's current fixed rate maturity profile limits are:

### for the year ended 30 June 2014

| Year 11 and over  | Any hedging m      | ust be approved by council |

Notes 13 and 22 provide information on term loan interest rates, maturity profile and derivatives.

At year end the Council has four interest rate risk management instruments in place.

#### **Credit risk**

Credit risk is the risk that a third party will default on its obligation to the Council causing the Council to incur a loss.

Financial instruments which potentially subject the Council to credit risk consist of bank balances, term deposits, rates and other receivables, community loans.

The Council places its cash and short term deposits with high credit quality financial institutions. Accordingly the Council does not require any collateral or security to support these financial instruments with institutions or organisations it deals with.

Maximum exposure to credit risk

The Council's maximum credit exposure for each class of financial instrument is as follows:

|   | Council |        | Group  |        |
|---|---------|--------|--------|--------|
|   | 2014    | 2013   | 2014   | 2013   |
|   | \$000   | \$000  | \$000  | \$000  |
|   |         |        |        |        |
| Cash at Bank and term deposits                            | 5,329   | 663    | 5,998  | 2,258  |
| Debtors and other receivables (including community loans) | 7,084   | 11,057 | 7,248  | 11,368 |
| Borrower Notes  | 880     | 320    | 880    | 320    |
| Unlisted shares   | 2,125   | 2,627  | 305    | 332    |
| Derivative financial instrument assets                    | 276     | 0      | 276    | 276    |
| Total   | 15,694  | 14,667 | 14,707 | 14,554 |

### for the year ended 30 June 2014

#### Credit quality of financial assets

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to Standard and Poors' credit ratings (if available) or to historical information about counterparty default rates:

|  | Cou   | ıncil | Group |       |
|--|-------|-------|-------|-------|
|  | 2014  | 2013  | 2014  | 2013  |
|  | \$000 | \$000 | \$000 | \$000 |
|  |       |       |       |       |
| Counterparties with credit ratings                 |       |       |       |       |
|  |       |       |       |       |
| Cash at bank and term deposits                     | 5,329 | 663   | 5,998 | 2,258 |
| Total cash at bank and term deposits               | 5,329 | 663   | 5,998 | 2,258 |
|  |       |       |       |       |
| Borrower notes                                     | 880   | 320   | 880   | 320   |
| Total Borrower notes                               | 880   | 320   | 880   | 320   |
|  |       |       |       |       |
| Derivative financial instrument assets             | 276   | 0     | 276   | 0     |
| Total derivative financial instrument assets       | 276   | 0     | 276   | 0     |
|  |       |       |       |       |
| Counterparties without credit ratings              |       |       |       |       |
|  |       |       |       |       |
| Unlisted shares                                    | 2,125 | 2,627 | 305   | 332   |
| Total unlisted shares                              | 2,125 | 2,627 | 305   | 332   |
|  |       |       |       |       |
| Community and related party loans                  |       |       |       |       |
| Existing counterparty with no defaults in the past | 11    | 11    | 11    | 11    |
| Total community and related party loans            | 11    | 11    | 11    | 11    |

Debtors and other receivables mainly arise from Council's statutory function. Therefore there are no procedures in place to monitor or report the credit quality of debtors and other receivables with reference to internal or external credit ratings. The Council has no significant concentrations of credit risk with respect to debtors and other receivables, as it has a large number of credit customers, mainly ratepayers, and the Council has powers under the Local Government (Rating) Act 2002 to recover outstanding debts from ratepayers.

#### Liquidity risk

#### Management of liquidity risk

Liquidity risk is the risk that Council will encounter difficulty raising liquid funds to meet commitments as they fall due. Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. The Council aims to maintain flexibility in funding by keeping committed credit lines available.

The Council manages its borrowings in accordance with its funding and financial policies, which includes a liability management policy. These policies have been adopted as part of the Council's Long(Term planning process.

Council has a maximum amount that can be drawn down against its bank facilities of \$60 million (2013: \$55 million). There are no restrictions on the use of this facility.

### for the year ended 30 June 2014

### Contractual maturity analysis of financial liabilities

The table below analyses the Council's financial liabilities into relevant maturity groupings based on the remaining period at the balance date to the contractual maturity date. Future interest payments on floating rate debt are based on the instrument at the balance date. The amounts disclosed are the contractual undiscounted cash flows and include interest payments.

|                            | Liability carrying amount | Contractual cashflows | Less than<br>1 year | 1-2 years | 2-5 years     | More than<br>5 years |
|----------------------------|---------------------------|-----------------------|---------------------|-----------|---------------|----------------------|
|                            | \$000                     | \$000                 | \$000               | \$000     | \$000         | \$000                |

#### Sensitivity analysis

The following table illustrates the potential profit and loss and equity (excluding retained earnings) impact for reasonably possible market movements, with all other variables held constant, based on Council and group's financial instrument exposures at the balance date.

| Council                       |         | 2014<br>\$000 |         |              |         |              | )13<br>)00 |              |
|-------------------------------|---------|---------------|---------|--------------|---------|--------------|------------|--------------|
|                               | -1      | .00bps        | +1      | 100bps       | -1      | .00bps       | +1         | L00bps       |
| Interest rate risk            | Surplus | Other equity  | Surplus | Other equity | Surplus | Other equity | Surplus    | Other equity |

Explanation of interest rate risk sensitivity

The interest rate sensitivity is based on a reasonable possible movement in interest rates, with all other variables held constant, measured as a basis point (bps) movement. For example, a decrease in 50bps is equivalent to a decrease in interest rates of 0.5%.

The sensitivity for derivatives (interest rate swaps) has been calculated using a derivative valuation model based on a parallel shift in interest rates of -100bps/+100bps (2013: -100bps/+100bps) provided by Bancorp Treasury.

### for the year ended 30 June 2014

Explanation of other price risk sensitivity

The sensitivity for listed shares has been calculated based on a -10%/+10% (2013: -10%/+10%) movement in the quoted bid share price at year end for the listed shares.

#### 34: Capital management

The Council's capital is its equity (or ratepayers' funds), which comprise accumulated funds and reserves. Equity is represented by net assets.

The Local Government Act 2002 (the Act) requires the Council to manage its revenues, expenses, assets, liabilities, investments, and general financial dealings prudently and in a manner that promotes the current and future interests of the community. Ratepayers' funds are largely managed as a by-product of managing revenues, expenses, assets, liabilities, investments, and general financial dealings.

The objective of managing these items is to achieve intergenerational equity, which is a principle promoted in the Act and applied by the Council. Intergenerational equity requires today's ratepayers to meet the costs of utilising the Council's assets and not expecting them to meet the full cost of long-term assets that will benefit ratepayers in future generations. Additionally, the Council has in place asset management plans for major classes of assets detailing renewal and maintenance programmes, to ensure that ratepayers in future generations are not required to meet the costs of deferred renewals and maintenance.

The Act requires the Council to make adequate and effective provision in its Long-term Plan (LTP) and in its annual plan (where applicable) to meet the expenditure needs identified in those plans. The Act also sets out the factors that the Council is required to consider when determining the most appropriate sources of funding for each of its activities. The sources and levels of funding are set out in the funding and financial policies in the Council's LTP.

The council has the following Council-created reserves:

- reserves for different areas of benefit;
- self-insurance reserves; and
- trust and bequest reserves.

Reserves for different areas of benefit are used where there is a discrete set of rate or levy payers as distinct from payers of genera rates. Any surplus or deficit relating to these separate areas of benefit is applied to the specific reserves.

Self-insurance reserves are built up annually from general rates and are made available for specific unforeseen events. The release of these funds can generally be approved only by the Council.

Trust and bequest reserves are set up where the Council has been donated funds that are restricted for particular purposes. Interest is added to trust and bequest reserves where applicable and deductions are made where funds have been used for the purpose they were donated.

### 35: Additional explanation of major variances against budget

#### Statement of comprehensive income

Rotorua District Council recorded a deficit of \$13.65 million compared with a budgeted deficit of \$4.63 million. The major reasons for the negative variance between actual and budgeted result of \$9.02 million are included below.

#### Income

Overall actual income is \$103.9 million against budget of \$113.6 million. Major factors contributing to this unfavourable variance of \$9.7 million are:

### for the year ended 30 June 2014

- Rates (\$2.1 million) unfavourable due to the budget not including rates on council owned properties.
- Subsidies and grants (\$1.5 million) unfavourable due to delays in consultation on the Rotoiti/Rotoma sewerage scheme delaying start of project and contributions anticipated toward these schemes.
- Other revenue (\$5.8 million) unfavourable due to ambitious revenue targets which have been further affected by reduced economic and regional growth impacting Fees and Charges during the year.

#### Expenditure

Overall operating expenditure is \$117.6 million against budget of 118.2 million. Major factors contributing to this favourable variance of \$0.6 million are:

- Personnel costs (\$1.4 million) unfavourable variance majority of is due to reorganisation restructure costs initiated during the year, (\$1.5 million), and finalising at year end, offset by small savings in overall staff costs.
- Depreciation and amortisation (\$1.1 million) unfavourable variance resulting from councils update of its fixed asset information, and changes in certain depreciable lives against initial assumptions of asset data at time of budget.
- Finance costs \$0.7 million favourable resulting from favourable interest rates against borrowing assumptions.
- Other expenses \$2.4 million favourable due to council's savings initiatives instigated from December 2014 mainly within contractors and physical works.

#### Other comprehensive income

The items represented in this area were not included in council's budget which was operational focused, and represent the impact on council's reserves resulting from year end revaluation of plant, property, and equipment \$29.2 million, and Intangibles \$0.13 million, adjustments to financial swap derivatives \$0.29 million and the movement of council's overall value of its interests in other entities (\$0.3 million) (see note 25).

#### Statement of financial position

Total Current Assets \$9.8 million lower than budget - mainly due to reduction of debtors against budget of \$10.1 million, resulting from lower fees and charges and due to improved focus on earlier recovery of outstanding debt, and less cash than budgeted by \$0.57 million. This is offset by the introduction of held for sale assets \$0.878 million arising from council's decision to market and sell properties considered surplus to requirement.

Total Non-current Assets \$117.4 million higher than budget - mainly due to the impact of the 2013 roading revaluation of \$100.1 million not included in the budget assumptions (as at time of budget this revaluation was not final). Also due to non-budgeted 2014 revaluations of land, buildings, art, airport and infrastructure assets which totalled \$29.4 million. This has been offset by reduced capital expenditure against plan by \$8.8 million, balanced by nonbudgeted forestry assets transferred to property, plant and equipment of \$2.5 million.

Total Current Liabilities are \$16.2 million lower than budget - mainly due to creditors and other payables being \$5.7 million lower arising from focus on reduction of expenditure and tidy up of payment lag of prior years. Current portion of debt is \$12.3 million lower against assumed budget mix of current and long term debt. There are also additional non budgeted provisions of \$1.0 million for reorganisation restructure offsetting these favourable variances.

Total Non-Current Liabilities are \$10.8 million higher than budget arising from assumed mix of current and long term

Total Equity is \$112.6 higher than budget - mainly resulting from previous non budgeted revaluation of assets from 2013 and 2014.

for the year ended 30 June 2014

#### **36: Joint Ventures**

#### 1. Terax 2013 Ltd

The Council's participatory interest in the Terax 2013 Ltd Joint venture is accounted for as a jointly controlled entity. The joint venture agreement incorporates ownership on a 50-50 basis between Rotorua District Council and New Zealand Forest Research Institute.

The Council's interests in this jointly controlled entity are as follows:

|  | Grou |  |
|--|------|--|
|  |      |  |
|  |      |  |

|   | 2014  | 2013  |
|---|-------|-------|
|   | \$000 | \$000 |
| Current assets  | 63    | 51    |
| Non-current assets  | 0     | 0     |
| Current liabilities   | 65    | 53    |
| Non-current liabilities   | 0     | 0     |
| Income  | 220   | 38    |
| Expenses  | 220   | 41    |
|   |       |       |
| Group's interest  | 50%   | 50%   |
|   |       |       |
| Council's capital commitments in relation to the joint venture    | 0     | 0     |
| Share of joint venture's commitments                              | 0     | 0     |
| Council's contingent liabilities in relation to the joint venture | 0     | 0     |
| Share of joint venture's contingent liabilities                   | 0     | 0     |
| Other ventures' contingent liabilities the Council is liable for  | 0     | 0     |

### 2. Terax Limited Partnership

The Council's interest in the Terax Limited Partnership Joint venture is accounted for as a jointly controlled entity. The joint venture partnership agreement incorporates ownership on a 50-50 basis between Rotorua District Council and New Zealand Forest Research Institute.

The Council's interests in this jointly controlled entity are as follows:

#### **Council and Group**

|   | 2014  | 2013  |
|---|-------|-------|
|   | \$000 | \$000 |
| Current assets  | 156   | 97    |
| Non-current assets  | 1     | 0     |
| Current liabilities   | 10    | 51    |
| Non-current liabilities   | 0     | 0     |

| Group's interest  | 50%   | 50%   |
|   |       |       |
| Council's capital commitments in relation to the joint venture    | 0     | 0     |
| Share of joint venture's commitments                              | 0     | 0     |
| Council's contingent liabilities in relation to the joint venture | 0     | 0     |
| Share of joint venture's contingent liabilities                   | 0     | 0     |
| Other ventures' contingent liabilities the Council is liable for  | 0     | 0     |
|   |       |       |

### for the year ended 30 June 2014

#### 37: Insurance

Rotorua District Council is part of a regional collective of local authorities for insurance purposes. Through the collective economies of scale Council has access to the best process and cover.

As at the end of the financial year, Council had the following insurance cover in place.

#### Material Damage \$627,200,583

The Councils Material Damage programme is split into two policies, one including Fire losses and one excluding Fire Losses. The Excluding Fire loss policy is based on a full replacement basis and the policy limit is the replacement value of your assets as declared. The Fire Policy has a policy limit of \$100,000,000 which is shared across the member councils.

#### Fine Arts \$38,899,175

This cover is for the total replacement value of art and artefacts owned by Council.

#### Commercial Motor Vehicles \$6,044,733

Motor insurance up to the market value of each individual vehicle.

#### Infrastructure \$580,737,547

Council was a member of the NZ Local Authority Protection Programme Disaster Fund until 30 June 2014, which was a fund set up by local authorities to provide insurance cover for underground assets in the event of a natural disaster.

From the 1 July 2014 council moved from the LAPP Fund to an alternative arrangement in the open insurance market. This policy provides cover for 40% of the loss, and 60% of the loss is funded by Central Government. This policy has an overall limit for the group of \$130 million with Rotorua having a limit of \$90 million.

#### **Business Interruption \$3,867,000**

\$3.9 million of cover provided for loss of rents revenue and receivable. A shared \$8 million Additional Increased Cost of Working limit with the Regional collective and provides cover for consequential loss through the physical damage to any property used by Council.

#### **Self-insured Assets**

Council senior managers/engineers have determined on a risk based and cost benefit approach to self insure certain types of assets, where return to full service capability can be managed over time without a significant impact on the community. Such assets with significant value include roading and rural stormwater assets.

for the year ended 30 June 2014

#### 38: Reclassification and restatement

From a review of the 2012/13 annual accounts, a number of classification errors have been identified in the Statement of Cashflows (both Council and Group) and the Group consolidation of the Statement of comprehensive income, Statement of financial position, and Statement of changes in equity. These errors have been corrected and have been restated for comparative purposes. Their relevant accompanying notes have also been restated.

### Statement of comprehensive income

#### 39: Events after balance date

During October 2014, the Council is progressing a proposal regarding the sale of airport assets from Rotorua District Council to Rotorua Regional Airport Limited (a 100% owned subsidiary of Rotorua District Council). This would see the operation and asset ownership of the Airport consolidated into a single entity (Rotorua Regional Airport Limited). The airport assets are strategic assets and the sale of these strategic assets were not included in the Long-Term Plan (LTP). Since balance date, implementation has begun and will require an amendment of the LTP, which would need to follow a special consultative procedure, with the community and others with an interest in the proposed sale. The airport assets have a current valuation of \$46.5m.

#### 40: Adoption after statute date

Section 98(3) of the Local Government Act 2002 requires council to complete and adopt its Annual Report within four months of the end of the financial year. Council formally adopted the Audited Annual Report on 5 November 2014. The Audit opinion was issued on 5 November 2014. This was five days later than the date specified in the Act.

| Auditor's report | 197  |

### AUDIT NEW ZEALAND

Mana Arotake Antearoa

### Independent Auditor's Report

### To the readers of Rotorua District Council and group's annual report for the year ended 30 June 2014

The Auditor-General is the auditor of Rotorua District Council (the District Council) and group.

The Auditor-General has appointed me, Clarence Susan, using the staff and resources of Audit New Zealand to audit:

- the financial statements of the District Council and group that comprise:
  - the statement of financial position as at 30 June 2014 on page 128;
  - the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended 30 June 2014 on pages 126 to 129;
  - the funding impact statement of the District Council on page 195;
  - the statements about budgeted and actual capital expenditure in relation to each group of activities of the District Council on pages 22 to 102; and
  - the notes to the financial statements that include accounting policies and other explanatory information about the financial statements on pages 130 to 195;
- the statement of service performance of the District Council on pages 20 to 102 and the funding impact statements in relation to each group of activities of the District Council on pages 22 to 102; and
- the disclosures of the District Council that are required by the Local Government (Financial Reporting and Prudence) Regulations 2014 on pages 104 to 111.

In addition, the Auditor-General has appointed me to report on whether the District Council and group's annual report complies with the Other Requirements of schedule 10 of the Local Government Act 2002, where applicable, by including:

- Information about:
  - council-controlled organisations on pages 113 to 122;
  - reserve funds on pages 165 to 170;
  - each group of activities carried out by the District Council on pages 20 to 102;
  - remuneration paid to the elected members and certain employees of the District Council on pages 177 to 178;
  - employee staffing levels and remuneration on page 179;
  - severance payments on page 179;

- o rating base units on page 144; and
- insurance of assets on page 192;
- a report on the activities undertaken by the District Council and group to establish and maintain processes to provide opportunities for Maori to contribute to the Council's decision-making processes on pages 13 to 15; and
- a statement of compliance signed by the mayor of the Council, and by the District Council and group's chief executive on page 125.

#### Opinion

#### Audited information

In our opinion:

- the financial statements of the District Council and group on pages 126 to 195:
  - comply with generally accepted accounting practice in New Zealand; and
  - fairly reflects
    - the District Council and group's financial position as at 30 June 2014; and
    - the results of its operations and cash flows for the year ended on that date:
- the funding impact statement of the District Council on page 195, fairly reflects the amount of funds produced from each source of funding and how the funds were applied as compared to the information included in the District Council's annual plan;
- the statements about budgeted and actual capital expenditure in relation to each group of activities of the District Council on pages 22 to 102, fairly reflects by each group of activities the capital expenditure spent as compared to the amounts budgeted and set out in the District Council's long-term plan or annual plan;
- the statement of service performance of the District Council on pages 20 to 102:
  - complies with generally accepted accounting practice in New Zealand; and
  - fairly reflects the District Council's levels of service for the year ended 30 June 2014, including:
    - the levels of service as measured against the Intended levels of service adopted in the long-term plan; and
    - the reasons for any significant variances between the actual service and the expected service;
- the funding impact statements in relation to each group of activities of the District Council on pages 22 to 102, fairly reflects by each group of activities, the amount of

funds produced from each source of funding and how the funds were applied as compared to the information included in the District Council's long-term plan; and

 the disclosures on pages 104 to 111 represent a complete list of required disclosures and accurately reflects the information drawn from District Council's audited information.

#### Compliance with the other requirements of schedule 10

In our opinion, which is not an audit opinion, the District Council and group's annual report complies with the Other Requirements of schedule 10 that are applicable to the annual report.

Our audit was completed on 5 November 2014. This is the date at which our opinion is expressed.

The basis of our opinion is explained below. In addition, we outline the responsibilities of the Council and our responsibilities, and we explain our independence.

### Basis of opinion

We carried out our audit in accordance with the Auditor-General's Auditing Standards, which incorporate the International Standards on Auditing (New Zealand). Those standards require that we comply with ethical requirements and plan and carry out our audit to obtain reasonable assurance about whether the information we audited is free from material misstatement.

Material misstatements are differences or omissions of amounts and disclosures that, in our judgement, are likely to influence readers' overall understanding of the financial statements and the statement of service provision. If we had found material misstatements that were not corrected, we would have referred to them in our opinion.

An audit involves carrying out procedures to obtain audit evidence about the amounts and disclosures in the information we audited. The procedures selected depend on our judgement, including our assessment of risks of material misstatement of the information we audited, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the District Council and group's preparation of the information we audited that fairly reflect the matters to which they relate. We consider internal control in order to design procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the District Council and group's internal control.

An audit also involves evaluating:

- the appropriateness of accounting policies used and whether they have been consistently applied;
- the reasonableness of the significant accounting estimates and judgements made by the Council;
- the adequacy of all disclosures in the information we audited;
- determining the appropriateness of the reported the statement of service provision within the Council's framework for reporting performance; and
- the overall presentation of the information we audited.

We did not examine every transaction, nor do we guarantee complete accuracy of the information we audited.

When reporting on whether the annual report complies with the Other Requirements of schedule 10 of the Local Government Act 2002, our procedures were limited to making sure the Information required by schedule 10 was included in the annual report, where relevant, and identifying material inconsistencies, if any, with the Information we audited. This work was carried out in accordance with International Standard on Auditing (New Zealand) 720; The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements. As a result, we do not express an audit opinion on the District Council's compliance with the requirements of schedule 10.

We did not evaluate the security and controls over the electronic publication of the information we are required to audit and report on. We have obtained all the information and explanations we have required and we believe we have obtained sufficient and appropriate evidence to provide a basis for our opinion.

### Responsibilities of the Council

The Council is responsible for preparing:

- financial statements and the statement of service provision that:
  - comply with generally accepted accounting practice in New Zealand;
  - fairly reflect the District Council and group's financial position, financial performance and cash flows; and
  - fairly reflect its service performance, including achievements compared to forecast;
- a funding impact statement that fairly reflects the amount of funds produced from each source of funding and how the funds were applied as compared to the information included in the District Council's annual plan;
- funding impact statements in relation to each group of activities that fairly reflects by
  each group of activities the amount of funds produced from each source of funding
  and how the funds were applied as compared to the information included in the
  District Council's long-term plan;
- statements about budgeted and actual capital expenditure in relation to each group
  of activities that fairly reflects by each group of activities the capital expenditure
  spent as compared to the amounts budgeted and set out in the District Council's
  long-term plan or annual plan;
- disclosures in accordance with the requirements of the Local Government (Financial Reporting and Prudence) Regulations 2014; and
- the other information in accordance with the requirements of schedule 10 of the Local Government Act 2002.

The Council is responsible for such internal control as it determines is necessary to ensure that the annual report is free from material misstatement, whether due to froud or error. The

Council is also responsible for the publication of the annual report, whether in printed or electronic form.

The Council's responsibilities arise under the Local Government Act 2002.

#### Responsibilities of the Auditor

We are responsible for expressing an independent opinion on the information we are required to audit, and whether the Council has complied with the Other Requirements of schedule 10, and reporting that opinion to you. Our responsibility arises under section 15 of the Public Audit Act 2001 and section 99 of the Local Government Act 2002.

#### Independence

When corrying out this audit, which includes our report on the Other Requirements, we followed the independence requirements of the Auditor-General, which incorporate the independence requirements of the External Reporting Board.

In addition to this audit, which includes our report on the Other Requirements, we have carried out assignments in the areas of audit of the debenture trust deed and summary annual report, which are compatible with those independence requirements. Other than these assignments we have no relationship with or interests in the District Council or any of its subsidiaries.
